

Fertility services

As a Kaiser Permanente member, you have a team of specialists and care coordinators who work with you to develop a personalized treatment plan to help you build your family.

Covered services include:

- Diagnosis and treatment of infertility
- Intrauterine insemination
- In vitro fertilization (IVF)
- Cryopreservation and storage of embryos that is part of a covered IVF cycle
- Fertility medications for ovulation induction

Your plan benefits include:*

- 2 IVF cycles per lifetime (no dollar limit)
- Fertility medical services: Plan pays 50%
- Fertility treatment Rx: Plan pays 50%

Pre-implantation genetic testing is only covered when deemed medically indicated by a Plan physician.

6 months cryostorage of embryos that is part of a covered IVF cycle

For more complete coverage details, refer to the Kaiser Permanente *Evidence of Coverage* plan documents at <https://select.kp.org/university-of-california> 

Many Kaiser Permanente members have coverage for the diagnosis and treatment of infertility, and some members have coverage for in vitro fertilization (IVF) procedures if IVF is listed as a covered benefit in the *Evidence of Coverage* for their Kaiser Permanente health benefit plans.

Effective January 1, 2020, certain fertility preservation services are a covered benefit for some plans under California law. For these plans, when a covered treatment may directly or indirectly cause iatrogenic infertility, standard fertility preservation services are a covered service distinct from covered infertility treatment services. "Iatrogenic infertility" means infertility caused directly or indirectly by surgery, chemotherapy, radiation, or other medical treatment.

Clinical services are provided by providers or contractors of Southern California Permanente Medical Group, and Kaiser Foundation Hospitals may receive compensation for providing facilities and/or other support in connection with these services. For specific information about your covered health plan benefits, see your *Evidence of Coverage*. Information may have changed since publication.
