OUR ROLE

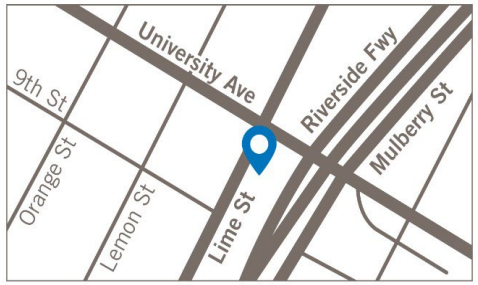

Who is UCR Health? What do we do?

- UCR Health operates the network, doctor clinics, and facilities in the community to deliver care and coverage to the community.
- Together with the School of Medicine (SOM), we deliver academic medicine to the Inland Empire — full-time clinicians who care for patients and teach on-site at select locations.
- UCR Health handles public-facing care delivery; SOM provides Undergraduate (UME) and Graduate Medical Education (GME).
- Both organizations share the goal of recruiting and retaining physicians in the UCR Health system and the Inland Empire.
- UC employees can access our locations and our brand of medicine by selecting a UC health plan — including UC Blue & Gold — at new hire or open enrollment.

Why Dos Lagos

- A retail-anchored destination — patients already come here to shop, dine, and gather, so care meets people where they are.
- Serves the Southwest region of our expansion map, closing a gap where UC presence has been limited.
- Positions UCR Health along the fast-growing I-15 corridor between Riverside and Orange County.
- Designed to the new UCR Health environment of care — light, airy, contemporary interiors and consistent brand wayfinding.
- Supports the Corona community with primary care first, with specialty services phased in.
