#### [UC Abusive Conduct in the Workplace](#)

On January 1, 2023, the new [Presidential Policy on Abusive Conduct in the Workplace](#) prohibiting Abusive Conduct went into effect. The focus of this policy is to promote and maintain a healthy working and learning environment, in which every individual is treated with respect. In his [policy issuance letter](#), President Michael V. Drake stated that this policy represents a critical step toward "strengthening an inclusive, respectful, and safe university community" and "expanding opportunity and excellence." This training covers the requirements of the Abusive Conduct in the Workplace policy. Topics include: Overview (Recognize Abusive Conduct), Prevention (Identify strategies to prevent), Procedures (Follow procedures to report, and be familiar with the University's response); and Resources (Access additional information).

#### [SVSH Boundaries Awareness for SHS/CAPS](#)

Overview of Campus Health Professional Boundary Training for Student Health Services (SHS) and Counseling and Psychological Services (CAPS). Topics include defining professional boundaries and boundary violations, establishing safety culture, responding to boundary violations, and reporting procedures.

#### [Introduction to Supervising Others](#)

Supervising others can be a tough job. Between managing your own time and projects, helping your team members solve problems and complete tasks, and helping other supervisors, your day can fill up before you know it. This course will help supervisors become more efficient, proficient with delegating, setting goals and expectations as well as providing feedback to their team members.

#### [Leading with Emotional Intelligence](#)

Can you identify your emotions and understand why they are happening? What about the emotions of others? Are you skilled at spotting and responding to their cues? Those with high emotional intelligence readily recognize their feelings, manage their reactions, and build positive interactions with others. A skill that leads to success inside and outside the office, emotional intelligence is well worth refining. In this course you will learn what emotional intelligence is and boost your emotional intelligence skills by strengthening your personal and social competence.

#### [Introduction to Change Management: The People Side of Change](#)

Change is going to happen, and change is hard. If we don't manage it well, we become victims of the change.

Change can make us feel stressed, uncertain, anxious, or even frustrated if the change we want to make is difficult or sometimes even a complete failure. This course looks at what individuals and organizations experience during times of change and the process we all go through when faced with change.

**Coaching for Results: Coaching to Improve Performance**

Consistent coaching and feedback allows you to connect with employees and increase their productivity, job satisfaction, and engagement. This course identifies the necessary traits and methods of a successful coach, including positive intent, timely feedback, and respectful candor. Lastly, the course addresses the importance of delivering feedback in a meaningful way, openly receiving feedback, and then willingly using that feedback to make needed changes.

**Ready, Set, Goal!**

Successfully aligning an individual's goals with the University's performance development program and core competency model reinforces shared culture and values and ensures employees are focused on organizational priorities, centering their work on the goals and needs of their business unit. Setting goals is an essential part of being a successful leader and employee. Effective goals help motivate, increase success rates, provide clarity, focus action plans, facilitate cooperation, and improve performance. A comprehensive goal setting process helps us create a roadmap to get from where we are to where we want to go, providing a detailed plan on how best to reach our destination.
