Working Remotely / Return to Campus – Helpful Resources

October marks the beginning of the UCR fall quarter and the move to expanded in-person teaching, research and residential services. In addition, many staff employees are returning to a combination of hybrid work schedules offering both remote work and in-person options. While we look forward to the return to campus and enjoying the interaction with colleagues and participating in the myriad of activities prior to the pandemic, there will be new guidelines to ensure the health and

safety of our community.

In this edition of the Professional Development Monthly, we would like to offer information and resources that you will need in order to be prepared for a safe and smooth return to campus.

Featured Training

Managing the People Side of Change

Thursday, October 7, 2021 | 11:00 a.m. – 12:00 p.m.

For Managers | Supervisors / Individual Contributors

The Prosci ADKAR Model is a goal-oriented change management model that guides individual and organizational change. ADKAR is an acronym that represents the five stages people must move through to adopt a new way of doing things – Awareness, Desire, Knowledge, Ability and Reinforcement. The ADKAR Model is a powerful framework for understanding how change can happen with a single individual and can be used personally by viewing a change you are working through and identifying where and why you may be struggling. For more information and to register, please visit the [UC Learning Center \(UCLC\)](#).

Team Dynamics

Tuesday, October 26, 2021 | 10:30 a.m. – 12:30 p.m.

Many behavioral psychologists have researched the theory that people's behavior can be roughly classified in four groups, represented as quadrants. This course will help you understand the four dominant personality styles: Driver, Expressor, Amiable and Analytical. Each quadrant represents the behavioral styles of people in that group. By recognizing our dominant style and developing the ability to identify traits in others, we can change our behaviors to interact with a wide variety of personalities and tendencies.

During the course, participants can learn about group dynamics in general, understand their strengths and weaknesses, and harness their efforts towards team goals. Participants will also discuss the different development stages a group goes through to reach success. To register for this course, please visit the [UC Learning Center \(UCLC\)](#).
