RSK0002651	High	1 - High	1	Work in Progress	Accept	 suzettes@ucr.edu	06/11/25	Timing of Training	If the current timeline of UAT close to training to go-live is too short, then the schedule will need to be re-evaluated and go through approvals	Richard to work with HR to determine the availability of the training personnel, their ability to go to demos, their possible involvement in UAT, and HR's expectations of this timeline.
RSK0002701	Moderate	2 - Medium	4	Work in Progress	Mitigate	 suzettes@ucr.edu	07/07/25	PTO or Illness impacts to Sprint Delivery	If PTO or Illness prevents the delivered expectation of sprint delivery for either group (UCR or Cask) then a for-cost change order will be required if UCR, and an Investment if Cask.	All PTO is to be reported as part of project initiation activities. EM/PM will sync on this at least one sprint ahead
RSK0002703	High	1 - High	1	Work in Progress	Transfer	 Lisa Gnugnoli	07/08/25	Strict Adherence to the PO Line Items	As the PO takes precedence over any contract or change order, Cask must adhere to the totals per role as present on the latest Purchase Order. If additional changes are required to the distribution of funding between roles on the engagement, this will result in a full change order to accommodate, and additional burn by the EM based on UCR Policy -- not part of the project -- and so potential for-cost change orders in future for this overrun.	Cask EM is monitoring the burn weekly, and will provide updates should a for-cost change order for additional hours be required. For now, adjustments will be managed via INV dollars.
RSK0002727	High	1 - High	1	Work in Progress	Mitigate	 Lakesha Welch	07/14/25	UAT Cycle Dates Cannot exceed scheduled limits	Should the UAT need to be extended (regardless of time in the project schedule: sprint or End to End) it could have negative impacts on the Cost or Scope in order to accommodate the delay in schedule (IE UAT Close).	UAT must end within the timeframe it is scheduled. UAT Leads will ensure that the testers have what they need to accomplish the testing within the planned timelines.
RSK0002790	High	1 - High	1	Work in Progress	Avoid	 suzettes@ucr.edu	07/24/25	High Probability of "Must Have Changes" post development	Given difficulties in collecting unified requirements to date, there is a strong possibility that once we do get story approval and have built per the approved requirements, that there will be 11th hour must have changes.	Escalated to Risk that previous timeline extensions for requirements have fully utilized all available give in both Schedule and Funding. Escalated to Governance Follow-up for LOA on 7/28 internal to UCR.
RSK0002813	Low	1 - High	3	Work in Progress	Accept	 suzettes@ucr.edu	07/28/25	Upgrade Impacts	If ServiceNow requires upgrade within 30 days of Hypercare close, then the engagements warranty will be voided	UCR to continue to work with ServiceNow to avoid any upgrades within 30 days of Hypercare ending.

ISU0010523	2 - High	1 - High	 Daniah Nair	 Lisa Gnugnoli	Work in Progress	07/21/25	08/15/25	Additional Complexity Arising in Design - All Workstreams Impacted	Class & Comp, as well as LOA have both required more sessions that scoped. This is causing overburn to accommodate. ----- Class and Comp only 1 additional session each for a total of 4Hrs of additional workshops. ----- LOA is requiring 6 additional hours of workshops and 3 additional hours of Story Approvals to accommodate. ----- unknown impact and burn by both BPC and Architect due to these changes, additional monitoring and prep for the current (2) sprint 2, as well as into LOA's last sprint (3) Initial risk was ELR focused: Scope change to include ER is estimate, but will require a change order to accommodate. There is a real chance that the ELR complexity will be exposed in Design to be beyond the initial change order. Additional LOA Complexity raised in second Story Review session, and so all but 1 new story remain unapproved.	Cask to discuss internally the impact of the additional sessions, and what might be managed through scope reduction to accommodate (IFF accommodation is required) IT and HR are discussing on 7/28 the new workflows requested in 7/24
ISU0010526	1 - Critical	1 - High	 Lisa Gnugnoli	 Matt Gilchrist	Work in Progress	07/27/25	08/06/25	Any changes to Schedule will result in Governance discussions regarding scope, schedule, timeline, and Funding	Any additional changes to schedule will need to be discussed at the Governance Level. Time saved from BPC / Architect review of collected UCR documentation as well as completion of homework and requirements for workstreams has been spent on additional requirements sessions	Any changes will be escalated to Governance, and Governance will be Ad-Hoc for these to keep the project moving ASAP

Appendix

The Why: Key Benefits

The implementation of ServiceNow Employee Workflow, including HR Service Delivery, Leave of Absence management, and the Employee Center Portal, will enable UC Riverside to modernize its HR operations and enhance employee experiences. By transitioning from manual, email-based, and spreadsheet-driven processes to a unified and automated platform, UC Riverside will achieve operational efficiency, data accuracy, and improved accessibility for its workforce.

1

Streamlined HR Service Delivery

ServiceNow's HR Service Delivery will centralize and automate HR tasks, reducing administrative burdens, eliminating silos, and ensuring timely resolution of employee inquiries. This will foster better communication and responsiveness across departments.

2

Efficient Leave of Absence Management

The Leave of Absence module will simplify the process of managing employee leaves by automating workflows, ensuring compliance with UC Riverside policies, and improving transparency for employees and HR staff. Employees will have access to real-time updates, while HR gains insights through detailed analytics to optimize

3

Enhanced Employee Experience with the Employee Center Portal

The Employee Center Portal provides a user-friendly platform for employees to access personalized resources, request services, and find information. This self-service tool reduces dependency on HR staff for routine tasks, empowering employees and enhancing satisfaction.

4

Improved Compliance and Reporting

ServiceNow ensures that processes adhere to regulatory and institutional requirements. Robust reporting capabilities will support data-driven decision-making and simplify audits.

5

Cost Savings and Scalability

By automating repetitive tasks and reducing reliance on manual interventions, UC Riverside can achieve long-term cost savings. The scalable platform will grow alongside the institution, accommodating future needs seamlessly.

ServiceNow Employee Workflow represents a transformative step forward for UC Riverside, enabling the institution to foster a supportive, efficient, and engaging work environment for its employees while aligning with strategic goals of operational excellence.

The What: Scope for Phase 1

Non-customized implementation of HR Service Delivery,
to lay the foundation for including other HR teams into ServiceNow in future Phases.

Assumptions & Dependency Awareness

Title	Type	Details
Three (3) Day Turn Around	Assumption	To ensure project activities remain on time, UC Riverside will provide timely review, within three (3) business days, of any work product (e.g. draft Process Guides, user stories, training materials). Any delay in this review due to UC Riverside availability and/or participation that significantly impacts project progress and resource utilization may prompt Cask to stop work.
Five (5) Day Approval window	Dependency	UC Riverside will provide timely acceptance, within five (5) business days, for any formal deliverables described in the Statement of Work. If there is no formal acceptance within this timeframe after two (2) documented attempts the deliverable will be deemed accepted.
Stakeholder availability	Assumption/ Dependency	UCR resource availability for workshops and offline homework as per the Project Schedule. UC Riverside is responsible for any delays to the project schedule, including increased cost, by failure to provide timely access documentation or attend workshops or provide decisions required for the project
Project support	Assumption	UCR has secured leadership buy-in on the value of best practices and process changes required to implement the scoped services
Decision Authority	Dependency	UCR has clearly defined project governance and decision authority for story, requirement, and demo approval. Formal approvals must be granted within five (5) days post deliverable submission, preferably sooner.
Gate Signoff	Dependency	Cask CVDM Delivery Model has Stage Gates that require formal sign off from UCR project leadership, without which the project cannot proceed.
System Integrations	Assumption	There are no integrations or integration efforts in scope for this engagement. Any changes would require a for-cost change order.
System data validation	Assumption	UCR is be responsible for the accuracy and completeness of any data being imported into ServiceNow.

Assumptions & Dependency Awareness

Title	Type	Details
User Acceptance Testing	Assumption	UAT Management & Script Creation is the responsibility UCR. Test scripts will leverage user acceptance criteria written by Cask during the development and test cycle. All testing must complete within five (5) days
Licences	Assumption	UCR has all licences required for this engagement.
Environment Clone	Dependency	UC Riverside will clone the production environment over the Development environment before any development work will be commenced by Cask.
Environment Access	Dependency	Cask must have full access to the ServiceNow environments (Dev, UAT/Test, and limited Production) from Day 1: 5/27
Environment Continuity	Dependency	<p>UC Riverside will notify Cask in advance of any planned changes to the ServiceNow System and or Platform. These changes include but are not limited to:</p> <ul style="list-style-type: none"> • Code changes, cloning in or out of the environment, installation of patches/upgrades. • Cask and UC Riverside will need to have mutual agreement on the date/time of any ServiceNow system or platform changes to ensure that the changes do not impact this engagement.
Data Format and submissions	Dependency	UC Riverside will supply all data to be imported in a ServiceNow supported format (e.g. XML, delimited text file) where applicable
Data cleansing and quality	Dependency	UC Riverside will be responsible for any data cleansing, alterations, and/or validation required as part of the engagement.
Organizational Change Management	Dependency	UC Riverside will be responsible for the communication plan and organizational change management to drive adoption of the changes to processes and technology as part of this engagement.
Work Locations	Assumption	All work will be completed remotely.

Assumptions & Dependency Awareness

Title	Type	Details
Role based permissions	Assumption	UC Riverside will utilize the standard ServiceNow role and object-based access control model for securing individual data elements, records, and tables to the appropriate logged in user.
IP Based Access	Assumption	IP-based access controls are out of scope for this engagement.
Global Resources	Assumption	Project budget is reliant on the greater Global team at Cask. This includes Cask personnel, affiliates, subcontractors, etc, primarily based anywhere in North America, Mexico and Brazil.
Possible Use of Sub-Contractors	Dependency	UC Riverside has been made aware, and pre-approves the potential use of subcontractors in the provision of services under this agreement.
Travel	Assumption	There is no travel expected as part of this engagement
Schedule Lock	Dependency	Once the project plan has been agreed to by the UC Riverside, the dates associated with the plan are considered final.

Risk Awareness

Title	Level	Type	Details	Mitigation
Complexity of Services	High	Risk	Should the complexity of services eclipse the allowance of either Sprint Capacity or agreed medium complexity, then scope from other services will have to be reduced to accommodate.	UC Riverside HR teams are aware of the need to modify their processes and procedures as part of this engagement.
Resource Availability	High	Risk	Should Key resources (process owners, decision makers, or their alternates) not be available for scheduled sessions, this will require a re-baselining of the schedule and all activities at cost or negative impact to the scope of services that can be completed.	Decision makers should identify alternates and prep/empower them to make decisions in their absence.
Duplication of efforts due to federation of teams	High	Risk	If activities (sessions, documentation, etc) are required to be duplicated due to delineation of teams and/or workstream, this will have an inversely negative impact on either the scope that can be delivered, or the overall cost of the engagement.	Duplication of sessions will require discussion at the program level for remediation and agreement.
Prior Knowledge of Black-Out dates, Code freezes, Upgrades, or patches	Medium	Risk	If changes are made to the ServiceNow environments, or Cask Team's access without mutual consent, the project timeline and costs or deliverable scope will be negatively impacted	All such dates are to be identified prior to Kick-Off, and any changes to schedule related to same to be escalated to the governing body
Delay in Deliverable Approvals due to multiple approvals required	High	Risk	If there is no formal acceptance within the five (5) day approval timeframe after two (2) documented attempts the deliverable will be deemed accepted.	Manage the turn around via Action Item tracking, and appropriate communication of deadlines

Risk Awareness

Title	Level	Type	Details	Mitigation
Delay in review	High	Risk	If at any time there is a delay in timely review of product due to UC Riverside availability and/or participation that significantly impacts project progress and resource utilization may prompt a halt to the engagement.	Manage the turn around via Action Item tracking, and appropriate communication of deadlines
Hypercare	Medium	Risk	If UCR requires additional time to Hypercare (beyond the five (5) business days allotted), then a change order for additional funding will be requested	Approval of the scheduling includes this timeframe, as well as the understanding that additional time for this activity cannot be changed without mutual consent of the Governing body
