

UCR Lactation Accommodation Program

Lactation Accommodation on Campus

In an effort to promote a family-friendly environment for lactating students, employees, and guests, UC Riverside provides multiple lactation rooms located across the UCR campus providing a private space for lactation purposes. These lactation rooms are located within close proximity to work locations and are beautifully decorated, sanitary, and private with locking doors. Each room is equipped with a table, electrical outlet, mini refrigerator, microwave, and a comfortable chair. Employees may also reserve a multi-user hospital grade breast pump.
