

Psychological Safety

Part 2 for University Advancement

October 22, 2024

Human Resources
Employee and Organizational
Development

Today's Agenda

Review of
Psychological
Safety (PS)

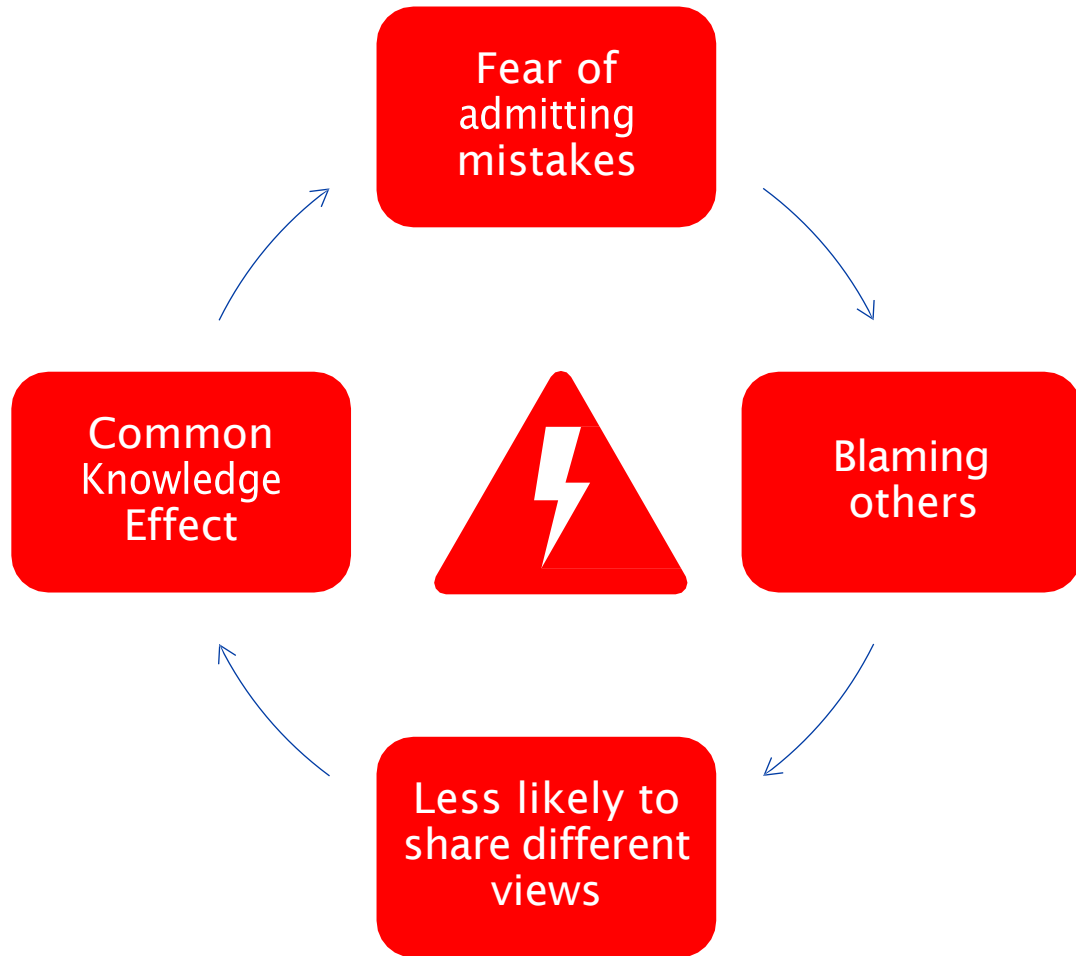

Explore 2 Key
Approaches
for Creating PS

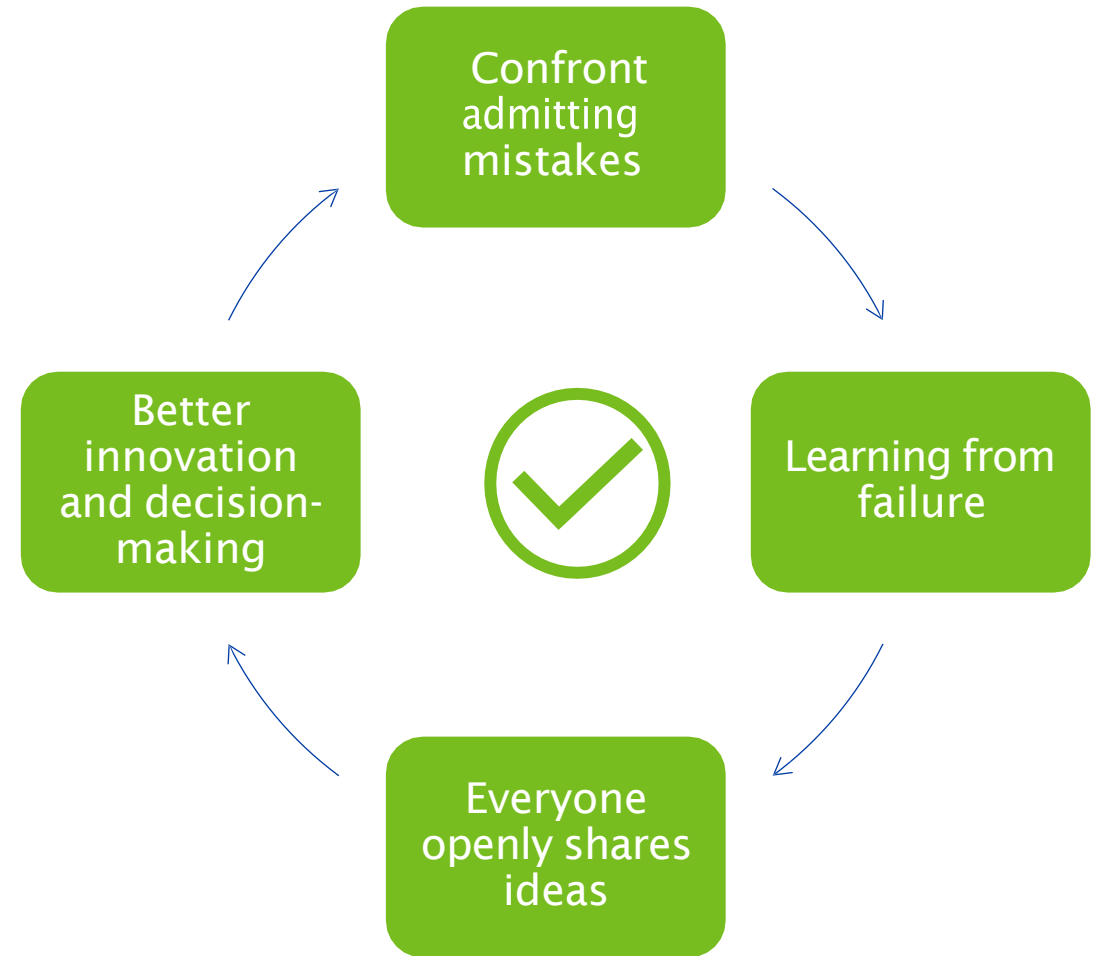

An aerial photograph of the University of California, Riverside campus during sunset. The sky is filled with soft, orange and yellow clouds, with the sun low on the horizon. In the center, the iconic clock tower stands tall, illuminated from within. The surrounding campus features various buildings, green spaces, and trees, all bathed in the warm light of the setting sun. The overall mood is serene and contemplative.

What Is Psychological Safety?

PSYCHOLOGICAL DANGER

PSYCHOLOGICAL SAFETY

Psychological Safety

A work environment where people feel comfortable sharing ideas, questions, concerns, and mistakes without fear of punishment or humiliation.

-Amy C. Edmondson

2 Key Approaches

With my current team environment, I feel safe expressing my thoughts and ideas.

👍 0

6%

(B)
False

Four Stages Of Psychological Safety

Inclusion Safety

Feeling valued and respected in the group

Learner Safety

Comfortably admitting lack of knowledge, fostering learning

Contributor Safety

Confidently sharing ideas without fear of criticism

Challenger Safety

Comfortably questioning norms and decisions

HR Vision

1. Reframe Failure to Build Psychological Safety

A Quick Look at Risk...

No Risk ----- High Risk

F **F**IRST
A **A**TTEMPT
I **I**N
L **L**EARNING

REFRAME

abraham
lincoln

REFLECTION

How can you embrace failure/mistakes as an opportunity for learning, innovation and growth?

2. Encourage Vulnerability to Build Psychological Safety

How comfortable are you being vulnerable at work?

VULNERABLE

**CREATING A
CIRCLE OF
SAFETY**

wisdom

~~perfectionism~~

Vulnerability Looks Like...

LEADERS

- Admitting when you don't have all the answers
- Admitting mistakes
- Support colleagues when they take interpersonal risks by acknowledging their contributions
- Sharing personal experiences relevant to the work context

TEAM MEMBERS

- Normalize asking for help as part of the work process, not a sign of weakness
- Admitting mistakes
- Practice active listening when someone is sharing openly
- Acknowledging a skills or knowledge gap when being asked to do something new

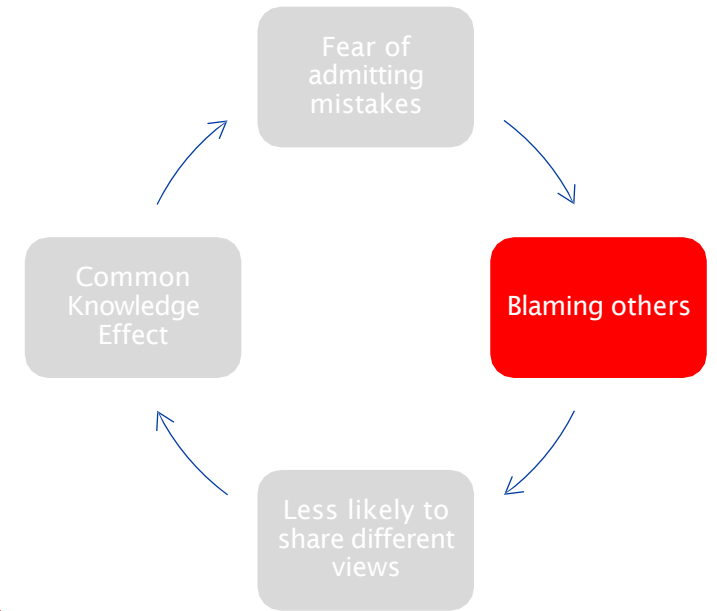

What about Accountability?

Blame vs. Accountability

≠

Fear	↑	↓
Cover-Ups	↑	↓
Information Flow	↑	↓
Innovation	↑	↓
Risk-Taking	↑	↓
Trust	↑	↓

How does
BLAME
affect...?

Psychological Safety Promotes Accountability

DISTINCTIONS BETWEEN BLAME AND ACCOUNTABILITY

	BLAME	ACCOUNTABILITY
Level of Problem Analysis	INDIVIDUAL <i>“Let’s find out who made that mistake and point the finger at them.”</i>	SYSTEM <i>“Is there anything in our systems and structures that increases the likelihood of error and reduces the chances of creating the results we want?”</i>
Focus	PERSON <i>“Who did it?”</i> <i>“What you did was wrong.”</i>	PROBLEM <i>“What happened here?”</i>
Intent	PUNISHMENT <i>“It’s your fault and I’ll make you pay.”</i> This can be subtle but quite real.	PERFORMANCE <i>“Let’s see what we need to do to get the results we want.”</i>
Outcome	COVER-UP, NO LEARNING <i>“I won’t reveal my mistakes. It’s not worth it to take risks.”</i>	OPENNESS, LEARNING <i>“I want to talk about this mistake so we can all learn something and do a better job next time.”</i>
