NASC 192L Introduction to Stem Teaching Laboratory 1 Discussion, 1 hour; laboratory, 2 hours. Prerequisite(s): EDUC 003, may be taken concurrently, NASC 192, may be taken concurrently; Restricted to class level standing of sophomore, junior, or senior; or consent of instructor. Covers preparation for a career in mathematics and science teaching in the K-12 classroom. Includes introduction to science/math pedagogy and evaluation of student learning. Laboratory field work includes participation and observation in public school classrooms.

NASC 198 R'course: Variable Topics 1 Activity, 1 to 3 hours. Prerequisite(s): permission needed from department; sophomore standing or better. An opportunity for UCR undergraduate students to develop leadership skills, innovate the undergraduate curriculum, and promote democratic, experiential education. Original course topics are variable and unique from other departmental course offerings, designed to highlight the student facilitators' expertise while working closely with a faculty mentor. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as topics change to a maximum of 8 units.

NASC 198I Individual Internship in the Natural and Agricultural Sciences 1 to 12 Internship, 2 to 24 hours; written work, 1 to 12 hours. Prerequisite(s): upper-division standing in the College of Natural and Agricultural Sciences (CNAS); consent of instructor. An internship to provide CNAS students with on-the-job experience in government, industry, or clinical laboratories. Each individual project must be approved by the CNAS associate dean and the laboratory director where the internship is to be carried out. Requires a written report. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

Nematology

Subject abbreviation: NEM
College of Natural and Agricultural Sciences

J. Ole Becker, Ph.D. (Emeritus)
Antoon T. Ploeg, Ph.D.
Andreas Westphal, Ph.D.

Nematology is the study of roundworms, the most genetically diverse invertebrate phylum that occurs worldwide in virtually every environment. Only about 3 percent of all species have been studied or identified, and these include significant parasites of humans, animals, and plants. A primary mission of the Department of Nematology is to develop environmentally sound approaches to manage nematodes that worldwide cause nearly $100 billion annual damage to crops. Other objectives are to use nematodes that benefit agriculture and the environment as agents of nutrient cycling and soil fertility and for biological control of some insect pests. Additional objectives focus on nematodes as fundamental models for addressing basic biological questions in genetics, development, and molecular biology. The department offers graduate and postgraduate opportunities in biocontrol, ecology, genetics, molecular biology, physiology, and systematics. It offers specific expertise in applied nematode problems of subtropical and desert agriculture.

A graduate program in Nematology is offered within a broad biological context. Students are enrolled in a more general department or interdepartmental program that provides a core of graduate courses. The general departments may include Botany and Plant Sciences, Entomology, Evolution, Ecology, and Organismal Biology, Microbiology and Plant Pathology, and Environmental Sciences as well as a wide range of interdepartmental programs. Dissertation research opportunities, major research professor, curriculum advisor, and specific courses are provided by the Department of Nematology to complement requirements of the more general department or program.

Upper-Division Courses

NEM 120 Soil Ecology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 002 or BIOL 005A, BIOL 05LA; CHEM 001C, CHEM 01LC or CHEM 01HC, CHEM 1HLC; ENSC 100; or consent of instructor. A study of soil biota and their relationships with plants and the soil environment. Emphasizes life strategies of soil organisms and methods to study them. Examines importance of microbial and faunal groups from the rhizosphere to the ecosystem. Explores impact on soil fertility, carbon and nitrogen cycles, and Earth's climate. Cross-listed with ENSC 120.

NEM 159 Biology of Nematodes 3 Lecture, 2 hours; discussion, 1 hour. Prerequisite(s): BIOL 005C, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 100H or BCH 110A or BCH 110HA, STAT 010. An introduction to the biology of nematodes. Topics include the morphology, physiology, development, genetics, behavior, and ecology of nematodes from parasitic and free-living habitats. Includes observing the comparative morphology and biology of nematodes and giving oral presentations on selected nematode life histories. Cross-listed with BIOL 159.

NEM 190 Special Studies 1 to 4 Individual Study, 3 to 12 hours. Prerequisite(s): consent of instructor and Department Chair. Individual study, directed by a faculty member, to meet special curricular needs. A written report is required. Course is repeatable.

NEM 197 Research For Undergraduates 1 to 4 Laboratory, 3 to 12 hours. Prerequisite(s): upper-division standing. Research in nematology with the guidance of a Nematology faculty member. A written report is required. Course is repeatable.

NEM 199 Senior Research 2 to 4 Laboratory, 6 to 12 hours. Prerequisite(s): senior standing, a grade of "B+" or better in an upper-division Biology course, a grade of "B+" or better in an upper-division Nematology course; or consent of instructor. Individual research on a problem relating to Nematology. A written proposal signed by the supervising faculty member must be approved by the major advisor and the department chair and a written report filed with the supervising faculty member. Course is repeatable to a maximum of 9 units.

Graduate Courses

NEM 205 Identification of Plant Parasitic Nematodes 1 Lecture, 5 hours; laboratory, 25 hours. Prerequisite(s): graduate standing or consent of instructor. Five-day lecture and laboratory course on morphological identification of economically important plant parasitic nematodes in Tylenchida and Dorylaimida using dissecting and bright field microscopy. Includes preparation of microscope slides, diagnosis of field samples, and use of diagnostic keys. Offered in summer only.

NEM 206 Phytopathogens: Nematodes 2 Lecture, 1 hour; laboratory, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Recognition, diagnosis, biology, and control of major nematode diseases of plants. Laboratory covers identification techniques, soil sampling and processing techniques, and process of pathogenesis. Cross-listed with PLPA 206.

NEM 250 Seminar in Nematology 1 Seminar, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Intensive study of selected topics in nematology. Includes lectures by students, staff, faculty, and invited scholars on related subjects. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

NEM 270 Special Topics in Nematology 1 Seminar, 2 hours. Prerequisite(s): graduate standing; consent of instructor. Discussion of current literature within special areas of nematology. Graded Satisfactory (S) or No Credit (NC).

NEM 290 Directed Studies 1 to 6 Prerequisite(s): graduate standing. Individual studies on specially selected topics in nematology under the direction of a staff member. Graded Satisfactory (S) or No Credit (NC).

NEM 297 Directed Research 1 to 6 Research 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor. Experimental studies on specially selected topics in nematology under the direction of a staff member. Graded Satisfactory (S) or No Credit (NC).

Neuroscience Undergraduate Major

Subject abbreviation: CBNS
College of Humanities, Arts, and Social Sciences
College of Natural and Agricultural Sciences

Edward Korzus, Ph.D., Program Chair
Undergraduate Program for Neuroscience
Department of Psychology

Program Office, 1223 Pierce Hall
(951) 827-7294
cnasstudent.ucr.edu/neuroscience

Committee in Charge

Michael E. Adams (Molecular, Cell and Systems Biology, and Entomology)
Scott Currie (Molecular, Cell and Systems Biology)
Brian Duistermars (Molecular, Cell and Systems Biology)
Peter Hickmott (Psychology)
Edward Korzus (Psychology)
Deepa Ramamurthy (Psychology)
Daryle Williams, Dean, College of Humanities Arts, and Social Sciences, *ex officio*
Peter Atkinson, Dean, College of Natural and Agricultural Sciences, *ex officio*

Major

The Neuroscience major is an intercollege major offered by the colleges of Humanities, Arts, and Social Sciences and Natural and Agricultural Sciences. It offers upper-division courses that contribute to an academic program emphasizing the functioning of nervous systems at the molecular, cellular, system, behavioral, and cognitive levels. Some of the topics covered include neuroanatomy, neurophysiology, and neurochemistry in humans and other animals; neural mechanisms underlying sensory system function and perception; neural organization of behavior; development of the nervous system; and neural mechanisms of learning and memory.

Both a B.A. and a B.S. degree are offered by each college. When students declare the major, they choose from which college they wish to have their degree awarded. Students whose degrees are awarded by the College of Humanities, Arts, and Social Sciences are advised in and have their records maintained by the Department of Psychology; students whose degrees are awarded by the College of Natural and Agricultural Sciences are advised in and have their records maintained by the CNAS Academic Advising Center. Breadth requirements vary by college; and students must fulfill the breadth requirements of the college they choose.

For information about student advising, contact the CNAS Academic Advising Center, (951)

827-7294, or the Department of Psychology, (951) 827-5386, University of California, Riverside, Riverside, CA 92521.

Change of Major Criteria

Students must be in good academic standing at the time the Change of Major Petition is filed. Students must successfully repeat any outstanding Neuroscience Core course prior to acceptance into the major.

2nd and 3rd Quarter Freshmen

The following math and science courses must be completed with a grade of C– or better: CHEM 001A, CHEM 01LA, CHEM 001B, CHEM 01LB, MATH 007A or MATH 009A

4th Quarter Freshman and Sophomore (up to 89 earned units)

The following math and science courses must be completed with a grade of C– or better: CHEM 001A, CHEM 01LA, CHEM 001B, CHEM 01LB, CHEM 001C, CHEM 01LC, BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, MATH 007A or MATH 009A, MATH 007B or MATH 009B

Junior (90 - 134 earned units)

The following math and science courses must be completed with a grade of C– or better: CHEM 001A or CHEM 01HA, CHEM 01LA or CHEM 1HLA, CHEM 001B or CHEM 01HB, CHEM 01LB or CHEM 1HLB, CHEM 001C or CHEM 01HC, CHEM 01LC or CHEM 1HLC, BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C, MATH 007A or MATH 009A, MATH 007B or MATH 009B and completion of at least one of the following sequences with no grade lower than a C–: CHEM 008A or CHEM 08HA, CHEM 08LA or CHEM 08HLA, CHEM 008B or CHEM 08HB, CHEM 08LB or CHEM 08HLB, CHEM 008C or CHEM 08HC, CHEM 08LC or CHEM 08HLC, PHYS 002A, PHYS 02LA, PHYS 002B, PHYS 02LB, PHYS 002C, PHYS 02LC

Senior (135 + units)

The following math and science courses must be completed with grade of C– or better: CHEM 001A or CHEM 01HA, CHEM 01LA or CHEM 1HLA, CHEM 001B or CHEM 01HB, CHEM 01LB or CHEM 1HLB, CHEM 001C or CHEM 01HC, CHEM 01LC or CHEM 1HLC, BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C, MATH 007A MATH 009A, MATH 007B or MATH 009B, CHEM 008A or CHEM 08HA, CHEM 08LA or CHEM 08HLA, CHEM 008B or CHEM 08HB, CHEM 08LB or CHEM 08HLB, CHEM 008C or CHEM 08HC, CHEM 08LC or CHEM 08HLC, PHYS 002A, PHYS 02LA, PHYS 002B, PHYS 02LB, PHYS 002C, PHYS 02LC, PSYC 011 or STAT 004 or STAT 010, BCH 100 or BCH 110A, CBNS 106

GPA in upper division courses applied to the Neuroscience Major (Tier 1, 2, and 3) must be 2.00 or higher.

Transfer Students

Transfer applicants must have a minimum GPA of 2.70 (currently 2.70, but can be adjusted upward for selectivity by the college of Majors). Transfer applicants must further meet two of the curricular preparation requirements below.

1. Math 007A or Math 009A; MATH 007B or MATH 009B or equivalent.
2. Two semesters of a single lab-based science discipline (e.g. Chemistry or Biology or Physics).
3. The equivalent of Math 009C plus one semester of Vector Calculus or Linear Algebra.

Individual Majors can (and do) set their particular curricular requirements to be more rigorous.

University Requirements

See Undergraduate Studies section.

College Requirements

College breadth requirements vary depending on which college is chosen to award the degree. For details on breadth requirements, see the Colleges and Programs section of this catalog. Students are urged to consult their advisor regarding requirements.

The following restrictions and additions apply to college breadth requirements for the Neuroscience major.

For the College of Humanities, Arts, and Social Sciences

Humanities

Foreign language at level 4 or above for the B.A. may be used to fulfill up to 8 units of the Humanities breadth requirement.

Social Sciences

Psychology courses may not be used as part of the Social Sciences breadth requirement if a Biology course is used to meet any part of the Natural Sciences and Mathematics breadth requirement.

Foreign Language

In fulfilling the Foreign Language breadth requirement for both the B.A. and B.S. degrees, a modern language such as Spanish, Russian, Chinese, German, or French must be used.

Natural Sciences and Mathematics

The Neuroscience Core in the Neuroscience major satisfies the Natural Sciences and Mathematics breadth requirement.

For the College of Natural and Agricultural Sciences

Humanities

For the B.S. degree, 16 units instead of 12 units are required to fulfill the Humanities breadth requirement. PHIL 134 and PHIL 137 are recommended.

Social Sciences

For the B.S. degree, 16 units instead of 12 units are required to fulfill the Social Sciences breadth requirement. Psychology courses not required or approved for the Neuroscience major may be used in meeting the Social Sciences breadth requirement.

Foreign Language

In fulfilling the Foreign Language breadth requirement for the B.A. degree, a modern language such as Spanish, Russian, Chinese, German, or French must be used. Further, fourth-quarter level proficiency in one foreign language (not level 2 in two languages) is required.

Natural Sciences and Mathematics

The Neuroscience Core in the Neuroscience major satisfies the Natural Sciences and Mathematics breadth requirement.

Major Requirements

1. Neuroscience Core (71-73 units). Up to 12 units of upper-division life sciences courses (for this major, courses from the departments of Biochemistry, Biology, Cell Biology and Neuroscience, and Entomology) not being used to satisfy the core may be taken prior to completion of the core.
2. Students must complete all required Neuroscience Core courses with a grade of "C-" or better and with a cumulative GPA in the courses of at least 2.0. Grades of "D" or "F" in two required courses, either separate courses or repetitions of the same course, are grounds for discontinuation from the major.
   a) BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C (BIOL 002 and BIOL 003 may be substituted for BIOL 005A, BIOL 05LA, and BIOL 005B with advisor's approval.)
   b) PSYC 011 or STAT 004 or STAT 010
   c) MATH 007A or MATH 009A or MATH 09HA; MATH 007B or MATH 009B or MATH 09HB
   d) CHEM 001A or CHEM 01HA, CHEM 01LA or CHEM 1HLA, CHEM 001B or CHEM 01HB, CHEM 01LB or CHEM 1HLB, CHEM 001C or CHEM 01HC, CHEM 01LC or CHEM 1HLC
   e) CHEM 008A or CHEM 08HA, CHEM 08LA or CHEM 08HLA, CHEM 008B or CHEM 08HB, CHEM 08LB or CHEM 08HLB, CHEM 008C or CHEM 08HC, CHEM 08LC or CHEM 08HLC
   f) PHYS 002A, PHYS 002B, PHYS 002C or PHYS 02HA, PHYS 02HB, PHYS 02HC; PHYS 02LA, PHYS 02LB, PHYS 02LC or PHYS 02HLA, PHYS 02HLB, PHYS 02HLC; or PHYS 040A, PHYS 040B, PHYS 040C or PHYS 040HA, PHYS 040HB, PHYS 040HC
   g) BCH 100 or BCH 110A, or BCH 100H or BCH 110HA
3. Upper-division requirements

   Students must complete all required First Tier and Second Tier courses with a grade of "C-" or better and with a cumulative GPA in the courses of at least 2.0. Grades of "D" or "F" in two required courses, either separate courses or repetitions of the same course, are grounds for discontinuation from the major.

   a) First Tier (16 units)
      (1) CBNS 106
      (2) CBNS 120/PSYC 120
      (3) CBNS 120L/PSYC 120L or PSYC 122L or CBNS 130L/PSYC 123L
      (4) CBNS 124/PSYC 124
   b) Second Tier (at least 12 units for the B.A. or at least 20 units for the B.S.)

      BIOL 178; CBNS 101, CBNS 116, CBNS 121/PSYC 121, PSYC 122, CBNS 125/PSYC 125, CBNS 126/PSYC 126, CBNS 127/PSYC 127; CBNS 129, ENTM 131, PSYC 112, PSYC 117, PSYC 129, PSYC 136
   c) Third Tier (additional units to reach a total of 38 units for the B.A. or 46 units for the B.S.) Select from upper-division courses listed under Neuroscience

Core, Second Tier above not used to satisfy those requirements, and the additional courses listed below. The combined number of units taken under First Tier, Second Tier, and Third Tier must total either 38 if the B.A. is sought or 46 if the B.S. is sought.

BCH 110B, BCH 110C, BCH 120, BIOL 100/ENTM 100, BIOL 102, BIOL 105, BIOL 107A, BIOL 108, BIOL 110, BIOL 151, BIOL 160, BIOL 161A, BIOL 161B, BIOL 162/ENTM 162, BIOL 171A, BIOL 171B, BIOL 171C, BIOL 173/ENTM 173, BIOL 175, CBNS 108, CBNS 150/ENTX 150, CBNS 165, CBNS 169, CBNS 194, CBNS 197, CBNS 199, PSYC 096L, PSYC 197L[1], CS 170, PHYS 139L, PSYC 115, PSYC 130, PSYC 132, PSYC 134, PSYC 135

Note

No courses other than those listed may be used in the major unless specifically approved by the program chair or the program chair's designate.

[1] Up to 9 units from CBNS 194, CBNS 197, CBNS 199, PSYC 096L, or PSYC 197L. CBNS 194, CBNS 197, CBNS 199, and PSYC 197L must be taken for a letter grade.

Minor

A minor in Neuroscience is available. For more information on minor requirements, refer to the discussion of minors in the appropriate college section of the General Catalog.

1. First Tier (16 units)
   a) CBNS 106 with a grade of C- or better
   b) CBNS 120/PSYC 120
   c) CBNS 120L/PSYC 120L or PSYC 122L or CBNS 130L/PSYC 123L
   d) CBNS 124/PSYC 124
2. Second Tier

   Select additional units from the list below so that the units from the First Tier combined with the units from the Second Tier equal at least 20.

   BIOL 178, CBNS 101, CBNS 116, CBNS 121/PSYC 121, PSYC 122, CBNS 125/PSYC 125, CBNS 126/PSYC 126, CBNS 127/PSYC 127, CBNS 129, ENTM 131, PSYC 112, PSYC 117, PSYC 129, PSYC 136

Descriptions for all courses used in the Neuroscience major and minor may be found in the appropriate department section.

Graduate Program

The multidisciplinary interdepartmental graduate program in Neuroscience offers instruction and research training leading to the Ph.D. degree in Neuroscience. A Thesis Plan (Plan I) or Non-Thesis Plan (Plan II) M.S. degree in Neuroscience is available under special circumstances, when the work leading to the Ph.D. degree cannot be completed. Whether either of these options is appropriate will be decided by the student's Guidance Committee typically either at the end of the first year, or at the time of the qualifying examination. See General University requirements for Plan I and Plan II M.S. degrees: **graduate.ucr.edu/programs**.

The goal of this program is to prepare students for careers in research, teaching, industry, and scientific administration. The program is aimed at providing high-quality graduate training for students who come from a variety of undergraduate backgrounds, but share a commitment and an intense interest in nervous system research. Students are expected to learn the fundamentals of neuroscience, starting with the required core sequence, become knowledgeable concerning a range of research methods as taught in neuroscience laboratories and demonstrate capability in original research. Graduate student training reflects the research competence and specialties of the faculty. That is, the specific research training received by a graduate student is the responsibility of the major professor/mentor in whose laboratory the student carries out the research projects leading to the degree. Students benefit from an interdisciplinary training approach, tailored by the major advisor but enriched by the readily available expertise and laboratory facilities of program faculty with backgrounds ranging from chemistry to psychology.

Current UCR Neuroscience faculty have major appointments in several different departments but have a considerable degree of common interest in research problems and techniques. Furthermore, the three chief levels of analysis at which nervous systems are currently studied (molecular/cellular, systems, and behavioral) are more or less evenly represented by the interests and expertise of the faculty. Some faculty, as may be expected, carry out research programs that combine two or more of these levels of analysis. These levels of analysis, which characterize the faculty's research, indicate the breadth of integrated neuroscience at UCR but do not represent "fields of emphasis" in which students are to be trained.

Areas that faculty investigate include the following:

- Glial-Neuronal Interactions
- Physiological actions of ion channel toxins
- Modulation of ion channels by neurotransmitters and hormones
- Auditory processing
- Synaptic transmission and neural plasticity in mammalian nervous systems
- Signal transduction in excitable cells
- Sensory and perceptual processes
- Molecular biology of ion channel structure and function
- Receptor–channel interactions
- Synaptic and non-synaptic mechanisms in neuroendocrine systems
- Plasticity in adult central nervous system
- Neurodevelopment
- Neuroinflammation
- Neurodegeneration

- Gut-brain interactions
- Neurotoxicology
- Neurogenetics
- Addiction
- Behavior genetics
- CNS-Immune system interactions

Areas involving behaviors and diseases include the following:

- Roles of glial cells in neurological disease
- Neural control of eating, locomotory, and social behaviors
- Neuroendocrine regulation of innate and social behaviors
- Neural basis of language and reading
- Neural networks controlling locomotion in the spinal cord and brainstem
- Auditory function in Fragile X Syndrome and age-related hearing loss
- Neurolinguistics
- Individual differences in cortical anatomy and relation to behavior
- Learning and memory
- Mechanisms of neuronal death in Alzheimer's disease, stroke, and other disorders

Admission

Applicants must meet the general admissions requirements of the Riverside Division of the Academic Senate and the UCR Graduate Council as set forth in the Graduate Studies section of this catalog, including completion of an undergraduate degree (B.S. or B.A.). Applicants to the M.S. and Ph.D. program may submit GRE General Test scores (verbal, quantitative, and analytical), but it is not a requirement. They should have an adequate background in biological, behavioral and physical sciences; ideally including courses in the following or equivalent areas: General Biology, Genetics, General Chemistry, Biochemistry, Organic Chemistry, Physics, Calculus, and Statistics. Additionally, at least 20 quarter-units of courses distributed among the following areas are required, although applicants may be admitted with limited course work deficiencies and required to make up deficiencies as specified by the admissions committee: Biochemistry; Cell Biology; Molecular Biology; Physiology; Neuroimmunology, Animal Behavior; Learning and Memory; Perception; Computer Science; and Neuroscience, Neurobiology, or Physiological Psychology, with laboratory.

Doctoral Degree

Course Work

Core requirements include:

1. NRSC 200A/PSYC 200A (Cell/Molecular Neuroscience)

   NRSC 200B/PSYC 200B (Systems Neuroscience)

   NRSC 200C/PSYC 200C (Behavioral Neuroscience)

   NRSC 202 (Advanced Methods in Neuroscience)

   Fall offering of BMSC 254 (Graduate Seminar in Biomedical Sciences, 1 unit) – ideally in the first year
2. One elective course selected by the student in consultation with the major professor and/or guidance committee. Elective choices are flexible and meant to enhance and strengthen the student's expertise in the research area of interest and with attention given to ultimate career goals. Given the interdisciplinary nature of Neuroscience, courses may be chosen from any program or department. Graduate courses are preferred; undergraduate courses may be used only with approval of the Graduate Advisor (or Program Director). Elective courses should be substantial, although unit requirements are flexible. A course in statistics relevant to the area of research is strongly recommended.
3. During each quarter in academic residence every student enrolls and participates in the Colloquium in Neuroscience (NRSC 287/PSYC 287), and, until passing the oral qualifying examination, every student enrolls in two seminars, Special Topics in Neuroscience (NRSC 289, 2 units), during each year of academic residence. One seminar (NRSC 289) per year is required after the qualifying examination is passed.
4. After completing the course requirements and no later than the ninth quarter in residence, the student is given a two-part qualifying examination, one written and one oral. The oral qualifying exam may be done in person or hybrid (at the discretion of the exam chair). The chairperson and the student must be in person. A minimum of three committee members including the chairperson must be in person. A maximum of two committee members (not including the chairperson) may be online. Student is responsible for ensuring technology is set up regardless of exam modality. Non-UCR external members may be in person or remote. (Staff does not need to be present to assist the student.)
5. Regardless of whether financial support comes from fellowships or research assistantships, etc., students must be teaching assistants for at least two quarters in Neuroscience or related-area courses, such as those taught by their mentors.
6. Within three months of advancement to candidacy, the student must submit a written dissertation proposal to the dissertation committee for comments and approval. Before the dissertation is given final approval, the student must present a public lecture on the dissertation research to faculty and students in the program. Following the public lecture, the student meets with the dissertation committee for an oral defense in accordance with the regulations of the Graduate Division. The final defense may be done in person or hybrid (at the discretion of the exam chair). The chairperson and the student must be in person. A minimum of two committee members including the chairperson must be in person. Only one-committee member (not the chairperson) may be online. Student is responsible for ensuring technology is set up regardless of exam modality. Non-UCR external members may be in person or remote. (Staff does not need to be present to assist the student.)

Professional Development

Graduate students fulfill their professional development training requirements through Teaching Assistantships, Graduate Student Research, and enrollment in NRSC 200 (A, B, and C), 202, 287, 289, 297, 299 and BMSC 254. Skills developed throughout the program include public speaking; grant and professional writing; research training; responsible conduct of research; pedagogy; scientific interactions and intellectual development; safety training; and community outreach.

Normative Time to Degree

16 quarters

Graduate Courses

NRSC 200A Fundamentals of Neuroscience 3 Lecture, 3 hours. Prerequisite(s): graduate standing or consent of instructor. The fundamentals of neuroscience in molecular and cellular mechanisms, neural and hormonal systems, and neural control of behavior. Cross-listed with PSYC 200A.

NRSC 200B Fundamentals of Neuroscience 3 Lecture, 3 hours. Prerequisite(s): graduate standing or consent of instructor; NRSC 200A/PSYC 200A. The fundamentals of neuroscience in molecular and cellular mechanisms, neural and hormonal systems, and neural control of behavior. Cross-listed with PSYC 200B.

NRSC 200C Fundamentals of Neuroscience 3 Lecture, 3 hours. Prerequisite(s): graduate standing or consent of instructor; NRSC 200B/PSYC 200B. The fundamentals of neuroscience in molecular and cellular mechanisms, neural and hormonal systems, and neural control of behavior. Cross-listed with PSYC 200C.

NRSC 202 Advanced Methods in Neuroscience 3 Lecture, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Covers topics on a variety of advanced methods in neuroscience research including molecular, genetic, anatomical, physiological, and behavioral approaches. Provides a deeper understanding of experimental approaches related to thesis research as well as other studies in the literature. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

NRSC 280 Neuromodulation of Behavior 3 Lecture, 3 hours. Prerequisite(s):NRSC 200A or PSYC 200A; NRSC 200B or PSYC 200B; graduate standing; or consent of instructor. Explores the roles of specific brain circuits such as neuromodulatory systems and other subcortical areas in modulating animal behavior.

NRSC 287 Colloquium in Neuroscience 1 Colloquium, 1 hour. Prerequisite(s): restricted to major(s) Neuroscience, Psychology; graduate standing; or consent of instructor. Involves oral presentations on current research topics in

neuroscience by visiting scholars, faculty, and students. Graded Satisfactory (S) or No Credit (NC). Course is repeatable. Cross-listed with PSYC 287.

NRSC 289 Special Topics in Neuroscience 2 Seminar, 2 hours. Prerequisite(s): graduate standing or consent of instructor. An interdisciplinary seminar consisting of student presentations and discussion of selected topics in neuroscience. Content and instructor(s) vary each time course is offered. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. course is repeatable. Cross-listed with BCH 289, BIOL 289, CHEM 289, ENTM 289, and PSYC 289.

NRSC 290 Directed Studies 1 to 6 Individual Study, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor. Individual study, directed by a faculty member, of specially selected topics in neuroscience. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

NRSC 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor. Research and experimental studies conducted under the supervision of a faculty member on specially selected topics in neuroscience. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

NRSC 299 Research For the Thesis Or Dissertation 1 to 12 Research, 3 to 36 hours. Prerequisite(s): graduate standing; consent of instructor. Original research in an area selected for the advanced degree. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Peace and Conflict Studies Minor

Subject abbreviation: PCST
College of Humanities, Arts, and Social Sciences

(In Moratorium)

The Peace and Conflict Studies minor is not currently accepting new students. For more information, contact CHASS Student Academic Affairs, 3400 Humanities and Social Sciences Building, (951) 827-3683.

Juliann Emmons Allison, Ph.D., Co-Chair
(951) 827-5524; juliann.allison@ucr.edu
Erith Jaffe-Berg, Ph.D., Co-Chair
(951) 827-4418; erith.jaffe-berg@ucr.edu
Advising Office, CHASS INTS 3rd Floor
MDU Academic Advising Center Lobby

Committee in Charge

Juliann Allison, Co-Chair
(Gender & Sexuality Studies)
Erith Jaffe-Berg, Co-Chair (Theatre)
Rickerby Hinds (Theatre)
Bronwyn Leebaw (Political Science)
Daryle Williams, Dean, *ex officio*

Administered through the Interdisciplinary Studies Office, the Peace and Conflict Studies Minor provides opportunities for undergraduate students to give sustained attention to the diverse origins and expressions of conflict, to models for resolution advised by scholars and practitioners, to proactive peacemaking through the investigative and creative strategies fostered in higher education.

Students must take 5 upper-division courses as specified in sections 1 and 2 below.

1. **Students must take at least one course from each of the following three rubrics plus a fourth course from the list below from any rubric:**
   a) Perspectives from Religion, Philosophy, Literature and the Arts CLA 141/AST 145/CHN 141/CPAC 141/POSC 140, CPLT 115/GER 163/HISE 163/MCS 115, CPLT 132/FREN 132/GER 132, CPLT 134/GER 134/JPN 134/MCS 114, ENGL 135, RLST 116, RLST 174, RLST 175, RLST 176, THEA 191 (E-Z), VNM 162/AST 162/HIST 187/SEAS 162
   b) Social Scientific Perspectives ETST 111, POSC 123, POSC 124, POSC 124S, POSC 129, POSC 142L, POSC 150, POSC 159, POSC 160, POSC 169, SOC 122
   c) Historical Perspectives HISA 114, HISA 135/ETST 112, HISA 162/LNST 172, HISA 165, HISA 166, HISE 145, HISE 146, HIST 184/AST 160/SEAS 184/VNM 184, MCS 173 (E-Z)/CPLT 173 (E-Z), POSC 125, POSC 162/LNST 142
2. **Capstone Course; one of the following:** PCST 190, PCST 197, PCST 198-I

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Upper-Division Courses

PCST 190 Special Studies 1 to 5 Consultation, 10 hours per quarter; extra reading, 6 to 9 hours; written work, 3 to 6 hours. Prerequisite(s): upper-division standing; consent of Peace and Conflict Studies Committee chair; consent of faculty advisor is required for students repeating the course. Individual study in the areas of conflict resolution and mediation. Examines theories in depth, as well as case studies introduced in previous courses.

PCST 197 Research For Undergraduates 4 Consultation, 10 hours per quarter; extra reading, 6 hours; written work, 3 hours. Prerequisite(s): upper-division standing; consent of Peace and Conflict Studies Committee chair. Directed original research in the fields of conflict resolution, mediation, and peace studies.

PCST 198I Individual Internship in Peace and Conflict Studies 4 Consultation, 1 hour; internship, 8 hours; written work, 3 hours. Prerequisite(s): upper-division standing; consent of Peace and Conflict Studies Committee chair; consent of faculty advisor is required for students repeating the course. Provides internship opportunities in organizations that engage in mediation and conflict resolution. Includes supervision under an assigned faculty member. Course is repeatable up to 16 units.

Pest Management

Subject Abbreviation: PSMT
College of Natural and Agricultural Sciences

The M.S. program in Pest Management is not currently accepting new students. For further information call (800) 735-0717 or (951) 827-5621.

Philosophy

Subject abbreviation: PHIL
College of Humanities, Arts, and Social Sciences

Michael Nelson, Ph.D., Chair
Department Office, 1606 Humanities and Social Sciences
(951) 827-3760; philosophy.ucr.edu

Professors

Luca Ferrero, Ph.D.
John M. Fischer, Ph.D., *Distinguished Professor*
Peter J. Graham, Ph.D.
Agnieszka Jaworska, Ph.D.
Barry Lam, Ph.D.
Andrews Reath, Ph.D.
Erich Reck, Ph.D.
Eric Schwitzgebel, Ph.D.
Howard K. Wettstein, Ph.D.

Professors Emeriti

Maudemarie Clark, Ph.D., *Distinguished Professor*
Carl F. Cranor, Ph.D., *Distinguished Professor*
David K. Glidden, Ph.D.
John Perry, Ph.D., *Distinguished Professor*
Gary Watson, Ph.D.
Larry Wright, Ph.D.

Associate Professors

Myisha Cherry, Ph.D.
Adam Harmer, Ph.D.
Coleen Macnamara, Ph.D.
Jozef Müller, Ph.D.
Michael Nelson, Ph.D.
Alexandra Newton, Ph.D.

Assistant Professors

Kim Frost, Ph.D.
Dylan Shaul, Ph.D.

Majors

The Department of Philosophy offers a major and minor in Philosophy and a major in Philosophy/Law and Society.

The **Philosophy major** is designed to introduce students to the important issues and arguments surrounding such subjects as morality, knowledge, the nature of the mind and of the physical world, science, and language. The program provides a rigorous background in the history of Western philosophy, and studies contemporary approaches (both analytic and Continental) to philosophical issues. The B.A. degree in Philosophy prepares students for graduate study in philosophy, and is also excellent preparation for law school. For students interested in a double major, philosophy also serves as an excellent complement to psychology, mathematics, political science, and the natural sciences.

The **Philosophy/Law and Society** major is open to undergraduate students with junior standing who have completed LWSO 100 with a grade of "C" or higher. The major offers students a means of understanding complex relationships between social institutions and provides a strong basis for graduate studies in areas related to law and philosophy. The Philosophy/Law and Society curriculum is sound background for students planning on pursuing the study of law.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

The department offers two majors: the traditional Philosophy major, and a Philosophy/Law and Society major.

Philosophy Major

The major requirements for the B.A. degree in Philosophy are as follows:

Fifty-six (56) units of course work in Philosophy including at least 36 upper-division units.

1. **PHIL 007 or PHIL 007H and PHIL 008 or PHIL 008H**
2. **PHIL 100 or PHIL 101 (Sophomore-Junior Seminar)**
3. **Three courses in the history of philosophy, at least one of which must be in ancient Greek or Roman philosophy.** Select courses from PHIL 030 (E-Z), PHIL 120 (E-Z), PHIL 121 (E-Z), PHIL 122 (E-Z); a specific list is provided by the Philosophy Department. Not more than two courses may be from PHIL 030 (E-Z)

4. **At least two courses in metaphysics, epistemology, or philosophy of language:** PHIL 130 through PHIL 152, PHIL 159.
5. **At least one course in moral and political philosophy:** PHIL 108, PHIL 116, PHIL 117, PHIL 119, PHIL 153, PHIL 161 through PHIL 169 (E-Z).

Students are urged to consult the department's undergraduate advisor in preparing their course of study each quarter while at UCR.

Philosophy/Law and Society Major

Major requirements for a B.A. degree in Philosophy/Law and Society are as follows:

1. **Philosophy requirements (36 units)**
   a) PHIL 007 or PHIL 007H
   b) Three courses in the history of philosophy (two of which must be upper-division): PHIL 030 (E-Z), PHIL 120 (E-Z), PHIL 121 (E-Z), PHIL 122 (E-Z)
   c) Five courses in moral and political philosophy: PHIL 108, PHIL 116, PHIL 117, PHIL 119, PHIL 153, and PHIL 161 through PHIL 169 (E-Z)
2. **Law and Society requirements (36 units)**
   a) PHIL 007 or PHIL 007H
   b) LWSO 100 (with a grade of "C" or better)
   c) One course chosen from POSC 114, PSYC 012, SOC 004 (or equivalent course in research methods)
   d) Three courses chosen from ANTH 127, ECON 119, HISE 153, PHIL 165, POSC 167, PSYC 175, SOC 159
   e) Two courses chosen from HISA 120A, HISA 120B, HISE 123, LWSO 175 (E-Z), PHIL 164, POSC 111, POSC 166, POSC 168, POSC 186, SOC 147, SOC 149, SOC 180
   f) LWSO 193, Senior Seminar

Note: For sections 2.d) and 2.e) combined, not more than two courses may be taken from the same department. In filling the dual requirements of the major, students may not count more than two courses toward both parts of their total requirements (Philosophy Department requirements and Law and Society requirements). The department has its own Philosophy/Law and Society undergraduate advisor, and each student is urged to consult the advisor in preparing a course of study each quarter while at UCR.

Minor

A student may minor (24 units) in Philosophy by taking either PHIL 007, PHIL 007H, PHIL 008 or PHIL 008H, four upper-division philosophy courses, and one other philosophy course at any level.

Students may also choose to do a Philosophy minor with special emphasis, taking their four upper-division courses from one of the areas listed below:

1. **Philosophy, Literature, and History of Philosophy:** PHIL 120 (E-Z), PHIL 121 (E-Z), PHIL 122 (E-Z), PHIL 132, PHIL 151, PHIL 152, PHIL 150, PHIL 159
2. **Philosophy and Cognitive Science:** PHIL 125, PHIL 126, PHIL 130, PHIL 131, PHIL 132, PHIL 133, PHIL 134, PHIL 135
3. **Philosophy and the Natural Sciences:** PHIL 117, PHIL 130, PHIL 134, PHIL 137, PHIL 140, PHIL 151, PHIL 167
4. **Philosophy and Social and Policy Analysis:** PHIL 153, PHIL 161, PHIL 162, PHIL 163, PHIL 164, PHIL 165

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Track for Distinction in Philosophy

The undergraduate track for Distinction in Philosophy is designed to give qualified upper division students the opportunity to do additional upper division work in Philosophy in a seminar format beyond what is required for the major. It will give students the opportunity and the training to do independent research in Philosophy.

Each Philosophy major in the track for Distinction in Philosophy will be assigned a faculty mentor upon entering the program. Faculty are encouraged to provide more challenging assignments to these students in their upper-division classes (such as term papers, revision of a paper in response to feedback, etc.).

Philosophy students who successfully complete this program are awarded and have posted on their transcript the designation Distinction in Philosophy.

Complete details and an application form are available from the Philosophy Student Affairs Officer.

Prerequisites for the track for Distinction in Philosophy

1. Submission of an application during the last quarter of the sophomore year or during the junior year (no later than the last quarter of the junior year).
2. Completion of 90 units (junior standing).
3. Completion of PHIL 7, PHIL 8, PHIL 100/101, and 2 upper-division courses in Philosophy. Students are encouraged to take the 2 courses in the PHIL 30 series (see below) as early in their major as possible.
4. Cumulative GPA of 3.5 in Philosophy

These pre-requisites can be waived by permission of the Department under exceptional circumstances. Inquiries may be directed to the Philosophy Student Affairs Officer.

Requirements for the track for Distinction in Philosophy

This track adds some requirements to the Philosophy major:

1. 64 units in Philosophy, of which 48 units must be upper division. (The major requires 56 units, of which 36 units must be upper division.)
2. 2 courses in the PHIL 30 series. (These courses count toward the 64 units and the three courses in the History of Philosophy.)
3. 2 quarters of either PHIL 193 OR PHIL 193 and PHIL 195 (8 units total). Students in the University Honors Program may substitute 4 units of HNPG 199H for 4 units of Phil 195. (These courses count towards the 64 units. With Department approval, PHIL 193 and PHIL 195 may be applied toward the History of Philosophy, Metaphysics/Epistemology/Philosophy of Language, or Moral/Political Philosophy requirements.)
4. To receive Distinction in Philosophy, students must have a cumulative GPA of 3.5 in Philosophy upon completion of the program.

Graduate Program

The Department of Philosophy offers the M.A. and Ph.D. degrees in Philosophy.

Admission

All applicants to this program must have completed a bachelor's degree or its approved equivalent from an accredited institution and have attained an undergraduate record that satisfies the standards established by the Graduate Division and University Graduate Council. Applications are accepted for the Fall quarter only. We do not accept terminal MA students. Applicants whose first language is not English are required to submit acceptable scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) unless they have a degree from an institution where English is the exclusive language of instruction. Additionally each applicant must submit a writing sample and three letters of recommendation, at least two of which must be academic references. All other application requirements are specified in the graduate application.

Upon entering the program, a student is assigned a faculty mentor who consults with the student each quarter to discuss the student's individual course of study, progress in the program, and recent performance. Students also consult the Graduate Adviser regularly to discuss their course of study and progress in the program. In the first year, students (whether they have entered with an M.A. or a B.A.) take three proseminars for first-year graduate students, two in Metaphysics and Epistemology, and one in Moral Philosophy (PHIL 275A, PHIL 275B, PHIL 275C). The proseminars are designed to acquaint first-year students with the current state of discussion in central areas of contemporary philosophy and to impart the skills needed to conduct their own research.

Master's Degree

The Department of Philosophy offers the M.A. degree in Philosophy under Plan II (M.A. Paper).

Course Work

Students must complete, with a grade of "B" or better, course work totaling 48 units of graduate credit in philosophy. Of these, 4 units must be from either 275A or 275B and 4 units from PHIL 275C, and an additional 24 units must be taken from PHIL 272A-B-C, 280-283, 284A-B or 285A-B. Up to 16 units may be drawn from PHIL 125, PHIL 220-229, PHIL 242-249, PHIL 253, PHIL 290 or PHIL 292 paired with a 100-level course, depending on the student's interests and background. These courses are to be chosen

only in consultation with the student's advisory committee and the graduate advisor.

Courses taken on a Satisfactory (S)/No Credit (NC) basis cannot be used to satisfy course requirements.

Students should note that although they need not complete distributional requirements or an outside competency requirement to acquire the M.A. degree, there are strict distributional and outside competency requirements for the Ph.D. degree, as well as a colloquium and professional development workshop requirement (described below under the Ph.D requirements). Students who expect to continue on in the Ph.D. program must begin to fulfill these requirements immediately upon entering the program if they expect to acquire the Ph.D. degree within the prescribed period of time.

M.A. Logic Requirement
The logic requirement for the M.A. degree is completion of PHIL 124 with a grade of "B" or better. Students may be excused from this requirement if they show sufficient knowledge of logic upon entering the graduate program, as indicated by an optional diagnostic examination administered at the start of each academic year. Students who are unsure about the adequacy of their background are encouraged to take the test for diagnostic purposes.

M.A. Paper
Students select a paper to submit to the graduate advisor as their M.A. paper no later than the end of the spring quarter of their second year. M.A. papers can be seminar papers, revised seminar papers, or any other paper that the student has written (of 25 pages or less). Further information on what constitutes an acceptable paper is available in the graduate student handbook.

Upon the submission of this paper, the graduate advisor selects three faculty members to serve as the M.A. committee, which conducts an oral examination on the paper. Normally the oral examination will be completed before the end of the student's second year, but it may be postponed until the fall quarter of the student's third year. Failure to pass the M.A. oral examination after two opportunities constitutes grounds for dismissal from the program. In addition, completion of the M.A. requirements does not guarantee permission to continue in the Ph.D. program.

Doctoral Degree

The Department of Philosophy offers the Ph.D. degree in Philosophy.

Admission
Students are invited to continue toward candidacy for the Ph.D. degree on the basis of performance in courses and seminars, satisfactory completion of the M.A. requirements, and the recommendation of the graduate advisor. A student's course of study is supervised by the student's faculty mentor, in consultation with the graduate advisor until the student's dissertation committee is appointed. Students with a master's degree in Philosophy from other universities are eligible for admission. These students must enroll in the first-year proseminars.

Course Work
Students must complete 12 more units in philosophy, with a grade of "B" or better, in addition to the 48 units for the M.A. degree. With the graduate advisor's approval, 4 of these units may be satisfied by fulfillment of the outside competency requirement only when this requirement is satisfied by mastery of a newly acquired language other than English that is needed for one's dissertation project. Of the student's 60 letter- graded graduate units in philosophy, 12 units must be in the area of the history of philosophy, with 4 of these in ancient philosophy, 4 units in addition to the proseminar (PHIL 275A or PHIL 275B) in the area of metaphysics and epistemology, and 8 units in addition to the proseminar (PHIL 275C) in the area of ethics, political philosophy, and aesthetics. Courses that fulfill the History of Philosophy distribution requirement are PHIL 282 and 284 A-B. Depending on the course syllabus PHIL 272 A-B-C, 280, 281, and 290 may fulfill the History of Philosophy distribution requirement. Depending on the course syllabus PHIL 272 A-B-C, 280-282, 284 A-B, and 290 may fulfill the Ancient Philosophy distribution requirement. Depending on the course syllabus all graduate level courses except Phil 291 and 292 may fulfill the Metaphysics and Epistemology distribution requirement. Depending on the course syllabus all graduate level courses except 291 and 292 may fulfill the Ethics, Political Philosophy, and Aesthetics distribution requirement.

Forty of these 60 letter- graded units must be seminars and workshops taken from PHIL 272A-B-C, 275A-B-C, 276, 280-283, 284A-B or 285A-B. (Only 4 letter-graded units of PHIL 276 count towards the 60 letter- graded units of the PhD course requirements.) Up to 20 units may be drawn from PHIL 125 or PHIL 290-292. Students are required to enroll in PHIL 276 three times during their third and fourth years, with the default schedule being twice in the third year and once in the fourth year, although students can petition the graduate advisor for a different schedule if it better suits their advancement through the requirements. One quarter of PHIL 276 must be taken for 4 units on a letter- graded basis. (Students who have advanced to candidacy by the first day of classes of the spring quarter of their fourth year are exempted from a third quarter of PHIL 276.) Seminars from other UC Philosophy Departments via Intercampus Exchange count toward the Ph.D. course and seminar requirements. Graduate seminars in other disciplines (either at UCR or via Intercampus Exchange at another UC campus) may count toward the Ph.D. course and seminar requirements by petition to the Graduate Advisor. Students are in addition expected to take one seminar or workshop each quarter until they advance to candidacy (taken from PHIL 272A-B-C, 275A-B-C, 276, 280-283, 284A-B or 285A-B.) Students can petition the graduate advisor for exemptions from this requirement .

Colloquia and Professional Development Workshop Requirement
Students must register for the PHIL 270 (Philosophy Colloquia) during each quarter of their first and second years. Students must register for PHIL 400 (Research and Professional Development Workshop) during each quarter of their second and third years.

Outside Competency Requirement
Students must show a competence in an area outside of philosophy relevant to their proposed dissertation topic. This can include competence in a technical area in statistics, psychology, neuroscience, physics, etc., demonstrated by earning a grade of B or higher in a graduate level course in another department as approved by the graduate advisor. For students whose dissertation topic primarily concerns texts in a language other than English, the competency requirement must be completed by demonstrating mastery of that language by passing a translation exam administered by the department.

Logic Requirement
Students must pass PHIL 125 (Intermediate Logic) with a grade of "B" or better.

Third-Year Paper Requirement
By the start of the Fall term of their third year, students must have a Third-Year advisor, reported to the graduate advisor. In consultation with their advisors, students should construct a bibliography on a proposed area of research. By the end of the Winter term of their third year (exceptions on time line can be made on graduate advisor's discretion in consultation with the advisor), students must complete an acceptable Third-Year Paper, approved by a committee of three faculty members of the philosophy department including the Third-Year advisor. The default expectation is the Third-Year Paper consists of a bibliography and a literature review of the area and works listed on that bibliography. (While there is an expectation that the reviewed area of research will remain the same through the prospectus and dissertation, this is not required.) There is also an option to write a 25-page original research paper in lieu of a literature review essay, in consultation with the Third-Year advisor and graduate advisor.

Written and Oral Qualifying Examinations
Students must write a dissertation prospectus and pass a qualifying oral examination before advancing to candidacy, by the end of the Spring quarter of the fourth year (exceptions can be made at the graduate advisor's discretion in consultation with the prospectus advisor). This examination, which is supervised by a faculty committee as stipulated in the regulations of the Graduate Division, concentrates on the students' preparation for writing a dissertation as indicated by the dissertation prospectus. It must be taken after the student has passed the M.A., language, and proposition requirements and normally occurs within two quarters of the completion of these requirements.

The Oral Qualifying Exam can be taken in one of the following modes: In-Person, Hybrid, or Remote. The student and their advisor will discuss which mode best suits the subject matter, with the advisor making the final determination. In-Person exams will take place on campus unless the advisor in consultation with their student decides on another location. The student and all committee members must be physically present for In-Person exams. If Hybrid is chosen, the student and their advisor will discuss who is expected to be in-person and who can be remote, with

the advisor making the final determination. Finally, if Remote is chosen, the student and all committee members have the option to attend remotely.

Dissertation and Final Oral Examination
A dissertation to be presented as prescribed by the Graduate Council is prepared under the direction of the candidate's dissertation committee. After completion of the dissertation, the candidate is examined in its defense by the dissertation committee.

The Final Oral Examination can be taken in one of the following modes: In-Person, Hybrid, or Remote. The student and their advisor will discuss which mode best suits the subject matter, with the advisor making the final determination. In-Person exams will take place on campus unless the advisor in consultation with their student decides on another location. The student and all committee members must be physically present for In-Person exams. If Hybrid is chosen, the student and their advisor will discuss who is expected to be in-person and who can be remote, with the advisor making the final determination. Finally, if Remote is chosen, the student and all committee members have the option to attend remotely.

Normative Time to Degree 18 quarters

Lower-Division Courses

PHIL 001 Introduction to Philosophy 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introductory exploration into the nature of the individual, his/her place in the universe, and the forces that shape his/her destiny. Credit is awarded for one of the following PHIL 001 or PHIL 001H.

PHIL 001H Honors Introduction to Philosophy 4 Lecture, 2 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): admission to University Honors or consent of instructor. Honors course corresponding to PHIL 001. An introductory course designed to explore a small number of classical texts central to philosophy and the liberal arts and sciences. Students examine issues surrounding the nature of knowledge, the foundations of moral philosophy, and the relation of both to the development of the human and natural sciences. Texts may vary from year to year and include works by such authors as Plato, Aristotle, Descartes, Hobbes, Hume, and Kant. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of PHIL 001 or PHIL 001H.

PHIL 002 Contemporary Moral Issues 4 Lecture, 3 hours; discussion, 1 hour. A philosophical analysis of contemporary moral issues such as abortion, discrimination, sexual morality, punishment, the obligation to obey the law, suicide, euthanasia, war, and privacy. Credit is awarded for one of the following PHIL 002 or PHIL 002H.

PHIL 002H Honors Contemporary Moral Issues 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): admission to University Honors; or consent of instructor. Honors course corresponding to PHIL 002. A philosophical analysis of contemporary moral issues such as abortion, discrimination, sexual morality, punishment, the obligation to obey the law, suicide, euthanasia, war, and privacy. Credit is awarded for one of the following PHIL 002H or PHIL 002.

PHIL 003 Ethics and the Meaning of Life 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Approaches the basic question of value: how should one live? Covers classical and contemporary discussions of issues such as the human good; human virtue; the role of pleasure and happiness; egoism and altruism; duty; the relativity and objectivity of value; the meaning of life; death; autonomy; integrity; and conscience. Credit is awarded for one of the following PHIL 003, PHIL 003H, or PHIL 003W.

PHIL 003H Honors Ethics and the Meaning of Life 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to University Honors; or consent of instructor. Honors course corresponding to PHIL 003. Approaches one of the basic questions of value: How should one live? Covers classical and contemporary discussions of issues such as the human good, human virtue, the role of pleasure and happiness, egoism and altruism, duty, the relativity and objectivity of value, the meaning of life, death, autonomy, integrity, and conscience. Credit is awarded for one of the following PHIL 003H, PHIL 003, or PHIL 003W.

PHIL 003W Ethics and the Meaning of Life 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): concurrent enrollment in WRIT 040F; WRIT 020 with a grade of C or better or WRIT 020S with a grade of C or better or ENGL 001B with a grade of C or better; or consent of instructor. Approaches one of the basic questions of value: how should one live? Covers classical and contemporary discussions of issues such as the human good; human virtue; the role of pleasure and happiness; egoism and altruism; duty; the relativity and objectivity of value; the meaning of life; death; autonomy; integrity; and conscience. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student?s college permits, as alternatives to English 001C. Credit is awarded for one of the following PHIL 003W, PHIL 003, or PHIL 003H.

PHIL 004 Introduction to the Philosophy of Race 4 Lecture, 3 hours; discussion, 1 hour; Prerequisite(s): none. Introduction to the philosophy of race from classical theorists to contemporary critical race theory. Topics covered include the Enlightenment, discussions of race in the founding of the American Republic, Supreme Court decisions from Dred Scott to recent affirmative action decisions, and the concept of race as a social construction.

PHIL 005 Evil 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to the nature of evil, its motivation, and its origins. Utilizes a variety of sources to examine these themes including classical philosophical texts and contemporary films. Credit is awarded for one of the following PHIL 005 or PHIL 005H.

PHIL 005H Honors Evil 4 Lecture, 3 hours; discussion, 1 hour; Prerequisite(s): admission to University Honors or consent of instructor. Honors course corresponding to PHIL 005. An introduction to the nature of evil, its motivation, and its origins. Utilizes a variety of sources to examine these themes, including classical philosophical texts and contemporary films. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of PHIL 005 or PHIL 005H.

PHIL 006 Reason, Belief, and Truth 4 Lecture, 3 hours; discussion, 1 hour; Prerequisite(s): none. An introductory examination of the nature of reason, rationality, argument, proof, and persuasion and the nature of theory, belief, faith and conviction, and truth and falsity. Discusses the various bodies of belief and modes of inquiry, such as the natural and social sciences, the humanities, morality, religion, and mathematics.

PHIL 007 Introduction to Critical Thinking 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. A practical examination of reasoning and argument topically illustrated. Credit is awarded for one of the following PHIL 007 or PHIL 007H.

PHIL 007H Honors Introduction to Critical Thinking 4 Lecture, 3 hours; discussion, 1 hour; Term Paper, 3 hours. Prerequisite(s): admission to University Honors or consent of instructor. Honors course corresponding to PHIL 007. A practical examination of reasoning and argument, topically illustrated. Satisfactory (S) or No Credit (NC) grading is not available. Credit is only awarded for one of PHIL 007 or PHIL 007H.

PHIL 008 Introduction to Logic 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to symbolic logic. Teaches how to distinguish in a precise way valid deductive arguments from those that are invalid. Includes learning to use logical symbolism, truth tables, and formal deductions. Credit is awarded for one of the following PHIL 008 or PHIL 008H.

PHIL 008H Honors Introduction to Logic 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): admission to University Honors or consent of instructor. Honors course corresponding to PHIL 008. An introduction to symbolic logic. Teaches how to distinguish, in a precise way, valid deductive arguments from those that are invalid; includes learning symbolism, truth tables, and formal deductions. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of PHIL 008 or PHIL 008H.

PHIL 009 Biomedical Ethics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduces the major camps in ethical theory: utilitarianism, deontology, virtue ethics, and feminist ethics. Applies these theories to critically examine contemporary issues in bioethics. Includes stem-cell research,

assisted reproductive technologies, contract gestation, maternal-fetal conflicts, genetic and pharmacological enhancements, access to health care, and physician-assisted suicide. Credit is awarded for one of the following PHIL 009 or PHIL 009H.

PHIL 009H Honors Biomedical Ethics 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): admission to University Honors or consent of instructor. Honors course corresponding to PHIL 009. Introduces the major camps in ethical theory - utilitarianism, deontology, virtue ethics, and feminist ethics. Applies these theories to critically examine contemporary issues in bioethics. Includes stem-cell research, assisted reproductive technologies, contract gestation, maternal-fetal conflicts, genetic and pharmacological enhancements, access to health care, and physician-assisted suicide. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of PHIL 009 or PHIL 009H.

PHIL 010 Language, Mind, and Reality 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): none. Explores the nature of language, communication, and mentality and their role in shaping our thought and experience of the world. Tackles questions about the innateness of concepts, the social and rational norms governing communication, the nature of speech acts and their connection to hate speech and pornography, and the scope of mentality. Credit is awarded for only one of PHIL 010 or PHIL 010H.

PHIL 010H Honors Language, Mind, and Reality 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): admission to University Honors or consent of instructor. Honors course corresponding to PHIL 010. Explores the nature of language, communication, and mentality and their role in shaping our thought and experience of the world. Tackles questions about the innateness of concepts, the social and rational norms governing communication, the nature of speech acts and their connection to hate speech and pornography, and the scope of mentality. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of PHIL 010 or PHIL 010H.

PHIL 012 Introductory Seminar in Moral Philosophy 4 Seminar, 3 hours; extra reading, 32 hours. Prerequisite(s): none. An introduction to a small number of central moral issues: Small class size in order to provide for substantial discussion and close supervision of written papers.

PHIL 030 (E-Z) Introduction to the History of Philosophy 4 Lecture, 3 hours; discussion, 1 hour. Introductory surveys of important periods and subjects in the history of Western philosophy. Topics include E. Hellenic Philosophy: Pre-socratics Through Aristotle; F. Hellenistic Philosophy: Epicureans, Stoics, And Skeptics; G. Medieval Philosophy; I. Early Modern Philosophy; J. Late Modern Philosophy; K. Nineteenth-century Philosophy; M. History Of Ethics; N. History Of Political Philosophy.

Upper-Division Courses

PHIL 100 Sophomore-Junior Seminar 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): one course in philosophy; sophomore, junior, or senior standing in Philosophy or Philosophy/Law and Society. A writing-intensive seminar designed to introduce students to philosophical analysis and writing through an in-depth focus on a philosophical text or issue. Content varies. Credit is awarded for only one of PHIL 100 or PHIL 101.

PHIL 101 Sophomore and Junior Lecture 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): one course in philosophy; sophomore, junior, or senior standing in Philosophy or Philosophy/Law and Society. A writing-intensive seminar designed to introduce students to philosophical analysis and writing through an in-depth focus on a philosophical text or issue. Content varies. Credit is awarded for only one of PHIL 100 or PHIL 101.

PHIL 107 Languages and Minds 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): one course in philosophy or consent of instructor. An investigation of interrelated issues in the philosophy of mind and language, including the mind-body relation, theories of meaning, how thoughts and language represent states of affairs in the world, and the nature of consciousness.

PHIL 108 Philosophical Issues of Race and Gender 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Investigates philosophical issues concerning race and gender. Includes the role of cultural and biological criteria in defining these concepts; roles of race and gender in personal identity; nature of racism, sexism, and their variants; and policy implications such as affirmative action and the civil status of homosexual relationships. Cross-listed with GSST 108.

PHIL 109 Philosophy of Technology 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of sophomore, junior, or senior; or consent of instructor. An introduction to philosophical issues concerning technology. Includes the nature of technology; technical artifacts and design; technological knowledge; techno-science; the development of technology; ethical problems concerning technology; technology and gender; socio-technological systems and technocracy; anti-technology; technology and art; and technology and the environment.

PHIL 110 Asian Philosophy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of sophomore, junior, or senior; or consent of instructor. A survey of Asian contributions to philosophy focusing on the Indian and Chinese traditions. Examines questions concerning how best to live one's life, what can be known, the relation between mind and body, whether there are minds and bodies, and the nature of the universe. Cross-listed with CHN 112.

PHIL 111 Philosophy, Film, and Reflective Popular Culture 4 Lecture, 3 hours; screening, 1 hour; extra reading, 2 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines a number of philosophical themes as depicted in film and other media of reflective popular culture. Includes screenings of four or five films; each is examined for the philosophical issues it raises. Themes may include integrity, love, spirituality, meaning, identity, and morality.

PHIL 112 Mortal Questions 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Focuses on aspects of the distinctively human capacity to lead a meaningful life by investigating aspects of the nature of the mind and human freedom. Discusses the nature of death and its place in the context of a meaningful life.

PHIL 113 God 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing. Topics include examination of the nature of divinity and the nature of evil, the influence of the concept of God upon philosophical history, ideals, and values, and the riddle of an after-life.

PHIL 114 Science and Human Understanding 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one course in philosophy or consent of instructor. Discusses how contemporary philosophers have examined human understanding as exemplified in science.

PHIL 115 The Care of the Soul 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A historical and contemporary examination of the role philosophy has played in nurturing the human spirit in the face of other philosophical efforts to demythologize the soul into neural functions or even mere congeries of atoms in motion in the void.

PHIL 116 Business Ethics 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An inquiry into some of the moral issues arising from business life, such as conflicts of interest, responsibility to consumers, corporate culture and character, and the morality of competition. Also considers the history of ethics and the history business as an institution.

PHIL 117 Environmental Ethics 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 001 or PHIL 001H or PHIL 002 or PHIL 002H or PHIL 003 or PHIL 003H or PHIL 003W or PHIL 004 or PHIL 005 or PHIL 006 or PHIL 007 or PHIL 007H or PHIL 008 or PHIL 008H or PHIL 009 or PHIL 009H or PHIL 010 or PHIL 010H or PHIL 012 or PHIL 030E or PHIL 030F or PHIL 030G or PHIL 030I or PHIL 030J or PHIL 030K or PHIL 030M or PHIL 030N; or consent of instructor. A philosophic consideration of ethical problems that arise from the use and exploitation of the environment. Topics include workplace pollution hazards; environmental pollution and protection of collective natural resources; the rights of future generations; the rights of animals; the protection of

endangered species; and related issues.

PHIL 118 Personhood and Personal Identity 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of sophomore, junior, or senior; or consent of instructor. Develops basic elements of the concept of personhood and how persons are thought to differ crucially from non-human animals. Considers theories about what is essential to individuals and what makes one the same person over time. Explores the relationship between these metaphysical issues and various moral issues.

PHIL 119 Economics and Philosophy 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 104B or consent of instructor. Examines issues on the boundary of economics and philosophy. Topics include social choice theory and economic justice; foundations of utility theory, rational choice, and economic welfare; and epistemology and the philosophies of science of Popper, Kuhn, and others. Cross-listed with ECON 117.

PHIL 120 (E-Z) Ancient Philosophy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 001 or PHIL 001H or PHIL 002 or PHIL 002H or PHIL 003 or PHIL 003H or PHIL 003W or PHIL 004 or PHIL 005 or PHIL 006 or PHIL 007 or PHIL 007H or PHIL 008 or PHIL 008H or PHIL 009 or PHIL 009H or PHIL 010 or PHIL 010H or PHIL 012 or PHIL 030E or PHIL 030F or PHIL 030G or PHIL 030I or PHIL 030J or PHIL 030K or PHIL 030M or PHIL 030N. Each segment covers a major figure in ancient Greek or Roman philosophy. E. Plato; F. Aristotle; G. Plato And Aristotle; I. Cicero; J. Seneca; K. Plutarch; N. Nietzsche; Q. Plato And Aristotle; R. Aristotle; S. Seneca; T. Descartes; U. Reid; V. Hume; W. Wittgenstein; X. Bertrand Russell.

PHIL 121 (E-Z) Major Philosophers 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 001 or PHIL 001H or PHIL 002 or PHIL 002H or PHIL 003 or PHIL 003H or PHIL 003W or PHIL 004 or PHIL 005 or PHIL 006 or PHIL 007 or PHIL 007H or PHIL 008 or PHIL 008H or PHIL 009 or PHIL 009H or PHIL 010 or PHIL 010H or PHIL 012 or PHIL 030E or PHIL 030F or PHIL 030G or PHIL 030I or PHIL 030J or PHIL 030K or PHIL 030M or PHIL 030N. Each segment covers a major figure in the history of medieval, early modern, or late modern philosophy. E. Aquinas; F. Descartes; G. Leibniz; H. Logic; I. Spinoza; J. Locke; K. Hume; L. Political Philosophy; M. Reid; N. Kant; O. Hegel; P. Philosophy Of Law; Q. Nietzsche; R. Royce; S. Freud; T. Heidegger; U. Russell; V. Wittgenstein; W. Political Philosophy; X. Kripke; Y. Kant&post-kantian Eur Morl Phl.

PHIL 122 (E-Z) Topics in Hostory of Philosophy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 001 or PHIL 001H or PHIL 002 or PHIL 002H or PHIL 003 or PHIL 003H or PHIL 003W or PHIL 004 or PHIL 005 or PHIL 006 or PHIL 007 or PHIL 007H or PHIL 008 or PHIL 008H or PHIL 009 or PHIL 009H or PHIL 010 or PHIL 010H or PHIL 012 or PHIL 030E or PHIL 030F or PHIL 030G or PHIL 030I or PHIL 030J or PHIL 030K or PHIL 030M or PHIL 030N. Topics include E. Ancient Philosophy; F. Medieval Philosophy; I. French Renaissance Philosophy; J. Early Modern Philosophy; M. Moral Theories Of Hume And Kant; N. Nineteenth-century Philosophy; O. Kant And Post-kantian European Moral Philosophy; Q. Political Philosophy; R. Origins Of Analytical Philosophy.

PHIL 123 Readings in Classical Chinese Philosophy 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): CHN 104 or consent of instructor. Introduces selections from key philosophical texts in classical Chinese. Focuses on a combination of Chinese reading and philosophical understanding. Cross-listed with CHN 106.

PHIL 124 Formal Logic 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CS 011/MATH 011 or CS 120A/EE 120A or CS 150 or PHIL 008 or PHIL 008H or consent of instructor. An introduction to first-order logic, the core of the logic often used in contemporary philosophy, mathematics, computer science, and linguistics.

PHIL 125 Intermediate Logic 4 Lecture, 3, hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): PHIL 124 or consent of instructor. The basic metatheory of first-order logic; with an emphasis on the precise relation between its syntax (formulas, rules of inference, and proofs) and semantics (interpretations, truth, validity), leading to the soundness and completeness theorems.

PHIL 126 Advanced Logic 4 Lecture, 3 hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): PHIL 124 with a grade of C- or better; or consent of instructor. Advanced metatheory of first-order logic, leading to a discussion of some of the important incompleteness, undecidability, and non-expressability results of twentieth-century logic. Includes the writings of Godel, Church, and Turing.

PHIL 127 Advanced Topics in Logic 4 Lecture, 3 hours; extra reading, 1 hour; activity, 3 hours. Prerequisite(s): PHIL 124 with a grade of C- or better; or consent of instructor. A study of selected non-truth-functional and nonstandard logics. Includes modal logics, tense logics, free logics, paraconsistent logics, and set theory. Course is repeatable.

PHIL 128 Introduction to Arabic Philosophy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to Arabic philosophical texts. Provides close and literary reading of texts in philosophy, as well as considers the impact these texts have had or can have on Western cultural formation. Cross-listed with ARLC 154, and CPLT 154.

PHIL 129 History of Philosophy in India 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. An examination of the main philosophical themes, figures, and texts in premodern India. Pays particular attention to Hindu, Buddhist, and Jain philosophy. Cross-listed with AST 130, and RLST 129.

PHIL 130 Theory of Knowledge 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 001 or PHIL 001H or PHIL 002 or PHIL 002H or PHIL 003 or PHIL 003H or PHIL 003W or PHIL 004 or PHIL 005 or PHIL 006 or PHIL 007 or PHIL 007H or PHIL 008 or PHIL 008H or PHIL 009 or PHIL 009H or PHIL 010 or PHIL 010H or PHIL 012 or PHIL 030E or PHIL 030F or PHIL 030G or PHIL 030I or PHIL 030J or PHIL 030K or PHIL 030M or PHIL 030N; or consent of instructor. An inquiry into the nature of human knowledge its possibilities, criteria, scopes, and limitations.

PHIL 131 Twentieth-Century Analytic Philosophy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 001 or PHIL 001H or PHIL 002 or PHIL 002H or PHIL 003 or PHIL 003H or PHIL 003W or PHIL 004 or PHIL 005 or PHIL 006 or PHIL 007 or PHIL 007H or PHIL 008 or PHIL 008H or PHIL 009 or PHIL 009H or PHIL 010 or PHIL 010H or PHIL 012 or PHIL 030E or PHIL 030F or PHIL 030G or PHIL 030I or PHIL 030J or PHIL 030K or PHIL 030M or PHIL 030N. A discussion of some major issues and thinkers in the tradition dominant in twentieth-century British and American philosophy. May include Frege, Russell, Carnap, Quine, Kripke, and D. Lewis.

PHIL 132 Philosophy of Language 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. A study of some of the traditional issues in the philosophy of language, such as analyticity, theories of reference, truth, speech act theory, and philosophical theories of formal grammars.

PHIL 133 Metaphysics 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 001 or PHIL 001H or PHIL 002 or PHIL 002H or PHIL 003 or PHIL 003H or PHIL 003W or PHIL 004 or PHIL 005 or PHIL 006 or PHIL 007 or PHIL 007H or PHIL 008 or PHIL 008H or PHIL 009 or PHIL 009H or PHIL 010 or PHIL 010H or PHIL 012 or PHIL 030E or PHIL 030F or PHIL 030G or PHIL 030I or PHIL 030J or PHIL 030K or PHIL 030M or PHIL 030N; or consent of instructor. An investigation of some of the traditional problems in Western philosophy that have been labeled metaphysical. Addresses the existence of God, the relationship between mind and body, the determinism versus free will debate, and the nature of time and space.

PHIL 134 Philosophy of Mind 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 001 or PHIL 001H or PHIL 002 or PHIL 002H or PHIL 003 or PHIL 003H or PHIL 003W or PHIL 004 or PHIL 005 or PHIL 006 or PHIL 007 or PHIL 007H or PHIL 008 or PHIL 008H or PHIL 009 or PHIL 009H or PHIL 010 or PHIL 010H or PHIL 012 or PHIL 030E or PHIL 030F or PHIL 030G or PHIL 030I or PHIL 030J or PHIL 030K or PHIL 030M or PHIL 030N; or consent of instructor. A study of several theories of the nature of mind. Analyzes particular issues occasioned by these theories including the mind-body problem, personal identity, emotions, human action, self-knowledge, knowledge of other minds, and explanations of human behavior.

PHIL 135 Philosophy of Psychology 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 001 or PHIL 001H or PHIL 002 or PHIL 002H or PHIL 003 or PHIL 003H or PHIL 003W or PHIL 004 or PHIL 005 or PHIL 006 or PHIL 007 or PHIL 007H or PHIL 008 or PHIL 008H or PHIL 009 or PHIL 009H or PHIL 010 or PHIL 010H or PHIL 012 or PHIL 030E or PHIL 030F or PHIL 030G or PHIL 030I or PHIL 030J or PHIL 030K or PHIL 030M or PHIL 030N; or consent of instructor. Examines philosophical issues arising in the context of empirical psychology. Topics may include moral development, artificial intelligence and the modeling of cognition, the nature of perception and memory, fallacies in human reasoning, mechanisms of self-understanding, and mental illness and personhood.

PHIL 136 Philosophy of Biology 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 001 or PHIL 001H or PHIL 006 or PHIL 010 or PHIL 010H or PHIL 114 or PHIL 133 or PHIL 134 or PHIL 135 or PHIL 137 or PHIL 144; BIOL 002 or BIOL 003 or BIOL 005A or BIOL 005B or BIOL 005C or BIOL 010 or BIOL 020 or BIOL 030 or BIOL 034; restricted to class level standing of junior, or senior. Examines philosophical issues central to the life sciences. Topics include life, evolutionary theory, fitness, the units of selection, information, genetic and epigentic inheritance, and the evolution of minds.

PHIL 137 Philosophy of Science 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 001 or PHIL 001H or PHIL 002 or PHIL 002H or PHIL 003 or PHIL 003H or PHIL 003W or PHIL 004 or PHIL 005 or PHIL 006 or PHIL 007 or PHIL 007H or PHIL 008 or PHIL 008H or PHIL 009 or PHIL 009H or PHIL 010 or PHIL 010H or PHIL 012 or PHIL 030E or PHIL 030F or PHIL 030G or PHIL 030I or PHIL 030J or PHIL 030K or PHIL 030M or PHIL 030N; or consent of instructor. Discusses topics including understanding scientific objectivity in the light of history and sociology of science; realism and anti-realism about scientific theories; scientific methodology and its logic; and the nature of scientific explanation.

PHIL 138 (E-Z) Philosophy of Agency 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 001 or PHIL 001H or PHIL 002 or PHIL 002H or PHIL 003 or PHIL 003H or PHIL 003W or PHIL 004 or PHIL 005 or PHIL 006 or PHIL 007 or PHIL 007H or PHIL 008 or PHIL 008H or PHIL 009 or PHIL 009H or PHIL 010 or PHIL 010H or PHIL 012 or PHIL 030E or PHIL 030F or PHIL 030G or PHIL 030I or PHIL 030J or PHIL 030K or PHIL 030M or PHIL 030N; or consent of instructor. An investigation of problems that arise in attempts to understand human agency. Includes the nature and explanation of action, intention, free will and moral responsibility, and weakness of will. E. Autonomy, Identification And Moral Psychology; F. Action, Intention, And Responsibility; G. Kinds Of Agency; I. Individual And Collective Agency.

PHIL 139 Philosophy of Mathematics 4 Lecture, 3 hours; activity, 3 hours. Prerequisite(s): PHIL 124; or one mathematics course; or consent of instructor. Discusses topics including abstract nature of mathematical objects, the sources of mathematical knowledge, the relation between mathematics and logic, and the infinite in mathematics. Considers the development of some selected parts of mathematics (especially arithmetic, geometry, algebra, and set theory) and of various corresponding philosophical positions (platonism, formalism, intuitionism, structuralism). Course is repeatable.

PHIL 140 Topics in Metaphysics 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one course in philosophy or consent of instructor. An in-depth discussion of selected issues in contemporary metaphysics, such as abstract objects, essentialism and identity, laws of nature, free will, and determinism. Course is repeatable as content changes.

PHIL 142 Advanced Topics in the Philosophy of Language 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): PHIL 107 or PHIL 132 or consent of instructor. An in-depth study of a particular topic in the philosophy of language. Potential topics include context-sensitivity (how the meaning of a sentence depends upon nonlinguistic facts about context); theories of meaning (e.g., the Frege-Russell account in terms of propositions, the Lewis-Stalnaker possible worlds account, and Davidson's truth theory account). Courses is repeatable as content changes to a maximum of 8 units. Credit is awarded for only one of PHIL 142 or PHIL 242.

PHIL 144 Advanced Topics in Philosophy of Mind 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): PHIL 107 or PHIL 134 or consent of instructor. Examines a selected topic in philosophy of mind. Potential topics include consciousness and self-consciousness; intentionality and theories of mental content; mental causation; consciousness and free will; introspection and knowledge of other minds; perception; emotion; imagination; concepts and rationality; artificial minds; and animal minds. Course is repeatable as content changes to a maximum of 8 units. Credit is awarded for only one of PHIL 144 or PHIL 244.

PHIL 145 Philosophy of Psychiatry 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 001 or PHIL 001H or PHIL 002 or PHIL 002H or PHIL 003 or PHIL 003H or PHIL 004 or PHIL 005 or PHIL 006 or PHIL 007 or PHIL 007H or PHIL 008 or PHIL 008H or PHIL 009 or PHIL 009H or PHIL 010 or PHIL 010H or PHIL 012 or PHIL 030E or PHIL 030F or PHIL 030G or PHIL 030I or PHIL 030J or PHIL 030K or PHIL 030M or PHIL 030N; or consent of instructor. Explores philosophical issues arising from psychiatric treatment and research. Topics include definitions of mental health and mental illness, concepts of disorder and abnormality, functionalism, the Diagnostic and Statistical Manual of Mental Disorders, psychosis, delusions, hallucinations, anxiety, depression, addiction, autonomy, the nature of explanation and understanding, and moral and legal responsibility.

PHIL 146 Philosophy of Computer Science and Artificial Intelligence 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 124; PHIL 132 or PHIL 135 or PHIL 136 or PHIL 137; restricted to class level standing of sophomore, junior, or senior. An advanced introduction to the philosophy of computer science and artificial intelligence.

PHIL 147 Pragmatics 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): CS 011 or MATH 011 or LING 020 or PHIL 006 or PHIL 008 or PHIL 008H or PHIL 130 or PHIL 132; restricted to class level standing of sophomore, junior, or senior. An introduction to the study of language use in context. Topics include implicature, presupposition, speech acts, relevance theory, and the semantics-pragmatics interface. Emphasizes theoretical frameworks and empirical data from linguistics, philosophy of language, and cognitive science.

PHIL 148 Philosophy of Information 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 124; PHIL 132 or PHIL 135 or PHIL 136 or PHIL 137; restricted to class level standing of junior, or senior. Examines key issues in the philosophy of information. Includes theories of semantic and naturalistic information, informational ontologies, and the intersections of logic, computation, and cognition. Topics include informational pluralism, structural realism, digital ontology, semantic content, and the use of information in cognitive science and the biological sciences.

PHIL 150 Philosophy in Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one course in philosophy or consent of instructor. An examination of philosophical issues raised by selected novelists, poets, and playwrights.

PHIL 151 Existentialism 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. An examination of philosophical and literary works which deal with the significance of some fundamental human experiences: identity crises, choice and commitment, anxiety and death, the experience of meaninglessness, and alienation.

PHIL 152 Twentieth-Century Continental Philosophy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 001 or PHIL 001H or PHIL 002 or PHIL 002H or PHIL 003 or PHIL 003H or PHIL 003W or PHIL 004 or PHIL 005 or PHIL 006 or PHIL 007 or PHIL 007H or PHIL 008 or PHIL 008H or PHIL 009 or PHIL 009H or PHIL 010 or PHIL 010H or PHIL 012 or PHIL 030E or PHIL 030F or PHIL 030G or PHIL 030I or PHIL 030J or PHIL 030K or PHIL 030M or PHIL 030N; or consent of instructor. Examines the character and consequences of several recent movements in continental philosophy including hermeneutics, structuralism, deconstruction, and critical theory. Discusses authors including Heidegger, Gadamer, Habermas, Derrida, and Foucault.

PHIL 153 Marxist Critique 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-

division standing or consent of instructor. An examination of the ideas central to the tradition of Western Marxism: ideology, critique, reification, instrumental reason, the domination of nature, and communicative action. Theorists discussed typically include Hegel, Marx, Lukacs, Adorno, Horkheimer, Benjamin, and Habermas. Credit is awarded for only one of PHIL 153 or PHIL 253.

PHIL 154 Phenomenology 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of sophomore, junior, or senior; or consent of instructor. A study of the structures and conditions of the lived experience of the world. Explores the major issues, methodology, and historical development of the phenomenological tradition in philosophy. Discusses philosophers including Edmund Husserl, Edith Stein, Martin Heidegger, Max Scheler, Jean-Paul Sartre, Simone de Beauvoir, and Maurice Merleau-Ponty.

PHIL 155 Peace in the Middle East 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of the roots of the Middle Eastern crises. Focuses on the Arab-Israeli conflict and possible solutions toward peace. Addresses problems through historical, religious, and political lines of inquiry. Cross-listed with RLST 155.

PHIL 159 Philosophy of Religion 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. A historical, critical examination of the concepts and arguments involved in the Judeo-Christian God-hypothesis, and the influence of this world view upon the ideals and values of the Western world.

PHIL 161 Ethics 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 001 or PHIL 001H or PHIL 002 or PHIL 002H or PHIL 003 or PHIL 003H or PHIL 003W or PHIL 004 or PHIL 005 or PHIL 006 or PHIL 007 or PHIL 007H or PHIL 008 or PHIL 008H or PHIL 009 or PHIL 009H or PHIL 010 or PHIL 010H or PHIL 012 or PHIL 030E or PHIL 030F or PHIL 030G or PHIL 030I or PHIL 030J or PHIL 030K or PHIL 030M or PHIL 030N; or consent of instructor. A study of the major classical moral philosophers in the Western tradition and of some selected problems of metaethics.

PHIL 162 Human Nature and Radical Evil 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 001 or PHIL 001H or PHIL 002 or PHIL 002H or PHIL 003 or PHIL 003H or PHIL 003W or PHIL 004 or PHIL 005 or PHIL 006 or PHIL 007 or PHIL 007H or PHIL 008 or PHIL 008H or PHIL 009 or PHIL 009H or PHIL 010 or PHIL 010H or PHIL 012 or PHIL 030E or PHIL 030F or PHIL 030G or PHIL 030I or PHIL 030J or PHIL 030K or PHIL 030M or PHIL 030N; or consent of instructor. An advanced study of theories of human nature and evil.

PHIL 163 Political Philosophy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. An inquiry into some of the main philosophic issues arising from political life, such as the nature and justification of authority, democracy, natural rights, justice, equality, and civil disobedience.

PHIL 164 Justice 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. A philosophical analysis of the concept of justice.

PHIL 165 Philosophy of Law 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. An inquiry into the nature of criminal law, the relation between law and morality, the nature of legal responsibility, and the obligation to obey the law. Credit is awarded for one of the following PHIL 165 or PHIL 165H.

PHIL 165H Honors Philosophy of Law 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; admission to University Honors; or consent of instructor. Honors course corresponding to PHIL 165. An inquiry into the nature of criminal law, the relation between law and morality, the nature of legal responsibility, and the obligation to obey the law. Credit is awarded for one of the following PHIL 165H or PHIL 165.

PHIL 166 Philosophy of Feminism 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. An analysis of current concepts and debates in feminist philosophy including gender equality, gender difference, and the relation of sex and gender. Situates various approaches to these topics in the history of philosophy.

PHIL 167 Biomedical Ethics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A philosophical discussion of newly emerging issues, both ethical and social, in biology and medicine, such as genetic engineering, euthanasia, experimentation with human subjects, abortion, behavior control, and patient's right to know.

PHIL 168 Ethics and Families 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Analyzes ethical issues with regard to families. Explores gender relations in traditional marriages; the ethics of same-sex marriage; the morality of abortion, surrogate mothering, and cloning; the justice of school vouchers; the grounds for universal health care; and possible gender inequalities in divorce.

PHIL 169 (E-Z) Topics in Value Theory 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 001 or PHIL 001H or PHIL 002 or PHIL 002H or PHIL 003 or PHIL 003H or PHIL 003W or PHIL 004 or PHIL 005 or PHIL 006 or PHIL 007 or PHIL 007H or PHIL 008 or PHIL 008H or PHIL 009 or PHIL 009H or PHIL 010 or PHIL 010H or PHIL 012 or PHIL 030E or PHIL 030F or PHIL 030G or PHIL 030I or PHIL 030J or PHIL 030K or PHIL 030M or PHIL 030N; restricted to class level standing of junior, or senior. Topics include E. Ethics; F. Aesthetics; G. Political Philosophy; I. Social Philosophy; J. Philosophy Of Law.

PHIL 170 Ethics of Artificial Intelligence 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Examines the ethics of artificial intelligence including algorithmic bias, rights of AI entities, and societal impacts.

PHIL 171 Feminist Bioethics 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. An exploration of the ways in which feminist theory provides insight on contemporary issues in bioethics. Topics include women in clinical research, cosmetic surgery, abortion, contract gestation, fetal protection policies, and the politics of mental illness.

PHIL 172 Reading Philosophical German 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): GER 002R or GER 004 or consent of instructor. Develops reading strategies and translation skills for German philosophical texts through a review of grammar and readings in the original language. Prepares for a graduate-level translation exam and independent research in German. Intermediate to advanced German reading proficiency required; familiarity with German philosophical works is recommended but not required. Cross-listed with GER 172.

PHIL 173 Philosophy of Sex and Sexuality 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Investigates philosophical issues relating to human sexual behaviors and identities. Topics include attempts to distinguish sexual from nonsexual activities; the construction and medicalization of sex and sexuality; and historical and contemporary ethical evaluations of various sexual activities and identities (homosexuality, heterosexuality, masturbation, sadomasochism, various fetishisms, polyamory, and other nonmonogamies).

PHIL 174 Philosophy of Art and Aesthetics 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): Restricted to class level standing of junior, or senior; or consent of instructor. Examination of the main topics in the philosophy of art and aesthetics through both historical and contemporary sources. Addresses the following questions: What is art? What is beauty? What is the relation between the beautiful, the true, and the good? Is beauty mind-dependent? Are there objective standards for judging artworks?

PHIL 175 Philosophy of Perception 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 010 or PHIL 010H or PHIL 107 or PHIL 124 or PHIL 130 or PHIL 132 or PHIL 133 or PHIL 134 or PHIL 135 or PHIL 137 or PSYC 001 or PSYC 002 or PSYC 110 or PSYC 132 or PSYC 134; restricted to class level standing of junior, or senior. Examines the nature of perception (especially vision) from

a philosophically informed interdisciplinary point of view.

PHIL 180 Advanced Topics in the Theory of Knowledge 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 008 or PHIL 124; LING 151 or PHIL 130 or PHIL 131 or PHIL 132 or PHIL 133 or PHIL 134 or PHIL 136 or PHIL 137 or PHIL 139 or PHIL 142 or PHIL 143 or PHIL 144 or PHIL 145 or PHIL 146 or PHIL 147; restricted to class level standing of junior, or senior. Examines key issues in contemporary research in the theory of knowledge. Topics may include the analysis of knowledge, recent work on radical skepticism, empirical findings relevant to theories of knowledge, semantic and contextualist approaches, social epistemology, and feminist approaches to knowledge.

PHIL 190 Special Studies 1 to 5 Prerequisite(s): to be taken with the consent of the department chair as a means of meeting special curricular problems. Course is repeatable to a maximum of 16 units.

PHIL 193 Senior Seminar 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): two upper-division courses in philosophy; senior standing in Philosophy or Philosophy/Law and Society or consent of instructor. Advanced seminar for Philosophy majors. Course is repeatable as content changes to a maximum of 8 units.

PHIL 195 Senior Thesis 1 to 4 Prerequisite(s): enrollment by request of student with approval of department chair . Course is graded In Progress (IP) until the thesis is completed. Course is repeatable to a maximum of 8 units.

PHIL 198 R'course: Variable Topics 1 Activity hours vary per R'Course proposal. Prerequisite(s): permission needed from department; sophomore standing or better. An opportunity for UCR undergraduate students to develop leadership skills, innovate the undergraduate curriculum, and promote democratic, experiential education. Original course topics are variable and unique from other departmental course offerings, designed to highlight the student facilitators' expertise while working closely with a faculty mentor. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as topics change to a maximum of 8 units.

PHIL 198I Individual Internship in Philosophy 2 to 8 Internship, 4 to 16 units; written work, 2 to 8 hours. Prerequisite(s): upper-division standing; consent of instructor. An intern assignment in government, education, science, business, or other field related to philosophy. Students write a substantive philosophical paper pertaining to the work done in the internship. Course is repeatable to a maximum of 8 units.

Graduate Courses

PPHIL 220 (E-Z) Ancient Philosophy 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. Each segment covers a major figure in ancient Greek or Roman philosophy. E. Plato; F. Aristotle; G. Plato And Aristotle; I. Cicero; J. Seneca; K. Plutarch.

PHIL 221 (E-Z) Major Philosophers 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. Each segment covers a major figure in the history of medieval, early modern, or late modern philosophy. E. Aquinas; F. Descartes; G. Leibniz; I. Spinoza; J. Locke; K. Hume; M. Reid; N. Kant; O. Hegel; Q. Nietzsche; R. Royce; S. Freud; T. Heidegger; V. Wittgenstein; X. Kripke.

PHIL 222 (E-Z) Topics in History of Philosophy 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. Topics include E. Ancient Philosophy; F. Medieval Philosophy; I. French Renaissance Philosophy; J. Early Modern Philosophy; M. Moral Theories Of Hume And Kant; N. Nineteenth-century Philosophy; O. Kant And Post-kantian European Moral Philosophy; Q. Political Philosophy; R. Origins Of Analytical Philosophy.

PHIL 242 Advanced Topics in the Philosophy of Language 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. An in-depth study of a particular topic in the philosophy of language. Potential topics include context-sensitivity (how the meaning of a sentence depends upon nonlinguistic facts about context); theories of meaning (e.g., the Frege-Russell account in terms of propositions, the Lewis-Stalnaker possible worlds account, and Davidson's truth theory account). Students who complete all writing assignments, including a term paper, receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 8 units. Credit is awarded for only one of PHIL 142 or PHIL 242.

PHIL 244 Advanced Topics in Philosophy of Mind 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. Examines a selected topic in philosophy of mind. Potential topics include consciousness and self-consciousness; intentionality and theories of mental content; mental causation; consciousness and free will; introspection and knowledge of other minds; perception; emotion; imagination; concepts and rationality; artificial minds; and animal minds. Students who complete all writing assignments, including a term paper, receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 8 units. Credit is awarded for only one of PHIL 144 or PHIL 244.

PHIL 253 Marxist Critique 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. An examination of the ideas central to the tradition of Western Marxism: ideology, critique, reification, instrumental reason, the domination of nature, and communicative action. Theorists discussed typically include Hegel, Marx, Lukacs, Adorno, Horkheimer, Benjamin, and Habermas. Students who complete all writing assignments, including a term paper, receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Credit is awarded for only one of PHIL 153 or PHIL 253.

PHIL 270 Philosophy Colloquia 1 Colloquium, 1 hour. Prerequisite(s): graduate standing. Visiting scholars give oral reports on current research in philosophy and discuss them with students and faculty. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PHIL 272A Workshop in Philosophy 2 to 4 Workshop 2 To 3, Research 1 To 3, Prerequisite(s): graduate standing; consent of instructor. Close reading of a philosophical text or texts on a single topic. May be undertaken as a one-, two-, or three-quarter course (PHIL 272A, PHIL 272B, PHIL 272C). Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. PHIL 272A, PHIL 272B, and PHIL 272C are repeatable to a maximum of 12 units on one topic and to a maximum of 36 units for the three courses.

PHIL 272B Workshop in Philosophy 2 to 4 Workshop 2 To 3, Research 1 To 3, Prerequisite(s): PHIL 272A; consent of instructor. Close reading of a philosophical text or texts on a single topic. May be undertaken as a one-, two-, or three-quarter course (PHIL 272A, PHIL 272B, PHIL 272C). Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. PHIL 272A, PHIL 272B, and PHIL 272C are repeatable to a maximum of 12 units on one topic and to a maximum of 36 units for the three courses.

PHIL 272C Workshop in Philosophy 2 to 4 Workshop 2 to 3, Research 1 to 3, Prerequisite(s): PHIL 272B; consent of instructor. Close reading of a philosophical text or texts on a single topic. May be undertaken as a one-, two-, or three-quarter course (PHIL 272A, PHIL 272B, PHIL 272C). Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. PHIL 272A, PHIL 272B, and PHIL 272C are repeatable to a maximum of 12 units on one topic and to a maximum of 36 units for the three courses.

PHIL 275A Proseminar For First-Year Graduate Students: Metaphysics and Epistemology 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): first-year standing in the graduate program in Philosophy. One course in a three-term sequence designed to introduce new graduate students to current issues and methods of research in metaphysics and epistemology.

PHIL 275B Proseminar For First-Year Graduate Students: Metaphysics and Epistemology 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 275A; first-year standing in the graduate program in Philosophy. One course in a three-term sequence designed to introduce new graduate students to current issues and methods of research in additional areas of metaphysics and epistemology.

PHIL 275C Proseminar For First-Year Graduate Students: Moral Philosophy 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): first- year standing

in the graduate program in Philosophy. One course in a three-term sequence designed to introduce new graduate students to current issues and methods of research.

PHIL 276 Third and Fourth Year Research Seminar 2 or 4 Seminar, 2 hours; extra reading, 3 hours; research, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Teaches skills needed for professional quality research. Familiarizes students with expectations and demands of producing professional work. Provides a forum for acquiring and applying skills to meet expectations and demands. Offers opportunity to present research in progress. Provides a structured environment to develop and hone relevant time management strategies. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 12 units.

PHIL 280 Seminar in Philosophical Problems 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Considers an important philosophical problem. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

PHIL 281 Philosophical Texts 4 Seminar, 3 hours; research, 9 hours. Prerequisite(s): graduate standing; or consent of instructor. Involves focused reading and discussion of common text on research topics in philosophy. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) No Credit (NC) grade. Course is repeatable.

PHIL 282 Seminar in Individual Philosophers 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Considers a major figure in the history of philosophy. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

PHIL 283 Seminar in Contemporary Philosophy 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Covers an aspect of contemporary philosophy. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

PHIL 284A Problems in the History of Philosophy 4 Seminar, 3 hours; research, 9 hours. Prerequisite(s): graduate standing or consent of instructor. Focused reading of texts or problems in the history of Philosophy. May be taken as a one quarter course or with PHIL 284B as part of a two quarter sequence. Students taking PHIL 284A as a one quarter course who submit a term paper receive a letter grade; other students taking it as a one quarter course receive a Satisfactory (S) or No Credit (NC) grade. Students taking PHIL 284A as part of a two quarter sequence with PHIL 284B receive In Progress (IP) until PHIL 284B is completed, at which time one final grade is assigned for both courses. Course is repeatable to a maximum of 40 units.

PHIL 284B Problems in the History of Philosophy 4 Seminar, 3 hours; research, 9 hours. Prerequisite(s): graduate standing or consent of instructor. Focused reading of texts or problems in the history of Philosophy. May be taken as a one quarter course or with PHIL 284A as part of a two quarter sequence. Students taking PHIL 284B as a one quarter course who submit a term paper receive a letter grade; other students taking PHIL 284B as a one quarter course receive a Satisfactory (S) or No Credit (NC) grade. Students taking PHIL 284B as part of a two quarter sequence with PHIL 284A who submit a term paper receive one grade for both courses; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 40 units.

PHIL 285A Problems in Contemporary Philosophy 4 Seminar, 3 hours; research, 9 hours. Prerequisite(s): graduate standing or consent of instructor. Covers a problem or a literature in an area of contemporary philosophy. May be taken as a one quarter course or with PHIL 285B as part of a two quarter sequence. Students taking PHIL 285A as a one quarter course who submit a term paper receive a letter grade; other students taking PHIL 285A as a one quarter course receive a Satisfactory (S) or No Credit (NC) grade. Students taking PHIL 285A as part of a two quarter sequence with PHIL 285B receive In Progress (IP) until PHIL 285B is completed, at which time one final grade is assigned for both courses. Course is repeatable to a maximum of 40 units.

PHIL 285B Problems in Contemporary Philosophy 4 Seminar, 3 hours; research, 9 hours. Prerequisite(s): graduate standing or consent of instructor. Covers a problem or a literature in an area of contemporary philosophy. May be taken as a one quarter course or with PHIL 285B as part of a two quarter sequence. Students taking PHIL 285-A as a one quarter course who submit a term paper receive a letter grade; other students taking PHIL 285-A as a one quarter course receive a Satisfactory (S) or No Credit (NC) grade. Students taking PHIL 285-A as part of a two quarter sequence with PHIL 285-B receive In Progress (IP) until PHIL 285-B is completed, at which time one final grade is assigned for both courses. Course is repeatable to a maximum of 40 units.

PHIL 290 Directed Studies 1 to 6 Term paper, 3 to 18 hours. Prerequisite(s): graduate standing; or consent of instructor. Directed study to meet special curricular needs. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) No Credit (NC) grade. Course is repeatable.

PHIL 291 Individual Studies in Coordinated Areas 2 to 4 Prerequisite(s): graduate standing. A program of studies designed to advise and assist candidates who are preparing for the Comprehensive Examinations. Open to M.A. students only; does not count toward the unit requirement for the M.A. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PHIL 292 Concurrent Analytical Studies in Philosophy 1 to 4 Prerequisite(s): consent of instructor. Each 292 course will be taken concurrently with some 100-series course, approved by the Graduate Advisor, but on an individual basis. It will be devoted to completion of a graduate paper based on research or criticism related to the 100-series course. Faculty guides and evaluations will be provided throughout the quarter. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

PHIL 297 Directed Research 1 to 6 Prerequisite(s): graduate standing. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PHIL 299 Research For Thesis Or Dissertation 1 to 12 Prerequisite(s): graduate standing. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

PHIL 301 Directed Studies in the Teaching of Philosophy 1 Seminar, 1 hour. Prerequisite(s): graduate standing. A program of orientation, lectures, and workshops designed to enhance the Teaching Assistant's understanding of teaching methods in philosophy and to provide opportunities to work closely with experts in college teaching in order to improve the quality of instruction. Required of all new Teaching Assistants. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PHIL 302 Teaching Practicum 1 to 4 Prerequisite(s): employment as Teaching Assistant or Associate. Supervised teaching in lower-division courses and LWSO 100. Required of all teaching assistants in philosophy. Does not count toward the unit requirement for the M.A. degree. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

PHIL 400 Research and Professional Development Workshop 1 Workshop, 8 hours; extra reading, 8 hours. Prerequisite(s): graduate standing. A series of presentations and workshops focused on a variety of issues in research, professional development, and teaching. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 18 units.

Physical Sciences

College of Natural and Agricultural Sciences

The Physical Sciences major is not accepting new students at this time. For more information, contact the CNAS Undergraduate Academic Advising Center, 1223 Pierce Hall, or call (951) 827-7294.

Steve Choi, Ph.D.
Benjamin Donovan, Ph.D.
Andrew Joe, Ph.D.
Shawn Westerdale, Ph.D.

**

Major

The Department of Physics and Astronomy offers two undergraduate degrees: the B.A. and B.S. in Physics.

The **B.S. program** is designed for students with a strong interest in the sciences or engineering who wish to emphasize this aspect of their education and training. The B.S. degree provides a strong background for students who wish to continue on to graduate school.

The **B.A. program** follows the liberal arts tradition with a broader coverage of the humanities and social sciences. It is selected often by students who intend to obtain a teaching credential with a specialty in science or to pursue a career combining business management opportunities with a knowledge in science and technology.

The extensive course offerings and modern facilities within the Department of Physics and Astronomy, coupled with close, personal counseling by faculty advisors, provide students with a physics program that is characterized by its breadth and flexibility.

Career Opportunities

Graduates with a bachelor's degree in Physics generally begin their careers in government or industry. Professions include research and development, system modeling and analysis, and sales in a large variety of fields. A Physics degree provides one of the most flexible qualifications with direct applications to materials science, advanced electronics, lasers and microwave devices, computing and communications.

The federal government and national laboratories employ many physicists as do industries in medical and scientific instruments, computers, audio and telecommunications equipment, financial analysis and investments, material science, and engineering.

The bachelor's degree programs in the UCR Department of Physics and Astronomy are well suited for continued education in graduate school and for preparation in technical and professional careers. Colleges or universities, national laboratories, industry, and governmental agencies employ students with graduate training.

Transfer Students

Students transferring to the Physics major must complete courses comparable to the following one-year sequences before they transfer:

1. General physics (calculus-based) equivalent to PHYS 040A, PHYS 040B, PHYS 040C
2. First-year calculus, equivalent to MATH 007A or MATH 009A, MATH 007B or MATH 009B, MATH 009C

Students must have a minimum grade point average of 2.70 in transferable college courses. UCR has articulation agreements with most of the California community colleges. These agreements list specific community college courses that have been designated as comparable to UCR courses (see the statewide articulation Web site at www.assist.org). Transfer students will usually find it advantageous to complete most or all sequences before starting at UCR. All prospective transfers should try to complete the sequences they begin rather than divide a sequence between two campuses.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Natural and Agricultural Sciences, Colleges and Programs section.

Some of the following requirements for the major may also fulfill some of the college's breadth requirements. Consult with a department advisor for course planning.

Major Requirements

The major requirements consist of a core curriculum and additional requirements for various B.S. degrees. The core requirements for the B.A. and B.S. degrees in Physics are as follows:

1. **Lower-division requirements (70 units)**
   a) one of the following sequences: PHYS 041A, PHYS 041B, PHYS 041C, or PHYS 040A or PHYS 40HA, PHYS 040B or PHYS 40HB, PHYS 040C or PHYS 40HC, PHYS 040D, PHYS 040E. The first sequence is preferred for the B.S. in Physics.
   b) PHYS 039
   c) MATH 007A or MATH 009A or MATH 09HA, MATH 007B or MATH 009B or MATH 09HB, MATH 009C. Students may also satisfy the first-year calculus requirement with the following alternative series: MATH 005A, MATH 005B, MATH 005C
   d) MATH 010A, MATH 010B, MATH 046
   e) CHEM 001A, CHEM 001B, CHEM 001C, CHEM 01LA, CHEM 01LB, CHEM 01LC
   f) Either CS 009A, taught using the Python language (recommended), or CS 010A, taught using the C++ language. A high-level CS course may satisfy this CS requirement with approval.
2. **Upper-division requirements (41 to 42 units)**
   a) PHYS 130A, PHYS 130B, PHYS 132, PHYS 135A, PHYS 135B, PHYS 156A, PHYS 156B
   b) PHYS 139L (5 units), PHYS 142L (4 units) or PHYS 142W (5 units). Note that PHYS142W satisfies the ENGL 001C requirement.
   c) 4 units of upper-division Physics electives. Upper-division math, science or engineering may be substituted with approval.

Physics: Standard Track (B.S. degree)

1. **Additional upper-division requirements (16 to 17 units)**
   a) PHYS 136
   b) One of the following: one additional quarter of PHYS 142L (4 units) or PHYS 142W (5 units); at least 4 units of Senior Thesis (PHYS 195A, PHYS 195B, PHYS 195C, PHYS 195D); at least 4 units of Internship in Physics (PHYS 198I); participation in an approved summer research program, such as a NSF REU, and an additional 4 units of upper-division physics elective.
   c) 8 additional units of upper-division Physics electives. PHYS 156C is highly recommended for those planning to go to graduate school in physics.

Physics: Biophysics Track (B.S. degree)

1. **Additional lower-division requirements (25 units)**
   a) BIOL 005A, BIOL 005B, BIOL 005C, BIOL 05LA or BIOL 020.
   b) CHEM 008A, or CHEM 08HA, CHEM 008B or CHEM 08HB, CHEM 008C or CHEM 08HC, CHEM 08LA or CHEM 08HLA, CHEM 08LB or CHEM 08HLB, CHEM 08LC or CHEM 08HLC
2. **Additional upper-division requirements (8 units)**
   a) 8 additional upper-division units taken from BCH 110A, BCH 110B, BCH 110C or BIOL 107A (other upper-division CHEM/BIOL/BCH may be substituted upon approval)

Physics Education Track (B.S. degree)

1. **Additional lower-division requirements (6 units)**
   a) EDUC 003, EDUC 004
2. **Additional upper-division requirements (8 units)**
   a) Choose two courses from the following list: EDUC 105 (highly recommended), EDUC 147, EDUC 162, EDUC 132, EDUC 177, EDUC 179A

Physics: Applied Physics and Engineering Track (B.S degree)

1. **16 additional units of approved Engineering electives including a minimum of 8 units at the upper-division level.** A list of approved CS, EE, ME, CEE, CHE, and BIEN courses is available upon request from your physics faculty academic advisor or your advisor in the CNAS Advising Center. Example course plans can be found in the department web pages.

Physics: Astrophysics Track (B.S degree)

1. **Additional upper-division requirements (20 units)**
   a) PHYS 136, PHYS 111, PHYS 112, PHYS 166, PHYS 140L (PHYS 111, PHYS 112, or PHYS 166 can also satisfy the 4 units of upper-division core requirements in 2c. above).

Students continuing on to graduate school are encouraged to take additional upper-division courses in Mathematics, such as MATH 146A, MATH 146B, MATH 146C, MATH 165A, MATH 165B, and MATH 131.

Students may wish to earn a Minor in Mathematics which requires an additional 24 units of upper-division math.

To graduate, a minimum grade point average of 2.00 (C) is necessary overall and in the upper-division courses taken for the major (including upper-division courses listed under each track).

Bachelor of Arts

For the B.A. degree, additional units are required in Humanities, Social Sciences, and foreign language to meet the breadth requirements.

Minor

The minor in Physics consists of 26 upper-division units in Physics. A minimum of 16 units must be unique to the minor and may not be used to satisfy major requirements.

1. **First Tier (16 units)**
   a) PHYS 130A
   b) PHYS 132
   c) PHYS 135A
   d) One Upper Division Physics elective from PHYS 111, PHYS 150A, PHYS 151, PHYS 164, PHYS 165, PHYS 166, PHYS 177
2. **Second Tier: at least 10 units from any upper-division Physics courses not chosen in the First Tier.** The combined units from the First and Second Tiers should add to at least 26.
3. **No more than 4 units of 190-199 courses may be used to fulfill the upper-division units for the minor.**

See Minors under the College of Natural and Agricultural Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Community College Transfers

The department provides special advisory services to aid community college transfer students in formulating their program and in remedying any deficiencies in required course work. Transfer students who have followed the prescribed program at the community college should be able to continue with the sample program at the junior level.

Graduate Program in Physics

The Department of Physics and Astronomy offers the M.S. and Ph.D. degrees in Physics.

Ongoing research in the Department of Physics and Astronomy includes astrophysics and space physics, condensed matter physics, particle physics, heavy ion physics, surface science, laser physics, and environmental physics. Large-scale experiments are carried out at the major U.S. and European accelerator laboratories or observatories.

Admission: Physics-GRE scores are not required and all applications will be considered. Submission of the Physics-GRE scores, if available, it is encouraged. If you choose to submit your Physics-GRE scores, they will only be used when it raises the overall ranking of the application. Questions about requirements for admission should be directed to the graduate advisor at (951) 827-5332.

Master's Degree

A student is recommended for the degree of M.A. or M.S. in Physics upon completion of the following requirements:

1. Satisfactory completion of a minimum of 36 quarter units of approved physics courses taken for a letter grade after admission to graduate study. Of these, at least 24 quarter units must be in the 200 series. Each course must be passed with a grade of "B-" or better. Each student must maintain an average for all courses of "B" or better.
2. Either of the following two plans:

Plan I (Thesis)
Satisfactory completion of a thesis in a field of physics to be chosen in consultation with a faculty supervisor. This thesis is approved by a committee designated by the department.

Plan II (Comprehensive Examination)
Satisfactory performance on the comprehensive examination.

Under either plan all requirements for the master's degree must be completed not later than the end of the sixth quarter.

Normative Time to Degree Six quarters

Doctoral Degree

The Department of Physics and Astronomy offers the Ph.D. degree in Physics.

It is recommended that students in the Ph.D. program become associated with a research advisor by the end of Spring Quarter of their first year.

A student is recommended for advancement to candidacy for the Ph.D. degree in Physics upon completion of requirements (1), (2), and (3) below. The student is recommended for the Ph.D. degree upon completion of requirements (4) and (5) below.

1. **Course Work**
   Each course must be passed with a grade of "B-" or better. Each student must maintain an average of "B" or better for all courses.
   A. **Core courses for students pursuing a program in Physics (other than the Astrophysics Track):**
      PHYS 205 (Classical Mechanics)
      PHYS 210A, PHYS 210B, PHYS 210C (Electromagnetic Theory)
      PHYS 212A, PHYS 212B (Thermodynamics and Statistical Mechanics)
      PHYS 221A, PHYS 221B, PHYS 221C (Quantum Mechanics)
      PHYS 296 (Summer Research in Physics and Astronomy)
      PHYS 401 (Professional Development in Physics and Astronomy)
   B. **Core courses for students pursuing a program in Physics on the Astrophysics Track:**

PHYS 205 (Classical Mechanics)

PHYS 210A, PHYS 210B, PHYS 210C (Electromagnetic Theory)

PHYS 212A (Thermodynamics and Statistical Mechanics, Part A)

PHYS 214 (Techniques of Observational Astrophysics)

PHYS 215 (Dynamics and Evolution of Galaxies)

PHYS 218 (Fundamentals of Astrophysics)

PHYS 219 (Cosmology and Structure Formation)

PHYS 296 (Summer Research in Physics and Astronomy)

PHYS 401 (Professional Development in Physics and Astronomy)

In addition, students in both programs must complete at least three additional elective graduate level lecture courses, taken for a letter grade. These courses must be physics or astronomy-related and relevant to the student's dissertation research. The program for each student must be approved by the Graduate Advisor and the student's Research Advisor. Such a program may entail more than the minimum number of courses and may also involve a mixture of courses from different areas.

The elective courses include the following, but other courses may be approved by the Graduate Advisor in consultation with the Graduate Advisory Committee:

a) **Condensed Matter, Surface, Biophysics and Atomic, Molecular and Optical Physics**

PHYS 209A (Quantum Electronics)

PHYS 209B (Nonlinear Optics)

PHYS 209C (Advanced Topics in Quantum Optics)

PHYS 234 (Physics of Nanoscale Systems)

PHYS 235 (Spintronics and Nanoscale Magnetism)

PHYS 240A, PHYS 240B (Condensed Matter Physics)

PHYS 241A, PHYS 241B, PHYS 241C (Advanced Statistical Physics and Field Theory)

PHYS 242 (Physics at Surfaces and Interfaces)

PHYS 245 (Atomic and Solid-State Physics with Positrons)

PHYS 246 (Biological Physics)

PHYS 260 (Special Topics in Condensed Matter Physics)

b) **Nuclear and Particle Physics**

PHYS 224 (Frontiers of Physics and Astrophysics)

PHYS 225A, PHYS 225B (Elementary Particles)

PHYS 230A, PHYS 230B, PHYS 230C (Advanced Quantum Mechanics and Quantum Theory of Fields)

PHYS 262 (Special topics in High Energy Physics)

c) **Astronomy, Astrophysics, Cosmology and Astroparticle Physics**

PHYS 203 (Statistical Astronomy)

PHYS 204 (Advanced Galaxy Formation and Cosmology)

PHYS 208 (General Relativity)

PHYS 211A (Radiative Processes in Astrophysics)

PHYS 211B (Astrophysical Fluid Dynamics)

PHYS 213 (Astrophysics of the Interstellar Medium)

PHYS 216 (Star Formation)

PHYS 217 (Stellar Structure and Evolution)

PHYS 226 (Cosmology)

PHYS 227 (Particle Astrophysics)

PHYS 229 (Theory of Dark Matter Halos and Galaxies)

PHYS 261 (Special topics in Astrophysics)

2. **Written Comprehensive Examinations**
Students must have satisfactory performance on a comprehensive examination, to be taken at the end of the student's first year. In the event of a failure, a make-up exam is offered in the winter quarter of the second year. The comprehensive examination for students pursuing the physics program consists of an exam that covers Mechanics, Statistical and Thermal Physics, Quantum Mechanics, and Electromagnetism. The comprehensive examination for students pursuing the astronomy specialization consists of an exam that covers Mechanics, Statistical and Thermal Physics, Electromagnetism, and Fundamental Astrophysics.

3. **Oral Qualifying Examination in General Area of Proposed Research**
Satisfactory performance on an oral examination in the general area of the student's proposed research. This examination is conducted by a doctoral committee, charged with general supervision of the student's research. It is normally taken during the academic year following that in which the comprehensive examination requirement has been successfully completed. A student who fails this examination on the first attempt may, at the discretion of the committee, be permitted to take it a second time.

   The Oral Qualifying Examination will be completed In-Person. Students taking the exam are expected to be present on campus with all committee members physically present. Hybrid or Remote exams are allowed by exception and approval from graduate advisor prior to the exam is required.

4. **Dissertation Examination**
Students must complete a dissertation containing a review of existing knowledge relevant to the area of the candidate's research, and the results of the candidate's original research. This research must be of sufficiently high quality to constitute a contribution to knowledge in the subject area.

5. **Final Oral Examination**
A final oral defense may be required. The final oral defense will be completed In-Person. Students taking the exam are expected to be present on campus with all committee members physically present. Hybrid or Remote exams are allowed by exception and approval from graduate advisor prior to the exam is required.

Normative Time to Degree
18 quarters

Graduate Program in Astronomy

The Department of Physics and Astronomy offers the M.S. and Ph.D. degrees in Astronomy.

Ongoing research in the Department of Physics and Astronomy includes observational, theoretical, and computational astrophysics and cosmology. Observational programs are carried out at UC Observatories facilities, including Lick Observatory and the W. M. Keck Observatory, as well as with other national and international ground- and space-based facilities.

Admission
Students entering the program should have completed a Bachelor's (B.S. or B.A.) or Master's degree (M.S.) in Physics, Astrophysics, Astronomy, or a closely related field from an accredited 4-year college or university. This degree must represent the completion of a program that meets the standards established by the Graduate Division at the University of California, Riverside.

International applicants are required to take the TOEFL examination as part of the pre-qualification process for admission and financial support. The scores should be submitted directly from ETS and should have a test date no older than two years from the intended date of enrollment at UCR.

Doctoral Degree

The Department of Physics and Astronomy offers the Ph.D. degree in Astronomy.

A student is recommended for advancement to candidacy for the Ph.D. degree in Astronomy upon completion of requirements (1), (2), and (3) below. The student is recommended for the Ph.D. degree upon completion of requirements (4) and (5) below.

1. **Course Work**
Each course must be passed with a grade of "B-" or better. Each student must maintain an average of "B" or better for all courses.

   Core Courses

   PHYS 206 (Computational Astrophysics)

   PHYS 211A (Radiative Processes in Astrophysics)

   PHYS 213 (Astrophysics of the Interstellar Medium)

   PHYS 214 (Techniques of Observational Astrophysics)

   PHYS 215 (Dynamics & Evolution of Galaxies)

   PHYS 217 (Stellar Structure & Evolution)

   PHYS 219 (Cosmology & Galaxy Formation)

First-year students will also take two quarters of PHYS 297 (Directed Research), starting in the Winter quarter. The advisor for this research

will be chosen by the start of the Winter quarter.

In addition, students must complete two elective graduate-level courses, taken for a letter grade. These courses must be physics or astronomy-related and relevant to the student's dissertation research. The program for each student must be approved by the Graduate Advisor and the student's Research Advisor. Such a program may entail more than the minimum number of courses and may also involve a mixture of courses from different areas.

The elective courses include the following, but other courses may be approved by the Astronomy Graduate Advisor in consultation with the Astronomy Graduate Advisory Committee:

PHYS 203	(Statistical Astronomy)
PHYS 204	(Advanced Galaxy Formation and Cosmology)
PHYS 208	(General Relativity)
PHYS 211B	(Astrophysical Fluid Dynamics)
PHYS 216	(Star Formation)
PHYS 218	(Fundamentals of Astrophysics)
PHYS 226	(Cosmology, Advanced Topics)
PHYS 227	(Particle Astrophysics)
PHYS 229	(Theory of Dark Matter Halos and Galaxies)
PHYS 247	(Introduction to Applied Data Science)
PHYS 261	(Special Topics in Astrophysics)

2. **Comprehensive Examination**
   Students must have satisfactory performance on a comprehensive examination, to be taken at the end of the student's first year. In the event of a failure, a make-up exam is offered by the end of the Fall quarter of the second year. The comprehensive examination for students pursuing the Astronomy program consists of (i) a written exam covering the core courses, and (ii) an oral report on the research undertaken during the two graded research classes taken in the first year.

3. **Oral Qualifying Examination in General Area of Proposed Research**
   Students must have satisfactory performance on an oral examination in the general area of the student's proposed research. This examination is conducted by a doctoral committee, charged with general supervision of the student's research. The exam must be taken before the end of the student's third year in the program. A student who fails this examination on the first attempt may, at the discretion of the committee, be permitted to take it a second time.

4. **Dissertation**
   Doctoral candidates must complete a satisfactory written dissertation that presents a review of existing knowledge relevant to the candidate's original research, an outline of specific problems addressed by the candidate's work, and a detailed description of the strategies, analysis techniques and results of the candidate's original research. The dissertation will be reviewed by a dissertation committee, charged with general supervision of the student's research.

5. **Final Oral Examination**
   Doctoral candidates must perform satisfactorily in a final oral defense of their dissertation before the candidate's dissertation committee. The oral defense will consist of a public presentation followed by a closed-door examination period with the committee.

   A student who fails (5) on the first attempt may, at the discretion of the committee, be permitted to take it a second time.

Oral Qualifying Examination and Final Oral Examination Modality
The Oral Qualifying Exam and Final Dissertation Defense will be completed In-Person. Students taking the exam are expected to be present on campus with all committee members physically present. Hybrid or Remote exams are allowed by exception and approval from graduate advisor prior to the exam is required.

Professional Development
Students must complete PHYS 401 (Professional Development in Physics and Astronomy)

Normative Time to Degree
18 quarters

Master's Degree

A student is recommended for the degree of M.S. in Astronomy upon completion of the following requirements:

1. Satisfactory completion of the Core courses for the Doctoral Degree in Astronomy, including two quarters of PHYS 297 (Directed Research). Each course must be passed with a grade of "B-" or better. Each student must maintain an average for all courses of "B" or better.

2. Either of the following two plans:

   Plan I (Thesis)
   Satisfactory completion of a thesis in a field of astronomy to be chosen in consultation with a faculty supervisor. This thesis is approved by a committee designated by the department.

   Plan II (Comprehensive Examination)
   Satisfactory performance on the comprehensive examination.

Professional Development
Students must complete PHYS 401 (Professional Development in Physics and Astronomy)

Normative Time to Degree
6 quarters

Lower-Division Courses

Only one of the following sequences, PHYS 002A, PHYS 002B, PHYS 002C, or PHYS 040A, PHYS 040B, PHYS 040C may be taken for credit.

PHYS 002A General Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): concurrent enrollment in PHYS 02LA; MATH 007A with a grade of C- or better or MATH 009A with a grade of C- or better or MATH 09HA with a grade of C- or better or MATH 005B with a grade of C- or better. Covers topics in classical mechanics including Newton's laws of motion in one and two dimensions; gravity; work, energy, and conservation of energy; momentum and collisions; rotational motion; and orbital motion. First part of the course covers the principles of physics underlying the biological and life sciences. Credit is awarded for one of the following PHYS 002A, PHYS 02HA, PHYS 040A, PHYS 040HA, or PHYS 041A.

PHYS 002B General Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): concurrent enrollment in PHYS 02LB; MATH 007B, may be taken concurrently or MATH 009B, may be taken concurrently or MATH 09HB, may be taken concurrently or MATH 005C, may be taken concurrently; PHYS 002A with a grade of C- or better or PHYS 02HA with a grade of C- or better; PHYS 02LA with a grade of C- or better or PHYS 02HLA with a grade of C- or better. Second part of the introductory course that covers the principles of physics underlying the biological and life sciences. Topics include fluids and fluid flow; thermodynamics; mechanical oscillations; sound and light waves; geometrical optics; reflection; refraction; lens; microscopy; interference; and diffraction. Credit is awarded for one of the following PHYS 002B, PHYS 02HB, PHYS 040B, PHYS 040HB, or PHYS 041B.

PHYS 002C General Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): concurrent enrollment in PHYS 02LC; PHYS 002B with a grade of C- or better or PHYS 02HB with a grade of C- or better; PHYS 02LB with a grade of C- or better or PHYS 02HLB with a grade of C- or better. Third part of an introductory course covering the principles of physics underlying the biological and life sciences. Topics include electromagnetism, quantum physics, and Coulomb's Law. Covers electric field, electrical potential, resistors, capacitors, simple circuits, magnetic forces and Faraday's Law. Also addresses basic quantum physics of light, atoms, and radioactivity. Credit is awarded for one of the following PHYS 002C, PHYS 02HC, PHYS 040C, PHYS 040HC, or PHYS 041C.

PHYS 02HA Honors General Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): concurrent enrollment in PHYS 02HLA; MATH 09HA with a grade of B- or better or MATH 007A with a grade of B- or better or MATH 009A with a grade of B- or better or MATH 005B with a grade of B- or better; admission to University Honors. Honors course corresponding to PHYS 002A. A limited enrollment course covering the principles of physics underlying the biological and life sciences in more depth than in PHYS 002A. Includes topics in classical mechanics; Newton's laws in one and two dimensions; gravity; work, energy, and conservation of energy; momentum and collisions; and rotational motion. Satisfactory(S) or No Credit(N/C) is not available. Credit is awarded for one of the following PHYS 02HA, PHYS 002A, PHYS 040A, PHYS 040HA, or PHYS 041A.

PHYS 02HB Honors General Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): concurrent enrollment in PHYS 02HLB; MATH 007B with a grade of B- or better, may be taken concurrently or MATH 009B with a grade of B- or better, may be taken concurrently or MATH 09HB with a grade of B- or better, may be taken concurrently or MATH 005C with a grade of B- or better; PHYS 002A with a grade of B- or better or PHYS 02HA with a grade of B- or better; PHYS 02LA with a grade of B- or better or PHYS 02HLA with a grade of B- or better; admission to University Honors. Honors course corresponding to PHYS 002B. Second part of a limited enrollment course in which the principles of physics underlying the biological and life sciences are covered in more depth than in PHYS 002B. Topics include fluids and fluid flow, thermodynamics, mechanical oscillations, sound and light waves, geometrical optics, reflection, refraction, lens, microscopy; interference and diffraction. Satisfactory(S) or No Credit(N/C) is not available. Credit is awarded for one of the following PHYS 02HB, PHYS 002B, PHYS 040B, PHYS 040HB, or PHYS 041B.

PHYS 02HC Honors General Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): concurrent enrollment in PHYS 02HLC; PHYS 002B with a grade of B- or better or PHYS 02HB with a grade of B- or better; PHYS 02LB with a grade of B- or better or PHYS 02HLB with a grade of B- or better; admission to University Honors. Honors course corresponding to PHYS 002C. A limited enrollment course covering the principles of physics underlying the biological sciences in more depth than PHYS 002B. Covers electromagnetism and quantum physics. Includes Coulomb's Law, electric field, electrical potential, resistors, capacitors, simple circuits, magnetic forces, and Faraday's Law. Also addresses basic quantum physics of light, atoms, and radioactivity. Satisfactory(S) or No Credit(N/C) is not available. Credit is awarded for one of the following PHYS 02HC, PHYS 002C, PHYS 040C, PHYS 040HC, or PHYS 041C.

PHYS 02HLA Honors General Physics Laboratory 1 Laboratory, 3 hours. Prerequisite(s): concurrent enrollment in PHYS 02HA; MATH 007A with a grade of B- or better or MATH 009A with a grade of B- or better or MATH 09HA with a grade of B- or better or MATH 005B with a grade of B- or better; admission to University Honors. Honors course corresponding to PHYS 02LA. Illustrates the experimental foundations of physics presented in PHYS 02HA. Covers the basic principles of classical mechanics. Satisfactory(S) or No Credit(N/C) is not available. Credit is awarded for one of the following PHYS 02HLA or PHYS 02LA.

PHYS 02HLB Honors General Physics Laboratory 1 Laboratory, 3 hours. Prerequisite(s): concurrent enrollment in PHYS 02HB; MATH 007B with a grade of B- or better, may be taken concurrently or MATH 009B with a grade of B- or better, may be taken concurrently or MATH 09HB with a grade of B- or better, may be taken concurrently or MATH 005C with a grade of B- or better; PHYS 02HA with a grade of B- or better or PHYS 002A with a grade of B- or better; PHYS 02HLA with a grade of B- or better or PHYS 02LA with a grade of B- or better; admission to University Honors. Honors course corresponding to PHYS 02LB. Illustrates the experimental foundations of physics presented in PHYS 02HB. Topics include fluids and fluid flow, thermodynamics, mechanical oscillations, sound and light waves, geometrical optics, reflection, refraction, lens, microscopy, interference, and diffraction. Satisfactory(S) or No Credit(N/C) is not available. Credit is awarded for one of the following PHYS 02HLB or PHYS 02LB.

PHYS 02HLC Honors General Physics Laboratory 1 Laboratory, 3 hours. Prerequisite(s): concurrent enrollment in PHYS 02HC; PHYS 002B with a grade of B- or better or PHYS 02HB with a grade of B- or better; PHYS 02LB with a grade of B- or better or PHYS 02HLB with a grade of B- or better; admission to University Honors. Honors course corresponding to PHYS 02LC. Illustrates the experimental foundations of physics presented in PHYS 02HC. Covers electromagnetism and quantum physics. Includes Coulomb's Law, electric field, electrical potential, resistors, capacitors, simple circuits, magnetic forces, and Faraday's Law. Also addresses basic quantum physics of light, atoms, and radioactivity. Satisfactory(S) or No Credit(N/C) is not available. Credit is awarded for one of the following PHYS 02HLC or PHYS 02LC.

PHYS 02LA General Physics Laboratory 1 Laboratory, 3 hours. Prerequisite(s): concurrent enrollment in PHYS 002A; MATH 007A with a grade of C- or better or MATH 009A with a grade of C- or better or MATH 09HA with a grade of C- or better or MATH 005B with a grade of C- or better. Illustrates the experimental foundations of physics presented in PHYS 002A. Covers the basic principles of classical mechanics. Credit is awarded for one of the following PHYS 02LA or PHYS 02HLA.

PHYS 02LB General Physics Laboratory 1 Laboratory, 3 hours. Prerequisite(s): concurrent enrollment in PHYS 002B; MATH 007B, may be taken concurrently or MATH 009B, may be taken concurrently or MATH 09HB, may be taken concurrently or MATH 005C, may be taken concurrently; PHYS 002A with a grade of C- or better or PHYS 02HA with a grade of C- or better; PHYS 02LA with a grade of C- or better or PHYS 02HLA with a grade of C- or better. Illustrates the experimental foundations of physics presented in PHYS 002B. Topics include fluids and fluid flow; thermodynamics; mechanical oscillations; sound and light waves; geometrical optics; reflection; refraction; lens; microscopy; interference; and diffraction. Credit is awarded for one of the following PHYS 02LB or PHYS 02HLB.

PHYS 02LC General Physics Laboratory 1 Laboratory, 3 hours. Prerequisite(s): concurrent enrollment in PHYS 002C; PHYS 002B with a grade of C- or better or PHYS 02HB with a grade of C- or better; PHYS 02LB with a grade of C- or better or PHYS 02HLB with a grade of C- or better. Illustrates the experimental foundations of physics presented in PHYS 002C. Topics include electromagnetism, quantum physics, and Coulomb's Law. Covers electric field, electrical potential, resistors, capacitors, simple circuits, magnetic forces, Faraday's Law. Also addresses basic quantum physics of light, atoms, and radioactivity. Credit is awarded for one of the following PHYS 02LC or PHYS 02HLC.

PHYS 005 History of the Universe 4 Lecture, 3 hours; discussion, 1 hour. An introduction to "The Big Bang" model and its observational tests. Topics include dark energy, dark matter, rapid growth of universe at early times, leftover radiation from "The Big Bang", galaxy formation, bending of light by gravity, black holes, extraterrestrial life, and the likely fate of the universe.

PHYS 006 The Violent Universe 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to violent phenomena that power the universe, specifically phenomena that illustrate basic astrophysical principles. Topics include impacts in our planetary system: explosions of stars, bursts of star formation, galaxy collisions, black holes, quasars, cosmic jets, and the "Big Bang."

PHYS 007 Space Time, Relativity, and Cosmology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. A non-mathematical presentation on gravity, understanding of the universe, and how present theories originated. Topics include the ancient Greeks, Galileo, Newton, the speed of light, Einstein's special and general relativity, the lifetimes of stars, supernovas, gravitational waves, the Big Bang, cosmic inflation, and the multiverse.

PHYS 008 Color and Sound: Dimensions in Communication 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Discusses the interplay between visual and aural sensory experiences and the physical principles of light and sound. Topics include visual perception and pattern recognition; the color spectrum; optical instruments; anatomy of the camera and the eye; lasers and holography; vibrations and sound waves; acoustics; reverberation; and sound production in speech, music, and high-fidelity audio devices. Involves demonstrations and illustrations.

PHYS 010 How Things Work 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Surveys the physical basis of modern technology emphasizing electronics and electrical devices. Topics include electro- and magneto-statics and dynamics (xerographic copiers, magnetic levitation, electrical power distribution); communication (radio, TV, computers, tape recorders, CD players); and imaging (cameras, DVD players, x rays, magnetic resonance imaging).

PHYS 016 Principles of Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 005A is recommended. Topics include classical laws of motion, force, energy, electricity and magnetism, properties of matter, atomic structure, waves, sound, light, heat, the Earth, and the solar system and universe. Includes

demonstrations and visual illustrations. Not open to students with credit or concurrent enrollment in PHYS 002A or PHYS 02HA or PHYS 002B or PHYS 02HB or PHYS 002C or PHYS 02HC or PHYS 040A or PHYS 040HA or PHYS 040B or PHYS 040HB or PHYS 040C or PHYS 040HC or PHYS 040D or PHYS 040E.

PHYS 017 Linear Algebra For Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010B with a grade of C- or better. This course covers the essential mathematics for quantum mechanics at the upper-division level. It applies linear algebra finite and infinite dimensional vector spaces. Topics include matrices, linear equations, bases, eigenvectors and eigenvalues, functions as infinite-dimensional vectors, differential operators as matrices, Fourier transforms, and eigenfunctions of common differential operators.

PHYS 018 Energy and the Environment 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Covers the physics of energy (thermal, kinetic, potential, chemical, nuclear), its storage and use, primary sources of energy (fossil fuel, nuclear, wind, solar) and their relative effects on the environment. Particular emphasis on determining individual carbon footprints, physical models of global climate change and identifying pathways toward a sustainable infrastructure.

PHYS 020 Exploring the Universe: An Adventure in Astronomy 4 Lecture, 3 hours; workshop, 3 hours. Prerequisite(s): none. An astronomy course for non-science students. The excitement of an evolving and sometimes violent universe of stars and galaxies is explored in a descriptive manner. Here, the union of modern and ancient observations with astrophysical laws will provide a sophisticated but by no means complete picture of the universe. Special topics such as Astrology and Extraterrestrial Life will be discussed.

PHYS 024 Dna in Your Life: the Physical Basis For Structure, Function, and Control 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to various medical, biological, and commercial aspects of physical DNA science.

PHYS 037 The Origins 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none Explores the most fundamental questions in cosmology, physics, and chemical sciences through their origins. Topics include the origin of the Universe, origin of matter, first generation of stars and galaxies, origin of chemical elements, chemistry of life, and astrobiology.

PHYS 039 Adventures in Physics 3 Lecture, 3 hours. Prerequisite(s): restricted to major(s) Physics; or consent of instructor. Covers professional development including career options for physics majors and provides pathways to undergraduate research opportunities. Includes aspects of physics relevant to current social and political issues.

PHYS 040A General Physics 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): MATH 005B with a grade of C- or better or MATH 007A with a grade of C- or better or MATH 009A with a grade of C- or better or MATH 09HA with a grade of C- or better; MATH 007B with a grade of C- or better, may be taken concurrently or MATH 009B with a grade of C- or better, may be taken concurrently or MATH 09HB with a grade of C- or better, may be taken concurrently or MATH 005C with a grade of C- or better, may be taken concurrently. Explores topics in classical mechanics with gravity including Newton's laws of motion; gravity; friction; circular motion; work, energy, and conservation of energy; collisions; rigid-body motion; torque; and angular momentum. Provides laboratory exercises illustrating experimental foundations of physical principles and selected applications. For engineering and physical science majors. Credit is awarded for one of the following PHYS 040A, PHYS 002A, PHYS 02HA, PHYS 040HA, or PHYS 041A.

PHYS 040B General Physics 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): MATH 009C with a grade of C- or better, may be taken concurrently or MATH 09HC with a grade of C- or better, may be taken concurrently or MATH 005C with a grade of C- or better, may be taken concurrently; PHYS 040A with a grade of C- or better or PHYS 040HA with a grade of C- or better. Topics include fluids; mechanical oscillations; sound waves and light waves; ray optics; temperature; heat; kinetic theory of gases; the laws of thermodynamics; and heat engines. Provides laboratory exercises illustrating the experimental foundations of physical principles and selected applications. For engineering and physical science majors. Credit is awarded for one of the following PHYS 040B, PHYS 002B, PHYS 02HB, PHYS 040HB, or PHYS 041B.

PHYS 040C General Physics 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): MATH 009C with a grade of C- or better or MATH 09HC with a grade of C- or better or MATH 005C with a grade of C- or better; PHYS 040B with a grade of C- or better or PHYS 040HB with a grade of C- or better. Covers electromagnetism and a brief introduction to applications-based quantum physics. Topics include electric force, fields, potential; Gauss' law; magnetic fields; Ampere's law; Faraday's law; electromagnetic waves; dc circuits; concept of photon, matter waves, energy levels, and radioactivity. Laboratory exercises illustrate experimental foundations and applications. For engineering and physical science majors. Credit is awarded for one of the following PHYS 040C, PHYS 002C, PHYS 02HC, PHYS 040HC, or PHYS 041C.

PHYS 040D General Physics 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): PHYS 040C or PHYS 040HC with a grade of "C-" or better or consent of instructor. For engineering and physical sciences students. Topics in electromagnetic waves including Maxwell's equations; geometrical optics; optical instruments, cavities, and waveguides; interference, diffraction, and polarization; and special theory of relativity. Laboratories provide exercises illustrating the experimental foundations of physical principles and selected applications. Credit is not awarded for PHYS 040D if it has already been awarded for PHYS 002C or PHYS 041C.

PHYS 040E General Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 046 (may be taken concurrently); PHYS 040D with a grade of "C-" or better. For engineering and physical sciences students. Covers topics in modern physics including the quantum theory of light and particles; quantum mechanics in one and three dimensions; tunneling phenomena; the hydrogen atom; statistical physics; lasers; molecular structure; and solid state, nuclear, and particle physics. Credit is not awarded for PHYS 040E if it has already been awarded for PHYS 002C or PHYS 02HC or PHYS 041C.

PHYS 040HA Honors General Physics 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): MATH 007A with a grade of B- or better or MATH 009A with a grade of B- or better or MATH 009HA with a grade of B- or better or MATH 007B with a grade of B- or better, may be taken concurrently or MATH 009B with a grade of B- or better, may be taken concurrently or MATH 09HB with a grade of B- or better, may be taken concurrently or MATH 005C with a grade of B- or better, may be taken concurrently; admission to University Honors. Honors course corresponding to PHYS 040A. Explores topics in classical mechanics with gravity including Newton's laws of motion; gravity; friction; circular motion; work, energy, and conservation of energy; collisions; rigid-body motion; torque; and angular momentum. Provides laboratory exercises illustrating experimental foundations of physical principles and selected applications. For engineering and physical science majors. Satisfactory(S) or No Credit(N/C) is not available. Credit is awarded for one of the following PHYS 040HA, PHYS 002A, PHYS 02HA, PHYS 040A, or PHYS 041A.

PHYS 040HB Honors General Physics 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): MATH 009C with a grade of B- or better, may be taken concurrently or MATH 09HC with a grade of B- or better, may be taken concurrently or MATH 005C with a grade of B- or better, may be taken concurrently; PHYS 040A with a grade of B- or better or PHYS 040HA with a grade of B- or better; admission to University Honors. Honors course corresponding to PHYS 040B. Topics include fluids; mechanical oscillations; sound waves and light waves; ray optics; temperature; heat; kinetic theory of gases; the laws of thermodynamics; and heat engines. Provides laboratory exercises illustrating the experimental foundations of physical principles and selected applications. For engineering and physical science majors. Satisfactory(S) or No Credit(N/C) is not available. Credit is awarded for one of the following PHYS 040HB, PHYS 002B, PHYS 02HB, PHYS 040B, or PHYS 041B.

PHYS 040HC Honors General Physics 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): MATH 009C with a grade of B- or better or MATH 09HC with a grade of B- or better or MATH 005C

with a grade of B- or better; PHYS 040B with a grade of B- or better or PHYS 040HB with a grade of B- or better; admission to University Honors. Honors course corresponding to PHYS 040C. Covers electromagnetism and a brief introduction to applications-based quantum physics. Topics include electric force, fields, potential; Gauss' law; magnetic fields; Ampere's law; Faraday's law; electromagnetic waves; dc circuits; concept of photon, matter waves, energy levels, and radioactivity. Laboratory exercises illustrate experimental foundations and applications. For engineering and physical science majors. Satisfactory(S) or No Credit(N/C) is not available. Credit is awarded for one of the following PHYS 040HC, PHYS 002C, PHYS 02HC, PHYS 040C, or PHYS 041C.

PHYS 041A Introductory Physics For Physics Majors 8 Lecture, 4 hours; discussion, 2 hours; laboratory, 6 hours. Prerequisite(s): MATH 007A with a grade of C- or better, may be taken concurrently or MATH 09HA with a grade of C- or better, may be taken concurrently or MATH 009A with a grade of C- or better, may be taken concurrently or MATH 005B with a grade of C- or better, may be taken concurrently. Covers topics in classical mechanics including Newton's laws of motion in one and two dimensions; work, energy, and conservation of energy; momentum and collisions; rotational motion; and orbital motion. Credit is awarded for one of the following PHYS 041A, PHYS 002A, PHYS 02HA, PHYS 040A, or PHYS 040HA.

PHYS 041B Introductory Physics For Physics Majors 8 Lecture, 4 hours; discussion, 2 hours; laboratory, 6 hours. Prerequisite(s): MATH 007B with a grade of C- or better, may be taken concurrently or MATH 009B with a grade of C- or better, may be taken concurrently or MATH 09HB with a grade of B or better, may be taken concurrently or MATH 005C with a grade of C- or better, may be taken concurrently; PHYS 002A with a grade of B- or better or PHYS 040A with a grade of C- or better or PHYS 041A with a grade of C- or better. Covers relativity oscillations, mechanical waves, fluids, electrostatics, magnetism, and circuits. Credit is awarded for one of the following PHYS 041B, PHYS 040C, or PHYS 040HC.

PHYS 041C Introductory Physics For Physics Majors 8 Lecture, 4 hours; discussion, 2 hours; laboratory, 6 hours. Prerequisite(s): MATH 009C with a grade of C- or better, may be taken concurrently or MATH 09HC with a grade of C- or better, may be taken concurrently or MATH 005C with a grade of C- or better, may be taken concurrently; PHYS 002B with a grade of B- or better or PHYS 02HB with a grade of B- or better or PHYS 040C with a grade of C- or better or PHYS 040HC with a grade of B- or better or PHYS 041B with a grade of C- or better; or consent of instructor. Covers electromagnetism, geometric and wave optics, and modern physics. Credit is awarded for one of the following PHYS 041C, PHYS 002C, PHYS 02HC, or PHYS 040HC.

PHYS 050 Introduction to Applied Data Science: A Multi-Disciplinary Approach 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduces students from different disciplines (physical, biological, engineering, finance, economy, humanities) to data science techniques and applications. Provides background knowledge in data science and prepares for a career in this field. Provides basic knowledge to continue on to more advanced topics in data science and apply it to practical problems.

PHYS 097 Lower-Division Research 1 to 4 Individual Study, 3 to 12 hours. Prerequisite(s): consent of instructor. Special research projects in physics performed under the supervision of a member of the staff. This course may not be used to satisfy the undergraduate unit requirements in the major. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 8 units.

Upper-Division Courses

PHYS 111 Astrophysics and Stellar Astronomy 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010B, MATH 046, or equivalents; one of the following: PHYS 040D with a grade of C- or better, PHYS 041C with a grade of C- or better, PHYS 002C with a grade of B- or better. Covers stellar interiors, radiations, and evolution; the origin of the elements; particle and electromagnetic radiation; pulsars, quasars, and other unusual objects; and galactic structure and cosmology.

PHYS 112 Galaxies and Extragalactic Astronomy 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 111 with a grade of C- or better. Topics include the structure of the Milky Way, the observed properties of galaxies, active galactic nuclei and supermassive black holes, the intergalactic medium, the theory of galaxy formation and evolution, galaxy clusters, and the large scale structure of our universe.

PHYS 117 Advanced Mathematical Methods of Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010B with a grade of C- or better, MATH 046 with a grade of C- or better. This course covers advanced mathematical for upper division and graduate physics courses. Topics include dimensional analysis, infinite dimensional vector spaces, integral transforms, complex analysis, and the use of Green's functions to solve inhomogeneous differential equations. This course is strongly recommended for students with a focus on theoretical physics.

PHYS 130A Classical Mechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 009C, MATH 010A (may be taken concurrently); one of the following: PHYS 002A or PHYS 02HA with a grade of B- or better, PHYS 040A or PHYS 040HA with a grade of C- or better, PHYS 041A with a grade of C- or better. Explores vector calculus, single-particle motion, oscillations, Lagrangian and Hamiltonian dynamics, central-forces motion, and celestial mechanics.

PHYS 130B Classical Mechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010A, MATH 010B (may be taken concurrently), PHYS 130A. Topics include dynamics of a system of particles, motion in non-inertial reference systems, dynamics of rigid bodies, coupled oscillations, and special theory of relativity.

PHYS 132 Thermal Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010B; MATH 046 (may be taken concurrently); PHYS 130B. Covers thermodynamics and an introduction to statistical mechanics. Topics include states of a model system; entropy and temperature; the Boltzmann distribution and Helmholtz free energy; thermal radiation and the Planck distribution; chemical potential; the ideal gas; Fermi and Bose gasses; and heat and work.

PHYS 133 Advanced Statistical Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 132 and PHYS 156B. Covers advanced topics in statistical mechanics, ensembles, and classical and quantum statistical mechanics. Explores the connection between statistical mechanics and thermodynamics.

PHYS 135A Electromagnetism 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010B; MATH 046; one of the following: PHYS 002B or PHYS 02HB with B- or better, PHYS 040C or PHYS 040HC with a C- or better, PHYS 041B with a C- or better. Topics include vector calculus; Coulomb's law and the electric field; Gauss' law; scalar potential; conductors in electrostatic fields; electrostatic energy; electric multipoles; boundary conditions; electrostatics in the presence of matter; and special methods in electrostatics.

PHYS 135B Electromagnetism 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 135A. Topics include electric currents and circuits, Ampere's law, the magnetic field, the integral form of Ampere's law, the vector potential, Faraday's law of induction, magnetic energy, magnetic multipoles, magnetism in the presence of matter, Maxwell's equations, and plane waves.

PHYS 136 Electromagnetic Waves 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 135B. Covers Maxwell's equations; propagation of electromagnetic waves in wave guides, coaxial lines, and optical fibers; reflection, refraction, and diffraction of waves; dispersion of waves in gases and plasmas; interference and coherence and their role in holography; electromagnetic radiation from charged particles, antennas, masers, and lasers; and relativistic electrodynamics.

PHYS 139L Electronics For Scientists 5 Lecture, 3 hours; laboratory, 6 hours. Prerequisite(s): One of the following: PHYS 002B or PHYS 02HB with B- or better, PHYS 040C or PHYS 040HC with a C- or better, PHYS 041B with a C- or better, or consent of instructor. Introduces basic analog and digital circuit designs that emphasize practical applications. Includes properties of diodes and transistors; operational amplifiers for use as amplifiers, oscillators, and function generators; properties and use of logic gates, counters, and timers; data storage and synchronization; multiplexer and decoder applications; microprocessor functions; and computer interfacing.

PHYS 140L Techniques of Observational Astronomy 4 Lecture, 2 hours; laboratory, 6 hours. Prerequisite(s): PHYS 002C with a grade of B- or better or PHYS 02HC with a grade of B- or better or PHYS 040E with a grade of C- or better or PHYS 041C with a grade of C or better; restricted to major(s) Physics; or consent of instructor. Covers modern techniques of observational astronomy including digital optical imaging, photometry, spectroscopy, radio observations, error propagation and statistical inference. Lab practicum includes calibrating digital images and spectra, computer programming for data analysis, quantifying uncertainties in astronomical measurements, and written communication of scientific results.

PHYS 142L Advanced Physics Laboratory 4 Laboratory, 12 hours. Prerequisite(s): PHYS 002C with a grade of B- or better or PHYS 02HC with a grade of B- or better or PHYS 040E with a grade of C- or better or PHYS 41C with a grade of C- or better; restricted to class level standing of senior; restricted to major(s) Physics; or consent of instructor. A capstone experience consisting of experiments chosen from areas in contemporary physics. Course is repeatable to a maximum of 8 units. Credit is awarded to a maximum of 10 units for either or both PHYS 142L and/or PHYS 142W.

PHYS 142W Advanced Physics Laboratory 5 Laboratory, 11 hours; individual study, 6 hours; workshop, 0.8 hour. Prerequisite(s): concurrent enrollment in WRIT 040S; PHYS 002C with a grade of B- or better or PHYS 02HC with a grade of B- or better or PHYS 040E with a grade of C- or better or PHYS 041C with a grade of C- or better; WRIT 020 with a grade of C or better or WRIT 020S with a grade of C or better; restricted to class level standing of senior; and consent of instructor. A capstone experience consisting of experiments chosen from areas in contemporary physics. Includes writing instruction with an emphasis on technical communication. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits, as alternatives to WRIT 030. Course is repeatable to a maximum of 10 units. Credit is awarded to a maximum of 10 units for either or both PHYS 142L or PHYS 142W.

PHYS 145A Biophysics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 001C or CHEM 01HC; MATH 010B; MATH 046; one of the following: PHYS 002C or PHYS 02HC with B- or better, PHYS 041C with a C- or better, PHYS 040E with a C- or better. Covers physical modeling of the structure of proteins; protein folding; structure of nucleic acids; electrostatic potential of DNA; dynamics of biomolecules; structure of a biological cell; osmotic pressures of cells; non-equilibrium thermodynamics; and biochemical reactions.

PHYS 145B Biophysics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 145A; BCH 100 or BCH 110B or BCH 110HB; or consent of instructor. Covers conformation of biopolymers, intermolecular forces, dynamics of biopolymers, Brownian motion, biopolymers as polyelectrolytes, electrolytic solutions, and the Debye-Huckel theory.

PHYS 145C Biophysics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 145B or consent of instructor. Examines stochastic thermodynamics; the Fluctuation Theorems and the Jarzynski relation; protein and RNA denaturation; tests of the Jarzynski relation; chemical forces and self-assembly; enzymes and molecular machines; survey of molecular devices found in cells; and kinetics of real enzymes and machines.

PHYS 150A Introduction to Condensed Matter Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): One of the following: PHYS 002B with B- or better, PHYS 040E with a C- or better, PHYS 041C with a C- or better; or consent of instructor. Covers properties of systems composed of many atoms arranged in a periodic lattice. Topics include crystal structure, symmetry, and diffraction; crystal cohesion; lattice dynamics; thermal properties; metallic properties and the Fermi surface; band theory of metals and semiconductors; and collective excitations.

PHYS 150B Introduction to Condensed Matter Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 150A. Covers properties of systems composed of many atoms arranged in a periodic lattice. Topics include superconductivity; magnetism; non-crystalline solids; defects in solids; surface and interface physics; and alloys.

PHYS 151 Topics in Modern Condensed Matter Research 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): One of the following: PHYS 002B or BCH 110HB with a grade of "B-" or better, PHYS 040E with a C- or better, PHYS 041C with a grade of "C-" or better. Consent of instructor is required for students repeating the course. Introduces cutting-edge physics research being conducted in laboratories and institutes around the world. Focuses on a single research area (e.g., nanoscale physics, biological physics) that may change each quarter. Includes experimental methods and theoretical concepts. Course is repeatable as content changes to a maximum of 12 units.

PHYS 152A Exploring Many-Body Quantum Physics With Mathematica 2 Lecture, 2 hours. Prerequisite(s): MATH 046; one of the following: PHYS 002C with a B- or better, PHYS 040E with a C- or better, PHYS 041C with a C- or better; or consent of instructor. MATH 031 is recommended. An introduction to numerics and visualization using Mathematica. Topics include random numbers and stochastic processes; time-dependent and stationary equations in matrix form; single-particle tight-binding model; single-spin dynamics; pure and mixed states; spin echo; the direct product of matrices; many-body quantum mechanics; and quantum spin chains.

PHYS 152B Exploring Many-Body Quantum Physics With Mathematica 2 Lecture, 2 hours. Prerequisite(s): PHYS 152A or consent of instructor. Covers the symmetry of many-body wavefunction, including bosons and fermions; secondary quantization; harmonic oscillators; ladder operators, eigenvalues, and eigenfunctions; interacting many-body systems; mean field approximation; and density matrix of a subsystem and decoherence.

PHYS 156A Quantum Mechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010B, MATH 046, PHYS 130B; one of the following: PHYS 002C or PHYS 02HC with a grade of "B-" or better, PHYS 040E with a grade of "C-" or better, PHYS 041C with a grade of "C-" or better. Topics include wave-particle duality, the Schrodinger equation, superposition, the uncertainty principle, and one-dimensional harmonic oscillator.

PHYS 156B Quantum Mechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 156A. Topics include the hydrogen atom, angular momentum and spin representations, many-electron systems, the Pauli exclusion principle, and perturbation theory.

PHYS 156C Quantum Mechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 156B. Applications in quantum mechanics. Includes perturbation theory and other approximations, scattering, and an introduction to advanced topics such as relativistic quantum mechanics.

PHYS 160 Introduction to Quantum Computation 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 002C with a grade of B- or better or PHYS 02HC with a grade of B- or better or PHYS 040C with a grade of C- or better or PHYS 041C with a grade of C- or better; or consent of instructor. Topics include the basic concepts of quantum mechanics; entanglement; Bell's inequalities; quantum circuits; Deutsch's and Shor's algorithms; and quantum error correction.

PHYS 163 Atomic Physics and Spectroscopy 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 113 or PHYS 156A with a C- or better, PHYS 135A with a C- or better, or consent of instructor. Covers the role of atomic physics and spectroscopy in the development of quantum mechanics; Bohrs old quantum theory; Heisenbergs matrix mechanics; Schrodingers wave mechanics; Dirac equation; the g-factor; Zeeman effect and the Darwin term; Spin-orbit coupling and Thomas precession; Dirac hydrogen atom; Fine structure; Hyperfine structure; Lamb shift.

PHYS 164 Introduction to Nuclear Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): One of the following: PHYS 002C or PHYS 02HC with a grade of "B-" or better, PHYS 040E with a grade of "C-" or better, PHYS 041C with a grade of "C-" or better. Addresses the basic nuclear properties, as well as the nuclear building blocks and structure. Explores radioactivity, nuclear interactions, the strong force, the confinement and chiral phase transitions, the quantum chromodynamics (QCD) vacuum, and matter at extreme temperatures and densities.

PHYS 165 Introduction to Particle Physics 4 Lecture, 3 hours; discussion, 1

hour. Prerequisite(s): PHYS 156A. Explores the classification of particles in terms of the Standard Model. Includes methods and techniques for particle acceleration and detection; conservation laws and symmetries; the basic interactions of particles (electromagnetic, strong, weak); and electroweak unification.

PHYS 166 Cosmology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 156A. Discusses current topics in astrophysics and cosmology from the perspective of elementary particle physics. Topics include the development and structure of the early universe, dark matter and dark energy, cosmic radiation, and particle physics in the stars.

PHYS 168 Energy and the Environment 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010B with a grade of C- or better, PHYS 040C with a grade of C- or better or PHYS 041C with a grade of C- or better; or consent of instructor. Explores physical insights into primary energy uses in society such as electricity, transportation, and heating. Explains how that energy is obtained and transformed (e.g., fossil fuels, nuclear, hydropower, heat engines). Also addresses renewable energy (photovoltaics, wind, batteries, fuel cells) in the context of climate change and sustainability.

PHYS 177 Computational Methods For Physical Sciences 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CS 009A or CS 010A or CS 010B; PHYS 002C with a grade of B- or better or PHYS 02HC with a grade of B or better or PHYS 040E with a grade of C- or better or PHYS 041C with a grade of C- or better; or consent of instructor. Covers computer applications for solving problems in physical sciences. Addresses symbolic manipulation languages such as Mathematica, mathematical operations, plotting, and symbolic and numerical techniques in calculus. Includes numerical methods such as histogramming, the Monte-Carlo method for modeling experiments, statistical analysis, curve fitting, and numerical algorithms.

PHYS 190 Special Studies 1 to 5 Individual Study, 3 to 15 hours. Prerequisite(s): consent of department chair Individual study to meet special curricular needs. May not be used to satisfy major requirements unless taken as a replacement for a course not being offered during the student's remaining tenure. Course is repeatable to a maximum of 9 units; a maximum of 5 units may be used to substitute for PHYS 142L.

PHYS 190L Special Studies at Los Alamos National Laboratory 1 to 8 Individual Study, 3 to 24 hours. Prerequisite(s): admission to the UCR/LANL Educational Internship Program; consent of advisor and department chair. Individual study to meet special curricular needs. Course is repeatable to a maximum to 16 units.

PHYS 195A Senior Thesis 1 to 4 Thesis, 3 to 12 hours; Prerequisite(s): senior standing; consent of instructor. A thesis written on research conducted under the supervision of a faculty member. May be undertaken as a one-, two-, three-, or four-quarter course (PHYS 195A, PHYS 195B, PHYS 195C, PHYS 195D). Total credit awarded for PHYS 195A plus PHYS 195B plus PHYS 195C plus PHYS 195D may not exceed 8 units; a maximum of 4 units may be used to satisfy the unit requirement for the major, and a maximum of 5 units of any combination of PHYS 195A, PHYS 195B, PHYS 195C, and PHYS 195D may be used to substitute for PHYS 142L. Graded In Progress (IP) until the last quarter is completed, at which time a final grade is assigned; a Satisfactory (S) or No Credit (NC) grade is awarded unless the course is taken to substitute for PHYS 142L.

PHYS 195B Senior Thesis 1 to 4 Thesis, 3 to 12 hours. Prerequisite(s): senior standing; consent of instructor; PHYS 195A. A thesis written on research conducted under the supervision of a faculty member. May be undertaken as a one-, two-, three-, or four-quarter course (PHYS 195A, PHYS 195B, PHYS 195C, PHYS 195D). Total credit awarded for PHYS 195A plus PHYS 195B plus PHYS 195C plus PHYS 195D may not exceed 8 units; a maximum of 4 units may be used to satisfy the unit requirement for the major, and a maximum of 5 units of any combination of PHYS 195A, PHYS 195B, PHYS 195C, and PHYS 195D may be used to substitute for PHYS 142L. Graded In Progress (IP) until the last quarter is completed, at which time a final grade is assigned; a Satisfactory (S) or No Credit (NC) grade is awarded unless the course is taken to substitute for PHYS 142L.

PHYS 195C Senior Thesis 1 to 4 Thesis, 3 to 12 hours. Prerequisite(s): senior standing; consent of instructor; PHYS 195B. A thesis written on research conducted under the supervision of a faculty member. May be undertaken as a one-, two-, three-, or four-quarter course (PHYS 195A, PHYS 195B, PHYS 195C, PHYS 195D). Total credit awarded for PHYS 195A plus PHYS 195B plus PHYS 195C plus PHYS 195D may not exceed 8 units; a maximum of 4 units may be used to satisfy the unit requirement for the major, and a maximum of 5 units of any combination of PHYS 195A, PHYS 195B, PHYS 195C, and PHYS 195D may be used to substitute for PHYS 142L. Graded In Progress (IP) until the last quarter is completed, at which time a final grade is assigned; a Satisfactory (S) or No Credit (NC) grade is awarded unless the course is taken to substitute for PHYS 142L

PHYS 195D Senior Thesis 1 to 4 Thesis, 3 to 12 hours. Prerequisite(s): senior standing; consent of instructor; PHYS 195C. A thesis written on research conducted under the supervision of a faculty member. May be undertaken as a one-, two-, three-, or four-quarter course (PHYS 195A, PHYS 195B, PHYS 195C, PHYS 195D). Total credit awarded for PHYS 195A plus PHYS 195B plus PHYS 195C plus PHYS 195D may not exceed 8 units; a maximum of 4 units may be used to satisfy the unit requirement for the major, and a maximum of 5 units of any combination of PHYS 195A, PHYS 195B, PHYS 195C, and PHYS 195D may be used to substitute for PHYS 142L. Graded In Progress (IP) until the last quarter is completed, at which time a final grade is assigned; a Satisfactory (S) or No Credit (NC) grade is awarded unless the course is taken to substitute for PHYS 142L.

PHYS 197 Research For Undergraduates 1 to 4 Individual Study, 3 to 12 hours. Prerequisite(s): upper-division standing and consent of instructor. Special research projects in physics performed under the supervision of a member of the staff. This course may not be used to satisfy the undergraduate unit requirement in the major. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 8 units.

PHYS 198I Individual Internship in Physics 1 to 12 Written Work, 1 to 12 hours; internship, 2 to 24 hours. Prerequisite(s): upper-division standing; consent of department chair. Provides experience as a practicing scientist in a government or industrial laboratory. Includes joint supervision by an off-campus sponsor and a Physics faculty member. Course is repeatable to a maximum of 12 units; a maximum of 4 units may be used to satisfy major requirements, and a maximum of 5 units may be used to substitute for PHYS 142L.

Graduate Courses

PHYS 202 Interdisciplinary Overview of Current Issues in Semiconductor Processing 3 Lecture, 3 hours. Prerequisite(s): graduate standing in Chemistry, Physics, Engineering, or a related subject or consent of instructor. An interdisciplinary overview of present-day semiconductor processing. Introduces topics such as properties of semiconductors, cleanroom environment, epitaxy, ion implantation, etching, lithography, device architecture, testing, and fault detection. May offer field trips. Cross-listed with CHEM 208, and MSE 245D.

PHYS 203 Statistical Astronomy 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 218. Introduces statistical methods needed to analyze astronomical data. Provides case examples of problems in observational astronomy and applies statistical techniques to solve them. Covers probability, correlation and association, hypothesis testing, data modelling, maximum likelihood technique, detection and surveys, sequential data, and surface distribution. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 204 Advanced Galaxy Formation and Cosmology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 218; PHYS 219; graduate standing; or the consent of instructor. Covers topics on galaxy formation, star formation in galaxies, intergalactic medium, first generation of stars and galaxies, high redshift Universe, reionization, evolution of galaxies and stellar population, and number counts. Also covers luminosity functions, correlation functions, and clustering. Introduces new techniques and latest data sets and archives used for research. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 205 Classical Mechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing in Physics. Covers the

Lagrangian formulation, calculus of variations, Hamilton's principle, conservation principles and symmetry properties, the two-body central force problem, the Kepler problem, and scattering. Also examines orthogonal transformations, rigid body motion, the inertia tensor, Euler's equations, Hamiltonian formulation, canonical transformations, and complex integration.

PHYS 206 Computational Astrophysics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Introduction to computational astrophysics emphasizing numerical simulations and their application to astrophysical problems. Topics include numerical simulation data products, generation of initial conditions, N-body techniques, hydrodynamical techniques, and data visualization.

PHYS 208 General Relativity 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 205; graduate standing; or consent of instructor. An introduction to general relativity. Covers tensors, covariant derivatives, the Riemann curvature tensor, and Einstein's equation. Explores the Schwartzchild and Kerr black hole metrics and wormholes. Also addresses gravitational waves and their detection. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 209A Quantum Electronics 4 Lecture, 4.5 hours. Prerequisite(s): PHYS 135B, PHYS 156A; or consent of instructor. Quantum theory of light and interaction of light with atoms. Density matrix formulation of atomic susceptibility. Propagation of light in matter and optical waveguides. Optical resonators. Theory and operation of common lasers. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 209B Nonlinear Optics 4 Lecture, 4.5 hours. Prerequisite(s): PHYS 209A or consent of instructor. Wave propagation in nonlinear media. Electro-optic effect, three- and four-wave mixing, high-resolution nonlinear spectroscopies, rare atom and molecule detection, laser manipulation of particles, high-intensity laser physics, laser-plasma interactions. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 209C Advanced Topics in Quantum Optics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 209A, PHYS 209B; graduate standing; or consent of instructor. Advanced topics in quantum optics and nonlinear optics. Topics include high resolution spectroscopy, atom trapping and manipulation, transient and time-resolved spectroscopy, coherent spectroscopy, GHz to X-ray sources and spectroscopy and coherent control in atoms, molecules, liquids, solids, surfaces and interfaces. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as topics change to a maximum of 12 units.

PHYS 210A Electromagnetic Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; consent of instructor. Covers topics in electrostatics, including Coulomb potential, boundary value problems, multipoles, and dielectric media. Also addresses Laplace's equation and Green's function in Cartesian, spherical, and cylindrical coordinates.

PHYS 210B Electromagnetic Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 210A; graduate standing; consent of instructor. Covers topics in electromagnetism. Includes magnetostatics, quasistationary electromagnetism, Maxwell's equations, gauge transformations, Maxwell's stress tensor, analyticity of dielectric susceptibility, and electromagnetic waves in uniform media and waveguides.

PHYS 210C Electromagnetic Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 210B or consent of instructor. Covers electromagnetic radiation and scattering; propagation of electromagnetic fields in non-uniform media (geometrical optics, interference, and diffraction); special theory of relativity; Lagrangian formalism; and dynamics of relativistic particles in external fields. Also examines Cherenkov radiation and magnetic monopoles.

PHYS 211A Radiative Processes in Astrophysics 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): PHYS 135A, PHYS 135B, PHYS 136, PHYS 156A, PHYS 156B. Radiative transfer of continuum and line radiation, Einstein coefficients, photoionization equilibria, radiation by free electrons, bremsstrahlung and synchrotron emission, Compton and inverse Compton scattering, wave propagation through magnetized plasmas, atomic and molecular structure and spectra, atomic fine structure, and molecular hyperfine lines. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 211B Astrophysical Fluid Dynamics 4 Lecture, 3; consultation, 1 hour. Prerequisite(s): PHYS 211A. Covers hydrodynamics, sound waves, turbulence, supersonic turbulence, magnetohydrodynamics, Alfven waves, extragalactic relativistic jets, supersonic jets, galactic spiral structure and density-wave theory, accretion disk theory, Balbus-Hawley instability, and stellar winds. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 212A Thermodynamics and Statistical Mechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; consent of instructor. Covers thermodynamics, statistical mechanics, ideal Bose systems, ideal Fermi systems, and bulk motion. Cross-listed with MSE 204.

PHYS 212B Thermodynamics and Statistical Mechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MSE 204/ PHYS 212A; graduate standing; consent of instructor. Addresses functional integrals and approximation techniques. Provides an introduction to phase transitions and the renormalization group.

PHYS 213 Astrophysics of the Interstellar Medium 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing. An overview of the interstellar medium and relevant physical processes. Covers the structure and evolution of ionized hydrogen regions associated with massive stars and supernovae. Also addresses the neutral and ionized phases of the interstellar medium, as well as cooling processes. Includes the interpretation of spectral lines. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 214 Techniques of Observational Astrophysics 4 Lecture, 2 hours; laboratory, 3 hours; written work, 3 hours. Prerequisite(s): graduate standing. An introduction to the basic tools of observational astronomy. Topics include astronomical telescopes and detectors, observing techniques, calibration, and error analysis. Students whose research is related to astronomy receive a letter grade; other students receive a letter grade or Satisfactory (S) or No Credit (NC) grade.

PHYS 215 Dynamics and Evolution of Galaxies 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing. Discusses the structure, stability, and dynamic and cosmologic evolution of galaxies. Interprets observational data on galaxies within a coherent theoretical framework. Topics include potential theory, orbits, collisionless systems, and the structure and evolutionary history of galaxies. Students whose research is related to astronomy receive a letter grade other students receive a letter grade or Satisfactory (S) or No Credit (NC) grade.

PHYS 216 Star Formation 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing. Discusses the processes involved in the formation of stars: the initial conditions in the interstellar medium that leads to star formation and the formation of planets and planetary systems around young stars. Topics include molecular cloud formation, the properties of young stars, jets and outflows, massive stars, and cosmological star formation. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 217 Stellar Structure and Evolution 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing. Topics include physics of stellar structure and main sequence evolution, and energy production and transport; post main sequence evolution through the giant stage and the formation of compact objects; supernovae, nucleosynthesis, pulsars, and the roll of accretion within the framework of stellar evolution; and the physics of white dwarfs, neutron stars, and black holes. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 218 Fundamentals of Astrophysics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Develops basic

astrophysical concepts from fundamental physics. Topics include nucleosynthesis, stellar structure, evolution of stars of different masses, end-states of stars, and bremsstrahlung and synchrotron radiation. Also covers cross-sections, opacities, hydrogen atom transitions, forbidden lines, and molecular lines. Addresses the ongoing search of life in the Universe. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 219 Cosmology and Structure Formation 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or the consent of instructor. Explores cosmology, models for the universe, galaxy formation scenarios, evolution of galaxies and stellar population, and number counts. Also covers star formation activity in the universe, cosmic background radiation, dark matter, and dark energy. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 220 Quantum Computing 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 201/MSE 207 or equivalent; graduate standing or consent of instructor. An introduction to quantum computing. Topics include qubits, entanglement, quantum gates, quantum circuit diagrams, simple quantum algorithms, quantum teleportation, quantum cryptography, Shor's factorization algorithm, Grover's search algorithm, and quantum error correction. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with EE 214.

PHYS 221A Quantum Mechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; consent of instructor. Examines the fundamental concepts of quantum mechanics including wave functions and the uncertainty relations. Also covers time dependence of quantum systems, such as the simple harmonic oscillator and simple two-level systems.

PHYS 221B Quantum Mechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 221A; graduate standing; consent of instructor. Covers angular momentum and approximation methods, including perturbation theory.

PHYS 221C Quantum Mechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 221B; graduate standing; consent of instructor. Covers symmetries in quantum mechanics, identical particles, and scattering theory.

PHYS 224 Frontiers of Physics and Astrophysics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Covers particle physics to cosmology from an experimental perspective. Includes the present status of our understanding of the physics of the universe, the major challenges, and future opportunities. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 225A Elementary Particles 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): PHYS 221A, PHYS 221B, PHYS 221C; or consent of instructor. Provides an overview of particle physics. Topics include Quantum Electrodynamics (QED), the Quark-Parton Model, and Quantum Chromodynamics (QCD). Also discusses experimental techniques for particle detection and energy measurement. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 225B Elementary Particles 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): PHYS 225A or consent of instructor. Covers advanced topics in particle physics such as the Standard model, Charge-Parity (CP) violation and conservation laws, and mixing in the neutral strange and bottom meson systems. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 226 Cosmology 4 Lecture, 3 hours; discussion, 1 hour., Prerequisite(s): graduate standing; PHYS 208. Discusses advanced topics in cosmology: Friedmann models and the large-scale structure of the universe, Hubble constant and deceleration parameter, and galaxy counting and the physics of the early universe. Also covers vacuum phase transitions, inflation, baryon number generation, fluctuations, topological defects and textures, primordial nucleosynthesis, density fluctuations, dark matter candidates, and the age of the universe. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 227 Particle Astrophysics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; PHYS 226. An introduction to current research in particle astrophysics: the very early universe, the origin of matter, primordial perturbations, the origin of structure, the nature of dark matter, vacuum energy, matter-antimatter asymmetry, neutrino astrophysics, gravitational radiation, black holes, the origin of ultrahigh energy cosmic rays, and Hawking radiation. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 229 Theory of Dark Matter Halos and Galaxies 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. A theory-based study of the properties of dark matter halos and their connection to galaxy properties. Topics include dark matter collapse in the non-linear regime, Press-Schechter, self-similar collapse, acquisition of mass, and angular momentum. Includes the impact of dark matter properties on hosted galaxies, mergers, environmental effects, and scaling relations. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 230A Advanced Quantum Mechanics and Quantum Theory of Fields 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): PHYS 221A, PHYS 221B, PHYS 221C; graduate standing; or consent of instructor. Topics include quantization of fields for particles with spins 0, 1/2, and 1; path integrals; Feynman diagrams; and scattering amplitude and cross sections. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 230B Advanced Quantum Mechanics and Quantum Theory of Fields 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): PHYS 230A; graduate standing; or consent of instructor. Explores renormalization of quantum field theory, gauge invariance, spontaneous breaking of gauge symmetry, Quantum Chromodynamics, and electroweak interactions. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 230C Advanced Quantum Mechanics and Quantum Theory of Fields 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): PHYS 230B; graduate standing; or consent of instructor. A study of current topics in quantum field theory, including solitons and instantons, supersymmetry, and the unification of all forces. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 231 Methods of Theoretical Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. A study of analytic functions, Cauchy's theorem, Taylor series, Laurent series expansions, the residue theorem, and analytic continuation.

PHYS 234 Physics of Nanoscale Systems 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Introduction to fundamental quantum physics in nanoscale systems and low dimensional materials. Including synthesis of low-dimensional material systems; physics-based experimental approaches to nanotechnology; mesoscopic quantum transport of electrons; quantum phenomena involving spin; silicon nanoelectronics and beyond; and future electronics based on topological materials. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with MSE 234A.

PHYS 235 Spintronics and Nanoscale Magnetism 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Provides an overview of contemporary issues in nanoscale magnetism and spin-dependent phenomena in solids, including the fundamentals of magnetism, magnetism in reduced dimensions, novel magnetic materials, spin-polarized transport, spin coherence in semiconductors, magnetization dynamics, and device applications. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with MSE 234B.

PHYS 236 Experimental Techniques in Condensed Matter Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Survey of common experimental techniques used in the field of condensed matter physics. Topics include nanofabrication and characterization, advanced thin film growth methods, vacuum techniques, electrical and magnetic characterization, cryogenic instrumentation, optical measurements, X-ray techniques, data acquisition and analysis,

and general lab techniques. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 237 Experimental Quantum Computing 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Covers experimental approaches to quantum computing. Includes the basics of quantum computing and an introduction to physical realizations of a quantum computer. Focuses on ion traps and experimental implementation of quantum gates and quantum algorithms including search algorithms, quantum Fourier transform, and factorization. Also addresses quantum error correction codes. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 240A Condensed Matter Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 221C; graduate standing; or consent of instructor. Topics include classical and quantum theories of the electron gas; crystal and reciprocal lattices; crystal symmetries; electrons in a periodic potential; nearly free electrons; tight binding; band structure; metals, insulators and semiconductors; semiclassical dynamics; and semiclassical transport. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with MSE 214.

PHYS 240B Condensed Matter Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 240A; graduate standing; or consent of instructor. Topics include electron scattering, electron-electron interactions, classical and quantum harmonic crystals, and phonon dispersion relations. Also addresses dielectric properties, magnetism, and superconductivity. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 241A Advanced Statistical Physics and Field Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 212B; PHYS 221C; graduate standing; or consent of instructor. Topics include elementary excitations in many-body systems, critical phenomena and the renormalization group technique, Green's functions and Feynman diagrams, and other field-theory techniques, and advanced topics in condensed matter physics. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 241B Advanced Statistical Physics and Field Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; PHYS 241A. Topics include advanced field-theory techniques applied to many-body systems, exactly soluble classical and quantum models in one and two dimensions, quantum Hall effect, and other advanced topics in condensed matter physics. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 241C Advanced Statistical Physics and Field Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; PHYS 241B. Topics include quantum magnetism, unconventional superconductivity, localization, transport phenomena, mesoscopic systems, nonequilibrium phenomena, and advanced field-theory methods, such as methods for treating disorder. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 242 Physics at Surfaces and Interfaces 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Overview of surface science, electronic and geometric structure of clean surfaces, techniques for investigating structure, electron spectroscopy of surfaces, adsorption on surfaces, vibrations on surfaces, and epitaxial growth and applications of surface science. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 243 Foundations of Applied Machine Learning 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. For PHYS 243 online section; enrollment in the Online Master-in-Science in Engineering program. Covers basic principles of machine learning (ML) and introduces deep learning. Topics include ML algorithms, practical examples, and case studies for application of ML and deep learning to different disciplines. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 244 Application of Visualization in Data Science 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. For PHYS 244 online section; enrollment in the Online Master-in-Science in Engineering program. Develops interactive visualization and data mining techniques for massive multidimensional datasets. This includes 3D visualization and interaction, fast data exploration and development of big data solutions for text and binary data-intensive applications. Includes details of advanced data visualization techniques and the tools for handling and visualizing massive datasets.

PHYS 245 Atomic and Solid-State Physics With Positrons 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or the consent of instructor. An overview of the field of antimatter science. Includes beta decay, positron sources, positronium physics, positron annihilation spectroscopy, slow positron physics, solid state physics with slow positrons, atomic physics with slow positrons, and many positron physics. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 246 Biological Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate or consent of instructor. Introduces topics at the interface of physics and biology: cell physiology, probability and information, diffusion, random walks, electrostatics, elasticity of biopolymers and membranes, DNA topology, friction in fluids, and low Reynolds numbers. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 247 Introduction to Applied Data Science 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 247 online section: enrollment in the Online-Master-in-Science in Engineering program. PHYS 247 in-person section: graduate standing; or consent of instructor. Designed to provide all the necessary background knowledge to follow other data science courses. Covers basic principles of machine learning (ML) and Python Programming and introduces deep learning. Topics include ML algorithms, practical examples, and case studies for application of ML and deep learning to different disciplines. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 250 Special Topics Seminar in Physics and Astronomy 2 Seminar, 2 hours. Prerequisite(s): graduate standing in Physics and Astronomy or consent of instructor. Includes oral presentations and intensive small-group discussion of selected topics in the area of specialization of each faculty member. Emphasizes recent advances in the special topic area; course content varies accordingly. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

PHYS 256 Advances in Nanoscale Physics 1 or 2 Seminar, 1 hour; individual study, 0 or 3 hours. Prerequisite(s): graduate standing. Seminars on current topics in nanoscale physics and materials science, including nanoelectronic devices, nanoelectromechanical systems, nanoscale biophysics, spintronics, nanoscale magnetism, nanophotonic systems, and advanced characterization techniques. Students who give class presentations receive credit for 2 units; other students receive credit for 1 unit. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PHYS 258 Seminar in Surface Science 1 Seminar, 1 hour. Prerequisite(s): graduate standing in Physics or Chemistry or consent of instructor. Oral presentations by participating visiting scholars, postdoctoral researchers, students, and UCR faculty on current research topics in surface science. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Cross-listed with CHEM 258.

PHYS 260 Special Topics in Condensed Matter Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Explores topics in condensed matter physics that emphasize recent advances. Content varies. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 12 units.

PHYS 261 Special Topics in Astrophysics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Explores topics in astrophysics that emphasize recent advances. Content varies. May be taken Satisfactory (S)

or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 12 units.

PHYS 262 Special Topics in High Energy Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Explores topics in high energy physics that emphasize recent advances. Content varies. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 12 units.

PHYS 288 Current Research Themes in Physics 2 Seminar, 1 hour; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Introduces first-year graduate students to current issues in physics research at UCR. Involves seminars by faculty on their research and interaction with advanced students and postdoctoral researchers. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PHYS 289 Colloquium in Physics 1 Colloquium, 1 hour. Prerequisite(s): graduate standing; consent of instructor. Specialized discussions by visiting scientists, faculty, and students on current research topics in physics. Graded Satisfactory (S) or No Credit (NC). course is repeatable.

PHYS 290 Directed Studies 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor; consent of advisor or Department Chair. Individual study, directed by a faculty member, of specially selected topics. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PHYS 291 Individual Study in Coordinated Areas 1 to 6 Individual Study, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor. Faculty-assisted programs of individual study for candidates who are preparing for examinations. Graded Satisfactory (S) or No Credit (NC). Course is repeatable within the following limits: Up to 6 units may be taken prior to award of the Master's degree, such units to be in addition to minimum unit requirements for the degree. Up to 12 additional units may be taken (continued) prior to advancement to candidacy for the Ph.D.

PHYS 296 Summer Research in Physics 2 Research, 20 hours per quarter. Prerequisite(s): graduate standing; or consent of instructor. Provides mentoring by faculty on research and interaction with advanced graduate students and postdoctoral researchers. Graded Satisfactory (S) or No Credit (NC).

PHYS 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor. Original research, in an area selected for the advanced degree, performed under the direction of a faculty member. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PHYS 299 Research For Thesis Or Dissertation 1 to 12 Thesis, 3 to 36 hours. Prerequisite(s): graduate standing; consent of instructor. Original research, in an area selected for the advanced degree, performed under the direction of a faculty member. This research is to be included as a part of the dissertation. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

PHYS 301 Teaching of Physics at the College Level 2 Lecture, 2 hours. Prerequisite(s): graduate standing in Physics or consent of instructor. Required of all Teaching Assistants in the Department. Designed to introduce effective methods for teaching physics and to evaluate and improve teaching skills. Topics covered include lecture techniques, effective visual aids, improving laboratory and recitation section learning situations. Credit not applicable toward degree course requirements. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PHYS 302 Teaching Practicum 1 to 4 Consultation, 1 hour; laboratory, 3 to 12 hours; practicum, 3 to 12 hours. Prerequisite(s): Appointment as a departmental Teaching Assistant; graduate standing. Supervised teaching in Physics courses and regular consultation with faculty supervisor(s) regarding teaching responsibilities. Credit not applicable toward degree course requirements. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

PHYS 401 Professional Development in Physics and Astronomy 2 Lecture, 1 hour; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor; Introduces students to strategies for successful graduate study and early career development. Covers research and professional ethics, scientific writing (proposals, manuscripts, and abstracts), conference presentations, effective job search skills including preparation of curriculum vitae and networking, effective oral presentations, and job interviews. Visiting experts may give lectures on various topics. Graded Satisfactory (S) or No Credit (NC).

Professors

James E. Adaskaveg, Ph.D.
Emma Aronson, Ph.D.
Katherine A. Borkovich, Ph.D.
James Borneman, Ph.D.
Hailing Jin, Ph.D.
Howard S. Judelson, Ph.D.
James Ng, Ph.D.
Caroline Roper, Ph.D.
Jason E. Stajich, Ph.D.
Georgios Vidalakis, Ph.D.

Professors Emeriti

Michael F. Allen, Ph.D.
Salomon Bartnicki-Garcia, Ph.D.
Michael D. Coffey, Ph.D.
Donald A. Cooksey, Ph.D.
J. Allan Dodds, Ph.D.
John A. Menge, Ph.D.
Howard Ohr, Ph.D.
A. L. N. Rao, Ph.D.
Joseph S. Semancik, Ph.D.
Michael E. Stanghellini, Ph.D.
Peter H. Tsao, Ph.D.

Associate Professors

Patrick Degnan, Ph.D.
Emma Gachomo, Ph.D
Sydney I. Glassman, Ph.D.
Rong Hai, Ph.D.
Ansel Hsiao, Ph.D.
Patricia Manosalva, Ph.D.
Alexander Putman, Ph.D.

Assistant Professors

Elizabeth Brauer, Ph.D.
Sonali Chaturvedi Ph.D.
Tibo Duran, Ph.D.
Ahmed El-Moghazy, Ph.D.
Fatemeh Khodadadi, Ph.D.
Juliet Morrison, Ph.D.
Olakunle Olawole, Ph.D.
Jason A. Rothman, Ph.D.

Affiliated Faculty

Thomas Eulgem, Ph.D. (Botany and Plant Sciences)
Bao-Lam Huynh, Ph.D. (Nematology)
Isgouhi Kaloshian, Ph.D. (Nematology)
Philippe Rolshausen (BPSC)
Joel Sachs, Ph.D. (Biology)

Undergraduate Curriculum

The Department of Microbiology and Plant Pathology the Microbiology majors leading to the baccalaureate degree. See the Microbiology or Botany and Plant Sciences section of this catalog.

Microbiology Major

Microorganisms play key roles in ecosystems and human civilization. They can both cause and prevent a wide array of diseases in animals and plants. They are key components in the manufacturing of bread, cheese, and other food products. Microbes are involved in soil formation, global environmental processes and detoxifying contaminated environments. In addition, they contain a wealth of useful compounds and enzymes for biotechnology.

The Microbiology major is unique because it offers a research based capstone course (MCBL 125) that trains students to become research scientists. The major also offers many laboratory courses enabling students to obtain highly valuable skills.

Students earning a degree will be prepared to continue studies at the graduate level, earn teaching credentials, or enter professional schools in medicine, pharmacy, optometry, dentistry, veterinary medicine, and clinical laboratory science among others. Students will

also be trained for technical careers in medicine, agriculture, biotechnology and environmental fields. For information on how to select elective coursework for specific career paths, visit the CNAS Undergraduate Academic Advising Center.

Students in the Microbiology major can obtain either B.A. or B.S. degrees or both B.S. and M.S. in our combined program. The B.S. degree offers students who have a strong interest in the natural sciences an opportunity to emphasize this aspect of their education. The B.A. degree is available to students who wish to obtain a broader background in the humanities and social sciences.

University Requirements

See the Undergraduate Studies section for requirements that all students must satisfy.

College Requirements

See Degree Requirements, College of Natural and Agricultural Sciences, in the Undergraduate Studies Section, for requirements that students must satisfy.

Major Requirements

Some of the following requirements for the Microbiology major may also fulfill the College's breadth requirements. Consult with an advisor for course planning.

1. **Core Curriculum (68-69 units)**
   Students must complete all required core curriculum courses with a grade of "C-" or better and with a cumulative GPA in the courses of at least 2.0. Grades of "D" or "F" in two required courses, either separate courses or repetitions of the same course, are grounds for discontinuation from the major.
   a) BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C
   b) CHEM 001A or CHEM 01HA, CHEM 01LA or CHEM 1HLA, CHEM 001B or CHEM 01HB, CHEM 01LB or CHEM 01HLB, CHEM 001C or CHEM 01HC, CHEM 01LC or CHEM 1HLC
   c) CHEM 001A or CHEM 08HA, CHEM 08LA or CHEM 08HLA, CHEM 008B or CHEM 08HB, CHEM 08LB or CHEM 08HLB
   d) PHYS 002A or PHYS 02HA, PHYS 02LA or PHYS 02HLA, PHYS 002B or PHYS 02HB, PHYS 02LB or PHYS 02HLB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, or PHYS 040A, PHYS 040B, PHYS 040C
   e) MATH 007A or MATH 009A, MATH 007B or MATH 009B
   f) STAT 010
   g) BCH 100 or BCH 100H or BCH 110A or BCH 110HA
2. **Upper-Division Requirements (36-38 units)**
   a) Major Core (20 units): BIOL 102, BIOL 107A, MCBL 131, MCBL 131L, MCBL 125
   b) Major Electives. A minimum of 16 units from the following to be selected in consultation with a faculty advisor: BIOL 128/CBNS 128, BIOL 157, BIOL 158, CBNS 101, ENSC 120/NEM 120, MCBL 120/BIOL 120/PLPA 120, MCBL 120L/ BIOL 120L/PLPA 120L, MCBL 122/ BIOL 122, MCBL 123/BIOL 123/PLPA 123, MCBL 124/BIOL 124, MCBL 125 (when repeated), MCBL 126, MCBL 127, MCBL 128, MCBL 129, MCBL/ENSC 133, MCBL 139, MCBL 190[1], MCBL 197[1], NEM 159/ BIOL 159, PLPA 134/BIOL 134, PLPA 134L/ BIOL 134L
3. **Depth Requirements**
   For the Bachelor of Science degree, an additional 16 units in upper-division microbiology courses and/or substantive courses in a field or fields related to the major. Acceptable courses include any course not used to fulfill requirements under b) Major Electives, BCH 162, BIOL 107B, BIOL 109, BIOL 119, and MCBL 198-I[2]. Some lower-division courses can also be applied such as STAT 010, STAT 011, MATH 009C, MATH 010A, or CS 009A. A more complete list of acceptable courses is available at the CNAS Undergraduate Academic Advising Center.
   For the Bachelor of Arts degree, the foreign language requirement may be fulfilled by completing level-four course-work or by demonstrating the equivalent proficiency in one foreign language.

Notes:

[1] No more than 4 units of either MCBL 190 or MCBL 197 can be applied toward the Major Electives unit requirement, unless approved by the Microbiology Steering Committee.

[2] No more than 4 units can be applied toward the Depth Requirements unit requirement, unless approved by the Microbiology Steering Committee.

Students are encouraged to take a class in ethics such as PHIL 009.

Combined B.S. + M.S. Five-Year Program Requirements

The Undergraduate and Graduate Programs in Microbiology offers a combined B.S. + M.S. program in Microbiology designed to lead to a Bachelor of Science degree as well as a Master of Science degree in five years.

Applicants for this program must intend to enroll in the UCR Microbiology M.S. program, have a high school GPA above 3.6 (when applying to enroll as a freshman or during their freshman year), a 3.5 GPA in major (upper division classes only, minimum of 11 units to be completed by the end of junior year, and a 3.2 GPA overall in their undergraduate program. Interested students who intend to enter the program in their junior year should check with their academic advisor for information on eligibility, admission requirements, and other details.

During the M.S. portion of this program, students must maintain a grade-point average (both in the major and overall) of at least 3.0 for all course work, both cumulatively and for each quarter of enrollment. If the student's GPA falls below 3.0 (for either the major or overall), the student may be dropped from the program.

Master of Science

The Graduate Program in Microbiology offers the M.S. degree in Microbiology.

General university requirements are listed in the Graduate Studies section of this catalog. Students may obtain an M.S. degree in Microbiology through the Plan II (Comprehensive Examination).

Professional Development

All M.S. students participate in the program's seminar (MCBL 250) each quarter of the master's year when offered, and they are also encouraged to take the program's professional development course (PLPA 265).

Plan II (Comprehensive Examination)

Overall Requirements

Students must complete 36 units of approved graduate work in Microbiology. At least 24 of these 36 units must be graduate level courses (200-level). A maximum of 12 units of upper-division (100-level) MCBL courses can be applied toward the 36-unit requirement.

Course Requirements

- Microbiology Graduate Core Courses (MCBL 202, 211, 221)
- 24 units graduate level MCBL courses (200- level) minimum
- Additional 200 and 100 level courses to complete the 36 units

Written Comprehensive Exam

Students take a comprehensive exam created from relevant material from at least 3 of the 200-level microbiology courses, usually the microbiology core courses. Failure to pass the comprehensive examinations after two opportunities constitutes grounds for dismissal from the program.

Normative Time to Degree

15 quarters (B.S. + M.S.)

3 quarters (M.S.)

Lower-Division Courses

MCBL 095 Exploring Microbiology 1 Seminar, 1 hour. Prerequisite(s): restricted to major(s) Microbiology. Introduces the role of microbes in our daily lives. Includes food production and biotechnology; research topics in microbiology and career options and preparation; and preparation for postgraduate education. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as content or topic changes to a maximum of 2 units.

PLPA 010 Microbes and Society: A Window Into the Microbial World Around Us 4 Lecture, 3 hours; extra reading, 3 hours. An introduction to the remarkable diversity and biology of microorganisms. Emphasizes the areas microorganisms impact human affairs, including food production, agriculture, medicine, and history. Includes cheese-, yogurt-, wine-, beer- and bread-making; the Irish potato famine; tulipomania; antibiotics; mushrooms and mushroom lore; food preservation; microbial toxins and food poisoning; and vaccines and useful viruses.

Upper-Division Courses

MCBL 120 Introduction to Plant Pathology 3 Lecture, 3 hours. Prerequisite(s): BIOL 005C; BCH 100 or BCH 100H or BCH 110A or BCH 110HA; STAT 010. An introduction to the study of plant diseases. Topics include diseases and disease-causing agents,

host-pathogen interaction during disease development, and strategies for disease management. Includes optional, separate laboratory. Cross-listed with BIOL 120, and PLPA 120. Credit is awarded for one of the following PLPA 120, BIOL 120, MCBL 120, or PLPA 210.

MCBL 120L Introduction to Plant Pathology Laboratory 1 Laboratory, 4 hours. Prerequisite(s): BIOL 005C; MATH 007B or MATH 009B or MATH 09HB; PHYS 002C or PHYS 02HC; PHYS 02LC or PHYS 02HLC; BCH 100 or BCH 110A or BCH 110HA; BIOL 120, may be taken concurrently or MCBL 120, may be taken concurrently or PLPA 120, may be taken concurrently; STAT 010, may be taken concurrently; BIOL 121/MCBL 121 and BIOL 124/MCBL 124 recommended; or consent of instructor. Covers fundamentals in the use of laboratory instruments and techniques for the detection, isolation, and identification of representative infectious agents that cause disease in plants. Cross-listed with BIOL 120L, and PLPA 120L. Credit is awarded for one of the following PLPA 120L, BIOL 120L, MCBL 120L, or PLPA 210.

MCBL 121 Introductory Microbiology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A; BIOL 05LA or BIOL 020; BIOL 005B; BIOL 005C; CHEM 001C or CHEM 01HC; MATH 007B or MATH 009B or MATH 09HB; PHYS 002A, may be taken concurrently or PHYS 02HA, may be taken concurrently; PHYS 02LA, may be taken concurrently or PHYS 02HLA, may be taken concurrently; BCH 100, may be taken concurrently or BCH 110A, may be taken concurrently or BCH 110HA, may be taken concurrently; STAT 010; or consent of instructor. An intensive introduction to the fundamental physiology and molecular biology of bacteria and viruses. Covers bacterial and viral molecular genetics, an introduction to microbial pathogenesis, and applications of microbiology in modern societies. Cross-listed with BIOL 121. Credit is awarded for one of the following MCBL 121, BIOL 121, or MCBL 131.

MCBL 121L Microbiology Laboratory 3 Lecture, 1 hour; laboratory, 6 hours. Prerequisite(s): BIOL 121 with a grade of C- or better or MCBL 121 with a grade of C- or better. Laboratory exercises in diagnostic bacteriology, basic virology, and epidemiology. Includes fundamental quantitative and diagnostic microbiological procedures, basic mechanisms of microbial genetic exchange, and a project examining bacterial epidemiology. Cross-listed with BIOL 121L. Credit is awarded for one of the following MCBL 121L, BIOL 121L, or MCBL 131L.

MCBL 122 Food Microbiology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005C; MATH 007B or MATH 009B or MATH 09HB; PHYS 002C or PHYS 02HC; PHYS 02LC or PHYS 02HLC; BCH 100 or BCH 110A or BCH 110HA; STAT 010; or consent of instructor. Covers spoilage and preservation of food; food quality and indicator organisms; the role of microorganisms in the production of dairy goods and fermented beverages; food-borne pathogens and microbiological production of toxins; and classical and modern molecular methods for detection of food microorganisms. Cross-listed with BIOL 122.

MCBL 123 Introduction to Comparative Virology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005C; BCH 100, may be taken concurrently or BCH 100H, may be taken concurrently or BCH 110A, may be taken concurrently or BCH 110HA, may be taken concurrently; MATH 007B or MATH 009B or MATH 09HB; STAT 010; or consent of instructor. Considers viruses as infectious agents of bacteria, plants, and animals (vertebrates and invertebrates). Compares the major groups of viruses with respect to their biological and biochemical properties, molecular and genetic characteristics, and modes of replication. Cross-listed with BIOL 123, and PLPA 123.

MCBL 124 Medical Microbiology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005C; MATH 007B or MATH 009B or MATH 09HB; PHYS 002C or PHYS 02HC; PHYS 02LC or PHYS 02HLC; BCH 100 or BCH 110A or BCH 110HA; STAT 010; or consent of instructor. An intensive introduction to the fundamental physiology and molecular biology of bacteria and viruses. Covers research strategies for examining microbial pathogenic mechanisms. Cross-listed with BIOL 124.

MCBL 125 Experimental Microbiology 4 Lecture, 1.5 hours; workshop, 1 hour; laboratory, 6 hours. Prerequisite(s): BIOL 102; BIOL 107A; MCBL 121 or MCBL 131; MCBL 121L or MCBL 131L; restricted to class level standing of junior, or senior; restricted to major(s) Microbiology; or consent of instructor. Introduces the process of performing experimental research in a microbiology laboratory. Teaches skills used in formulating hypotheses, designing experiments, performing laboratory experiments, analyzing data, and preparing and presenting research in written and oral formats. Experimental systems utilized vary from quarter to quarter. Course is repeatable to a maximum of 12 units.

MCBL 126 Microbiomes 3 Lecture, 3 hours. Prerequisite(s): BIOL 005C; MATH 007B or MATH 009B or MATH 09HB; PHYS 002C or PHYS 02HC; PHYS 02LC or PHYS 02HLC; BCH 100 or BCH 110A or BCH 110HA; STAT 010; or consent of instructor. Introduces microbiomes which are the collections of microorganisms that inhabit particular environments or locations and play crucial roles in agriculture, the environment, and human health and disease. Covers fundamental knowledge about microbiomes and experimental strategies to understand and utilize microbiomes to prevent or treat human and plant diseases. Credit is awarded for one of the following MCBL 126 or MCBL 226.

MCBL 127 Microbial Evolution 4 Lecture, 3 hours; workshop, 1 hour. Prerequisite(s): BIOL 005C; MATH 007B or MATH 009B or MATH 09HB; PHYS 002C or PHYS 02HC; PHYS 02LC or PHYS 02HLC; BCH 100 or BCH 110A or BCH 110HA; STAT 010; or consent of instructor. Explores essential roles microbes perform in biogeochemical cycles, directly influencing human, plant, and animal health and disease. Provides important platforms for research and biotechnology. Details the evolutionary history and processes that underlie the critical roles of microbes. Credit is awarded for one of the following MCBL 127 or MCBL 227.

MCBL 128 Field Mycology: Ecology, Evolution, and Diversity of Fungi 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): BIOL 005C; or consent of instructor. An overview of fungal diversity, morphology, ecology, and societal impacts. Topics include fungal diversity, mushroom identification, fungal culturing, molecular methods, and bioinformatics. Explores impacts of fungi on ecosystem functions such as decomposition and symbiosis as well as on society including art, medicine, poisons, and food. Credit is awarded for one of the following MCBL 128 or MCBL 228.

MCBL 129 Host Responses to Viral Pathogens 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005C; or consent of instructor. Explores host responses to viral infections. Presents content that promotes understanding of how viruses interact with innate immune responses of the mammalian host and how these responses impact disease outcomes for better or worse. Credit is awarded for one of the following MCBL 129 or MCBL 229.

MCBL 131 Introductory Microbiology 2 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005C; restricted to major(s) Microbiology; or consent of instructor. An intensive introduction to the fundamental cellular and molecular biology of bacteria and viruses. Covers bacterial and viral molecular genetics, regulation, and physiology as well as an introduction to microbial pathogenesis. Restricted to major(s) in Microbiology. Credit is awarded for one of the following MCBL 131, BIOL 121, or MCBL 121.

MCBL 131L Microbiology Laboratory 2 4 Lecture, 1 hour; discussion, 1 hour; laboratory, 6 hours. Prerequisite(s): MCBL 131 with a grade of C- or better; restricted to major(s) Microbiology; or consent of instructor. Laboratory and written exercises in diagnostic bacteriology, basic virology, and epidemiology. Topics include fundamental quantitative and diagnostic microbiological procedures, basic mechanisms of microbial genetic exchange, and a project examining bacterial epidemiology. Restricted to major(s) in Microbiology. Credit is awarded for one of the following MCBL 131L, BIOL 121L, or MCBL 121L.

MCBL 133 Environmental Microbiology 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C; or consent of instructor. Introduction to nonpathogenic microorganisms in the environment. Topics include an introduction to microbial biology and microbial and metabolic genetic diversity; methods; symbiotic interactions; biofilms; and geomicrobiology and biogeochemistry. Explores life in extreme environments and the effects of the physical and chemical environment on microbes. Cross-listed with ENSC 133.

MCBL 139 The Evolution of Conflict and Cooperation: Cheaters and Altruists 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005C; or consent of instructor. Explores the evolution of selfish and selfless behavior. An analysis of the evolutionary forces that create either conflict or cooperation among genes, microorganisms and their hosts, and kin. Cross-listed with ENTM 139.

MCBL 190 Special Studies 1 to 5 individual study, 3 to 15 hours. Prerequisite(s): permission of instructor and major chairperson. Provides an opportunity to meet specific curricular needs. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. No more than 4 units can be applied toward the degree without permission from the Microbiology Steering Committee.

MCBL 197 Research For Undergraduates 1 to 4 Directed research, 3 to12 hours. Prerequisite(s): consent of instructor; upper-division standing. Individual research in microbiology performed under the guidance of the staff or faculty. Letter grades are assigned to students presenting a research paper; other students are graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 9 units.

MCBL 198I Individual Internship in Microbiology 1 to 12 Written work, 1 to 12 hours; internship, 2 to 24 hours. Prerequisite(s): BIOL 121 or MCBL 121 or MCBL 131; restricted to class level standing of junior, or senior; and consent of instructor. Provides opportunity for career exploration in microbiology. Includes supervision by a faculty member and an off-campus sponsor. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 16 units.

PLPA 120 Introduction to Plant Pathology 3 Lecture, 3 hours. Prerequisite(s): BIOL 005C; BCH 100 or BCH 100H or BCH 110A or BCH 110HA; STAT 010. An introduction to the study of plant diseases. Topics include diseases and disease-causing agents, host-pathogen interaction during disease development, and strategies for disease management. Includes optional, separate laboratory. Cross-listed with BIOL 120, and MCBL 120. Credit is awarded for one of the following PLPA 120, BIOL 120, MCBL 120, or PLPA 210.

PLPA 120L Introduction to Plant Pathology Laboratory 1 Laboratory, 4 hours. Prerequisite(s): BIOL 005C; MATH 007B or MATH 009B or MATH 09HB; PHYS 002C or PHYS 02HC; PHYS 02LC or PHYS 02HLC; BCH 100 or BCH 110A or BCH 110HA; BIOL 120, may be taken concurrently or MCBL 120, may be taken concurrently or PLPA 120, may be taken concurrently; STAT 010, may be taken concurrently; BIOL 121/MCBL 121 and BIOL 124/MCBL 124 recommended; or consent of instructor. Covers fundamentals in the use of laboratory instruments and techniques for the detection, isolation, and identification of representative infectious agents that cause disease in plants. Cross-listed with BIOL 120L, and MCBL 120L. Credit is awarded for one of the following PLPA 120L, BIOL 120L, MCBL 120L, or PLPA 210.

PLPA 123 Introduction to Comparative Virology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005C; BCH 100, may be taken concurrently or BCH 100H, may be taken concurrently or BCH 110A, may be taken concurrently or BCH 110HA, may be taken concurrently; MATH 007B or MATH 009B or MATH 09HB; STAT 010; or consent of instructor. Considers viruses as infectious agents of bacteria, plants, and animals (vertebrates and invertebrates). Compares the major groups of viruses with respect to their biological and biochemical properties, molecular and genetic characteristics, and modes of replication. Cross-listed with BIOL 123, and MCBL 123.

PLPA 125 Pesticide Science 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 008B, BIOL 005C or CHEM 08HB; CHEM 08LB or CHEM 08HLB. An introduction to the chemistry, modes of action, and use of insecticides, rodenticides, herbicides, and biopesticides from discovery to environmental interactions. Includes genetics of pesticide resistance development, resistance management, government regulation, probit analysis, dilution and calculations of treatment rates, and sustainable pest management. Cross-listed with ENTM 125, and ENTX 125.

PLPA 134 Introduction to Mycology 3 Lecture, 3 hours. Prerequisite(s): BIOL 005C; MATH 007B or MATH 009B or MATH 09HB; PHYS 002C or PHYS 02HC; PHYS 02LC or PHYS 02HLC; BCH 100 or BCH 110A or BCH 110HA; STAT 004, or equivalent; or consent of instructor. Introduction to the morphology, taxonomy, genetics, physiology, ecology, and economic importance of the major groups of the fungi. Cross-listed with BIOL 134.

PLPA 134L Introduction to Mycology Laboratory 1 Laboratory, 3 hours. Prerequisite(s): BIOL 005A, BIOL 005B, BIOL 005C, or equivalents; concurrent enrollment in BIOL 134/PLPA 134; or consent of instructor. Introduces fundamentals in the use of laboratory instruments and techniques for the isolation, cultivation, and identification of representatives of the major taxa of fungi. Cross-listed with BIOL134L.

PLPA 190 Special Studies 1 to 5 Prerequisite(s): consent of instructor. To be taken as a means of meeting special curricular problems.

PLPA 197 Research For Undergraduates 1 to 4 Prerequisite(s): consent of instructor. Individual research in plant pathology performed under the guidance of members of the staff.

Graduate Program

The Department of Microbiology and Plant Pathology offers the M.S. and Ph.D. degrees in Plant Pathology.

Admission

In addition to meeting the requirements for admission to the Graduate Division, students typically have a baccalaureate major in a biological science or training equivalent to that given in the Plant Science curriculum of the College of Natural and Agricultural Sciences. Majors in the physical sciences are welcomed, but students must be prepared to augment their undergraduate preparation with courses in the biological sciences.

All candidates for the M.S. or the Ph.D. degree should have good basic preparation in chemistry and biology. It is common for students to have completed courses in biochemistry, organic chemistry, cell and molecular biology, calculus, general physics, general botany, microbiology, statistics, genetics, plant physiology, mycology, and plant pathology. If these courses have been completed as an undergraduate, graduate study is facilitated. If students have not completed these courses prior to admission, they may be required to take them early in their graduate career.

Master's Degree

General university requirements are given in the Graduate Studies section of this catalog. The master's degree in Plant Pathology is offered under Plans I or II.

Plan I (Thesis) requires 36 units of upper-division and graduate courses, of which at least 24 must be in the 200 series courses in Plant Pathology or Nematology. A maximum of 12 units may be in graduate research for the thesis.

Plan II (Comprehensive Examination) requires 36 units of upper-division and graduate courses, of which at least 18 must be in the 200-series courses in Plant Pathology or Nematology, excluding graduate research for a thesis or dissertation, and a comprehensive final examination in the major subject.

The departmental graduate advisory committee, in consultation with the student's major professor or curriculum advisor, is responsible for prescribing the course of study, which requires as a minimum of PLPA 200, PLPA 206/NEM 206, PLPA 207, PLPA 210, PLPA 234, PLPA 250 and PLPA 265.

Doctoral Degree

In accord with the student's preparation and specific interests, the departmental graduate advisory committee, in consultation with the student's major professor or curriculum advisor, prescribes areas where study is required. In addition to selected subjects in plant pathology, related fields in which some degree of competence may be expected is drawn normally from biochemistry, biology, chemistry, cell and molecular biology, entomology, genetics, genomics, mathematics, microbiology, nematology, plant physiology, soils, and statistics.

The departmental graduate advisory committee, in consultation with the student's major professor or curriculum advisor, is responsible for prescribing the course of study.

Course Work

The course of study requires as a minimum PLPA 200, PLPA 206/NEM 206, PLPA 207, PLPA 210, PLPA 234, PLPA 250 and PLPA 265.

Written and Oral Qualifying Examinations

Students must demonstrate to the departmen-

tal graduate advisory committee, by written and oral examination, adequate preparation in the fields fundamental to plant pathology and in any area in which students have placed special emphasis in their training. A written dissertation research proposal is to be prepared before the qualifying examination and defended during the oral examination. After successful completion of the qualifying examination and all other formal requirements to the satisfaction of the dean of the Graduate Division, the student is advanced to candidacy for the Ph.D. degree.

The Oral Qualifying Exam can be taken in one of the following modes: In-Person or Hybrid. Remote participation by the student and the exam committee members is allowed under extenuating circumstances that include, but not limited to, health issues and personal or family emergencies. A student's remote participation must be communicated to the committee chair and the student in time to set up the remote option.

Dissertation and Final Oral Examination
A dissertation is required of every candidate. The dissertation must be approved by the dissertation committee before the candidate may take the final oral examination. The final oral examination deals primarily with defense of the dissertation and its relation to the field in which its subject lies.

The Final Defense can be taken in one of the following modes: In-Person or Hybrid. In-person participation is the norm, i.e., by default; therefore, no approval is needed. Remote participation by the student and the exam or thesis committee members is the exception, and it is allowed under extenuating circumstances that include, but not limited to, health issues and personal or family emergencies. A student's remote participation must be approved by a majority of the committee members. A faculty's remote participation must be communicated to the committee chair and the student in time to set up the remote option.

Professional Development Training
Both M.S. and Ph.D. students fulfill their professional development training by enrolling in PLPA 265, a 3-unit course that covers a range of topics including careers in plant pathology, cv preparation, skills on giving scientific presentations, strategies for success in the candidacy examination and graduate school. data acquisition, management and ownership, policy and regulation, as well as intellectual property.

Teaching Requirement
Ph.D. students must fulfill a one-quarter teaching requirement.

Normative Time to Degree 15 quarters

Graduate Courses

PLPA 200 Fungal Diseases of Plants 3 Lecture, 2 hours; laboratory, 3 hours. Prerequisite(s): BIOL 134/PLPA 134 or consent of instructor. A study of important fungal diseases of plants including biology of development of pathogens, host-parasite relations, and survival strategies. Emphasizes disease physiology, epidemiology, etiology, and control measures including breeding for resistance and chemical and biological control.

PLPA 206 Phytopathogens: Nematodes 2 Lecture, 1 hour; laboratory, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Recognition, diagnosis, biology, and control of major nematode diseases of plants. Laboratory covers identification techniques, soil sampling and processing techniques, and process of pathogenesis. Cross-listed with NEM 206.

PLPA 207 Bacterial and Viral Diseases of Plants 3 Lecture, 2 hours; laboratory, 3 hours. Prerequisite(s): BIOL 120, MCBL120, or PLPA 120; graduate standing; or consent of instructor. An extensive introduction to bacterial diseases of plants including symptomatology, epidemiology, diagnosis, control, and the physiology and biochemistry of plant-bacterial interactions.

PLPA 210 Introduction to Plant Pathology 5 Lecture, 3 hours; laboratory, 3 hours; discussion, 1 hour; term paper, 2 hour. Prerequisite(s): graduate standing. Studies the major concepts and principles of plant pathology to become familiar with the group of pathogens causing infectious diseases in plants. Offers an understanding of the most recent approaches to study plant pathogens and the interactions with their host as they may be applied to animal and human research. Credit is not awarded for PLPA 210 if it has already been awarded for BIOL 120/BIOL 120L and/or PLPA 120/PLPA120L and/or MCBL 120/MCBL 120L.

PLPA 219 Molecular Plant Virology 3 Lecture, 3 hours. Prerequisite(s): PLPA 207. Molecular biology of plant, animal, and bacterial viruses and viroids. Emphasizes plant viruses, replication strategies, evolution, genetics, viruses as genetic vectors, and recombination.

PLPA 221 Chemical Control of Plant Diseases 3 Lecture, 3 hours. Prerequisite(s): graduate standing; consent of instructor. A study of the principles of selective toxicity as applied to the control of plant diseases; the chemistry and mechanism of action of antimicrobial agents.

PLPA 226 Microbial Genetics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BCH 110C or BIOL 107A; BIOL 102; graduate standing. In-depth coverage of the genetics of microbes. Emphasizes the primary data and the foundation of modern techniques using viruses, archaea, prokaryotes, and eukaryotes. Includes genome sequences and organization, plasmids and other vectors, and mutation and genetic screens. Also covers transposable elements, recombination, and regulation of gene expression, development, and pathogenesis. Cross-listed with BIOL 221, and MCBL 221.

PLPA 230 Molecular Plant-Microbial Interactions 3 Lecture, 2 hours; discussion, 1 hour. Prerequisite(s): BCH 100, BIOL 120 or MCBL 120 or PLPA 120, or equivalents; graduate standing. A study of the physiology of host-pathogen interactions with emphasis on the metabolism of diseased plants, nature of pathogenicity, and defense mechanisms in plants. Cross-listed with BPSC 230, CMDB 230, and GEN 230.

PLPA 234 Introduction to Mycology 5 Lecture, 3 hours; laboratory, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing in Plant Pathology. Introduction to the kingdom fungi and related kingdoms of organisms. Includes overview of major taxonomic groups of fungi and their morphology, physiology, classical genetics, and ecology. Discusses the economic importance of fungi as related to plant pathology. Credit is not awarded for PLPA 234 if it has already been awarded for BIOL 134/PLPA 134 and/or BIOL 134L/PLPA 134L.

PLPA 235 Epidemiology of Plant Disease 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 120/MCBL 120/PLPA 120. An introduction to the study of plant disease epidemics and their management. Topics will include: temporal, spatial, and genetic aspects of disease development in plant populations; assessment and prediction of disease and crop loss; inoculum density-disease relationships; and modeling.

PLPA 240 Field Plant Pathology 1 field trips, Prerequisite(s): graduate standing; consent of instructor. This course will deal with diagnosis of plant disease in the field, collection methods, identification of pathogens, and control methods. Graded Satisfactory (S) or No Credit (NC).

PLPA 241 Special Topics 2 Lecture, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Oral presentations and intensive small-group discussion of selected topics in each faculty member's area of specialization. Course content emphasizes recent advances in the special topic area and varies accordingly. Graded Satisfactory (S) or No Credit (NC). Course is repeatable. Cross-listed with MCBL 241.

PLPA 245 Field Mycology 1 field trips, Prerequisite(s): BIOL 134 or PLPA 134; graduate standing; or consent of instructor. This course will deal with observation, collection and identification of fungi both in the field and the laboratory. Graded Satisfactory (S) or No Credit (NC).

PLPA 246 Diagnosis of Plant Disease 2 Lecture, 3 hours; laboratory, 1 hour; field, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Field trips to observe symptomology of diseases in nature, identification by laboratory and greenhouse tests, approaches to control, culture practices for major California crops, and influences of crop management on disease development.

PLPA 250 Seminar in Plant Pathology 1 Seminar, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Reports and discussions of selected topics in plant pathology by graduate students. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PLPA 261 Seminar in Genetics, Genomics, and Bioinformatics 1 Seminar, 1 hour.

Prerequisite(s): graduate standing or consent of instructor. Oral reports by visiting scholars, faculty, and students on current research topics in Genetics, Genomics, and Bioinformatics. Graded Satisfactory (S) or No Credit (NC). Course is repeatable. Cross-listed with BCH 261, BIOL 261, BPSC 261, ENTM 261, and GEN 261.

PLPA 265 A Colloquium On the Principles of Plant Pathology 3 Lecture, 3 hours. Prerequisite(s): advanced standing in the program; graduate standing. Faculty members will rotate as leaders in structured discussions leading to a synthesis of concepts from other courses, the heterogeneity of plant pathology as a scientific discipline, and its unifying principles. Graded Satisfactory (S) or No Credit (NC).

PLPA 290 Research Or Study On Special Topics By Individual Graduate Students 1 to 6 Research, 1 to 6 hours. Prerequisite(s): graduate standing; and consent of instructor. This course is designed to allow graduate students to study an area or areas not covered by formal course work under a professor who will direct the amount and judge the quality of the work. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PLPA 291 Individual Study in Coordinated Areas 1 to 6 Research, 1 to 6 hours. Prerequisite(s): graduate status. A program of study designed to advise and assist candidates who are preparing for examinations. A student may take up to 12 additional units prior to successful completion of the Ph.D. qualifying examination. Graded Satisfactory (S) or No Credit (NC).

PLPA 297 Directed Research 1 to 6 Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PLPA 299 Research For Thesis Or Dissertation 1 to 12 Prerequisite(s): . . Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professors

Benjamin Bishin, Ph.D.
Shaun Bowler, Ph.D. *Distinguished Professor*
Miguel Carreras, Ph.D.
Paul D'Anieri, Ph.D.
Kevin M. Esterling, Ph.D.
Farah Godrej Ph.D.
Indridi Indridason, Ph.D.
Kelechi A. Kalu, Ph.D.
John N. Medearis, Ph.D.
Jennifer Merolla, Ph.D.
Benjamin Newman, Ph.D.

Professors Emeriti

John C. Laursen, Ph.D.
Max Neiman, Ph.D.
David S. Pion-Berlin, Ph.D. *Distinguished Professor*
Georgia Warnke, Ph.D. *Distinguished Professor*

Associate Professors

Daniel Biggers, Ph.D.
Marissa Brookes, Ph.D.
John W. Cioffi, Ph.D.
Kim Dionne, Ph.D.
Laura Evans, Ph.D.
Diogo Ferrari, Ph.D.
Jana Grittersova, Ph.D.
Noel P. Johnston, Ph.D.
Bronwyn A. Leebaw, Ph.D.
Steven Liao, Ph.D.
Ronald O. Loveridge, Ph.D.
Nicholas Weller, Ph.D.

Assistant Professors

Desireé Melonas, Ph.D.
Nicholas Napolio, Ph.D.

Associate Professor of Teaching

Yasemin Irepoglu-Carreras, Ph.D.
Diego Esparza, Ph.D.
Andrea Silva, Ph.D.
Joshua Wood, Ph.D.

Lecturers

Jeremy Busacca, Ph.D.
Peter Mort, J.D.
W. Parkes Riley, Ph.D.

Majors

The Political Science Department offers undergraduate majors leading to B.A. degrees in Political Science, Political Science/Administrative Studies, Political Science/International Affairs, Political Science/Law and Society, and Political Science/Public Service. In addition, the department offers minors in Political Science and International Relations.

Counseling

Counseling on graduation and departmental requirements and on enrollment is handled in the department office by the student affairs staff.

For more information about the undergraduate programs, call or write the Department of Political Science, (951) 827-5502 or (951)827-5312.

Political Science Major

The study of political science provides undergraduates with career opportunities in law, government service, education, journalism, and business. Because career goals may vary, the department offers two distinct majors. For students planning careers in such areas as law, journalism, or teaching, the traditional major in Political Science is appropriate. For students considering careers in government service, especially for such positions as program and budget analyst, urban planner, and executive or administrative assistant, the appropriate major is the Political Science/Public Service major.

Further information on the study of law or the legal profession may be obtained from the departmental prelaw counselor.

Political Science/Administrative Studies Major

The Political Science/Administrative Studies major combines the disciplinary interests of political science with a particular focus on administrative behavior, tools of decision making, and politics of public policy. The Administrative Studies component provides an interdisciplinary approach to training in administrative analytical skills and, more importantly, to the study of the policies, politics, and theories of public administration. The Business Administration courses provide a variety of perspectives on these objectives. In addition, they should be of particular value to those planning to either enter directly into public administration (federal, state, or local levels) or attend a professional school of administration.

Political Science/International Affairs Major

The Political Science/International Affairs major offers a challenging opportunity to observe and participate in the dynamics of global interaction. As versatile as it is valuable, a degree in international affairs prepares the student for work in many diverse careers in the private sector, government, and academia. From diplomatic missions to the United Nations to intense debate with a private "think tank," careers in international affairs should appeal to students seeking to understand and influence the world in which we live.

Political Science/Law and Society Major

The Law and Society major is open to undergraduate students with junior standing who have completed LWSO 100 with a grade of "C" or higher. The major combines the breadth of a political science major with a particular focus on the theme of law and law-like relationships. The major provides a multidisciplinary approach to the study of legal and law-like institutions and relationships and focuses on relationships that have formed the core of political science: the emergence and development of law, the relationship between law and values, and the growth of the power of the state, among others. The courses provide a variety of perspectives on this theme, and the range of courses should be of particular benefit to those who plan to attend law school.

Political Science/Public Service Major

The Political Science/Public Service major introduces students to knowledge and skills associated with managerial career positions in government, without sacrifice of either a broad knowledge of politics or a liberal arts education.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

The Political Science Department offers undergraduate majors leading to B.A. degrees in Political Science, Political Science/Administrative Studies, Political Science/International Affairs, Political Science/Law and Society, and Political Science/Public Service.

Political Science Major

The major requirements for the B.A. degree in

Political Science are as follows:

1. **Lower-division requirements (four courses [at least 16-20 units]): one course from a, b, c, and d.**

   Students in the major must complete two of the four lower-division Political Science courses with a grade of "C" or better in order to take upper-division Political Science courses.

   a) POSC 005 or POSC 005H or POSC 005W or POSC 007 or POSC 007W

   b) POSC 010 or POSC 010H or POSC 010W

   c) POSC 015 or POSC 015H or POSC 017

   d) POSC 020 or POSC 020H

Upper-division requirements (nine courses [at least 36 units])

a) One course from each of the following areas:

(1) **U.S. Government and Politics:** POSC 100, POSC 101, POSC 104 or 104S, POSC 108, POSC 143 or POSC 143S, POSC 144 or POSC 144S, POSC 145, POSC 146, POSC 148 or POSC 148H or POSC 148S, POSC 149, POSC 166, POSC 167, POSC 168, POSC 170, POSC 171, POSC 173 or POSC 173S, POSC 180 or POSC 180S, POSC 181, POSC 182E, POSC 183E, POSC 184 or POSC 184S, POSC 186

(2) **Comparative Government and Politics:** POSC 102 or POSC 102S, POSC 109/RLST 173 POSC 120, POSC 151 or POSC 151S, POSC 152, POSC 153, POSC 154, POSC 155 or POSC 155S, POSC 156, POSC 157 or POSC 157S, POSC 158/LNST 148, POSC 159 or POSC 159S, POSC 160E or POSC 160F, POSC 161/LNST 188, POSC 162/LNST142 or POSC 162S/LNST 142S, POSC 163 or POSC 163S, POSC 164 or POSC 164S, POSC 165 or POSC 165S, POSC 178 or POSC 178S, POSC 188 or POSC 188S

(3) **International Relations and Foreign Policy:** POSC 123, POSC 124 or POSC 124S, POSC 125, POSC 126 or POSC 126S, POSC 127/SEHE 127 or POSC 127S/SEHE 127S, POSC128, POSC 129, POSC 130, POSC 132 or POSC 132S, POSC 134 or POSC 134S, POSC 135, POSC 136 or POSC 136S POSC 137/SEHE 137 or POSC 137S/SEHE 137S, POSC 138 or POSC 138S, POSC 139/SEHE 139 or POSC 139S/SEHE 139S, POSC 147 or POSC 147S, POSC 150 or POSC 150S, POSC 169, POSC 182F or POSC 182G, POSC 183F or POSC 183G

(4) **Political Theory:** POSC 106/SEHE 136 or POSC 106S/SEHE 136S, POSC 107/GBST 107, POSC 110 or POSC 110S, POSC 111 or POSC 111S, POSC 112 or POSC 112S, POSC 113, POSC 115 or POSC 115S, POSC 116 or POSC 116S, POSC 117 or POSC 117S, POSC 119, POSC121/CLA 121/CPAC 121 or POSC 121S /CLA 121S/CPAC 121S, POSC 122 or POSC 122S, POSC 131/BLKS 118

b) Five additional courses in Political Science course work (Not more than 2 courses from the 190 series and POSC 142L and POSC 142M are allowed toward the nine-course upper-division requirement.)

A course in statistics is strongly recommended.

Political Science/Administrative Studies Major

The major requirements for the B.A. degree in Political Science/Administrative Studies are as follows. Note that the prerequisite for POSC 198-I is a GPA of 2.70 or better.

Political Science requirements (48 units)

1. Lower-division requirements

   Three courses from POSC 005 or POSC 005H or POSC 005W or POSC 007 or POSC 007W; POSC 010 or POSC 010H or POSC 010W; POSC 015 or POSC 015H or POSC 017; POSC 020 or POSC 020H

   Students in the major must complete two of the three lower-division Political Science courses with a grade of "C" or better in order to take upper- division political science courses.

2. Upper-division requirements

   a) Three courses from POSC 181, POSC 182E or POSC 182F or POSC 182G, POSC 183E or POSC 183F, POSC186

   b) At least one course from each of the following:

   (1) **U.S. Government and Politics:** POSC 100, POSC 101, POSC 104 or POSC 104S, POSC 108, POSC 143 or POSC 143S, POSC 144 or POSC 144S, POSC 145, POSC 146, POSC 148 or POSC 148H or POSC 148S, POSC 149, POSC 166, POSC 167, POSC 168, POSC 170, POSC 171, POSC 173 or POSC 173S, POSC 180 or POSC 180S, POSC 181, POSC 182E, POSC 183E, POSC 184 or POSC 184S, POSC 186

   (2) **Comparative Government and Politics:** POSC 102 or POSC 102S, POSC 109/RLST 173, POSC 120, POSC 151 or POSC 151S, POSC 152, POSC 153, POSC 154, POSC 155 or POSC 155S, POSC 156, POSC 157 or POSC 157S, POSC 158/LNST 148, POSC 159 or POSC 159S, POSC 160 or POSC 160S, POSC 161/LNST 188, POSC 162/LNST 142 or POSC 162S/LNST 142S, POSC 163 or POSC 163S, POSC 164 or POSC 164S, POSC 165 or POSC 165S, POSC 178 or POSC 178S, POSC 188 or POSC 188S

   (3) **International Relations and Foreign Policy:** POSC 123, POSC 124 or POSC 124S, POSC 125, POSC 126 or POSC 126S, POSC 127/SEHE 127 or POSC 127S/SEHE 127S, POSC 128, POSC 129, POSC 130, POSC 132 or POSC 132S, POSC 134 or POSC 134S, POSC 135, POSC 136 or POSC 136S, POSC 137/SEHE 137 or POSC 137S/SEHE 137S, POSC 138 or POSC 138S, POSC 139/SEHE 139 or POSC 139S/SEHE 139S, POSC 147 or POSC 147S, POSC 150 or POSC 150S, POSC 153, POSC 169, POSC 182F or POSC 182G, POSC 183F

   (4) **Political Theory:** POSC 106/SEHE 136 or POSC 106S/SEHE 136S, POSC 107/GBST 107, POSC 110 or POSC 110S, POSC 111 or POSC 111S, POSC 112 or POSC 112S, POSC 113, POSC 115 or POSC 115S, POSC 116 or POSC 116S, POSC 117 or POSC 117S, POSC 119, CLA 121/CPAC 121/POSC 121 or CLA 121S/CPAC 121S/POSC 121S, POSC 122 or POSC 122S, POSC 131/BLKS 118

   c) Four (4) units from POSC 198G or POSC 198-I (prerequisite: GPA of 2.70 or better)

   d) Additional four (4) units in any upper-division Political Science course

Administrative Studies requirements (37 units)

1. Lower-division courses (17 units)

   a) BUS 010, BUS 020

   b) STAT 008 or equivalent (may be used to satisfy breadth requirements)

   c) CS 008 (may be used to satisfy breadth requirements)

2. Upper-division requirements (20 units)

   a) Two courses (8 units) from the list below: (1) ECON 102 or ECON 103 or ECON 104A or ECON130 or ECON 162/BUS 162

   (2) PSYC 140 or PSYC 142

   (3) SOC 150 or SOC 151

   (4) POSC 181 or POSC 182E or POSC 182G or POSC 183 or POSC 186

   (5) ANTH 127 or ANTH 127S or ANTH 131

   These two courses must be outside the discipline of Political Science and cannot be courses included as part of the three course Business Administration track or their cross-listed equivalents.

   b) A three-course track (12 units) in Business Administration courses from one of the following:

   (1) **Organizations (General):** BUS 100W, BUS 107, BUS 158/ANTH 105, BUS 176/SOC 176, SOC 150, SOC 151

   (2) **Human Resources Management/Labor Relations:** BUS 100W, BUS 107, BUS 121, BUS 144, BUS 145, BUS 153/ECON 153, BUS 155, BUS 156, BUS 157, PSYC 142

   (3) **Business and Society:** BUS 100W, BUS 102, BUS 107, PHIL 116, POSC 182E or POSC 182G, POSC 186

   (4) **Marketing:** BUS 103, and two from BUS 111, BUS 112, BUS 113, BUS 114, BUS 115, BUS 116, BUS 117, BUS 118, BUS 119, BUS 124, BUS 126, BUS 151, BUS 152, BUS 159, BUS 164, BUS 182

   (5) **Managerial Accounting/Taxation:** BUS 108, and two from BUS 166, BUS 168A, BUS 168B

   (6) **Financial Accounting:** BUS 108, BUS 165A, BUS 165B, BUS 165C, BUS 167

   (7) **Finance:** BUS 106/ECON 134 and two from BUS 131, BUS 132, BUS 134, BUS 135, BUS 136, BUS 137, BUS 138, BUS

139 BUS 140E, BUS 141, BUS 147

(8) **Management Information Systems:** BUS 101, BUS 110, BUS 125, BUS 128, BUS 171, BUS 172, BUS 173, BUS 174, BUS 175, BUS 179

(9) **Production Management:** BUS 104/ STAT 104, and two from BUS 105, BUS 122, BUS 127/STAT 127

Note: In filling the dual requirements of the selected major, students may not count more than two courses toward both parts of their total requirements (Political Science requirements and Administrative Studies requirements).

Political Science/International Affairs Major

The major requirements for the B.A. degree in Political Science/International Affairs are as follows:

1. Lower-division requirements (two courses [at least 8-10 units]): One course from a and one course from b:
   a) POSC 015 or POSC 015H or POSC 017
   b) POSC 020 or POSC 020H

Students in the major must complete two lower- division Political Science courses with a grade of "C" or better in order to take upper-division political science courses.

Upper-division requirements (11 courses, 44-55 units):

a) International Relations and Foreign Policy (three courses): POSC 123, POSC 124 or POSC 124S, POSC 125, POSC 126 or POSC 126S, POSC 127/SEHE 127 or POSC 127S/SEHE 127S, POSC 128, POSC 129, POSC 130, POSC 132 or POSC 132S, POSC 134 or POSC 134S, POSC 135, POSC 136 or POSC 136S, POSC 137/SEHE 137 or POSC 137S/SEHE 137S, POSC 138 or POSC 138S, POSC 139 or POSC 139S, POSC 147 or POSC 147S, POSC 150 or POSC 150S, POSC 169, POSC 182F or POSC 182G, POSC 183F

b) Comparative Government and Politics (three courses): POSC 102 or POSC 102S, POSC 109/RLST 173, POSC 120, POSC 151 or POSC 151S, POSC 152, POSC 153, POSC 154, POSC 155 or POSC 155S, POSC 156, POSC 157 or POSC 157S, POSC 158/ LNST 148, POSC 159 or POSC 159S, POSC 160 or POSC 160S, POSC 161/LNST 188, POSC 162/LNST 142 or POSC 162S/LNST 142S, POSC 163 or POSC 163S, POSC 164 or POSC 164S, POSC 165 or POSC 165S, POSC 178 or POSC 178S, POSC 188 or POSC 188S

c) General Political Science (three other political science courses in any subfield).

d) In addition, students must take two courses from the following:

ANTH109/GSST 109, ANTH 122, ANTH 127 or ANTH 127S, ANTH 136/SEAS 136, ANTH 139, ANTH 161/LNST 161, ANTH 163, ANTH 164/LNST 164/GSST 164, ANTH168/ ETST148/LNST168, ANTH 169/GBST 169, ANTH 182, ANTH 186/LNST 166, ANTH 188/GSST 151 ECON 171, ECON 175, ECON 178/ BUS 178, ECON 181, ECON 182, ECON 185/LNST 185 HISA 117A, HISA 117B, HISA 140, HISA 161, HISA 162, HISA 163B, HISA 164A, HISA 164B, HISA 165, HISA 166, HISE 141, HISE 142, HISE 145 or HISE 145S, HISE 146 or HISE 146S, HISE 147, HISE 152, HISE 162, HISE 174, HIST 124, HIST 125, HIST 127, HIST 182, HIST 184, HIST 186, SOC 135, SOC 137, SOC 161, SOC 181

Students may petition for permission to count a specific course not on this list.

Political Science/International Affairs majors are strongly encouraged to learn a language other than English. The university offers language instruction in Chinese, French, German, Greek, Italian, Japanese, Korean, Latin, Portuguese, Spanish, and Vietnamese.

Political Science/Law and Society Major

The major requirements for the B.A. degree in Political Science/Law and Society are as follows:

1. **Political Science requirements (60 units)**

All major requirements for the B.A. in Political Science

2. **Law and Society requirements (36 units)**
   a) PHIL 007 or PHIL 007H
   b) LWSO 100 (with a grade of "C" or better)
   c) One course chosen from POSC 114, PSYC 012, SOC 004 (or equivalent course in research methods)
   d) Three courses chosen from ANTH 127, ECON 119, HISE 153, PHIL 165, POSC 167, PSYC 175, SOC 159
   e) Two courses chosen from HISA 120A, HISA 120B, HISE 123, LWSO 175 (E-Z), PHIL 164, POSC 111, POSC 166, POSC 168, POSC 186, SOC 147, SOC 149, SOC 180
   f) LWSO 193, Senior Seminar

Note: For sections 2.d) and 2.e) combined, not more than two courses may be taken from the same department in filling the dual requirements of the major, students may not count more than two courses toward both parts of their total requirements (Political Science requirements and Law and Society requirements).

Political Science/Public Service Major

The major requirements for the B.A. degree in Political Science/Public Service are as follows. Note that the prerequisite for POSC 198-I is a GPA of 2.70 or better.

1. **Lower-division requirements (five courses [at least 20-25 units])**
   a) POSC 010 or POSC 010H or POSC 010W
   b) One course from POSC 005 or POSC 005H or POSC 005W, POSC 007 or POSC 007W, POSC 015 or POSC 015H or POSC 017, POSC 020 or POSC 020H
   c) ECON 003
   d) SOC 004
   e) SOC 005 or STAT 040

Students in the major must complete two of the lower-division Political Science courses with a grade of "C" or better in order to take upper-division political science courses.

2. **Upper-division requirements (11 courses [at least 40-48 units])**
   a) Political Science distribution: choose one course from each group
      (1) **Comparative Government and Politics Group:** POSC 102 or POSC 102S, POSC 109/RLST 173, POSC 120, POSC 151 or POSC 151S, POSC 152, POSC 153, POSC 154, POSC 155 or POSC 155S, POSC 156, POSC 157 or POSC 157S, POSC 158/LNST 148, POSC 159 or POSC 159S, POSC 160 or POSC 160S, POSC 161/LNST 188, POSC 162/ LNST 142 or POSC 162S/LNST 142S, POSC 163 or POSC 163S, POSC 164 or POSC 164S, POSC 165 or POSC 165S, POSC 178 or POSC 178S, POSC 188 or POSC 188S
      (2) **International Relations and Foreign Policy Group:** POSC 123, POSC 124 or POSC 124S, POSC 125, POSC 126 or POSC 126S, POSC 127/SEHE 127 or POSC 127S/SEHE 127S, POSC 128, POSC 129, POSC 130, POSC 132 or POSC 132S, POSC 134 or POSC 134S, POSC 135, POSC 136 or POSC 136S, POSC 137/ SEHE 137 or POSC 137S/SEHE 137S, POSC 138 or POSC 138S, POSC 139/ SEHE 139 or POSC 139S/SEHE 139S, POSC 147 or POSC 147S, POSC 150 or POSC 150S, POSC 169, POSC 182F or POSC 182G, POSC 183F
      (3) **Political Theory Group:** POSC 106/ SEHE 136 or POSC 106S/SEHE 136S, POSC 107/GBST 107, POSC 110 or POSC 110S, POSC 111 or POSC 111S, POSC 112 or POSC 112S, POSC 113, POSC 115 or POSC 115S, POSC 116 or POSC 116S, POSC 117 or POSC 117S, POSC 119, POSC 121/CLA 121/CPAC 121 or POSC 121S/CLA 121S/CPAC 121S, POSC 122 or POSC 122S, POSC 131/ BLKS 118
   b) Public Service requirement
      (1) a) Choose one: POSC 181 or POSC 182E; b) Choose one: POSC 183E or POSC 183F
      (2) Eight (8) units from POSC 198G and POSC 198-I (prerequisite: GPA of 2.70 or better)
      (3) An additional four courses from POSC 100, POSC 101, POSC 104 or POSC 104S, POSC 108, POSC 143 or POSC 143S, POSC 144 or POSC 144S, POSC 145, POSC 146, POSC 148 or POSC 148H or POSC 148S, POSC 149, POSC 166, POSC 167, POSC 168, POSC 170, POSC 171, POSC 173 or POSC 173S, POSC 180 or POSC 180S, POSC 181, POSC 182E, POSC 183E, POSC 184 or POSC 184S, POSC 186

Minor

The Political Science Department offers a minor in Political Science.

1. **One lower-division course (at least 5 units) in political science**, selected from POSC 005 or POSC 005H or POSC 005W or POSC 007 or POSC 007W; POSC 010 or POSC 010H or POSC 010W; POSC 015 or POSC 015H or POSC 017; POSC 020 or POSC

020H

2. **Five upper-division courses (at least 20 units) to be selected as follows:**

   a) One course in each of the following areas (4 courses):

   (1) **American Politics:** POSC 100, POSC 101, POSC 104 or POSC 104S, POSC 108, POSC 143 or POSC 143S, POSC 144 or POSC 144S, POSC 145, POSC 146, POSC 148 or POSC 148H or POSC 148S, POSC 149, POSC 166, POSC 167, POSC 168, POSC 170, POSC 171, POSC 173 or POSC 173S, POSC 180 or POSC 180S, POSC 181, POSC 182E, POSC 183E, POSC 184 or POSC 184S, POSC 186

   (2) **Comparative Politics:** POSC 102, POSC 102S, POSC 109/RLST 173, POSC 120, POSC 151 or POSC 151S, POSC 152, POSC 153, POSC 154, POSC 155 or POSC 155S, POSC156, POSC 157 or POSC 157S, POSC 158/LNST 148, POSC 159 or POSC 159S, POSC 160 or POSC 160S, POSC 161/LNST 188, POSC 162/LNST 142 or POSC 162S/LNST 142S, POSC 163 or POSC 163S, POSC 164 or POSC 164S, POSC 165 or POSC 165S, POSC 178 or POSC 178S, POSC 188 or POSC 188S

   (3) **International Relations:** POSC 123, POSC 124 or POSC 124S, POSC 125, POSC 126 or POSC 126S, POSC 127/SEHE 127 or POSC 127S/SEHE 127S, POSC 128, POSC 129, POSC 130, POSC 132 or POSC 132S, POSC 134 or POSC 134S, POSC 135, POSC 136 or POSC 136S, POSC 137/SEHE 137 or POSC 137S/SEHE 137S, POSC 138 or POSC 138S, POSC 139 or POSC 139S, POSC 147 or POSC 147S, POSC 150 or POSC 150S, POSC 169, POSC 182F or POSC 182G, POSC 183F

   (4) **Political Theory:** POSC 106/SEHE 136 or POSC 106S/SEHE 136S or POSC 107, POSC 110 or POSC 110S, POSC 111 or POSC 111S, POSC 112 or POSC 112S, POSC 113, POSC 115 or POSC 115S, POSC 116 or POSC 116S, POSC 117 or POSC 117S, POSC 119, POSC 121/CLA 121/CPAC 121 or POSC 121S/CLA 121S/CPAC 121S, POSC 122 or POSC 122S

   b) One additional course selected by the student from among those listed in (1) through (4) above.

The Political Science Department also offers a minor in **International Relations** (listed elsewhere in this catalog). Also, see Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Honors Program

The Political Science undergraduate Honors Program is designed to provide qualified upper-division Political Science majors with opportunities to engage in upper-division course work in the field in an intensive seminar format and to obtain the necessary training to engage in independent research in the field.

Upon successful completion of the program, students are awarded and have posted on their transcripts, the designation Honors, Department of Political Science Undergraduate Honors Program.

Complete details and an application are available from the Political Science Student Affairs Officer.

Prerequisites for the Honors Program

1. Submission of an application during the last quarter of the sophomore or junior year
2. Junior standing (completion of a minimum of 86 units)
3. Minimum GPA requirements or consent of director
   a) Cumulative GPA of 3.50
   b) A GPA of 3.50 in upper-division major courses
4. Statistics or methods course required. One course chosen from POSC 114 or POSC 114S, PSYC 012, SOC 004 (or an equivalent course in research methods)

Requirements for the Honors Program

Twelve (12) units/three courses from the following:

POSC 175H (Introduction to the Honors Thesis)

POSC 176H (Seminar on Writing the Honors Thesis)

POSC 177H (Honors Thesis)

POSC 199 (Senior Research [Thesis Optional])

Model United Nations (MUN)

The Model United Nations (MUN) program is a campuswide activity that combines academic and social aspects. The academic preparation takes place within the Political Science Department, with one course, POSC 142L. The simulation preparation takes place within the UCRMUN organization, for participation in external conferences. Each year, the UCRMUN organization hosts a two-day MUN conference, which attracts over a thousand high school students. In recent years, the UCRMUN High School MUN has been the third largest in the nation. Planning and running this conference is entirely in the hands of UCR students participating in the UCRMUN program. The program provides training in administration and diplomacy. In the spring, a UCRMUN delegation attends either a local conference or the National Model United Nations Conference in New York City.

Education Abroad

Education Abroad is an excellent opportunity to learn more about another country and its culture while taking courses to earn units toward graduation. Students should plan study abroad well in advance to ensure that the courses taken fit with their overall program at UCR. Consult the departmental student affairs officer for assistance. For further details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

Graduate Program

The Department of Political Science offers the M.A. and Ph.D. degrees in Political Science.

Admission

Admission to both the M.A. and Ph.D. degrees is based on the quality and character of previous academic work and letters of evaluation from previous instructors. Applications are accepted for the Fall quarter only.

Master's Degree

The Department of Political Science offers the M.A. degree in Political Science.

Usually, the department operates under Plan II.

Plan II (Comprehensive Examination)

Students must complete 36 units, of which at least 32 units must be in 200-level Political Science courses, including POSC 201, POSC 202A, and POSC 203. In addition, students must complete at least one course from at least three of the five fields offered by the department (see listing below). Up to 4 units of academic work in related fields may be approved by the graduate advisor as part of the 36 units.

The examination must be passed in one of the following fields:

1. **Comparative Politics**
   Students must complete at least two courses in the field chosen from POSC 217, POSC 227, POSC 257, POSC 263, POSC 266, POSC 271, POSC 272, POSC 273, POSC 274, POSC 275, POSC 276, POSC 277, POSC 278, POSC 279, and POSC 282.
2. **International Relations**
   Students must complete the core course POSC 216 and at least one additional course in the field chosen from POSC 214, POSC 215, POSC 218, POSC 262, POSC 263, POSC 264, POSC 267, POSC 268, and POSC 269.
3. **American Politics**
   Students must complete the core course POSC 249 and at least one additional course in the field chosen from POSC 208, POSC 220, POSC 250, POSC 252, POSC 254, POSC 259, and POSC 261.
4. **Mass Political Behavior**
   Students must complete a core course, either POSC 255 or POSC 256, and at least one additional course in the field chosen from POSC 208, POSC 220, POSC 253, POSC 257, POSC 258, POSC 259, POSC 260, and POSC 277.
5. **Political Theory**
   Students must complete the core course POSC 212 and at least one additional course in the field chosen from POSC 213, POSC 267, POSC 268, POSC 280, POSC 281, and POSC 283.

Permission to complete the M.A. program under Plan I (Thesis) is restricted to students who can demonstrate a readiness to undertake advanced independent research and who can identify a faculty member willing to supervise preparation of the thesis.

Doctoral Degree

The Department of Political Science offers the Ph.D. degree in Political Science.

The first two years of the program are devoted to course work and preparation for the Ph.D.

examination. During this period, students obtain substantive background in the discipline through completion of three graduate courses per quarter. Course work, which will usually continue beyond the second year, includes the following required components:

1. Selecting two major fields of concentration from the five fields listed below.
2. Satisfying course requirements for the major fields, which requires a total of eight graduate courses. (This is the **Major Field Requirement**; see details below.)
3. Taking one course in each of the three fields of study not selected by the student as a major field. (This is the **Distribution Requirement**.)
4. Taking three additional graduate courses in any field of study, according to the student's choice, in consultation with the faculty advisors. With permission of the Graduate Advisor, one or more of these courses may be graduate-level courses outside of Political Science. (This is the **Depth Requirement**.)
5. Students must complete POSC 201, 202A and 203 and at least two additional graduate courses in methods. The two additional courses may include POSC 202B, 204, 205, 207, 225, or other graduate methods courses. One of these may be from outside the Political Science Department, by permission of the Graduate Advisor. (This is the Methods Requirement.)
6. Enrollment in POSC 230. Students must be enrolled in the course during their first year in the program, and subsequently during quarters of their choice, until completion of 10 units, to be completed by the end of their fifth year. Exceptions only by permission of Graduate Advisor. (This is the **Professional Development** Requirement.)

The major fields may be chosen from among American Politics, Mass Political Behavior, Comparative Politics, International Relations, and Political Theory.

1. **Comparative Politics**
   Students must complete at least four courses in the field chosen from POSC 217, POSC 227, POSC 257, POSC 263, POSC 266, POSC 271, POSC 272, POSC 273, POSC 274, POSC 275, POSC 276, POSC 277, POSC 278, POSC 279, and POSC 282.
2. **International Relations**
   Students must complete the core course POSC 216 and at least three additional courses in the field chosen from POSC 214, POSC 215, POSC 218, POSC 262, POSC 263, POSC 264, POSC 267, POSC 268 and POSC 269.
3. **American Politics**
   Students must complete the core course POSC 249 and at least three additional courses in the field chosen from POSC 208, POSC 220, POSC 250, POSC 252, POSC 254, POSC 259, POSC 260 and POSC 277.
4. **Mass Political Behavior**
   Students must complete a core course, either POSC 255 or POSC 256, and at least three additional courses in the field chosen from POSC 208, POSC 220, POSC 253, POSC 257, POSC 258, POSC 259, POSC 260 and POSC 277.
5. **Political Theory**
   Students must complete the core course POSC 212 and at least three additional courses in the field chosen from POSC 213, POSC 267, POSC 268, POSC 280, POSC 281, and POSC 283.

One POSC 290 course may be accepted in lieu of a seminar. This limit may be exceeded by permission of Graduate Advisor if course staffing or scheduling problems require it. All POSC 290 courses must have prior approval of the graduate advisor. A POSC 290 course should only be taken if the material to be covered is not available in a scheduled course.

Written Qualifying Examination
Students should ordinarily complete major field course requirements during Years One and Two. In the fall quarter of Year Three, the student continues to enroll in POSC 230, while also enrolling in POSC 291 (Individual Coordinated Study), which is designed to aid preparation for the comprehensive examination. Written examinations in the two major fields are normally taken in the two weeks before the start of the fall quarter of the third year. Postponements to this schedule are allowed in exceptional circumstances; all delays in taking comprehensive examinations must be approved by the Graduate Committee.

Oral Defense of Prospectus
The winter and spring quarters of Year Three and all of Year Four are devoted to Directed Research (POSC 297) to prepare a dissertation prospectus under the direction of the principal advisor; to additional substantive seminars; and to continued participation in POSC 230. The choice of substantive seminars during this time should be made in conjunction with faculty advisors and should usually be applicable either to the distribution or depth requirements, although students may also take courses in excess of these requirements. No later than the fall quarter of Year 5, students are advanced to candidacy upon successful completion of the oral defense of their dissertation prospectus. Oral exams (or prospectus defense) should be completed no later than quarter 13 or fall of year 5.

The Oral Defense of Prospectus (Oral Qualifying Exam) can be taken in any of the following modes: **In-Person**, **Remote**, or **Hybrid**. The student and their advisor will discuss which mode best suits the subject matter, with the advisor making the final determination. Students completing the defense In-person are expected to present on campus with all committee members physically present. If Remote is chosen, all committee members and student have the option to attend remotely. If Hybrid is chosen, the student is expected to present the exam on campus in a video enabled room that supports some members physically present and others remote. At least one member of the committee must be physically present for a Hybrid exam.

Normative time to completion of the program is six years. Additional time is provided if circumstances warrant it. Whether circumstances justify additional time is to be determined by the Graduate Committee, in cooperation with the thesis advisor.

Students who do not complete their degree requirements during this two-year period are closely reviewed on a biannual basis. These reviews are provided by the graduate advisor, after consultation with the dissertation advisor. Until completion of the Ph.D. requirements, each review includes targeted amounts of required progress, to be completed prior to the next review. Students who fail to complete their scheduled work are reviewed by the Graduate Program Committee for a recommendation of termination from the Political Science graduate program.

Dissertation and Final Defense

Students must complete a dissertation on a subject chosen by the candidate, bearing on the principal field area and showing the student's ability in independent investigation. The dissertation committee guides the student in preparing the dissertation. Students are required to complete a final oral examination to defend the dissertation unless waived by the dissertation committee chair and the graduate advisor.

The Final Defense (Final Oral Examination) may be taken in any of the following modes: In-Person, Remote, or Hybrid. The student and their advisor will discuss which mode beset suits the subject matter, with the advisor making the final determination. Students completing the defense In-person are expected to present on campus with all committee members physically present. If Remote is chosen, all committee members and the student have the option to attend remotely. If Hybrid is chosen, the student is expected to present the exam on campus in a video enabled room that supports some members physically present and others remote. At least one member of the committee must be physically present for a Hybrid exam.

Normative Time to Degree 18 quarters.

General regulations applying to the dissertation and qualifying examinations are found in the Graduate Studies section of this catalog and in other Graduate Division and department publications.

For further information, contact the graduate advisor, Department of Political Science.

Lower-Division Courses

POSC 005 Political Ideologies 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. An introductory study of the ideologies of the modern era. Explores selected thinkers and texts representative of liberalism, conservatism, socialism, fascism, nationalism, nonviolence, and feminism, as well as various non-Western ideologies. Credit is awarded for one of the following POSC 005, POSC 005H, or POSC 005W.

POSC 005H Honors Political Ideologies 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): admission to University Honors or consent of instructor. Honors course corresponding to POSC 005 and POSC 005W. An introductory study of the ideologies of the modern era. Explores selected thinkers and texts representative of liberalism, conservatism, socialism, fascism, nationalism, nonviolence, and feminism, as well as various non-Western

ideologies. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of POSC 005, POSC 005H, or POSC 005W.

POSC 005W Political Ideologies 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): concurrent enrollment in WRIT 040G; WRIT 020 with a grade of C or better, WRIT 020S with a grade of C or better; or consent of instructor. An introductory study of the ideologies of the modern era. Explores selected thinkers and texts representative of liberalism, conservatism, socialism, fascism, nationalism, nonviolence, and feminism as well as various non-Western ideologies. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits, as alternatives to WRIT 030. Credit is awarded for one of the following POSC 005W, POSC 005, or POSC 005H. Credit is awarded for one of the following POSC 005W, POSC 005, or POSC 005H.

POSC 007 Introduction to Political Theory 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): none. An introductory exploration of political theory from the ancient world to the present. Covers either Western theorists (from Aristotle to Rawls) or non-Western theorists (from Confucius to Gandhi). Topics include citizenship, community, political change, and human flourishing. Credit is awarded for one of the following POSC 007 or POSC 007W.

POSC 007W Introduction to Political Theory 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): concurrent enrollment in WRIT 040I; WRIT 020 with a grade of C or better or WRIT 020S with a grade of C or better; or consent of instructor. An introductory exploration of political theory from the ancient world to the present. Covers either Western theorists (from Aristotle to Rawls) or non-Western theorists (from Confucius to Gandhi). Topics include citizenship, community, political change, and human flourishing. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits, as alternatives to WRIT 030. Credit is awarded for one of the following POSC 007W or POSC 007.

POSC 010 American Politics 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): none. An introduction to the principles and practices of government. Focuses on the policy process and selected political issues in the United States. Credit is awarded for one of the following POSC 010, POSC 010H, or POSC 010W.

POSC 010H Honors American Politics 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): admission to University Honors or consent of instructor. Honors course corresponding to POSC 010. An introduction to the principles and practices of government. Focuses on the policy process and selected political issues in the United States. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of POSC 010 or POSC 010H or POSC 010W.

POSC 010W American Politics 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): concurrent enrollment in WRIT 040J; WRIT 020 with a grade of C or better or WRIT 020S with a grade of C or better; or consent of instructor. An introduction to the principles and practices of government. Focuses on the policy process and selected political issues in the United States. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits, as alternatives to WRIT 030. Credit is awarded for one of the following POSC 010W, POSC 010, or POSC 010H.

POSC 015 Comparative Politics 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): none. A comparative analysis of contemporary political systems, practices, and institutions. Credit is awarded for one of the following POSC 015 or POSC 015H.

POSC 015H Honors Comparative Politics 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): admission to University Honors or consent of instructor. Honors course corresponding to POSC 015. A comparative analysis of contemporary political systems, practices, and institutions. Credit is awarded for only one of POSC 015 or POSC 015H.

POSC 017 Politics of the Global South 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): none. An introduction to the political processes and problems confronting states in the Global South. Topics include political and economic development issues such as poverty, violence, dictatorship, regime types, regime transitions, corruption, and patronage.

POSC 020 World Politics 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Explores approaches to and models of international relations. Includes theories, the causes of war, international organizations, cooperation and conflict, international political economy, regional economic agreements, and international social issues such as human rights and the environment. Credit is awarded for one of the following POSC 020 or POSC 020H.

POSC 020H Honors World Politics 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): admission to the University Honors. Program or consent of instructor. Honors course corresponding to POSC 020. Explores approaches to and models of international relations: theories, the causes of war, international organizations, cooperation and conflict, international political economy, regional economic agreements, and international social issues such as human rights and the environment. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of POSC 020 or POSC 020H.

POSC 045 Special Seminar in Political Science 1 Intensive examination of specific political arenas, utilizing the expertise of prominent political practitioners. Will be offered not more than once a quarter; can be repeated up to four times for credit.

Upper-Division Courses

POSC 100 Presidential Politics 4 Lecture, 3 hours; research, 1 hour; individual study, 1 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Analyzes modern presidential leadership and power. Topics include the institutional presidency, presidential selection, and the presidency's relationships with the bureaucracy, Congress, interest groups, the press, and the public. Considers what makes presidents popular and what determines the effectiveness of presidential leadership.

POSC 101 The United States Congress 4 Lecture, 3 hours; research, 1 hour; extra reading, 1 hour; term paper, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Analyzes the politics of the contemporary U.S. Congress. Topics include representation, elections, parties and leaders, committees, public policy, the history of the institution, and the relationships between Congress and the other branches of government.

POSC 102 Political Behavior in Comparative Perspective 4 Lecture, 3 hours; extra reading, 3 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of sophomore, junior, or senior; or consent of instructor. Introduces theories of public political behavior from a comparative perspective, including explanations from the political psychology, political sociology, and political economy perspectives. Topics include public ideology, political polarization, attitudes toward minority groups, parties, and welfare policies in European and American countries. Credit is awarded for one of the following POSC 102 or POSC 102S.

POSC 102S Political Behavior in Comparative Perspective 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of sophomore, junior, or senior; or consent of instructor. Introduces theories of public political behavior from a comparative perspective, including explanations from the political psychology, political sociology, and political economy perspectives. Topics include public ideology, political polarization, attitudes toward minority groups, parties, and welfare policies in European and American countries. Credit is awarded for one of the following POSC 102S or POSC 102.

POSC 103 Political Psychology 4 Lecture, 3 hours; written work, 1 hour; term paper, 1 hour; activity, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. An introduction to political psychology theories. Explores different theoretical perspectives (including

but not limited to) cognitive psychology, group psychology, social identity theory, and group conflict theory. Focuses on applications of those theories to study politics. Course is repeatable as content or topic changes to a maximum of 8 units. Credit is awarded for either or both "Political Psychology:American Politics" and "Politial Psychology:Comparative Politics." For each topic, students can take only the "S" or non-"S" version.

POSC 103S Political Psychology 5 Lecture, 3 hours; discussion, 1 hour; written work, 1 hour; term paper, 1 hour; activity, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. An introduction to political psychology theories. Explores different theoretical perspectives (including but not limited to) cognitive psychology, group psychology, social identity theory, and group conflict theory. Focuses on applications of those theories to study politics. Course is repeatable as content or topic changes to a maximum of 10 units. Credit is awarded for either or both "Political Psychology:American Politics" and "Politial Psychology:Comparative Politics." For each topic, students can take only the "S" or non-"S" version.

POSC 104 Special Topics in the Politics of Race, Immigration, and Ethnicity 4 Lecture, 3 hours; extra reading, 2 hour; term paper, 1 hour. Prerequisite(s): upper-division standing; POSC 010 or POSC 010H or POSC 010W or consent of instructor. Provides an in-depth examination of the politics of race, immigration, and ethnicity in the United States. Emphasizes the role of political institutions and political behavior. Covers one of the following topics: African American Politics, Asian American Politics, Latino Politics, Native American Politics. Course is repeatable as topics change to a maximum of 12 units. Credit is not awarded to POSC 104 if it has already been awarded to POSC 104S if the content or topic are the same.

POSC 104S Special Topics in the Politics of Race, Immigration, and Ethnicity 5 Lecture, 3 hours; discussion, 1 hour; term paper, 3 hours. Prerequisite(s): upper-division standing; POSC 010 or POSC 010H or POSC 010W or consent of instructor. Provides an in-depth examination of the politics of race, immigration, and ethnicity in the United States. Emphasizes the role of political institutions and political behavior. Covers one of the following topics: African American Politics, Asian American Politics, Latino Politics, Native American Politics. Course is repeatable as topics change to a maximum of 15 units. Credit is not awarded to POSC 104S if it has already been awarded to POSC 104 if the content or topic are the same.

POSC 105 Race and Law Enforcement 4 Seminar, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): POSC 010 or POSC 010H or POSC 010W or PBPL 001. Introduces the role of race and ethnicity in the historical and contemporary practice of law enforcement in the United States. Focuses on the scientific study of race and policing.

POSC 106 Environmental Political Thought 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Addresses various philosophical aspects of the human relationship to the environment from social, political, and economic perspectives. Includes debates related to issues such as how should human beings interact with their environment, as well as the relationship of environmental practice to liberalism, democracy, and capitalism. Cross-listed with SEHE 136. Credit is awarded for one of the following POSC 106, SEHE 136, POSC 106S, or SEHE 136S.

POSC 106S Environmental Political Thought 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Addresses various philosophical aspects of the human relationship to the environment from social, political, and economic perspectives. Includes debates related to issues such as how should human beings interact with their environment, as well as the relationship of environmental practice to liberalism, democracy, and capitalism. Cross-listed with SEHE 136S. Credit is awarded for one of the following POSC 106S, SEHE 136S, POSC 106, or SEHE 136.

POSC 107 Non Western Political Thought 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Explores some of the key political thinkers, ideas, and cultural-religious legacies of non-Western societies. Addresses pertinent non-Western civilizations and crucial problems in comparative political theory. Provides a detailed analysis of political thinking in regions such as the Middle East, South Asia, and East/Southeast Asia. Cross-listed with GBST 107.

POSC 108 Politics of Race, Immigration, and Ethnicity in the United States 5 Lecture, 3 hours; discussion, 1 hour; term paper, 2 hours; extra reading, 1 hour. Prerequisite(s): POSC 010 or POSC 010H or POSC 010W; restricted to class level standing of junior, or senior; or consent of instructor. Examines the politics of race, immigration, and ethnicity in the United States including comparisons between African Americans and Latino, Asian, and European immigrants. Emphasizes the role of institutions in shaping the importance of race to politics in the United States.

POSC 109 Political Religions and Religious Politics 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Investigation of major themes and issues in the intersection of religion and politics, such as the sacralization of politics, religious nationalisms, sacral kingship, revolutionary asceticism, "throne and altar," civil religion, millennialism, political myth and ritual, integralism, and the conformity of the polity to religious values. Cross-listed with RLST 173.

POSC 110 The Origins of Political Ideas 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of the major schools of political thought of ancient times. Covers political philosophers such as Plato, Aristotle, Confucius, and Ashoka. Credit is awarded for only one of POSC 110 or POSC 110S.

POSC 110S The Origins of Political Ideas 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A study of the major schools of political thought of ancient times. Covers political philosophers such as Plato, Aristotle, Confucius, and Ashoka. Credit is awarded for only one of POSC 110 or POSC 110S.

POSC 111 Democracy and the Social Contract 4 Lecture, 3 hours; extra reading, 2 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A study of the major political philosophers of the social contract and their critics on issues such as individualism versus community; the roles of religion and markets in politics; and the adequacy of contract theory for women and minorities. Credit awarded for only one of POSC 111 or POSC 111S.

POSC 111S Democracy and the Social Contract 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. A study of the major political philosophers of the social contract and their critics. Explores issues such as individualism versus community; the roles of religion and markets in politics; and the adequacy of contract theory for women and minorities. Credit is awarded for one of the following POSC 111S or POSC 111.

POSC 112 Modern Political Theory 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Critically explores selected works of political theory from the eighteenth century to the present. Concentrates on issues such as freedom, utility, justice, nature, citizenship, toleration, equality and inequality, autonomy, democracy, power, rights, and identity. Credit is awarded for one of the following POSC 112 or POSC 112S.

POSC 112S Modern Political Theory 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Critically explores selected works of political theory from the eighteenth century to the present. Concentrates on issues such as freedom, utility, justice, nature, citizenship, toleration, equality and inequality, autonomy, democracy, power, rights, and identity. Credit is awarded for one of the following POSC 112S or POSC 112.

POSC 113 American Political Thought 4 Lecture, 3 hours; extra reading,

3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. A study of developments in American political thought from the seventeenth century to the present.

POSC 114 Theory and Methodology of Political Science 4 Lecture, 3 hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Covers the development and scope of political science as a discipline. Addresses selected theoretical and methodological issues in contemporary political and social science. Credit is awarded for only one of POSC 114, POSC 114H, or POSC 114S.

POSC 114H Honors Theory and Methodology of Political Science 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): upper-division standing, admission to University Honors; or consent of instructor. Honors course corresponding to POSC 114 and POSC 114S. Covers the development and scope of political science as a discipline. Addresses selected theoretical and methodological issues in contemporary political and social science. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of POSC 114, POSC 114H, or POSC 114S.

POSC 114L Theory and Methodology of Political Science 4 Seminar, 3 hours; written work, 3 hours. Prerequisite(s): and consent of instructor. Covers analytical approaches used in contemporary political science emphasizing practical application. Addresses research design, research ethics, data collection and management, and public engagement. Utilizes a lab model to offer practical skills training in research methods.

POSC 114S Theory and Methodology of Political Science 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Covers the development and scope of political science as a discipline. Addresses selected theoretical and methodological issues in contemporary political and social science. Credit is awarded for only one of POSC 114, POSC 114H, or POSC 114S.

POSC 115 Utopia and Dystopia 4 Lecture, 3 hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing. Examines the political theory of utopian literature from ancient Greece to the present including analysis of utopian and dystopian elements in each work. Authors include Plato, Thomas More, James Harrington, Ernest Callenbach, and Katherine Forrest. Credit is awarded for only one of POSC 115 or POSC 115S.

POSC 115S Utopia and Dystopia 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing. Examines the political theory of utopian literature from ancient Greece to the present including analysis of utopian and dystopian elements in each work. Authors include Plato, Thomas More, James Harrington, Ernest Callenbach, and Katherine Forrest. Credit is awarded for only one of POSC 115 or POSC 115S.

POSC 116 Capitalism, Socialism, and Political Theory 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Focuses on issues such as markets and marketization, labor, globalization, freedom, class, corporations, democracy, the welfare state, and power. Credit is awarded for one of the following POSC 116 or POSC 116S.

POSC 116S Capitalism, Socialism, and Political Theory 5 Lecture, 3 hours; discussion, 1 hour; written work, 1 hour; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines debates about economic life. Focuses on issues such as markets and marketization, labor, globalization, freedom, class, corporation, democracy, the welfare state, and power. Credit is awarded for one of the following POSC 116S or POSC 116.

POSC 117 Contemporary Democratic Theory 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A critical survey of the principal approaches to thinking about democracy since the World War II. May cover elite, pluralist, deliberative and participatory theories. Addresses questions about inclusiveness, and the optimal character and scope of democracy. Credit is awarded for only one of POSC 117 or POSC 117S.

POSC 117S Contemporary Democratic Theory 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours; written work, 1 hour. Prerequisite(s): upper division standing or consent of instructor. A critical survey of the principal approaches to thinking about democracy since World War II. May cover elite, pluralist, deliberative, and participatory theories. Addresses questions about inclusiveness and the optimal character and scope of democracy. Credit is awarded for only one of POSC 117 or POSC 117S.

POSC 118 Global Economic Crisis 4 Seminar, 4 hours; research, 3 hours; written work, 3 hours; extra reading, 3 hours. Prerequisite(s): GBST 001. Examines crises associated with neoliberal globalization, global finance, and recession beginning in the 1970s. Topics include the political economy of capitalism; variation in governmental response; political instability and crisis; origins of current global political economic crises affecting developed countries; and proposed remedies. Cross-listed with GBST 104.

POSC 119 Political Thinkers in Depth 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior. Intensive reading of one or more great political thinkers from around the world, focusing on contested readings of each figure. Examples may include Plato, Confucius, Machiavelli, Marx and Engels, John Stuart Mill, or Gandhi.

POSC 120 The Politics of India and Pakistan 4 Lecture, 3 hours; extra reading and term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of the domestic and international politics of India and Pakistan, with attention to other South Asian countries. Explores nationalist movements, struggles for development, contrasting experiences with democracy and dictatorship, and internal and external conflicts.

POSC 121 Monarchy 4 Lecture, 3 hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A cross-cultural survey of the institution of monarchy in the ancient world and its role in political, social, economic, and religious life. Cross-listed with CPAC121, and CLA121. Credit is awarded for only one of CLA 121/CPAC 121/POSC 121 or CLA 121S/CPAC 121S/POSC 121S.

POSC 121S Monarchy 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the cross-cultural survey of the institution of monarchy in the ancient world and its role in political, social, economic, and religious life. Cross-listed with CLA 121S, and CPAC 121S. Credit is awarded for only one of CLA 121/CPAC 121/POSC 121 or CLA 121S/CPAC 121S/POSC 121S.

POSC 122 Skepticism and Liberalism 4 Lecture, 3 hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Explores the origins of the modern way of thinking about politics (i.e., liberalism in a sense that includes both conservatives and liberals) by the ancient and early modern skeptics such as Montaigne, Spinoza, Hume, and Kant. POSC 130 Politics and Economics of the Pacific Rim 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Provides a broad understanding of the politics and economics of countries that border the Pacific Rim, such as Japan, South Korea, Singapore, Taiwan, and China, and of their relationship to the United States. Addresses major issues including economic growth, sociopolitical development, trade, and interdependence.

POSC 131 Black Political Thought 4 Lecture, 3 hours; extra reading, 1 hour; activity, 2 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines approaches and evaluates what is at stake in engaging and producing Black political thought. Focuses on to the Black experience in the context of the United States but also covers African and Caribbean thinkers. Topics include freedom, democracy, liberation, futurity, community, radical imagining, and state-sanctioned violence. Cross-listed with BLKS 118.

POSC 132 Postconflict Justice and Reconciliation 4 Lecture, 3 hours; term paper, 2 hours; individual study, 1 hour. Prerequisite(s): upper-division standing. Examines a range of strategies for pursuing justice and reconciliation in the aftermath of war and other forms of violent conflict. Topics include the laws of war theory, international criminal justice, truth commissions, and restorative justice. Credit is awarded for only one of POSC 132 or POSC 132S.

POSC 132S Postconflict Justice and Reconciliation 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing. Examines a range of strategies for pursuing justice and reconciliation in the aftermath of war and other forms of violent conflict. Topics include the laws of war, just war theory, international criminal justice, truth commissions, and restorative justice. Credit is awarded for only one of POSC 132 or POSC 132S.

POSC 134 Political Economy of International Finance 4 Lecture, 3 hours; individual study, 1 hour; extra reading, 1 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines historical and contemporary issues in international money finance. Explores how financial globalization shaped policy decisions at the national and the international level. Utilizes examples from developed and developing countries with different political and legal regimes. Credit is awarded for only one of POSC 134 or POSC 134S.

POSC 134S Political Economy of International Finance 5 Lecture, 3 hours; discussion, 1 hour; individual study, 1 hour; extra reading, 1 hour; term paper, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines historical and contemporary issues in international money finance. Explores how financial globalization shaped policy decisions at the national and the international level. Utilizes examples from developed and developing countries with different political and legal regimes. Credit is awarded for one of the following POSC 134S or POSC 134.

POSC 136 Political Economy of International Migration 4 Lecture, 3 hours; extra reading, 1 hour; individual study, 1 hour; term paper, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines the political and economic causes and consequences of international migration. Explores the effects of migration in both sending and receiving countries and how policymakers respond to these effects. Focuses on public opinion formation, interest group politics, immigration policy making, brain drain, remittances, diaspora engagement policies, and refugee policy. Credit is awarded for one of the following POSC 136 or POSC 136S.

POSC 136S Political Economy of International Migration 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 1 hour;

individual study, 1 hour; term paper, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines the political and economic causes and consequences of international migration. Explores the effects of migration in both sending and receiving countries and how policymakers respond to these effects. Focuses on public opinion formation, interest group politics, immigration policymaking, brain drain, remittances, diaspora engagement policies, and refugee policy. Credit is awarded for one of the following POSC 136S or POSC 136.

POSC 137 Environmental Justice and Human Rights 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines how notions of justice and human rights have been brought to bear on environmental and sustainability debates. Also examines the theoretical and historical basis of the environmental justice and human rights movements. Topics include local concerns (including "food deserts") and air pollution, as well as global problems. Cross-listed with SEHE 137. Credit is awarded for one of the following POSC 137, SEHE 137, POSC 137S, or SEHE 137S.

POSC 137S Environmental Justice and Human Rights 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines how notions of justice and human rights have been brought to bear on environmental and sustainability debates. Also examines the theoretical and historical basis of the environmental justice and human rights movements. Topics include local concerns (including "food deserts") and air pollution, as well as global problems. Cross-listed with SEHE 137S. Credit is awarded for one of the following POSC 137S, SEHE 137S, POSC 137, or SEHE 137.

POSC 138 Labor and Globalization 4 Lecture, 3 hours; individual study, 2 hours; term paper, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines the relationship between globalization and labor. Focuses on four key political actors that shape the workers? fates in the global economy: transnational corporations, national governments, international organizations, and workers themselves. Cross-listed with LABR 138. Credit is awarded for one of the following POSC 138, LABR 138, LABR 138S, or POSC 138S.

POSC 138S Labor and Globalization 5 Lecture, 3 hours; discussion, 1 hour; individual study, 2 hours; term paper, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines the relationship between globalization and labor. Focuses on four key political actors that shape the workers' fates in the global economy: transnational corporations, national governments, international organizations, and workers themselves. Cross-listed with LABR 138S. Credit is awarded for one of the following POSC 138S, LABR 138S, LABR 138, or POSC 138.

POSC 139 Environment, Sustainability, and Society 4 Lecture, 3 hours; individual study, 2 hours; written work, 1 hour. Prerequisite(s): POSC 017 or POSC 020 or POSC 020H or SOC 020; or consent of instructor. Examines the relationship of human society to the natural environment from a multi disciplinary approach. Considers ways in which values, paradigms, policies, technologies, and their interactions have determined humans' current unsustainable relationship with the earth. Explores challenges inherent in moving society toward a more environmentally sustainable future. Cross-listed with SEHE 139. Credit is awarded for one of the following POSC 139, SEHE 139, POSC 139S, or SEHE 139S.

POSC 139S Environment, Sustainability, and Society 5 Lecture, 3 hours; discussion, 1 hour; individual study, 2 hours; written work, 1 hour. Prerequisite(s): POSC 017 or POSC 020 or POSC 020H or SOC 020; or consent of instructor. Examines the relationship of human society to the natural environment from a multi disciplinary approach. Considers the ways in which values, paradigms, policies, technologies, and their interactions have determined humans' current unsustainable relationship with the earth. Explores challenges inherent in moving society toward a more environmentally sustainable future. Cross-listed with SEHE 139S. Credit is awarded for one of the following POSC 139S, SEHE 139S, POSC 139, or SEHE 139.

POSC 140 Militarism and Hegemony in the Ancient World 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): CHN 030 or AST 030 or CHN 104 or CHN 105 or CHN 107 or CHN 108 or AST 142 or CHN 142 or RLST 142 or AST 148 or CHN 148 or CLA 010A or CLA 010B or CLA 010C or CLA 040 or CLA 050 or CLA 100 or HISE 110 or CLA 112 or CPLT 112 or RLST 117 or CLA 114 or CPLT 114 or CLA 120E or CPAC 102 or CLA 102 or CPAC 112 or CLA 113 or HISE 113 or CPAC 121 or CLA 121 or POSC 121 or CPAC 132 or AST 132 or CHN 132 or CLA 132 or CPAC 133 or HISE 114 or CPAC 134 or HIST 110 or CLA 143 or CPAC 143 or CHN 143 or RLST 143 or CLA 120F or CLA 120G or CLA 120J or CPLT 030; restricted to class level standing of junior, or senior; or consent of instructor. Comparative study of ancient warfare and hegemony in two or more civilizations of the ancient world. Perspectives may include social and political contexts, gender and war, acquisition of empire, religious wars, and weapons, strategies and tactics in theory and practice. Study of primary source material in texts and visual arts. Cross-listed with AST 145, CHN 141, CLA 141, and CPAC 141.

POSC 141 Women and the American Political Process 4 Lecture, 3 hours; individual study, 1 hour; term paper, 1 hour; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. A general introduction to the field of women and politics. Explores the ways in which gender enters and shapes politics, primarily in the U.S. context. Topics include women's activism, voting behavior, and opinions. Also addresses women as candidates and in government.

POSC 142 (E-Z) Simulation Laboratory 2 to 4 Participation in and analysis of laboratory models of complex political systems.

POSC 142L The United Nations 2 Lecture, 2 hours. Prerequisite(s): . Examination of the structure and functioning of the United Nations with major emphasis on the principal organs (Security Council, General Assembly), ECOSOC, the Trusteeship Council and the leading committees. The course will examine theories on the pacific settlement of disputes, collective security and functionalism. The focus will be on the United Nations as a living, contemporary political institution.

POSC 142M Model United Nations: Country Studies (simulation) 2 Simulation, 2 hours, Prerequisite(s): POSC 142L. An intensive study of the foreign policy of two selected countries, normally one developed and one undeveloped country, conducted through lectures, discussion, and simulations of their foreign policies being projected in the arena of the United Nations. Can be repeated twice for a total of 6 units.

POSC 143 Elections and Political Participation 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An examination of political behavior in the United States with emphasis on political participation and voting behavior. Credit is awarded for only one of POSC 143 or POSC 143S.

POSC 143S Elections and Political Participation 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An examination of political behavior in the United States with emphasis on political participation and voting behavior. Credit is awarded for only one of POSC 143 or POSC 143S.

POSC 144 Politics Through Film 4 Lecture, 3 hours; screening, 0.5 hour; extra reading, 1 hour; term paper, 1.5 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Explores how the values of democracy inform the operation of government, using film. Topics include collective action, principal-agent problems, equality, liberty, popular sovereignty, and strategic behavior. Credit is awarded for one of the following POSC 144 or POSC 144S.

POSC 144S Politics Through Film 5 Lecture, 3 hours; discussion, 1 hour; screening, 0.5 hour; term paper, 2 hours; extra reading, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior. Explores how the values of democracy inform the operation of government through the use of film. Topics include collective action, principal-agent problems, equality, liberty, popular sovereignty, and strategic behavior. Credit is awarded for one of the following POSC 144S or POSC 144.

POSC 145 Money in American Politics 4 Lecture, 3 hours; term paper, 1 hour;

extra reading, 2 hours. Prerequisite(s): POSC 010 or POSC 010H or POSC 010W; or consent of instructor. Analyzes the role of money in elections and in formulation of public policy. Examines the role of parties in raising and spending campaign money, the explosion of "soft money" in congressional and presidential elections, and the effect of campaign spending on electoral outcomes. Explores how campaign contributions influence public policy.

POSC 146 Mass Media and Public Opinion 4 Lecture, 3 hours; term paper and reading, 1 hour. Prerequisite(s): . Analysis of public opinion--character, sources, and functions--and especially its relationship to mass media. Particular attention will be devoted to the role and importance of television in American politics.

POSC 147 Political Theory of Globalization 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing; PHIL 001 or PHIL 001H or POSC 005 or POSC 005H or POSC 005W. Examines how the phenomenon of globalization has been theorized within the discipline of political philosophy. Covers how the effects of globalization have been addressed by leading political theorists. Focuses on concepts such as cosmopolitanism, nation-states and citizenship, cultural diversity, moral universalism, and international distributive justice. Credit is awarded for only one of POSC 147 or POSC 147S.

POSC 147S Political Theory of Globalization 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing; PHIL 001 or PHIL 001H or POSC 005 or POSC 005H or POSC 005W. Examines how the phenomenon of globalization has been theorized within the discipline of political philosophy. Covers how the effects of globalization have been addressed by leading political theorists. Focuses on concepts such as cosmopolitanism, nation-states and citizenship, cultural diversity, moral universalism, and international distributive justice. Credit is awarded for only one of POSC 147 or POSC 147S.

POSC 148 Politics of Congressional Elections 4 Lecture, 3 hours; term paper, 2 hours; individual study, 1 hour. Prerequisite(s): POSC 010 or POSC 010H or POSC 010W; restricted to class level standing of junior, or senior; or consent of instructor. An introduction to the politics of congressional elections. Topics include campaigning for Congress, strategic behavior in the decision to run for election, incumbency, and money in congressional elections. Credit is awarded for one of the following POSC 148, POSC 148H, or POSC 148S.

POSC 148H Honors Politics of Congressional Elections 5 Lecture, 3 hours; discussion, 1 hour; term paper, 2 hours; extra reading, 1 hour. Prerequisite(s): admission to University Honors, upper-division standing, POSC 010 or POSC 010H or POSC 010W; or consent of instructor. Honors course corresponding to POSC 148 and POSC 148S. An introduction to the politics of Congressional elections. Topics include campaigning for congress, strategic behavior in the decision to run for election, incumbency, and money in congressional elections. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of POSC 148, POSC 148H, or POSC148S.

POSC 148S Politics of Congressional Elections 5 Lecture, 3 hours; discussion, 1 hour; term paper, 3 hours. Prerequisite(s): POSC 010 or POSC 010H or POSC 010W; restricted to class level standing of junior, or senior; or consent of instructor. An introduction to the politics of congressional elections. Topics include campaigning for Congress, strategic behavior in the decision to run for election, incumbency, and money in congressional elections. Credit is awarded for one of the following POSC 148S, POSC 148, or POSC 148H.

POSC 149 Presidential Elections 4 Lecture, 3 hours; laboratory, 1 hour; extra reading, 1 hour; term paper, 1 hour. Prerequisite(s): Restricted to class level standing of junior, or senior. Examines the politics of presidential elections. Topics include presidential primaries, the presidential general election, campaigns, the role of parties, candidate behavior, public opinion and voting choice, and the influence of money. May include hands-on exploration of public opinion and demographic data to explore individual-level voter decision making. Credit is awarded for one of the following POSC 149 or POSC 149S.

POSC 149S Presidential Elections 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 1 hour; extra reading, 1 hour; term paper, 1 hour. Prerequisite(s): Restricted to class level standing of junior, or senior. Examines the politics of presidential elections. Topics include presidential primaries, the presidential general election, campaigns, the role of parties, candidate behavior, public opinion and voting choice, and the influence of money. May include hands-on exploration of public opinion and demographic data to explore individual-level voter decision making. Credit is awarded for one of the following POSC 149S or POSC 149.

POSC 150 Human Rights in Theory, Law, and Politics 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour; term paper, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. An introduction to the theory, politics, and law of human rights. Examines the emergence of human rights institutions since World War II and ongoing dilemmas in the field. Topics include cultural relativism, criminal tribunals, truth commissions, and refugees. Credit is awarded for one of the following POSC 150 or POSC 150S.

POSC 150S Human Rights in Theory, Law, and Politics 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. An introduction to the theory, politics, and law of human rights. Examines the emergence of human rights institutions since World War II and ongoing dilemmas in the field. Topics include cultural relativism, criminal tribunals, truth commissions, and refugees. Credit is awarded for one of the following POSC 150S or POSC 150.

POSC 151 African Politics 4 Lecture, 3 hours; extra reading, 1 hour; individual study, 1 hour; written work, 1 hour. Prerequisite(s): Restricted to class level standing of Junior, or Senior; Or the consent of instructor; Examines politics in African countries, with a focus on the contemporary period. Covers both political institutions and political behavior. Topics include role of the state, democracy vs. dictatorship, political participation, public goods provision, and development. Credit is awarded for only one of POSC 151 or POSC 151S.

POSC 151S African Politics 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 1 hour; individual study, 1 hour; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines politics in African countries, with a focus on the contemporary period. Covers both political institutions and political behavior. Topics include role of the state, democracy vs. dictatorship, political participation, public goods provision, and development. Credit is awarded for one of the following POSC 151S or POSC 151.

POSC 152 The Origin and Status of American Democracy 5 Lecture, 3 hours; discussion, 1 hour; term paper, 2 hours; extra reading, 2 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines the origins and development of American democratic values, how they are reflected in its institutions, and the state of American political institutions and democracy today.

POSC 153 Russian Foreign Policy 4 Lecture, 3 hours; extra reading, 3 hours; term paper, 3 hours. Prerequisite(s): POSC 020 or POSC 020H; restricted to class level standing of junior, or senior; or consent of instructor. Examines contemporary Russian foreign policy. Emphasizes historical legacies, competing perspectives on the policy process, and evaluation of Russia's policies with key countries. Utilizes various international relations theories and concepts to aid in understanding Russian foreign policy. Credit is awarded for one of the following POSC 153 or POSC 153S.

POSC 153S Russian Foreign Policy 5 Lecture, 3 hours; discussion, 1 hour; written work, 2 hours; extra reading, 1 hour. Prerequisite(s): POSC 020 or POSC 020H; restricted to class level standing of junior, or senior; or consent of instructor. Examines contemporary Russian foreign policy. Emphasizes historical legacies, competing perspectives on the policy process, and evaluation of Russia's policies with key countries. Utilizes various international relations theories and concepts to aid in understanding Russian foreign policy. Credit is awarded for one of the following POSC 153S or POSC 153.

POSC 154 Politics of the European Union 4 Lecture, 3 hours; extra reading, 2

hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the formation of the European Union, its institutional structure, and its policy-making processes. Explores its role in Europe and in the world in the face of political and economic challenges.

POSC 155 Government and Politics in Western Europe 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. A comparative study of government and politics in Western Europe and how economic and cultural factors influence their formation. Analyzes how parties, bureaucracy, legislatures, and executives influence the political life of Western Europe. Focuses on the governing bodies in Britain, France, and Germany. POSC 155S Government and Politics in Western Europe 5 Lecture, 3 hours; discussion, 1 hour; written work, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. A comparative study of government and politics in Western Europe and how economic and cultural factors influence their formation. Analyzes how parties, bureaucracy, legislatures, and executives influence the political life of Western Europe. Focuses on the governing bodies in Britain, France, and Germany. Credit is awarded for one of the following POSC 155S or POSC 155.

POSC 157 Modern Dictatorships 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Considers how dictatorships come to power and abuse that power. Also explores the dilemmas dictatorships faced, their successes, and why they met ultimate defeat. Includes study of dictatorships in Argentina, Chile, Haiti, Guatemala and Syria. Credit is awarded for only one of POSC 157 or POSC 157S.

POSC 157S Modern Dictatorships 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Considers how dictatorships come to power and abuse that power. Also explores the dilemmas dictatorships faced, their successes, and why they met ultimate defeat. Includes study of dictatorships in Argentina, Chile, Haiti, Guatemala and Syria. Credit is awarded for only one of POSC 157 or POSC 157S.

POSC 158 Politics of Mexico 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A survey of contemporary Mexican politics. Emphasis is on recent economic and social changes and their impact on Mexico's political system. Topics include relations with the United States, the rise of drug trafficking in Mexico, and the recent emergence of opposition politics. Cross-listed with LNST 148.

POSC 159 The Armed Forces and Politics 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the origins, nature, and behavior of the military within political systems. Focuses on the political interaction between the armed forces and civilians. Topics include military intervention, democracy, human rights, missions, defense organizations, and civilian control. Explores case studies of the United States, Russia, and countries from Latin America and Asia. Credit is awarded for only one of POSC 159 or POSC 159S.

POSC 159S The Armed Forces and Politics 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the origins, nature, and behavior of the military within political systems. Focuses on the interaction between the armed forces and civilians, as well as the origins of military subordination and insubordination. Topics include military intervention, civilian control strategies, military missions, defense organization, civil-military relations in peace and wartime, and human rights. Covers case studies from Latin America, the United States, Russia, and Eastern Europe. Credit is awarded for only one of POSC 159 or POSC 159S.

POSC 160 Globalization and Development 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Explores the relationship between globalization and development in historical and contemporary context through key perspectives on global inequality, development strategies, governance, institutions, and technology. Credit is awarded for one of the following POSC 160 or POSC 160S.

POSC 160S Globalization and Development 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior. Explores the relationship between globalization and development in historical and contemporary context through key perspectives on global inequality, development strategies, governance, institutions, and technology. Credit is awarded for one of the following POSC 160S or POSC 160.

POSC 161 United States and Latin American Relations 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Explores international relations between the United States and the nations of Latin America. Examines different theories for explaining changes in the conduct of U.S.-Latin American relations over time. Topics include democracy and empire, revolution and counter-insurgency, economic integration and trade, petroleum politics, drug trafficking, and migration flows. Cross-listed with LNST 188.

POSC 162 Latin America: the Quest For Development and Democracy 4 Lecture, 3 hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. A comparative examination of central issues in and components of Latin American political life. Covers economic development, regimes and alliances, guerrilla wars, the armed forces, human rights, and democratic consolidation. Includes Argentina, Chile, Venezuela, and Peru. Cross-listed with LNST 142. Credit is awarded for one of the following POSC 162, LNST 142, LNST 142S, or POSC 162S.

POSC 162S Latin America: the Quest For Development and Democracy 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior. A comparative examination of central issues in and components of Latin American political life. Covers economic development, regimes and alliances, guerrilla wars, the armed forces, human rights, and democratic consolidation. Includes Argentina, Chile, Venezuela, and Peru. Cross-listed with LNST 142S. Credit is awarded for one of the following POSC 162S, LNST 142S, LNST 142, or POSC 162.

POSC 163 Ethnic Politics 4 Lecture, 3 hours; individual study, 2 hours; extra reading, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the politics of ethnicity. Surveys theory and evidence utilizing a wide range of cases from around the world. Credit is awarded for only one of POSC 163 or POSC 163S.

POSC 163S Ethnic Politics 5 Lecture, 3 hours; discussion, 1 hour; individual study, 2 hours; extra reading, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. An introduction to the politics of ethnicity. Surveys theory and evidence utilizing a wide range of cases from around the world. Credit is awarded for one of the following POSC 163S or POSC 163.

POSC 164 The Nation State and Capitalism 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Covers the comparative political economy of advanced industrial countries. Studies political foundations, institutional features, development, and performance of these economies regarding economic growth, employment, investment, international trade, labor relations, monetary and financial market policies, corporate governance, and equality. Explores the impact of globalization and financial crises on the political economy. Credit is awarded for one of the following POSC 164 or POSC 164S.

POSC 164S The Nation State and Capitalism 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Covers the comparative political economy of advanced industrial countries.

Studies political foundations, institutional features, development, and performance of these economies regarding economic growth, employment, investment, international trade, labor relations, monetary and financial market policies, corporate governance, and equality. Explores the impact of globalization and financial crises on the political economy. Credit is awarded for one of the following POSC 164S or POSC 164.

POSC 165 Strategy and Politics 4 Lecture, 3 hours; individual study, 1 hour; written work, 1 hour; extra reading, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the formal analysis of politics, the role of strategic behavior, and the importance of political institutions in influencing political outcomes. Covers the basics of social choice and game theory and their applications to strategic voting, bargaining, cooperation, agenda setting, executive vetoes, conflict, and legislative bargaining. Credit is awarded for only one of POSC 165 or POSC 165S.

POSC 165S Strategy and Politics 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the formal analysis of politics, the role of strategic behavior, and the importance of political institutions in influencing political outcomes. Covers the basics of social choice and game theory and their applications to strategic voting, bargaining, cooperation, agenda setting, executive vetoes, conflict, and legislative bargaining. Credit is awarded for only one of POSC 165 or POSC 165S.

POSC 166 Judicial Politics and Policy Making 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An examination of the characteristics of judicial bodies, emphasizing their interaction with other policy-makers and social and political problems. Investigates the policy roles of local, state, and lower federal courts and the U.S. Supreme Court.

POSC 167 Constitutional Law: Fundamental Freedoms 5 Lecture, 3 hours; discussion, 1 hour; research, 1 hour; individual study, 1 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A study of the legal and political context in the U.S. of freedom of expression, the press, and religion; separation of church and state; equal rights for women and minorities; voting rights; and citizenship.

POSC 168 Constitutional Law: Criminal Justice 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An examination of the rights of criminal defendants; the role of lawyers, police, prosecutors, and judges in the criminal process in the United States; and the function of criminal law.

POSC 169 Terrorism and Political Violence 4 Lecture, 3 hours; extra reading and term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the nature and origin of political conflict, violence, and rebellion. Examines political violence as a political pathology and as an instrument of supporters and opponents of regimes. Examines types of political violence: terrorism, ethnic and communal conflict, rebellion, and revolutionary and counter-revolutionary violence.

POSC 170 Local Leadership in California 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. An examination of the local leadership structure, official and unofficial, in California. Analyzes who decides and influences local policy decisions.

POSC 171 American State Politics 4 Lecture, 3 hours; written work, 1 hour; extra reading, 2 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. A critical examination of the activities, structure, and function of the states in the American political system. Focuses on the politics and major policy issues of the 50 states with a special interest in California. Credit is awarded for one of the following POSC 171 or POSC 171S.

POSC 171S American State Politics 5 Lecture, 3 hours; discussion, 1 hour; written work, 1 hour; extra reading, 2 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. A critical examination of the activities, structure, and function of the states in the American political system. Focuses on the politics and major policy issues of the 50 states with a special interest in California. Credit is awarded for one of the following POSC 171S or POSC 171.

POSC 173 Government and Politics of California 4 Lecture, 3 hours; individual study, 1 hour; extra reading, 1 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the political process of California. Focuses on both the electoral and legislative politics and the contribution they make to democratic governance under conditions of social diversity. Credit is awarded for only one of POSC 173 or POSC 173S.

POSC 173S Government and Politics of California 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 1 hour; individual study, 1 hour; term paper, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines the political process of California. Focuses on both the electoral and legislative politics and the contribution they make to democratic governance under conditions of social diversity. Credit is awarded for one of the following POSC 173S or POSC 173.

POSC 175H Introduction to the Honors Thesis 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Familiarizes students with the procedures and techniques, from theory construction to data collection and analysis, needed to design and conduct original research for an honors thesis. Satisfactory (S) or No Credit (NC) grading is not available.

POSC 176H Seminar On Writing the Honors Thesis 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): POSC 175H; upper-division standing or consent of instructor. Provides guidance for students writing an honors thesis in political science. Topics include bibliographic research, fieldwork, statistics, case study analysis, professional writing, and standards of academic scholarship. Satisfactory (S) or No Credit (NC) grading is not available.

POSC 177H Honors Thesis 1 to 4 Thesis, 3 to 12 hours. Prerequisite(s): POSC 175H; POSC 176H; upper-division standing or consent of instructor. Independent research and preparation of an honors thesis completed under the supervision of a faculty member. Satisfactory (S) or No Credit (NC) grading is not available. Course is repeatable to a maximum of 12 units.

POSC 178 Political Consequences of Electoral Institutions 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An examination of the structures of the various electoral systems used around the world. Explores how different electoral systems influence the choices made by voters and political candidates. Analyzes how these choices influence factors including representation, accountability, party systems, corruption, and economic growth. Credit is awarded for only one of POSC 178 or POSC 178S.

POSC 178S Political Consequences of Electoral Institutions 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An examination of how the wide variety of electoral systems that are used in the world function. Explores how different electoral systems influence the choices made by voters and political candidates. Analyzes how these choices influences factors including representation, accountability, party systems, corruption, and economic growth. Credit is awarded for only one of POSC 178 or POSC 178S.

POSC 179 Politics of Global Health 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Explores the intersection of politics and global health focusing on how political decisions, international relations, and power dynamics shape health outcomes globally. Topics include health governance, policy-making processes, human rights, the role of international organizations, and the impact of political and economic systems on health equity. Cross-listed with SEHE 179. Credit is awarded for one of the following POSC 179, SEHE 179, POSC 179S, or SEHE 179S.

POSC 179S Politics of Global Health 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s):

restricted to class level standing of junior, or senior; or consent of instructor. Explores the intersection of politics and global health focusing on how political decisions, international relations, and power dynamics shape health outcomes globally. Topics include health governance, policy-making processes, human rights, the role of international organizations, and the impact of political and economic systems on health equity. Cross-listed with SEHE 179S. Credit is awarded for one of the following POSC 179S, SEHE 179S, POSC 179, or SEHE 179.

POSC 180 The Politics of Public Health 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Focuses on the social, environmental, and political factors that shape population health. Utilizes public health topics to illustrate the fundamental problems of the politics of regulation and social policy. Credit is awarded for only one of POSC 180 or POSC 180S.

POSC 180S The Politics of Public Health 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Focuses on the social, environmental, and political factors that shape population health. Utilizes public health topics to illustrate the fundamental problems of the politics of regulation and social policy. Credit is awarded for one of the following POSC 180S or POSC 180.

POSC 181 Public Policy: Values, Conflict, and Politics 4 Lecture, 3 hours; research, 1 hour; individual study, 1 hour; term paper, 1 hour. Prerequisite(s): upper-division standing; POSC 010 or POSC 010H or POSC 010W. Introduces methods and approaches used to describe, explain, and evaluate public policies. Examples include group theories, system approaches, program planning, and budgeting systems.

POSC 182 (E-Z) Politics and Economic Policy 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines the political and administrative processes of economic policy formation, the rationale of government programs, and the mixture of facts, values, and social forces that determine policy. Emphasizes issues of government-economy interaction emerging under the impact of modern technology. Segment G may be offered online or in-person. E. Politics And Economic Policy: American Politics; F. Politics And Economic Policy: International Relations; G. Politics And Economic Policy: Strategy And Institutions.

POSC 183 (E-Z) Administrative Politics and Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): POSC 010 or POSC 010H or POSC 010W; restricted to class level standing of junior, or senior. An introduction to the politics and theory of public administration.

POSC 183E Bureaucratic Politics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): POSC 010 or POSC 010H or POSC 010W; restricted to class level standing of junior, or senior. Examines the politics and theory of public administration, with a focus on bureaucratic politics. Topics may include decision-making processes, leadership, formal and informal organizations, and the interrelationships among values, structures, and behavioral patterns.

POSC 183F Strategies of Compliance 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): POSC 010 or POSC 010H or POSC 010W; restricted to class level standing of junior, or senior. Examines the politics and theory of public administration focusing on compliance. Topics may include decision-making processes, leadership, formal and informal organizations, and the interrelationships among values, structures, and behavioral patterns.

POSC 184 Digital Government 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Explores extent to which digital communication technologies transform the institutions and practice of democratic government in the United States. Topics include the impact of communication technology on campaigning, legislative representation, agency rulemaking, and deliberation. Also addresses the legal, regulatory, and political context of public sector technology. Credit is awarded for one of the following POSC 184 or POSC 184S.

POSC 184S Digital Government 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Explores extent to which digital communication technologies transform the institutions and practice of democratic government in the United States. Topics include the impact of communication technology on campaigning, legislative representation, agency rulemaking, and deliberation. Also addresses the legal, regulatory, and political context of public sector technology. Credit is awarded for one of the following POSC 184S or POSC 184.

POSC 186 Regulation: A Political Perspective 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines government regulation from a political perspective, covering both traditional areas of business regulation and the newer social regulation in areas of environment, health and safety, and personal behavior. Evaluates rationales for and against regulation, in theory and through case studies.

POSC 187 Theories of American Political Institutions 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): POSC 010 with a grade of C- or better; restricted to class level standing of junior, or senior; or consent of instructor. Introduces the theoretical and empirical literature on American political institutions. Includes a grounding in rational-choice theories. Considers how the preferences and goals of individual political actors (members of Congress, presidents, bureaucrats, judges, etc.) shape political outcomes including organization and development. Credit is awarded for one of the following POSC 187 or POSC 187S.

POSC 187S Theories of American Political Institutions 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): POSC 010 with a grade of C- or better; restricted to class level standing of junior, or senior; or consent of instructor. Introduces the theoretical and empirical literature on American political institutions. Includes a grounding in rational-choice theories. Considers how the preferences and goals of individual political actors (members of Congress, presidents, bureaucrats, judges, etc.) shape political outcomes including organization and development. Credit is awarded for one of the following POSC 187S or POSC 187.

POSC 188 Political Violence in Latin America 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the nature, origins, and purposes of political violence in Latin America. Examines different forms of violence perpetuated by states, insurgents, military, police, and organized crime. Includes case studies of repression in Argentina, genocide in Guatemala, counter-insurgency in Colombia, and drug-related violence in Mexico, Brazil, and Central America. Credit is awarded for only one of POSC 188 or POSC 188S.

POSC 188S Political Violence in Latin America 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the nature, origins, and purposes of political violence in Latin America. Examines different forms of violence perpetuated by states, insurgents, military, police, and organized crime. Includes case studies of repression in Argentina, genocide in Guatemala, counter-insurgency in Colombia, and drug-related violence in Mexico, Brazil, and Central America. Credit is awarded for only one of POSC 188 or POSC 188S.

POSC 190 Special Studies 1 to 5 Individual Study, 3 to 15 hours. Prerequisite(s): consent of instructor and department chair. Student prepares a written proposal endorsed by a supervising instructor, as a means of meeting individual curricular needs. Course is repeatable to a maximum of 15 units.

POSC 196A Moot Court A: Legal Research, Writing, and Advocacy 4 Seminar, 4 hours. Prerequisite(s): POSC 167 or POSC 168 or PHIL 007; restricted to class level standing of junior, or senior; 3.4 GPA; or consent of instructor. Introduction to the judicial process and legal argument. Explores how attorneys devise and make legal arguments, oral presentations, argument skills. Addresses the basics of legal analysis. Credit is awarded for one of the following POSC 196A or POSC 196. Credit is awarded for only one of POSC 196 or 196A

POSC 196B Moot Court B: Moot Court Competition 4 Seminar, 3 hours; written work, 2 hours; extra reading, 1 hour. Prerequisite(s): restricted to class level standing of senior;

permission by faculty. Focuses on writing an appellate brief and orally arguing an appeal. Includes participation in the American Moot Court Association competition against other colleges and universities across the nation.

POSC 197 Research For Undergraduates 1 to 4 Research, 3 to 12 hours. Prerequisite(s): consent of instructor. Offers opportunity for directed individual research, to result in a substantial paper, when a student wishes to do a deeper study of a topic than is possible in the normal term paper.

POSC 198G Field Work 1 to 12 Lecture, 1 hour; field, 3 to 9 hours; written work, 2 to 24 hours; consultation, 3.5 hours per quarter. Prerequisite(s): consent of instructor. Direct evaluation of the local political process through participant observation, combining academic instruction and supervised field work. Students will examine firsthand political behavior and the policy process in one location in local political systems. Course is repeatable to a maximum of 16 units.

POSC 198I Individual Internship in Political Science 1 to 12 Internship, 2 to 24 hours; extra reading, 1 to 12 hours. Prerequisite(s): restricted to class level standing of junior, or senior; and consent of instructor. Provides intern assignments in major political offices. Includes participation in and observation of substantive theoretical analyses of political behavior and policy processes. Course is repeatable to a maximum of 16 units.

POSC 199 Senior Research 1 to 4 Research, 3 to 12 hours. Prerequisite(s): upper-division standing and consent of instructor. Independent work under the direction of members of the staff. The project may be undertaken as a one-, two-, or three-quarter sequence. In the case of a two- or three-quarter sequence, the final grade may be deferred until completion of the last quarter. Course is repeatable to a maximum of 12 units.

Graduate Courses

POSC 201 Introduction to Political Inquiry 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduction to the logic of political inquiry. Problems of theory-building, research design, case selection, and measurement are covered in the context of quantitative and qualitative political research.

POSC 202A Survey of Quantitative Methods 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): POSC 201; graduate standing; and consent of instructor. An introduction to statistical analysis. Topics include descriptive statistics, probability, sampling distributions, parameter estimation, hypothesis testing, correlation, and bivariate regression analysis.

POSC 202B Survey of Quantitative Methods 4 Lecture, 3 hours; discussion, 1 hour; research, 3 hours. Prerequisite(s): POSC 201; graduate standing. Covers data analysis for political science applications. Topics include Statistical Package for the Social Sciences (SPSSX), regression analysis, causal modeling, factor analysis, and cluster analysis in research design context.

POSC 202C Theory and Methods of Causal Inference and Causal Analysis 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): POSC 202A, POSC 202B; or equivalent; graduate standing; or consent of instructor. Introduces modern techniques for causal inference in quantitative analysis. Topics include the potential outcome framework, causal graphs, regression discontinuity, DiD, matching methods, instrumental variables, causal bounds, and selection of covariates in regression analyses. Combines theory and practical applications with examples.

POSC 203 Social Science, History, and Qualitative Methodology 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduction to the basic epistemology of qualitative social science. Provides students with a working knowledge of the strengths and weaknesses of the historical and comparative case study approaches to social science.

POSC 204 Mathematical Modeling in Political Science 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Survey of basic mathematical tools relevant to research in political science and other disciplines of the social sciences, with an emphasis on concepts and applications. Topics include sets, matrix algebra, comparative-static analysis, optimization problems, exponential and logarithmic functions, equality constraints in optimization, and integration.

POSC 205 Advanced Regression Analysis 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): POSC 202B. Introduction to the use of advanced techniques in regression analysis. Topics include model specification, measures of goodness of fit, two-stage least squares, and models with binary dependent variables.

POSC 207 Advanced Quantitative Analysis 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): POSC 202B; graduate standing. Introduction to the use of advanced techniques in quantitative analysis. Topics include maximum likelihood, sample selection bias, and simultaneous equations. Course is repeatable to a maximum of 8 units.

POSC 208 Seminar in Representation 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines representation in America. Topics include what it means to represent; the different means of representation; to what degree the elected behave consistently with constituents' preferences; and the accountability of elected officials. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

POSC 210 Qualitative Interpretive Research Methods 4 Seminar, 3 hours; individual study, 1 hour; written work, 1 hour; extra reading, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Covers interpretive methods used in social science research including interviews, ethnography, participant-observation, archival research, and case studies. Considers trade-offs involved in choosing one method or type of evidence over another. Provides practical experience with the major steps of interpretive research including project design and implementation, data analysis, writing, and publishing.

POSC 211 Comparative Historical Analysis 4 Seminar, 3 hours; individual study, 1.5 hours; written work, 1.5 hours. Prerequisite(s): POSC 203 with a grade of C- or better; graduate standing; or consent of instructor. Offers advanced training in methods of comparative historical analysis (CHA) in the social sciences. Topics include intellectual history of CHA, temporal analysis, path dependence, historical institutionalism, data collection, mixed-methods research, and publishing. Focuses on creating and critiquing research designs and undertaking major CHA projects. Assumes background in qualitative methodology. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

POSC 212 Political Theory 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A survey of general issues in political theory. Proponents covered may include Plato, Montesquieu, Weber, Arendt, Rawls, Foucault, and others. Debate models covered may include hermeneutics and normativity vs. science; power vs. truth; and democracy vs. liberalism. Course is repeatable to a maximum of 12 units.

POSC 213 Rhetoric and Argument in Ancient China and Greece 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A study of theories and practices of rhetoric, argument, persuasion, and, in some cases, poetics in ancient China and Greece (texts dating from the fifth to the third centuries B.C.), as well as some of their implications for contemporary theory and practice. Students who submit a seminar paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. This course may also be taken on a Satisfactory (S) or No Credit (NC) basis by students advanced to candidacy for the Ph.D. Cross-listed with CPLT 213.

POSC 214 Political Economy of International Trade 4 Lecture, 3 hours; individual study, 1 hour; research, 1 hour; written work, 1 hour. Prerequisite(s): POSC 216 recommended; graduate standing. Overview of the literature in International Political Economy IPE relevant to the study of trade and globalization. Introduces the relationship between international politics and the world economy. Evaluates theoretical debates relevant to trade politics including economic growth and development, gender, environmental protection, migration, trade in services and intellectual property protection. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

POSC 215 Political Economy of International Finance 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Conducts a broad theoretical and historical survey of the politics and economics of international money and finance. Topics include monetary and exchange rate regimes, foreign direct investment, capital flows, sovereign debt, financial regulation and international macroeconomic coordination, the role of finance in economic development, and international financial crises. Cross-listed with ECON 236.

POSC 216 International Relations 4 Lecture, 3 hours. Prerequisite(s): consent of instructor. Historical development and present range of political thought on relations among nations, origins and implications of the idea of sovereignty, the theory of an international community, theories of imperialism. The analysis of selected contemporary problems--bipolarity, emergent nations, alliance systems in the light of recent contributions to international relations theory.

POSC 217 Comparative Politics 4 Lecture, 3 hours. Survey and introduction to comparative politics with emphasis on major ideas, trends, and issues in the field. Critical assessment of the literature on systems, political culture, development and underdevelopment, and elites.

POSC 218 Political Economy of International Migration 4 Lecture, 3 hours; individual study, 1 hour; research, 1 hour; written work, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Examines the political and economic causes and consequences of international migration. Explores the effects of migration in both sending and receiving countries and how policymakers respond to these effects. Focuses on public opinion formation, interest group politics, immigration policy making, brain drain, remittances, diaspora engagement policies, and refugee policy. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

POSC 220 Politics of Race, Immigration, and Ethnicity 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines the politics of race, immigration, and ethnicity in the United States, including comparisons to ethnic politics in other regions of the world. Emphasizes the role of political institutions and processes in making race, immigration, and ethnicity more or less salient in elections, legislation, social movements, and interpersonal and intergroup relations. Course is repeatable to a maximum of 8 units.

POSC 225 Formal Analysis 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduction to the use of formal theory in political science. Covers the basics of game theoretical analysis and applications to substantive issues in the discipline. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 8 units.

POSC 227 Seminar in Religion and Politics 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A critical examination of the relationship between religion and politics from a comparative perspective. Studies politicization of religion in political issues such as secularism, gender rights, minority rights, terrorism, civil conflict, foreign policy, political Islam, and Christian democracy. May be taken Satisfactory(S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 8 units.

POSC 230 Research Colloquium in Political Science 1 Colloquium, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Provides professional development through training in full and effective engagement in scholarly inquiry and exchange. Utilizes tiered participation in student and faculty presentations. Discussion of current research in fields of political science: American politics, comparative politics, international relations, mass politics, and political theory. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 13 units.

POSC 249 American Politics 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Surveys major theoretical approaches to the study of American politics and enduring research questions in the field. Topics vary and could include the politics of race and ethnicity, the historical development of government institutions, political parties, voting behavior, federalism, and the policy-making process in the United States. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 16 units.

POSC 250 Seminar in Politics and the Legal Order 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Intensive reading and research on selected topics in politics and the legal order, such as law and social change, compliance with judicial decision making, and important areas of constitutional law.

POSC 252 Public Policy 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores approaches to public policy analysis, emphasizing interaction between substance and process in policy development. Covers both theories and concrete case studies; special attention given to the administrative stage of policy development.

POSC 253 Mass Political Behavior 4 Seminar, 3 hours; research, 1 hour; written work, 1 hour; extra reading, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. A survey of general issues in mass political behavior. Topics may include political psychology, party identification, voting and other forms of participation, civic engagement, and political communication. Explores different methodological approaches to the study of mass political behavior. Course is repeatable to a maximum of 12 units.

POSC 254 Seminar On the United States Congress 4 Seminar, 3 hours. An examination of major research on the U.S. Congress. Emphasis will be placed upon substantive questions requiring further research and upon methodological techniques appropriate to such research.

POSC 255 Seminar in American Electoral Behavior 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores the literature on electoral behavior in the United States. Focuses on the major models of voting behavior developed since 1945. In addition, issues such as voter turnout, economic voting, and presidential primaries are covered.

POSC 256 Seminar in Public Opinion and Mass Media 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores classic and contemporary research on public opinion and mass media. Topics in public opinion include political socialization, attitude constraint, and theories of attitude change. Topics in mass media include agenda setting and framing effects.

POSC 257 Comparative Political Behavior and Elections 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines issues in the theoretical literature on voting studies by using examples mainly from outside the U.S.

POSC 258 Congressional Elections 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Congressional elections is a growing field of inquiry in American electoral politics. Much scholarly debate has been generated over a variety of phenomena in this area. This seminar provides an overview of a number of these controversies and offers students the conceptual framework to critically analyze a rather large body of literature.

POSC 259 Women and the American Political Process 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An examination of the role of women in the American political process. Topics include the women's movement as a social movement and as an interest group, women as voters, candidates and office holders, and women's issues and the public policy process.

POSC 260 Economics and Elections 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines the impact of issues and economic conditions on voting behavior in elections, with primary focus on United States presidential elections. The roles of campaigns and information are also covered.

POSC 261 American Political Institutions 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Surveys the principal theoretical and empirical issues involved in the study of American political institutions. Covers the major U.S. national political institutions, including Congress, the presidency, the judiciary, the bureaucracy, interest groups, and political parties.

POSC 262 War Termination and Conflict Resolution 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Considers competing explanations of why and when conflicts come to an end. Focuses on international and civil wars. Addresses questions such as the following: Why do civil wars last longer than international ones? Why are civil wars difficult to settle through negotiation? What impact does domestic politics have on international war termination?

POSC 263 Seminar On Conflict and Peace 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Considers some of the principal problems, issues, and findings in the study of the causes and consequences of war. Focuses on a number of key variables and their links to war under certain conditions and introduces students to standard data sources.

POSC 264 Seminar in International Political Economy 4 Seminar, 3 hours; consultation, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. An examination of major economic institutions, developments, and forces in world politics. Emphasizes contending theoretical approaches, issues in North-South relations, and consequences for regional and national political-economic development. Course is repeatable to a maximum of 12 units.

POSC 266 Political Economy of Growth 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): POSC 202A, POSC 202B; graduate standing; or consent of instructor. Examination of political and economic aspects of growth using a formal and quantitative approach. Topics include political institutions, social development, economic growth, and democratization. Emphasis is on the interaction and causality between political and economic variables.

POSC 267 Ethics and International Politics 4 Seminar, 3 hours; extra reading, 1.5 hours; written work, 1.5 hours. Prerequisite(s): graduate standing; or consent of instructor. Examines ethical debates in the field of international politics. Topics include war theory, humanitarian aid, military intervention, international justice and human rights, aggression, peacekeeping, and global inequality. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

POSC 268 Human Rights 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor; consent of instructor is required for students repeating the course. Surveys the primary theoretical and empirical issues in the study of human rights. Explores major themes and contemporary topics, including, but not limited to, cultural relativism, the evolution of the human rights regime, and the impact of globalization, domestic, and international institutions. Course is repeatable to a maximum of 8 units.

POSC 269 Political Economy of International Labor 4 Seminar, 3 hours; individual study, 1 hour; research, 1 hour; written work, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Conducts a broad overview of the international political economy of labor in both historical and contemporary context. Critically examines scholarly theories of labor in the context of capital mobility, global value chains, foreign direct investment, national and international institutions, international law, corporate governance, workers' movements, global unions, and labor transnationalism. Course is repeatable to a maximum of 12 units.

POSC 271 Comparative Political Economics 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Past attempts to address such questions as "What part does government play in the economy?" have been made within the disciplinary boundaries of political science or economics. Such questions, however, cut across the domains of economics and political science, and the new political economy attempts to integrate theories and insights from both disciplines. This course will examine this literature to see how successful it has been in explaining important aspects of the interrelationship between politicians and the economy.

POSC 272 Parties and Party Systems in Western Europe 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines some of the literature on parties and party systems in Western Europe, with special attention to the role of such systems in modern representative democracies and to debates in the literature on this topic.

POSC 273 Rational Choice in Comparative Politics 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. The rational choice approach has begun to gain favor among a number of comparativists working on a variety of questions. This seminar critically reviews and discusses the contribution the rational choice perspective has made as well as the debates it has sparked.

POSC 274 The Armed Forces and Politics 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines the role of the armed forces in political society, covering western-democratic, communist, postcommunist, and third world systems. Comparisons of civil-military relations across regions are made, with an emphasis on military political intervention and civilian control strategies.

POSC 275 New Books in Comparative Politics 4 Seminar, 3 hours; extra reading, 1 hour; individual study, 1 hour; written work, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Critical examination of recently published books in comparative politics. Books covered vary each time course is offered. Topics include political behavior, identity and politics, democratization and democratic decline, and civil-military relations. Course is repeatable to a maximum of 8 units.

POSC 276 Democracy and Democratization 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Addresses topics and readings on democracy and democratization within the field of comparative politics. Covers arguments between democracy and democratization across regions and time. Explores the relative impact of economic, social, and political factors in the emergence of democracy and conditions sustained therein.

POSC 277 African Politics Seminar 4 Seminar, 3 hours; individual study, 1 hour; written work, 1 hour; extra reading, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Critical examination of the dominant questions, theories, and empirical research in the study of politics and power in Africa. Topics include historical legacies and disruptions, identity politics (gender, race, ethnicity), distributive politics, political behavior, and institutions.

POSC 278 Seminar in Latin American Politics 4 Seminar, 3 hours; extra reading, 1.5 hours; research, 1.5 hours. Prerequisite(s): graduate standing; or consent of instructor. A critical examination of fundamental issues of Latin American politics. Focuses on varying interpretations and approaches to the study of elites and masses, power and class conflict, and development and underdevelopment. Course is repeatable to a maximum of 8 units.

POSC 279 Asian Political Economy in Comparative Perspective 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on the political economy of late development, particularly in East Asia, including rival forms of institutional analysis, case studies versus comparative analysis, and the particular data and methodological challenges of fieldwork-based analysis.

POSC 280 Seminar in Political Theory 4 Seminar, 3 hours; extra reading, 2 hours; research, 1 hour. Prerequisite(s): graduate standing; and consent of instructor. A detailed study at an advanced level of political theories and concepts and the writings of their major theorists. Themes and eras covered vary each quarter. Course is repeatable to a maximum of 12 units.

POSC 281 Seminar in the History of Political Thought 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Advanced study of the methodology and practice of research in the history of political thought. Course is repeatable to a maximum of 12 units.

POSC 282 Political Theory and Policy Analysis 4 Seminar, 3 hours; extra reading, 1.5 hours; written work, 1.5 hours. Prerequisite(s): graduate standing or consent of instructor. Provides an overview of the literature focusing on the analysis of individual behavior within various types of institutional arrangements. Introduces a diversity of work oriented in rational choice theory, broadly defined.

Emphasis is placed on applying institutional analysis to legislative, bureaucratic, and so-called informal institutions.

POSC 283 Political Thinkers in Depth 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores in depth one or more great political thinkers from around the world. Focuses on methodologies of research and interpretation. May include works by Plato, Confucius, Machiavelli, Marx and Engels, John Stuart Mill, or Gandhi. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 12 units.

POSC 285 Professional Research Paper 4 Research, 12 hours. Prerequisite(s): graduate standing or consent of instructor. An independent study course focusing on writing a substantial research paper, emphasizing research design problems. Must be accomplished within two quarters following doctoral qualifying examinations. Course is repeatable to a maximum of 8 units.

POSC 290 Directed Studies 1 to 6 Research, 3 to 18 variable hour. Prerequisite(s): graduate standing; consent of instructor. Advanced work in a topic or topics appropriate to the student's special interests and needs. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

POSC 291 Individual Study in Coordinated Areas 1 to 12 Research, 3 to 36 hours. Prerequisite(s): graduate standing; and consent of instructor. A program of study designed to advise and assist candidates who are preparing for doctoral examinations. Does not count toward the unit requirement for the master's degree. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

POSC 292 Concurrent Analytical Studies in Political Science 2 to 4 Research, 8 to 16 hours. Prerequisite(s): graduate standing; and consent of instructor. Taken concurrently with a 100-series course on an individual basis. Includes a graduate-level paper based on research or criticism related to the 100-series course. POSC 114, POSC 142(E-Z), POSC 186, POSC 190, and POSC 196A through POSC 199 may not be used. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

POSC 293 Research Topics in Political Science 1 Lecture, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Lectures and discussions by invited scholars and faculty on selected research topics in political science. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

POSC 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing or consent of instructor. Individual research performed under the direction of a faculty advisor. Designed for students preparing their dissertation prospectuses. Students meet in groups by appointment with a faculty advisor to discuss issues of dissertation writing. Emphasis is placed on the development of research design. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

POSC 299 Research For Thesis Or Dissertation 1 to 12 Thesis 3 to 36 hours. Prerequisite(s): graduate standing or consent of instructor. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

POSC 301 Teaching of Political Science at the College Level 2 Seminar, 1 hour; practicum, 3 hours. Prerequisite(s): graduate standing in Political Science. A program of weekly meetings and individual formative evaluation required of new Political Science Teaching Assistants. Covers instructional methods and classroom/section activities most suitable for teaching Political Science. Conducted by departmental faculty or the Teaching Assistant Development Program. Graded Satisfactory (S) or No Credit (NC).

POSC 302 College Teaching Practicum 1 to 4 Practicum, 2 to 8 hours; consultation, 1 to 4 hours. Prerequisite(s): graduate standing and consent of instructor. Required of all teaching assistants in the department. Credit not applicable to graduate unit requirements. Supervised teaching in college level classes under the supervision of the course instructor. Graded Satisfactory (S) or No Credit (NC).

Population Biology

College of Natural and Agricultural Sciences

The interdepartmental Ph.D. program in Population Biology is not currently accepting new students. For further information call (800) 735-0717 or (951) 827-5621.

Daniel Ozer, Ph.D.
Chandra Reynolds, Ph.D.
Lawrence Rosenblum, Ph.D.
Glenn Stanley, Ph.D.
Kim Wilcox, Ph.D.

Associate Professors

Ilana Bennett, Ph.D.
Jimmy Calanchini, Ph.D.
Cecilia Cheung, Ph.D.
John Franchak, Ph.D.
Anubhuti Goel, Ph.D.
Peter Hickmott, Ph.D.
Brent Hughes, Ph.D.
Edward Korzus, Ph.D.
Kalina Michalska, Ph.D.
Megan Robbins, Ph.D.
Thomas Sy, Ph.D.

Assistant Professors

Stephen Antonoplis, Ph.D.
Alejandra Arce, Ph.D.
Olivia Atherton, Ph.D.
Ian Ballard, Ph.D.
Diamond Bravo, Ph.D.
Kiera Coulter, Ph.D.
Halle Dimsdale-Zucker, Ph.D.
Na Yeon Kim, Ph.D.
Bernardette Pinetta, Ph.D.
Deepa Ramamurthy, Ph.D.
Tabea Springstein, Ph.D.

Associate Professor of Teaching

Annie Ditta, Ph.D.

Assistant Professor of Teaching

Hayden Hendley, Ph.D.

Majors and Career Opportunities

The major in Psychology is designed to give students a broad, general exposure to knowledge in the various areas of psychology and to the methods psychologists use to conduct research. The B.A. and B.S. degree in Psychology is useful to those students seeking careers in probation and parole, corrections, personnel, industrial relations, mental health work, social work, or positions as trainees in a variety of executive training programs. The degree also prepares students for graduate school in psychology in either M.A. or Ph.D. programs. Such graduate programs prepare students for a variety of career possibilities. Careers include teaching and research positions in community and private colleges and state and other universities as well as career positions such as research psychologist, clinical psychologist, counseling psychologist, and industrial psychologist. For more information, see psych.ucr.edu.

The department offers a minor in Psychology and a major in Psychology/Law and Society.

Transfer Students

Transfer applicants must have a minimum GPA of 2.70. Applicants must also have a minimum of one UC transferable mathematics course equivalent to Math 004 or higher.

Change of Major Criteria

Students switching to the Psychology or Psychology/Law and Society must have completed the following courses with grades of C- or better and have been in good academic standing for two quarters or more.

1. **Lower Division requirements**

   a. PSYC 001, PSYC 002, PSYC 011 and MATH 004 or higher

Transfer students and others entering the major after achieving sophomore standing must complete the requirements within one year by enrolling in applicable courses every quarter until the requirement is met. Students who do not complete the lower-division requirements in this timely fashion and with at least the minimum required grade average will not be permitted to continue in the Psychology major. Students must check course descriptions for prerequisite requirements.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

The lower-division biological, physical sciences, and mathematics requirements for the Psychology major also count toward the college's Natural Sciences and Mathematics breadth requirement. Consult with a departmental advisor.

Major Requirements

Psychology Major

Psychology offers B.A. and B.S. degrees. The Psychology major requires completion of the lower-division requirements listed below by the end of the sophomore year, with an average grade of "C" or better with no grade below a "C-", before upper-division Psychology courses are taken. All courses must be taken for a letter grade.

For the Bachelor of Arts

The major requirements for the B.A. degree in Psychology are as follows:

1. **Lower-division requirements (at least 39 units)**
   a) One course in Mathematics equivalent to MATH 004 or higher; or a score on the MAE (Math Advisory Exam) sufficient for placement into MATH 005A or MATH 022 or higher.
   b) One 4 unit course in Biological Sciences (Biochemistry, Biology, Botany and Plant Sciences, Entomology, Nematology, or Plant Pathology)
   c) One 4 unit course in Physical Sciences (Chemistry, Physics, Earth Sciences, excluding cultural Geography courses)
   d) Two additional 4 unit courses that satisfy the CHASS Natural Sciences and Mathematics breadth requirements.
   e) PSYC 001, PSYC 002, PSYC 011, PSYC 012
2. **Upper-division requirements (37 units)**
   a) PSYC 110 or CBNS 106
   b) PSYC 140, PSYC 150
   c) PSYC 132 or PSYC 134
   d) PSYC 160 or PSYC 161 or PSYC 162 or PSYC 163
   e) Four additional 4-unit, upper-division Psychology courses, with the following restrictions: only one quarter of PSYC 190 (for a total of 4 units, letter grade required); only one quarter of PSYC 195 (for a total of 4 units, letter grade required); only one quarter of PSYC 197 (for a total of 4 units, letter grade required), only one quarter of PSYC 195H (for a total of 4 units, letter grade required); only one quarter of PSYC 199 (for a total of 4 units, letter grade required); only one quarter of PSYC 199H (for a total of 4 units, letter grade required); only one quarter of PSYC 198G, or one 4-to 8-unit quarter of PSYC 198I may be included

Students planning for graduate school should take into consideration any specific graduate school requirements when choosing these elective Psychology courses.

Note: Students who have taken general or introductory Psychology courses other than PSYC 001 and PSYC 002 must consult with a departmental advisor.

For the Bachelor of Science

The B.S. degree is designed to provide a research-intensive curriculum for students who want a deeper understanding of how knowledge is created through research and for students who may be interested in research-based graduate programs in psychology and the biological sciences.

Psychology courses must be taken for a letter grade. Students must check course descriptions for prerequisite requirements.

Admission

Students may opt into the B.S. degree of the Psychology major after they have completed the 4 lower division required Psychology courses (PSYC 1, 2, 11, 12) with grades of C- or better and completed one course in calculus and one additional Formal Skills, Natural Science or CHASS Natural Science course with grades of C- or better, as detailed in the lower division requirements for B.S. (min overall GPA 2.0).

1. **Lower-division course requirements: (courses can double count towards General Education requirements)**
   a) **Mathematics:** One course in Mathematics chosen from MATH 005B, 005C, 007A, 007B, 009A, 009B, 009C, 022.
   b) **Life sciences:** Two courses in Biological Sciences (Biochemistry; Biology; Entomology; Botany & Plant Sciences, Evolution, Ecology and Organismal Biology; Molecular, Cell and Systems Biology/Cell Biology & Neuroscience)
   c) **Physical sciences:** One course in Physical Sciences (Chemistry, Environemntal Science, Geoscience, Physics)
   d) **Formal Skills:** One course in Formal Skills* (Computer Science, Data Science, Mathematics, Statistics)

   *Notes regarding STAT and CS course options: If a student chooses to follow the quantitative thread with an emphasis in statistics, they will need STAT 008 or 010, taken as a prerequisite (listed under formal skills lower division requirement) for upper division STAT courses. If a student chooses to follow the quantitative thread with an emphasis in computer science, they will need CS 009A AND 009B or CS010A AND 010B taken as a prerequisite (listed under formal skills lower division requirement) for upper division CS courses).
   e) **Pre-psychology:** PSYC 001, PSYC, 002, PSYC 011, PSYC 012
2. **Upper-division requirements (5 core courses)**
   a) 1 course chosen from the following: PSYC 110 or CBNS 106
   b) 1 course chosen from the following: PSYC 132 or 134
   c) 2 courses: PSYC 140 and PSYC 150
   d) 1 course chosen from the following: PSYC 160 or PSYC 161 or PSYC 162 or PSYC 163

   Four Upper Division PSYC Courses

   Research and Advanced courses:

   e) One of the following: PSYC 109, PSYC 120L, PSYC 180, PSYC 181, PSYC 182E-Z, PSYC 197L (4 units and letter grade), or PSYC 198L (4 units and letter grade), PSYC 199L (4 units and letter grade), or PSYC 199HL (4 units and letter grade).
   f) Any three of the following: CBNS 106, PSYC 109, PSYC 110 (can't double count for core), PSYC 112, PSYC 113, PSYC 115, PSYC 117, PSYC 120, PSYC 121, PSYC 122, PSYC 124, PSYC 125, PSYC 126, PSYC 127, PSYC 128, PSYC 129, PSYC 130, PSYC 131, PSYC 134 (can't double count for core), PSYC 136, PSYC 142, PSYC 139, PSYC 142, PSYC 148, PSYC 149, PSYC 152, PSYC 153, PSYC 155, PSYC 160, PSYC 161, PSYC 162, PSYC 163, PSYC 164, PSYC 165A, PSYC 165B, PSYC 166A, PSYC 166B, PSYC 166C, and PSYC 166D, PSYC 167, PSYC 169, PSYC 175, PSYC 178, PSYC 179, PSYC 180, PSYC 181, PSYC 182 E-Z, PSYC 189, STAT 104, STAT 107, STAT 108**, STAT 110**, STAT 130**, STAT 140**, CS 108, CS 105

   Courses with ** can be taken after completion of STAT 107.

Students planning for graduate school should take into consideration any specific graduate school requirements when choosing these elective Psychology courses.

Note: Students who have taken general or introductory Psychology courses other than

PSYC 001 and PSYC 002 must consult with a departmental advisor.

Psychology/Law and Society Major

The Law and Society major is open to undergraduate students with junior standing who have completed LWSO 100 with a grade of "C" or higher.

All requirements for the B.A. in Psychology (39 lower-division units, which includes 16 units that are also used for college breadth requirements; 37 upper-division units)

1. **Lower-division requirements (at least 39 units)**
   a) One course in Mathematics equivalent to MATH 004 or higher; or a score on the MAE (Math Advisory Exam) sufficient for placement into MATH 005A or MATH 022 or higher.
   b) One 4 unit course in Biological Sciences (Biochemistry, Biology, Botany and Plant Sciences, Entomology, Nematology, or Plant Pathology)
   c) One 4 unit course in Physical Sciences (Chemistry, Physics, Earth Sciences, excluding cultural Geography courses)
   d) Two additional 4 unit courses that satisfy the CHASS Natural Sciences and Mathematics breadth requirements.
   e) PSYC 001, PSYC 002, PSYC 011, PSYC 012
2. **Upper-division requirements (37 units)**
   a) PSYC 110 or CBNS 106
   b) PSYC 140, PSYC 150
   c) PSYC 132 or PSYC 134
   d) PSYC 160 or PSYC 161 or PSYC 162 or PSYC 163
   e) Four additional 4-unit, upper-division Psychology courses, with the following restrictions: only one quarter of PSYC 190 (for a total of 4 units, letter grade required); only one quarter of PSYC 195 (for a total of 4 units, letter grade required); only one quarter of PSYC 197 (for a total of 4 units, letter grade required), only one quarter of PSYC 195H (for a total of 4 units, letter grade required); only one quarter of PSYC 199 (for a total of 4 units, letter grade required); only one quarter of PSYC 199H (for a total of 4 units, letter grade required); only one quarter of PSYC 198G, or one 4-to 8-unit quarter of PSYC 198I may be included
3. **Requirements for Law and Society (36 units)**
   a) PHIL 007 or PHIL 007H
   b) LWSO 100 (with a grade of "C" or better)
   c) One course chosen from POSC 114, PSYC 012, SOC 004 (or equivalent course in research methods)
   d) Three courses chosen from ANTH 127, ECON 119, HISE 153, PHIL 165, POSC 167, PSYC 175, SOC 159
   e) Two courses chosen from HISA 120A, HISA 120B, HISE 123, LWSO 175 (E-Z), PHIL 164, POSC 111, POSC 166, POSC 168, POSC 186, SOC 147, SOC 149, SOC 180
   f) LWSO 193, Senior Seminar

Note: For sections 3.d) and 3.e) combined, not more than two courses may be taken from the same department. In fulfilling requirements of two or more majors, students may not count more than two courses toward both parts of their total requirements. For this major, PSYC 012 fulfills a requirement in both Psychology and Law and Society.

Minor

Prerequisites for the minor in Psychology are PSYC 001, PSYC 002, PSYC 011, and PSYC 012, with an average grade of "C" or better, with no grade below a "C-".

Requirements for the Psychology minor are as follows (21 units):

1. Twenty-one (21) upper-division Psychology units
   a) PSYC 110 or CBNS 106
   b) PSYC 132 or PSYC 134
   c) PSYC 140 and PSYC 150
   d) PSYC 160 or PSYC 161 or PSYC 162 or PSYC 163

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Education Abroad

Education Abroad is an excellent opportunity to learn more about another country and its culture while taking courses to earn units toward graduation. Students should plan study abroad well in advance to ensure that the courses taken fit with their overall program at UCR. Consult the departmental student affairs officer for assistance. For further details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

Graduate Program

The Department of Psychology offers the M.A. and Ph.D. degrees in Psychology; however, applications are not accepted from students wishing to work towards the master's degree only.

Graduate training in Psychology is offered in four major areas: Cognition and Cognitive Neuroscience, Social/Personality, Developmental, and Behavioral Neuroscience. Additionally, graduate students may customize their major area of study, in consultation with an advisory committee, comprised of the primary advisor and two additional faculty, and with graduate advisor approval.

Admission

Students are normally expected to have completed the equivalent of an undergraduate major in Psychology at the UC, with background preparation in basic science and mathematics.

The Ph.D. degree is a research degree. Students must demonstrate the ability to complete rigorous empirical research and must be active in research throughout their graduate career. The course requirements in the Ph.D. program are directed toward establishing a foundation for critical evaluation of research literature and designing conceptually important empirical research.

Doctoral Degree

Course Work: The courses normally required during the first two years include the following:

1. **PSYC 211; PSYC 212; and PSYC 213, 214 or 215**
   (Behavioral Neuroscience students take two of the three, as directed by the student's advisor.)
2. **The appropriate area core:**
   Cognition and Cognitive Neuroscience: Any combination of three courses chosen from PSYC203A, PSYC 203B, or PSYC 203C; and PSYC 233
   Developmental: PSYC 207A, PSYC 207B, PSYC 207C, PSYC 208
   Social/Personality: PSYC 225, PSYC 226, PSYC 227
   Behavioral Neuroscience: NRSC 200A/PSYC 200A, NRSC 200B/PSYC 200B, NRSC 200C/PSYC 200C
   Appropriate area core for graduate students with an approved customized major area of study comprises the data analytic sequence and any 4 content core courses, with approval of the advisory committee and the graduate advisor.
3. **Five additional courses or seminars selected to provide further study beyond the area core course requirements.** Courses or seminars must be 3- or 4-units, and at least one must be a Departmental core course (listed in 2, above) outside the student's area of specialization. The student's adviser and the department graduate adviser must approve the list of courses used to satisfy this further study requirement. Students who have completed graduate-level course work prior to entering the UCR program may request that specific courses be accepted toward the satisfaction of this requirement. This request will be reviewed using procedures and standards typically applied to the approval of courses to satisfy this requirement.
4. **PSYC 301:** Required of all graduate students prior to or concurrent with the first teaching assistant appointment unless waived by petition due to previous experience.

The Psychology Department requires that each student earn a "B" average in the PSYC 211, PSYC 212, and PSYC 213, PSYC 214, or PSYC 215 sequence and in the student's area core courses, with no grade lower than a "B-".

In addition, students must be enrolled in the appropriate area of Proseminar every quarter until advancement to candidacy:

Cognition and Cognitive Neuroscience: PSYC 283

Developmental: PSYC 284

Social/Personality: PSYC 285

Behavioral Neuroscience: PSYC 287 or PSYC 289

Students with an approved customized major area of study choose one core area proseminar to enroll in each year until advancement to candidacy, with advisory committee guidance. The same area proseminar does not need to be chosen each year, but in each

academic year customized major students will enroll in only one proseminar.

Progress in the program is formally evaluated in June of each year and informally on a continuing basis by noting participation in class and in research.

All students in the graduate program are held to these requirements whether or not they have taken graduate work at, or hold an M.A. from, another institution. The only exception may be for previously-taken graduate-level course work which is thought to be equivalent to one or more of PSYC 211, PSYC 212, or PSYC 213, or PSYC 214, or PSYC 215. If a grade of "B" or better was received, and with the approval of the advisor, the student may be tested by a departmental instructor of the course(s) in question. On the basis of the results of the test, the instructor decides if the course can be waived.

Professional Development Requirement
The Professional Development course (PSYC 409B) curriculum satisfies the Professional Development requirement. Topics discussed typically include: interviewing, writing, and oral presentation skills; the academic job market and the job application process; and nonacademic careers. Other professional development courses may be used to satisfy this requirement if approved by the graduate advisor.

Second-Year Research Project
All students are required to begin research in their first year in the graduate program, under the supervision of a three-person committee. The committee is to be chaired by the student's advisor; the student and advisor will then select two others, at least one of whom must be from the student's major area. The second-year research project culminates in a paper and an oral presentation, with the oral presentation serving as the oral comprehensive exam for students opting for the mater's degree (see below). The second-year research project must be completed prior to taking any portion of the qualifying examinations. Students in the social/personality and developmental major areas are required to complete the written paper of the second-year research project on or before April 15th of their second year; all other students must complete the paper prior to their oral exam. No later than June of the second year in the program, all students must make an oral presentation of the results of the second-year research project at a meeting of the major area faculty and fellow students (typically in the area proseminar). Committee members must synchronously attend the full presentation and question period. Unanimous agreement among the committee members is required for the student to pass both the written and the oral portions of the second-year research project (a single no vote constitutes a fail).

If a student's committee determines that the student failed the second-year research project (either written or oral portion), the student will have the opportunity to rewrite the paper and/or redo the oral presentation one time. Students must complete the rewrite/redo within six months. If the second attempt is not successful, the Department will recommend to the Dean of the Graduate Division that the student be dismissed from the program.

Master's Degree
Although there is not a separate terminal master's program, students may apply for the master's degree at the beginning of the quarter in which they expect to complete the statistical sequence, the appropriate area core, two of the five further study courses, PSYC 301 (see 1, 2, 3, and 4 above), and a minimum of 36 units in graduate status (of which at least 18 must be in graduate course work) and pass an oral comprehensive examination administered by the Psychology Department.

Teaching Experience
Each student must gain experience in a teaching capacity for the equivalent of at least one full quarter. Teaching assistants assist a faculty member in an undergraduate course by preparing and grading examinations, reading papers, lecturing, and conducting discussion and laboratory sections.

Written and Oral Qualifying Examinations
The qualifying examination should be taken during the third year of full-time graduate study. It consists of a written component and an oral examination, and focuses on the subject matter in the student's chosen area of concentration.

A qualifying committee should be nominated early in the third year, and all core and breadth requirements must be completed no later than the quarter in which the qualifying examination is taken.

The Oral Qualifying Exam can be taken in one of the following modes: In-Person, Hybrid, or Remote. The student and their committee chair will discuss which mode best suits the subject matter, with the committee chair making the final determination. Students taking the exam In- Person are expected to present the exam on campus with all committee members physically present. If Hybrid is chosen, the student is expected to present the exam on campus in a video-enabled room that supports one or more committee members being physically present and others remote. A remote exam involves all committee members and the student participating via videoconferencing software (e.g., Zoom) with no expectation for physical presence on campus of any meeting participant.

Committee members nominated from outside the UC Academic Senate who participate remotely must have qualifications comparable to a UC Academic Senate member and submit a letter of intention and CV. In addition, strong academic justification for inclusion on the committee must be provided by the Graduate Advisor.

On the basis of this examination (and completion of the core and breadth requirements), the student may pass and be advanced to candidacy for the Ph.D.; fail, and be permitted one retake; be awarded the M.A. (if not previously awarded) but not be advanced to candidacy for the Ph.D.; or not be awarded the M.A. and not be advanced to candidacy for the Ph.D.

Upon successful completion of 1, 2, 3, and 4, passing the qualifying examination, and nomination of the dissertation committee, the Graduate Division sends the student an application for advancement to candidacy.

Dissertation and Final Oral Examination:
Students must complete a dissertation on a subject chosen by the candidate, bearing on the principal area of concentration and showing the student's ability in independent investigation. The dissertation committee guides the student in preparing the dissertation and examines the student during the defense of the dissertation.

The Final Dissertation Defense can be completed in one of the following modes: In-Person, Hybrid, or Remote. The student and their committee chair will discuss which mode best suits the subject matter, with the committee chair making the final determination. Students completing the defense in-person are expected to present the Final Defense on campus with all committee members physically present. If Hybrid is chosen, the student is expected to present the Final Defense on campus in a video-enabled room that supports one or more committee members being physically present and others remote. A remote defense involves all committee members and the student participating via videoconferencing software (e.g., Zoom) with no expectation for physical presence on campus of any meeting participant.

Committee members nominated from outside the UC Academic Senate who participate remotely must have qualifications comparable to a UC Academic Senate member and submit a letter of intention and CV. In addition, strong academic justification for inclusion on the committee must be provided by the Graduate Advisor.

Each of the four major areas may have additional requirements. Occasionally, a change in courses used to satisfy specific requirements may be justifiable. For a complete description of the program, visit psych.ucr.edu.

Normative Time to Degree 15 quarters

Optional Specialized Subfield of Study

In addition to pursuing a doctoral degree in one of the core areas of psychology, graduate students may qualify, under the direction of the committee in charge of the relevant Specialized Subfield of Study, for any one or more of three subfields of study: Quantitative Psychology, Health & Well-Being Psychology, and Diversity & Inequality Psychology. Additionally, students may choose to customize a specialized subfield of study, in consultation with their subfield committee, comprised of the primary advisor and two additional faculty, and with graduate advisor approval.

Students wishing to pursue a Specialized Subfield of Study should typically pursue one or at most two subfields, as their training interests dictate. Exceptional requests to pursue more than two subfields may be granted by the Graduate Advisor in consultation with the relevant subfield committees and the student's primary advisor. Each Specialized Subfield of Study has the following requirements:

1. Submission of a letter of interest to the chair of the relevant specialized subfield committee, or the graduate advisor for

customized subfields of study, in which the student should articulate their interest in the specialization with regard to its relevance for the student's course of graduate study and the student's longer-term career plans.

2. Enrollment and satisfactory completion of at least three quarters of the relevant proseminar, which must be different from the proseminar satisfying the major track.
3. Satisfactory completion of at least three courses relevant to the relevant Specialized Subfield of Study topic, as approved by the relevant subfield of study committee. No more than two courses used to satisfy a Specialized Subfield of Study requirement may be used to fulfill the general further studies requirement for doctoral study in psychology, and no more than two courses may be used to satisfy the requirements of multiple Specialized Subfields of Study (i.e., at least one course for each subfield must be uniquely applied to that subfield's requirements). The qualifying courses vary from subfield to subfield. However, no core course (i.e., PSYC 200A/B/C, 203A/B/C, 207A/B/C, 208, 225, 226, or 227) may count toward a subfield's requirements. Statistical and methods courses (e.g., 233, 259) are typically not appropriate for these requirements except in the case of the Quantitative Psychology Subfield. Exceptions may be granted by the Graduate Advisor in consultation with the relevant subfield committee and the student's advisor.
4. Successful completion of an oral examination based upon a project completed by the student on a topic relevant to the subfield of study. A three-person faculty committee, approved by the chair of the committee in charge of the relevant subfield of study, or the graduate advisor for customized subfields of study, must grant prior approval of the topic of the project and conduct the oral examination. No more than two members can overlap between subfield committees for a given student (i.e., at least one member of the evaluating committee must be unique to each Specialized Subfield of Study). The student and the committee determine the format of the oral exam; a presentation in the relevant pro-seminar based on the project satisfies the oral examination requirement.
5. Submission of a form to the relevant subfield of study committee confirming completion of all requirements.

Subfield of Study-specific requirements:

Quantitative Psychology: Further requires completion of PSYC 211; PSYC 212; and PSYC 213 or 214, with a grade of"A-" or better in each course, or passing an examination covering the three courses. The relevant proseminar is PSYC 270.

Health & Well-Being Psychology: Further requires submission of a written paper on the completed project, due to the faculty committee prior to the oral examination. The relevant proseminar is PSYC 286E.

Diversity & Inequality Psychology: Further requires submission of a written paper on the completed project, due to the faculty committee prior to the oral examination. The relevant proseminar is PSYC 286F.

Customized Specialized Subfield of Study

Further requires submission of a written paper on the completed project, due to the faculty committee prior to the oral examination. The relevant proseminar will be chosen in consultation with and approval from the specialized subfield committee, as well as with approval from the graduate advisor..

Opportunities for Graduate Study in Neuroscience

Faculty from the Department of Psychology participate in a unique graduate specialization in Neuroscience which draws on the strengths of distinguished scientists from several units. For further information concerning work in this area, see Neuroscience Graduate Program in the Programs and Courses section of this catalog.

Lower-Division Courses

PSYC 001 Introductory Psychology 4 Lecture, 3 hours; discussion, 1 hour. An introduction to psychology as an experimental science. Emphasizes topics in cognitive (including learning, memory, sensation, perception), comparative, and physiological psychology.

PSYC 002 Introductory Psychology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Emphasizes topics in developmental psychology, tests and measurements, social psychology, personality, and abnormal behavior.

PSYC 011 Psychological Methods: Statistical Procedures 5 Lecture, 3 hours; discussion, 2 hours. Prerequisite(s): MATH 004 with a grade of C- or better or MATH 005A with a grade of C- or better or MATH 006A with a grade of C- or better or MATH 006B with a grade of C- or better or MATH 007A with a grade of C- or better or MATH 007B with a grade of C- or better or MATH 009A with a grade of C- or better or MATH 09HA with a grade of B or better or MATH 009B with a grade of C- or better or MATH 09HB with a grade of B or better or MATH 009C with a grade of C- or better or MATH 09HC with a grade of B or better or MATH 010A with a grade of C- or better or MATH 010B with a grade of C- or better or MATH 022 with a grade of C- or better; PSYC 001 with a grade of C- or better; PSYC 002 with a grade of C- or better; or a score on the Math Advisory Exam sufficient for placement into MATH 005A or MATH 022 or higher. Covers descriptive and inferential statistics, measures of central tendency, variability, and correlation. Introduces sampling distributions, statistical inference, and hypothesis testing.

PSYC 012 Psychological Methods: Research Procedures 6 Lecture, 3 hours; laboratory, 3 hours; research, 3 hours; term paper, 1 hour; extra reading, 2 hours. Prerequisite(s): ENGL 001B with a grade of C or better; PSYC 001 with a grade of C- or better; PSYC 002 with a grade of C- or better; PSYC 011 with a grade of C- or better; MATH 004 with a grade of C- or better or MATH 005A with a grade of C- or better or MATH 006A with a grade of C- or better or MATH 006B with a grade of C- or better or MATH 007A with a grade of C- or better or MATH 007B with a grade of C- or better or MATH 009A with a grade of C- or better or MATH 09HA with a grade of B or better or MATH 009B with a grade of C- or better or MATH 09HB with a grade of B or better or MATH 009C with a grade of C- or better or MATH 09HC with a grade of B or better or MATH 010A with a grade of C- or better or MATH 010B with a grade of C- or better or MATH 022 with a grade of C- or better; or equivalent; a score on the Math Advisory Exam sufficient for placement into MATH 005A or MATH 022 or higher; consent of instructor is required for students repeating the course. A systematic survey of research methodologies in psychology. Laboratory assignments include evaluating and testing psychological theories; assessing methodologies and research designs; designing and implementing research; collecting data and analyzing statistics; writing research reports; and discussing ethical issues in science.

PSYC 013 Skepticism and Pseudoscience in Psychology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): WRIT 010 with a grade of C or better or WRIT 010S with a grade of C or better or WRIT 009 with a grade of C or better; or consent of instructor. Studies topics at the borderland of psychology (extra-sensory perception, repressed memory, pseudoscientific beliefs, parapsychology, psychic phenomena, faith healing, and mass hysteria). Explores skepticism, cynicism, and "gullibility," and the rhetoric of extraordinary claims. Stresses the development of scientific literacy, critical thinking skills, hypothesis testing, and understanding psychology as an empirical science.

PSYC 049 Topics in Psychology 4 Lecture, 3 hours; discussion, 1 hour. Explores a topic of general interest in psychology. Debate and dialog are the distinguishing features of this course. Topics are announced in the Schedule of Classes. Course is repeatable as content or topic changes to a maximum of 16 units.

PSYC 050 Introduction to Art and Psychology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): restricted to class level standing of freshman, or sophomore; or consent of instructor. Explores the intersection of art and psychology. Examines how artists use techniques to manipulate visual perception and elicit emotional responses. Includes how psychological theories can illuminate the understanding of artistic expression. Cross-listed with AHS 006.

PSYC 096 Research For Lower-Division Students 1 to 2 Research, 3 to 6 hours. Prerequisite(s): restricted to class level standing of freshman, or sophomore; and consent of instructor. An introduction to research in psychology. Emphasizes aspects of library and laboratory research within the content of ongoing faculty research programs

Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 6 units.

PSYC 096L Research Laboratory For Lower-Division Students 1 to 2 Laboratory, 3 to 6 hours. Prerequisite(s): restricted to class level standing of freshman, or sophomore; and consent of instructor. An introduction to research in psychology. Emphasizes aspects of library and laboratory research within the content of ongoing faculty research programs. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 6 units.

Upper-Division Courses

PSYC 109 Advanced Research Methods 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, PSYC 012, each with a grade of "B-" or better; or equivalents; or consent of instructor. Advanced theory and practice of planning, conducting, reporting, and evaluating research in the social and behavioral sciences. Students conduct original research that, if desired, can lead to (and become part of) a senior honors thesis or other senior-level research project. Satisfactory (S) or No Credit (NC) grading is not available.

PSYC 110 The Brain and Behavior 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001 with a grade of "C-" or better, or equivalents, or consent of instructor. Explores the principles of neuroanatomy and neurophysiology and their relationship to brain function. Topics include sensory and perceptual processes, biological aspects of learning and memory, motivation, emotion, language, and abnormal behavior.

PSYC 112 Neural Mechanisms of Animal Behavior 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CBNS 106 with a grade of "C-" or better or PSYC 110 with a grade of "C-" or better or consent of instructor. Studies how the nervous systems of vertebrates and invertebrates contribute to and control their behavior. Focuses on aspects of sensory physiology with a brief orientation to the structure and function of nervous systems. Emphasizes a top-down approach to neurobiology, with specific behaviors providing guidelines for an examination of neural mechanisms.

PSYC 113 Pandemic Biopsychology: From Virus to Vaccine 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001 with a grade of C- or better, PSYC 002 with a grade of C- or better, PSYC 011 with a grade of C- or better, PSYC 012 with a grade of C- or better; or consent of instructor. Explores pandemics through analyses of historical events, scientific research investigating viruses related to global outbreaks, human immune response to infection, and how different vaccines (adenovirus, mRNA) are created and function in human systems. Also examines how pandemics impact people's sense of security, mental health, and personal well-being.

PSYC 115 Drugs and Behavior 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CBNS 106 with a grade of "C-" or better or PSYC 110 with a grade of "C-" or better or consent of instructor. Describes both legal and illegal drugs. Analyzes drug-nervous system interactions and how the use of various drugs (particularly drugs of abuse) affects behavior and psychological well-being.

PSYC 117 Cognitive Neuroscience of Memory and Consciousness 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): CBNS 106 with a grade of "C-" or better or PSYC 110 with a grade of "C-" or better. Surveys the neural basis of mental processes, focusing on memory and consciousness and their behavioral manifestations. Emphasizes current research literature.

PSYC 120 Cellular Neuroscience: Membrane and Synaptic Phenomena 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CBNS 106 or consent of instructor. An examination of cellular and molecular mechanisms of nervous system function using concepts drawn from the study of vertebrates and invertebrates with emphasis on mammalian systems. Cross-listed with CBNS 120.

PSYC 120L Neuroscience Laboratory 4 Lecture, 1 hour; discussion, 1 hour; laboratory, 3 hours; written work, 3 hours. Prerequisite(s): CBNS 120, may be taken concurrently or PSYC 120, may be taken concurrently; or consent of instructor. Laboratory experiments using electrophysiological, chemical, and anatomical research methods fundamental to understanding neurons and neural systems. Cross-listed with CBNS 120L.

PSYC 121 Developmental Neuroscience 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CBNS 106 or consent of instructor. A study of the development of nervous systems. Examines the cellular and molecular mechanisms of neural development and the determinants of cell birth and death, axonal pathfinding, neuronal connections, and development of neural systems underlying behavior. Cross-listed with CBNS 121.

PSYC 122 Human Neuroimaging 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 110 or CBNS 106 or consent of instructor. PSYC 122 can be taken without PSYC 122L. An introduction to magnetic resonance imaging in psychological research with an emphasis on the merits and limitations of structural and functional neuroimaging in humans.

PSYC 122L Human Neuroimaging Laboratory 4 Lecture, 1 hour; laboratory, 3 hours; extra reading, 3 hours; written work, 3 hours. Prerequisite(s): PSYC 122, may be taken concurrently, PSYC 110 or CBNS 106; or consent of instructor. Laboratory exercises in the design, acquisition, and analysis of structural and functional magnetic resonance imaging data.

PSYC 123L Computational Neurophysiology Laboratory: Simulating Neuronal Membrane Properties 4 Lecture, 1 hour; discussion, 1 hour; laboratory, 3 hours; written work, 3 hours. Prerequisite(s): CBNS 106; CBNS 120, may be taken concurrently or PSYC 120, may be taken concurrently; and consent of instructor. Introduces computer modeling techniques to enhance understanding of neuronal membrane physiology. Selected topics include biophysical models of single neurons including passive properties and action potential firing, channels regulating neuronal firing properties, synaptic interactions, and simple circuits. Cross-listed with CBNS 130L.

PSYC 124 Systems Neuroscience 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CBNS 106 with a grade of C- or better; or consent of instructor. A study of the structure and function of motor and sensory systems in vertebrate and invertebrate nervous systems. Cross-listed with CBNS 124.

PSYC 125 Neuropharmacology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CBNS 120/PSYC 120. Examines synaptic neurotransmitter systems, mechanisms, and pharmacological agents and effects, which are fundamental to neural information processing. Cross-listed with CBNS 125.

PSYC 126 Neuroscience of Learning and Memory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CBNS 106 or PSYC 110; or consent of instructor. Covers mechanisms of learning and memory across levels of analysis including genetic, neuronal, systems, and theory. Topics include the multiple memory systems, memory consolidation, working memory, emotional memory, recognition memory, spatial memory, and human amnesia. Cross-listed with CBNS 126.

PSYC 127 Behavioral Control Systems 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CBNS 120/PSYC 120; CBNS 124/PSYC 124 strongly recommended. An analysis of neural mechanisms that underlie behavior, concentrating on motor control. Topics range from command systems, to central pattern generators, to cortical control of voluntary movement and brain-machine interfaces (neuroprosthetics). Cross-listed with CBNS 127.

PSYC 128 Language and the Brain 4 Lecture, 3 hours; research, 2 hours; extra reading, 2 hours. Prerequisite(s): LING 020 or PSYC 110 or PSYC 135 or CBNS 106; or consent of instructor. Interdisciplinary introduction to the study of language and the brain. Includes brain evolution for language, neural bases for language production and language comprehension, aphasiology and language disorders, and additional special topics. Cross-listed with LING 162.

PSYC 129 Human Neuropsychology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CBNS 106 with a grade of C- or better or PSYC 001 with a grade of C- or better, PSYC 002 with a grade of C- or better, PSYC 011 with a grade of C- or better, PSYC 012 with a grade of C- or better; or consent of instructor. Surveys how high-level psychological functions (e.g., perception, memory, language) are organized in the human brain. Covers behavioral and cognitive impairments due to disorders such as brain injury, stroke, Parkinson's disease, epilepsy, and dementias including Alzheimer's disease.

Emphasizes how such disorders inform our understanding of cognitive functions.

PSYC 130 Fundamentals of Learning and Conditioning 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, PSYC 012 with grades of "C-" or better; or equivalents; or consent of instructor. A survey course that includes both historical and current models of human learning, conditioning, and memory. Provides a good foundation for research or future study in learning and memory by covering fundamental theories established by Pavlov and Skinner while incorporating new theories of human behavioral control.

PSYC 131 Computational and Mathematical Models in Cognitive Science 4 Lecture, 3 hours; extra reading, 1.5 hours; written work, 1.5 hours. Prerequisite(s): a grade of "C-" or better in PSYC 001, PSYC 002, PSYC 011, PSYC 012 or consent of instructor. Introduces students to the technical and theoretical issues involved in using models to understand behavior. Involves analysis of model predictions and simulation of behavioral data. Course is repeatable to a maximum of 12 units if taken with different instructors.

PSYC 132 Perception 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, PSYC 012 with grades of "C-" or better; or equivalents; or consent of instructor. An analysis of the role played by sensory mechanisms, experiences, expectations, and needs in recognizing objects in the environment.

PSYC 133 Human Factors 4 Lecture, 3 hours; extra reading, 3 hours; term paper, 1 hour. Prerequisite(s): a grade of "C-" or better in one of the following courses or consent of instructor: PSYC 132 or PSYC 134. Provides an overview of the human capabilities and limitations considered in the design of person-machine systems. Evaluates factors critical to performance in person-machine systems, including attention, decision making, motor performance, and memory.

PSYC 134 Cognitive Processes 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001 with a grade of C- or better; PSYC 002 with a grade of C- or better; PSYC 011 with a grade of C- or better; PSYC 012 with a grade of C- or better; or consent of instructor. Addresses empirical and theoretical research in several subareas within contemporary cognitive psychology. Subareas include attention, mental representation, information organization and retrieval from memory, psycholinguistics, problem solving, decision making, thinking, and artificial intelligence and computer simulation of cognitive processes.

PSYC 135 Psycholinguistics 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): a grade of "C-" or better in the following courses or consent of instructor: PSYC 001, PSYC 002, PSYC 011, PSYC 012. Introduction to psycholinguistics emphasizing the psychological implications of linguistic theory, including the effect of syntactic structure on the comprehension, production, and retention of speech; the course of language acquisition; and models of the adult language user.

PSYC 136 Topics in Cognitive Neuroscience 4 Seminar, 3 hours; extra reading, 1.5 hours; written work, 1.5 hours. Prerequisite(s): a grade of "C-" or better in one of the following courses or consent of instructor: CBNS 106, PSYC 110, PSYC 129, PSYC 132, PSYC 134, PSYC 135. Intensive study of selected topics in cognitive neuroscience. Stresses the methodology and interpretation of current research topics. Course is repeatable as topics change to a maximum of 12 units.

PSYC 139 Topics in Cognitive Psychology 4 Seminar, 3 hours; extra reading, 1.5 hours; written work, 1.5 hours. Prerequisite(s): a grade of "C-" or better in the following courses or consent of instructor: PSYC 001, PSYC 002, PSYC 011, PSYC 012; PSYC 132 or PSYC 134 or PSYC 135. Intensive study in cognitive psychology. Stresses literature, methodology, and experimental design and analysis. Course is repeatable as topics change to a maximum of 16 units.

PSYC 140 Social Psychology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, PSYC 012 with grades of "C-" or better; or equivalents; or consent of instructor. The relationship between the individual and the group, including such topics as conformity and deviance, attraction and prejudice, altruism and aggression, and the social nature of attitudes.

PSYC 142 Industrial/Organizational Psychology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 002. Introduction to the field of industrial/organizational psychology covering fundamental theory and research in personnel and organizations. Topics include employee selection and training, performance appraisal, motivation, organizational dynamics, leadership, and job satisfaction.

PSYC 148 Topics in Social Psychology 4 Lecture, 3 hours; extra reading or term paper, 3 hours. Prerequisite(s): a grade of "C-" or better in the following courses or consent of instructor: PSYC 001, PSYC 002, PSYC 011, PSYC 012, PSYC 140. Intensive study of selected topics in social psychology such as race relations, attitude formation and change, biases of social science researchers, and the application of psychological principles in community organization. Emphasis is on the study of these areas in natural settings. Specific course content varies. Course is repeatable to a maximum of 16 units.

PSYC 149 The Science of Well-Being 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001 and PSYC 002. Covers current theory and research in positive psychology and the scientific study of optimal human functioning. Topics include the causes and benefits of happiness; how happiness can be measured and increased; positive emotions; flow; and human strengths and virtues including optimism, love, altruism, forgiveness, and gratitude.

PSYC 150 Personality 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, PSYC 012 with grades of "C-" or better; or equivalents; or consent of instructor. A survey of the principal theories of personality with attention to the experimental methods and findings on which they are based.

PSYC 151 Psychopathology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001 with a grade of C- or better; PSYC 002 with a grade of C- or better; PSYC 011 with a grade of C- or better; PSYC 012 with a grade of C- or better; or equivalents; or consent of instructor. An introduction to the research and theories regarding the major types of abnormal behavior. Includes the neuroses, schizophrenia, psychosomatic disorders, sexual disorders, drug and stress induced states, and organic disorders.

PSYC 153 Introduction to Clinical Psychology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): a grade of "C-" or better in the following courses or consent of instructor: PSYC 001, PSYC 002, PSYC 011, PSYC 012, PSYC 151. Introduction to the field of clinical psychology. Emphasizes the application and evaluation of techniques of individual and group counseling and therapy. Also addresses the application and evaluation of psychological tests in the assessment of psychological problems.

PSYC 155 Personality Assessment 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): a grade of "C-" or better in the following courses or consent of instructor: PSYC 001, PSYC 002, PSYC 011, PSYC 012, PSYC 150. Covers the assessment of personality through self-report tests, projective tests, and systematic observations. Also entails descriptions of the psychometrics of testing as it applies to the problems in studying personality.

PSYC 160 Life Span Development 5 Lecture, 3 hours; discussion, 1 hour; term paper, 3 hours. Prerequisite(s): PSYC 001 with a grade of C- or better; PSYC 002 with a grade of C- or better; PSYC 011 with a grade of C- or better; PSYC 012 with a grade of C- or better. Introduces the biological, social, and cognitive processes that influence development from the prenatal period through late adulthood. Topics include development in physical, motor, perceptual, cognitive, emotional, and social areas. Includes discussion of issues related to intellectual functioning, personality, social roles and relationships, coping and adjustment, and aging.

PSYC 161 Socioemotional and Personality Development 5 Lecture, 3 hours; discussion, 1 hour; term paper, 3 hours. Prerequisite(s): PSYC 001 with a grade of C- or better; PSYC 002 with a grade of C- or better; PSYC 011 with a grade of C- or better; PSYC 012 with a grade of C- or better; or consent of instructor. A study of the development of human personality from birth through late adolescence. Emphasizes the impact of interpersonal relationships on the acquisition of human traits, emotional reactions, and patterns of adjustment.

PSYC 162 Biological Issues in Development 5 Lecture, 3 hours; discussion, 1 hour; term paper, 3 hours. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, and PSYC 012 with grades of "C-" or better; or equivalents; or consent of instructor. Examines biological processes that influence behavior and development across the life span. Discusses contemporary theoretical approaches to the study of biological, genetic, and environmental influences on development. Topics include behavioral genetics, developmental neuroscience, and the impact of early environments and stress on adaptation and resilience.

PSYC 163 Cognitive Development 5 Lecture, 3 hours; discussion, 1 hour; term paper, 3 hours. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, and PSYC 012 with grades of "C-" or better; or equivalents; or consent of instructor. An analysis of intellectual development from birth through maturity and into stages of aging. Discusses historical and contemporary theoretical and experimental approaches to studying the mechanisms of intellectual growth and development.

PSYC 164 Emotional and Behavioral Disorders of Childhood 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, PSYC 012, PSYC 151, and PSYC 160 with grades of C- or better; or equivalents; or consent of instructor. Provides an overview of behavioral and emotional disorders affecting children and adolescents within a developmental context. Examines disorders affecting youth in terms of prevalence, developmental course, and theories. Topics include theoretical models of child psychopathology; diagnostic, assessment, and treatment practices; and the descriptive psychopathology of major childhood disorders.

PSYC 165A The Cultural Bases of Human Development 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001 with a grade of C- or better, PSYC 002 with a grade of C- or better, PSYC 011 with a grade of C- or better, PSYC 012 with a grade of C- or better, PSYC 160 with a grade of C- or better or PSYC 161 with a grade of C- or better or PSYC 162 with a grade of C- or better or PSYC 163 with a grade of C- or better; or equivalents; or consent of instructor. Examines the social, emotional, and intellectual aspects of human development from a cultural perspective. Covers theory, research, and methods of studying the cultural bases of psychological growth. Topics include socialization practices, parenting, social relations, language and cognition, schooling and academic achievement, acculturation, and ethnicity.

PSYC 165B The Development of Immigrant and Ethnic Minority Youth 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001 with a grade of C- or better, PSYC 002 with a grade of C- or better, PSYC 011 with a grade of C- or better, PSYC 012 with a grade of C- or better, PSYC 160 with a grade of C- or better or PSYC 161 with a grade of C- or better or PSYC 162 with a grade of C- or better or PSYC 163 with a grade of C- or better; or equivalent; or consent of instructor. Covers current theory and research on the development of immigrant and ethnic minority youth in the United States. Focuses on the social, cultural, and psychological processes influencing the biological, cognitive, and social development of youth from immigrant and ethnic minority families.

PSYC 166A Infancy 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001 with a grade of C- or better; PSYC 002 with a grade of C- or better; PSYC 011 with a grade of C- or better; PSYC 012 with a grade of C- or better; or consent of instructor. Covers current theory and research on development during the period of infancy. Addresses the key biological, cognitive, emotional, and social developments during this period.

PSYC 166B Childhood 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, PSYC 012 all with grades of "C-" or better; or consent of instructor. Covers current theory and research on development during the period of childhood. Addresses the key biological, cognitive, emotional, and social developments during this period.

PSYC 166C Adolescence and Emerging Adulthood 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001 with a grade of C- or better; PSYC 002 with a grade of C- or better; PSYC 011 with a grade of C- or better; PSYC 012 with a grade of C- or better. Covers current theory and research on development during the period of adolescence and the transition to adulthood. Addresses the key biological, cognitive, emotional, and social developments during this period.

PSYC 166D Adulthood and Aging 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, PSYC 012 all with grades of "C-" or better; or consent of instructor. Covers current theory and research on development during the period of adulthood and the process of aging. Addresses the key biological, cognitive, emotional, and social developments during this period.

PSYC 167 Psychological Development of Black Youth in Context 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 002. Covers theoretical and scientific approaches to the study of Black youth's development (birth to late adolescence) from a strengths-based perspective. Considers social contexts including family, peers, schools, neighborhoods, media, and other institutions that inform Black youth's development. Covers research and theory from psychology, education, sociology, legal studies, and ethnic studies. Cross-listed with ETST 167.

PSYC 168 Psychological Aspects of the Black Experience 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 002. Examines psychological explanations, theoretical models, and empirical research to promote an understanding of how personal characteristics, culture, and social conditions inform the Black American experience. Explores structural factors, group membership, lifestyles, ethno-historical factors, and wider societal influences to understand the uniqueness of the Black experience. Cross-listed with ETST 168.

PSYC 169 Topics in Developmental Psychology 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PSYC 001 with a grade C- or better; PSYC 002 with a grade C- or better; PSYC 011 with a grade C- or better; PSYC 012 with a grade C- or better; PSYC 160 with a grade C- or better or PSYC 161 with a grade C- or better or PSYC 162 with a grade C- or better or PSYC 163 with a grade C- or better. Intensive study in developmental psychology. Stresses literature, methodology, and experimental design and analysis. Specific course content varies. Course is repeatable to a maximum of 16 units as topics change.

PSYC 171 Psychology of Gender 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): PSYC 012 with a grade of "C-" or better or consent of instructor. Examines psychological theory and research on gender, including ethnic and cultural variations in male and female experience. Topics include gender roles, gender development, gender differences and stereotypes, biological influences on gender, gender and health, gender and language, gender and achievement, and men and women in the workplace.

PSYC 175 Psychology and Law 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001 with a grade of C- or better, PSYC 002 with a grade of C- or better or LWSO 100 with a grade of C- or better or LWSO 100H with a grade of B or better. A study of psychological theory and empirical research as it relates to the law. Topics include jury decision making, eyewitness memory, child custody, criminal responsibility and intent, competence, rehabilitation and punishment, ethics and legal responsibilities in therapy, and psychological research.

PSYC 178 Health Psychology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 002 or SOC 001 or SOC 001H. An examination of the importance of interpersonal relationships to physical health and effective medical care. Applies social psychological perspectives to such topics as stress-related diseases, placebo effects, doctor-patient interactions, dying, and the hospital environment.

PSYC 182 (E-Z) Laboratory in Psychology 5 Lecture, 3 hours; laboratory, 3 hours; term paper, 3 hours. Prerequisite(s): see individual course segments for required prerequisites; or consent of instructor. Provides hands-on experience in various research approaches in psychology. Involves in-class discussion of research design and methods as well as outside data collection.

PSYC 189 Advanced Topics in Psychology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, and PSYC 012 with grades of "C-" or better, or consent of instructor. Intensive study in psychology. Stresses literature, methodology, and experimental design and analysis. Specific course content varies. Course is repeatable as topics change to a maximum of 16 units.

PSYC 190 Special Studies 1 to 5 Prerequisite(s): upper-division standing with

consent of instructor. Individual study under the direction of a faculty member. Course is repeatable to a maximum of 16 units.

PSYC 191A Seminar in Developmental Psychology Research 2 Seminar, 2 hours. Prerequisite(s): consent of instructor. Discussion of selected topics of research in developmental psychology. Some combination of readings, short written assignments, and oral presentation is required. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

PSYC 191B Seminar in Neuroscience Research 2 Seminar, 2 hours. Prerequisite(s): consent of instructor. Discussion of selected topics of research in neuroscience. Some combination of readings, short written assignments, and oral presentation is required. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

PSYC 191C Seminar in Personality Psychology Research 2 Seminar, 2 hours. Prerequisite(s): consent of instructor. Discussion of selected topics of research in personality psychology. Some combination of readings, short written assignments, and oral presentation is required. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

PSYC 191D Seminar in Social Psychology Research 2 Seminar, 2 hours. Prerequisite(s): consent of instructor. Discussion of selected topics of research in social psychology. Some combination of readings, short written assignments, and oral presentation is required. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

PSYC 191E Seminar in Cognitive Psychology Research 2 Seminar, 2 hours. Prerequisite(s): consent of instructor. Discussion of selected topics of research in cognitive psychology. Some combination of readings, short written assignments, and oral presentation is required. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

PSYC 194 Independent Reading 1 to 4 Prerequisite(s): upper-division standing with consent of instructor. Individual reading under faculty direction. Course is repeatable to a maximum of 4 units.

PSYC 197 Research For Undergraduates 1 to 4 Research, 3 to 12 hours. Prerequisite(s): restricted to class level standing of junior, or senior; and consent of instructor. Directed original research. Course is repeatable.

PSYC 197L Research Laboratory For Undergraduates 1 to 4 Laboratory, 3 to 12 hours. Prerequisite(s): restricted to class level standing of junior, or senior; and consent of instructor. Directed original research. Course is repeatable to a maximum of 16 units.

PSYC 198 R'course: Variable Topics 1 Activity, 1 to 3 hours. Prerequisite(s): permission needed from department is required. An opportunity for UCR undergraduate students to develop leadership skills, innovate the undergraduate curriculum, and promote democratic, experiential education. Original course topics are variable and unique from other departmental course offerings, designed to highlight the student facilitators' expertise while working closely with a faculty member. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 8 units.

PSYC 198G Group Internship in Psychology 1 to 12 Lecture, 1 hour; internship, 2 to 30 hours; written work, 1 to 3 hours. Prerequisite(s): PSYC 002; or consent of instructor. Supervised internship experience in approved community settings such as mental health clinics, group homes, hospitals, daycare centers, senior centers, schools, and professional organizations. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 16 units.

PSYC 198H Junior Honors Research 2 Research, 6 hours. Prerequisite(s): restricted to class level standing of junior; restricted to major(s) Psychology; admission to University Honors. Honors course corresponding to PSYC 198HL. Original research performed under the direction of individual faculty members. Course is repeatable to a maximum of 4 units.

PSYC 198HL Junior Honors Research Laboratory 1 to 2 Laboratory, 3 to 6 hours. Prerequisite(s): restricted to class level standing of junior; and consent of instructor. Honors course corresponding to PSYC 198H. Original research performed under the direction of individual faculty members. Satisfactory(S) or No Credit(N/C) is not available. Course is repeatable to a maximum of 4 units.

PSYC 198I Individual Internship in Psychology 2 to 8 Internship, 4 to 16 hours; consultation, 1 hours; written work, 1 to 4 hours; individual study, 0 to 4 hours. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, and PSYC 012 with grades of "C-" or better; upper-division standing; consent of instructor. Individual internship in nonclinical psychology fieldwork. The student spends three hours per week in a prescribed combination of academic activities and internship for each unit of credit. Students keep a weekly log and write a summary of the internship experience. Students who complete additional assigned reading and submit a substantive term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 16 units.

PSYC 199 Senior Thesis Research 1 to 5 Research, 3 to 15 hours. Prerequisite(s): restricted to class level standing of senior; restricted to major(s) Psychology; and consent of instructor. Original research undertaken under the direction of individual faculty members. Psychology Department undergraduates may enroll for 2 units each quarter of their senior year except for the thesis-writing quarter. Course is repeatable to a maximum of 16 units. Credit is awarded for one of the following PSYC 199 or PSYC 199H.

PSYC 199H Senior Honors Research 1 to 5 Research, 3 to 15 hours. Prerequisite(s): restricted to class level standing of senior; restricted to major(s) Psychology; admission to University Honors; and consent of instructor. Honors course corresponding to PSYC 199. Original research undertaken under the direction of individual faculty members. Program participants must enroll for 2 units each quarter of their senior year except for the thesis-writing quarter. Course is repeatable as content or topic changes to a maximum of 16 units. Credit is awarded for one of the following PSYC 199H or PSYC 199.

PSYC 199HL Senior Honors Research Laboratory 1 to 5 Laboratory, 3 to 15 hours. Prerequisite(s): restricted to class level standing of senior; and consent of instructor. Honors course corresponding to PSYC 199L. Original research undertaken under the direction of individual faculty members. Program participants must enroll for 2 units each quarter of their senior year except for the thesis-writing quarter. Satisfactory(S) or No Credit(N/C) is not available. Course is repeatable to a maximum of 16 units. Credit is awarded for one of the following PSYC 199HL or PSYC 199L.

PSYC 199L Senior Thesis Research Laboratory 1 to 5 Laboratory, 3 to 15 hours. Prerequisite(s): restricted to class level standing of senior; and consent of instructor. Original research undertaken under the direction of individual faculty members. Psychology Department undergraduates may enroll for 2 units each quarter of their senior year except for the thesis-writing quarter. Course is repeatable to a maximum of 16 units. Credit is awarded for one of the following PSYC 199L or PSYC 199HL.

Graduate Courses

PSYC 200A Fundamentals of Neuroscience 3 Lecture, 3 hours. Prerequisite(s): graduate standing or consent of instructor. The fundamentals of neuroscience in molecular and cellular mechanisms, neural and hormonal systems, and neural control of behavior. Cross-listed with NRSC 200A.

PSYC 200B Fundamentals of Neuroscience 3 Lecture, 3 hours. Prerequisite(s): graduate standing or consent of instructor; NRSC 200A/PSYC 200A. The fundamentals of neuroscience in molecular and cellular mechanisms, neural and hormonal systems, and neural control of behavior. Cross-listed with NRSC 200B.

PSYC 200C Fundamentals of Neuroscience 3 Lecture, 3 hours. Prerequisite(s): graduate standing or consent of instructor; NRSC 200B/PSYC 200B. The fundamentals of neuroscience in molecular and cellular mechanisms, neural and hormonal systems, and neural control of behavior. Cross-listed with NRSC 200C.

PSYC 203A Cogniton and Cogntive Neuroscience 3 Lecture, 3 hours. Prerequisite(s): restricted to major(s)

Biomedical Sciences, Neuroscience, Psychology; graduate standing; or consent of instructor. Addresses cognitive theories and cognitive neuroscience approaches to the study of perception, attention, and action. Course is repeatable to a maximum of 6 units.

PSYC 203B Cognition and Cognitive Neuroscience 3 Lecture, 3 hours. Prerequisite(s): restricted to major(s) , Biomedical Sciences, Neuroscience, Psychology; graduate standing; or consent of instructor. Addresses cognitive theories and cognitive neuroscience approaches to the study of attention, memory, and learning. Course is repeatable to a maximum of 6 units.

PSYC 203C Cognition and Cognitive Neuroscience 3 Lecture, 3 hours. Prerequisite(s): Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Addresses cognitive theories and cognitive neuroscience approaches to the study of memory, learning, language, and decision making. Course is repeatable to a maximum of 6 units.

PSYC 207A Theories in Developmental Psychology 3 Lecture, 3 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. A consideration of major issues and theories in the area of developmental psychology. Covers social learning theory, structural theories, sociobiology, and theories of personality development. Topics include life span models and plasticity of human behavior.

PSYC 207B Social Development 3 Lecture, 3 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Provides theoretical and empirical consideration of various topics in social development including attachment, aggression, dependency, cooperation, and competition. Also considers methodological issues appropriate to investigations of these phenomena.

PSYC 207C Processes of Cognitive Development 3 Lecture, 3 hours. Prerequisite(s): restricted to major(s) Biomedical Sciences, Psychology; graduate standing; or consent of instructor. Examines the cognitive changes in humans throughout the life cycle. Topics include Piagetian theory and memory, information processing, attention, and intelligence with a focus on the changes that occur in these skills.

PSYC 208 Research Methods in Development 3 Lecture, 3 hours. Prerequisite(s): PSYC 211; PSYC 212; restricted to major(s) Biomedical Sciences, Psychology; graduate standing; or consent of instructor. Develops skills in evaluating current research methodologies to answer developmental questions and in critically evaluating a variety of research methodologies currently in use. Topics include measurement of developmental dimensions and methods for assessing interrelations among developmental dimensions.

PSYC 210 Preparing Research Proposals in Psychology 3 Seminar, 3 hours; written work, 2 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Designed for advanced graduate psychology majors planning a research career. Focuses on funding opportunities for predoctoral research support. Topics include sources of grant support, mechanisms of grant support, and essentials of grant writing. Graded Satisfactory (S) or No Credit (NC).

PSYC 211 Data Analytic Methods 1 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): restricted to major(s) Business Administration, Chemistry with Education Focus, Psychology; graduate standing; or consent of instructor. Examines basic issues related to the application of statistical inference, effect size estimation, and significance tests to various research paradigms in psychology. Discusses aspects of psychological measurement and the appropriateness of particular statistical techniques to different types of psychological data.

PSYC 212 Data Analytic Methods 2 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): PSYC 211; restricted to major(s) Business Administration, Chemistry with Education Focus, Psychology; graduate standing; or consent of instructor. Covers multiple regression, the general linear model, their relationship to analysis of variance, and extensions to multivariate analysis. Also addresses the use of assorted computer statistical packages.

PSYC 213 Advanced Data Analytic Methods 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): PSYC 211, PSYC 212; restricted to major(s) Psychology; graduate standing; or consent of instructor. Teaches how to analyze and interpret research data using techniques that build off a traditional multiple correlation/regression framework. Covers interaction terms (e.g., polynomial terms, moderation, two-way ANOVA), and analyses specifying non-normal distributions such as logistic regression.

PSYC 214 Latent Variable Analysis 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): PSYC 211, PSYC 212; restricted to major(s) Psychology; graduate standing; or consent of instructor. Covers latent variable models including principal component analysis, factor analysis, structural equation modeling, and related approaches. Also covers the use of statistical packages to fit exploratory and confirmatory latent variable models. Includes hands-on exercises to reinforce the application of the techniques to example data.

PSYC 215 Qualitative Data Analytic Methods 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Explores qualitative research design, data collection, and analysis with emphasis on developmental psychology. Topics include coding, thematic analysis, reflexivity, and critical methodologies.

PSYC 225 Theories and Concepts of Social Psychology 3 Lecture, 3 hours. Prerequisite(s): restricted to major(s) Medical and Health Humanities, Psychology; graduate standing; or consent of instructor. Covers advanced theories and concepts of social psychology. Focuses on the history and development of the major concepts of the field. Required of all social-personality graduate majors.

PSYC 226 Theories and Concepts of Personality Psychology 3 Lecture, 3 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Explores advanced critical review of the theories, assessment techniques, and empirical literature in personality psychology. Focuses on the interactionist perspective. Required of all social-personality graduate majors.

PSYC 227 Research Methods in Social and Personality Psychology 3 Lecture, 3 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Covers laboratory and field research methods, personality and dependent variable measurement, research design, bias and artifacts, and meta-analysis. Also addresses interview and surveys, focus groups, research publication, and ethics.

PSYC 231 Mathematical and Computational Models in Cognitive Science 3 Lecture, 3 hours; extra reading, 1.5 hours; written work, 1.5 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Introduces the technical and theoretical issues involved in using models to understand behavior. Emphasizes hands-on analysis of model predictions and simulation of behavioral data. Must be taken with different instructors to receive repeat credit. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 9 units.

PSYC 233 Research Methods in Cognition and Cognitive Neuroscience 3 Lecture, 3 hours. Prerequisite(s): restricted to major(s) Biomedical Sciences, Psychology; graduate standing; or consent of instructor. Develops skills in various research methodologies currently available to cognitive scientists including programming languages, computational approaches, and neuroimaging methods (EEG, MRI, TMS). Emphasizes learning to implement the method. Includes critically examining assumptions of the method in how it is being used to address theoretical and empirical questions. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 9 units.

PSYC 234 Data Analysis in Cognitive Sciences 3 Lecture, 3 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Focuses on the analysis of cognitive psychological data obtained using specialized methodologies particularly relevant to cognitive psychology research including computer simulation, online experimentation, and eye tracking. Topics include real-time data analysis, signal detecting theory, Fourier analysis, and reaction time data. Must be taken with different instructors to receive repeat credit. Course is

repeatable to a maximum of 9 units.

PSYC 243 Topics in Multivariate Statistics 3 Lecture, 3 hours; laboratory, 1 hour. Prerequisite(s): PSYC 211, PSYC 212; PSYC 213 or PSYC 214; restricted to major(s) Management, Psychology; graduate standing; or consent of instructor. A study of selected advanced topics in quantitative methods specifically for behavioral research (especially multivariate analysis). Focuses on the theoretical and practical applications of quantitative methods. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as content or topic changes.

PSYC 251 Seminar in Cognitive Neuroscience. 3 Seminar, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Consists of seminars, oral reports, and discussions by students, faculty, and visiting scholars on current trends in cognitive neuroscience. Focuses on a memory phenomenon. Graded Satisfactory (S) or No Credit (NC). Course is repeatable

PSYC 255 Seminar in Social Psychology 3 Seminar, 3 hours. Prerequisite(s): restricted to major(s) Medical and Health Humanities, Psychology; graduate standing; or consent of instructor. Selected advanced topics in social psychology. Course content will vary. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PSYC 256 Seminar in Perception 3 Seminar, 3 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Promotes study and discussion of experimental papers in relation to the theory of perceptual processes. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PSYC 257 Seminar in Personality Psychology 3 Seminar, 3 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Selected advanced topics in personality emphasizing experimental findings and theoretical interpretations. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PSYC 258 Seminar in Developmental Psychology 3 Seminar, 3 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Selected advanced topics in developmental psychology. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PSYC 259 Topics in Quantitative Methods 3 Lecture, 3 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. A study of selected advanced topics in quantitative methods specifically for behavioral research (especially multivariate analysis). Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PSYC 262 Developmental Biopsychology 3 Lecture, 3 hours. Prerequisite(s): restricted to major(s) Medical and Health Humanities, Psychology; graduate standing; or consent of instructor. Covers basic processes of brain development and plasticity from conception to adulthood. Emphasizes relationships between biological and psychological phenomena such as sensation, perception, and learning. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) No Credit (NC) grade.

PSYC 263 Seminar in Behavioral Neuroscience 3 Seminar, 3 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Consists of readings, oral reports, and discussions by students, faculty, and visiting scholars of selected areas in behavioral neuroscience. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 36 units.

PSYC 265 Auditory Neuroscience 3 Seminar, 3 hours. Prerequisite(s): NRSC 200C or PSYC 200C; restricted to major(s) Neuroscience, Psychology; graduate standing; or consent of instructor. Studies ways in which the mammalian auditory system is organized and functions. Focuses on aspects of auditory physiology that gives rise to auditory perceptions. Emphasizes the use of the auditory system to understand principles of sensory system organization and to compare and contrast different sensory modalities.

PSYC 270 Current Research in Quantitative Psychology 2 Seminar, 2 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Discusses selected research topics in quantitative psychology. Emphasizes contemporary research design and quantitative problems relevant to the on going research areas of graduate students and faculty. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 16 units.

PSYC 271 Current Issues in Cognition 3 Seminar, 3 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Examines current issues in memory, learning, and psycholinguistics. Emphasizes recent and important experimental findings and theoretical development. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PSYC 276 Intro to Neuroimaging With Mri 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Focuses on the use of magnetic resonance imaging (MRI) in the study of the brain. Topics include structural imaging, functional imaging, diffusion tensor imaging, and brain connectivity. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with BIEN 276.

PSYC 283 Proseminar On Current Research in Cognitive Psychology 1 Seminar, 1.5 hours; written work, 4 hours per quarter; extra reading, 3 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Presentations by students, departmental faculty, or visiting scholars describing current research in cognitive psychology. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 15 units.

PSYC 284 Proseminar On Current Research in Developmental Psychology 1 Seminar, 1 hour; written work, 4 hours per quarter; extra reading, 1 to 3 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Presentations by students, departmental faculty, and visiting scholars describing current research in developmental psychology. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 15 units.

PSYC 285 Proseminar On Current Research in Social/Personality Psychology 1 Seminar, 1 hour; written work, 4 hours per quarter; extra reading, 1 to 3 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Presentations by students, departmental faculty, and visiting scholars describing current research in social/personality psychology. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 15 units.

PSYC 286 (E-Z) Proseminar in Psychology 1 Seminar, 9 hours; extra reading, 18 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Covers selected advanced topics in Psychology. Content of each segment varies. See individual segments for descriptions. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 15 units.

PSYC 286E Proseminar in Diversity and Inequality 1 Seminar, 9 hours per quarter; extra reading, 18 hours per quarter. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Discusses assigned readings on the study of diversity and inequality through the lens of psychology and related disciplines. Includes presentations by students, faculty, and visiting scholars describing current research in diversity and inequality. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 15 units.

PSYC 286F Proseminar in Health and Well Being 1 Seminar, 9 hours; extra reading, 18 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Discusses assigned readings on the study of health and well-being through the lens of psychology and related disciplines. Includes presentations by students, faculty, and visiting scholars describing current research in health and well-being. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 15 units.

PSYC 287 Colloquium in Neuroscience 1 Colloquium, 1 hour. Prerequisite(s): restricted to major(s) Neuroscience, Psychology; graduate standing; or consent of instructor. Involves oral presentations on current research topics in neuroscience by visiting scholars, faculty, and students. Graded Satisfactory (S) or No Credit (NC). Course is repeatable. Cross-listed with NRSC 287.

PSYC 289 Special Topics in Neuroscience 2 Seminar, 2 hours. Prerequisite(s): graduate standing or consent of instructor. An interdisciplinary seminar consisting of student presentations and discussion of selected topics in neuroscience. Content and instructor(s) vary each time course is offered. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable. Cross-listed with BCH 289, BIOL 289, CHEM 289, ENTM 289, and NRSC 289.

PSYC 290 Directed Studies 1 to 6 Research, 3 to 18 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Advanced work in a topic or topics appropriate to the student's special interests and needs. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PSYC 291 Individual Study in Coordinated Areas 1 to 6 Research, 3 to 18 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. A program of study designed to advise and assist candidates who are preparing for doctoral examinations. Units do not count toward the Master's Degree. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PSYC 292 Concurrent Analytical Studies 1 to 4 Research, 3 to 12 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Each 292 course will be taken concurrently with a 100-series course, but on an individual basis. It will be devoted to specific additional projects related to the 100-series course. Faculty guidance and evaluation will be provided through the quarter. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PSYC 296 Research Tutorial 3 Research, 6 hours; extra reading, 3 hours; written work, 3 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Research performed under the supervision of a faculty advisor. Course is repeatable to a maximum of 18 units.

PSYC 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Minor research studies or exploratory work toward the development of the dissertation problem. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PSYC 299 Research For Thesis Or Dissertation 1 to 12 Thesis, 3 to 36 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Research for thesis or dissertation. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

PSYC 301 Teaching Psychology at the College Level 2 Seminar, 1 hour; practicum, 3 hours. Prerequisite(s): admission to graduate standing in Psychology Teaching Assistant Development. Program offered by the Teaching Assistant Development Office of the Graduate Division. Required prior to or concurrent with the student's first teaching assistant appointment. May be waived by petition based on previous experience. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PSYC 302 Teaching Psychology at the College Level as Instructor of Record 1 Practicum, 3 hours; consultation, 1 hour. Prerequisite(s): restricted to department(s) Neuroscience, Psychology; This course is only for graduate students serving as Associate Instructors/Instructors of Record for Psychology undergraduate courses; graduate standing; or consent of instructor. Open to all appropriate ASE (Academic Student Employees) in Psychology or Neuroscience with units assigned. Reflects teaching activity as the Instructor of Record during the quarter. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 10 units.

PSYC 409A Professional Development and Research Ethics For Early Career Graduate Students 3 Seminar, 3 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing. Designed for beginning graduate students planning an academic or research career in psychology. Includes transition to graduate school, setting career goals, time management, professional and research ethics, scientific writing and publication, preparation of fellowship applications, and oral presentation skills. Graded Satisfactory (S) or No Credit (NC).

PSYC 409B Professional Development 3 Seminar, 3 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing. Designed for advanced graduate students planning a teaching and/or research career in psychology. Covers teaching; conducting research; interviewing, writing, and oral presentation skills; the academic job market and the job application process; and non-academic careers.

PSYC 409C Grant Writing For Psychological Sciences 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): restricted to major(s) Psychology; graduate standing; or consent of instructor. Provides hands-on experience with grant writing techniques and an overview of the grant review process. Graded Satisfactory (S) or No Credit (NC).

Public Health Graduate Program

Subject abbreviation: PBHL
School of Medicine
Division of Clinical Sciences
Department of Social Medicine, Population, and Public Health
smpph.ucr.edu/

Deborah Deas, M.D., M.P.H., Vice Chancellor, Health Sciences; the Mark and Pam Rubin Dean, UCR School of Medicine
Mark Wolfson, Ph.D., Department Chair
Mario Sims, Ph.D., FAHA Faculty Director

Program Faculty (2026-2027 Course Instructors)

Brandon Brown, Ph.D., M.P.H.
Ann Cheney, Ph.D.
Timothy Collins, Ed.D., M.H.A., FACHE, EMT
Lisa R. Fortuna, MD, MPH, MDiv, DFAPA
Wei Vivian Li, Ph.D.
Marshare Penny, Dr.P.H., M.P.H.
Michelle V. Porche, EdD
Mario Sims, Ph.D.
Claradina Soto, Ph.D., M.P.H.
Andrew Subica, Ph.D.
Mark Wolfson, Ph.D.
Denise Woods, Dr.P.H.
Jeffrey Zhang, Ph.D.

The UCR MPH is an interdepartmental program, drawing one or more affiliated faculty from 16 different departments across UCR schools and colleges, including the School of Medicine; School of Public Policy; College of Humanities, Arts, and Social Sciences; College of Natural & Agricultural Sciences; and Marlan and Rosemary Bourns College of Engineering.

The MPH program focuses on community health equity and aims to train future public health leaders with rigorous interdisciplinary instruction. The program aligns with the school's mission to enhance the health of the people of Inland Southern California.

Features of the MPH curriculum include:

- Interdisciplinary courses
- Practical experience in public health
- Elective courses
- 2-year cohort-based program
- 68 total units

Admissions Requirements

Applications for the MPH program, which is administratively housed within the UCR School of Medicine, are accepted for fall entry. Applicants must have completed a bachelor's degree or an approved equivalent from an accredited institution. Applicants whose first language is not English are required to submit acceptable scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). Additionally, each applicant must submit three letters of recommendation (at least one letter of recommendation must be an academic reference; the others may reflect work or internship experience).

The MPH Program's holistic admissions process considers the following criteria:

- Academic performance as reflected in the applicant's GPA, relevant coursework, Resume/CV, and GRE (optional)
- Commitment to serving Inland Southern California and/or other medically underserved areas and to promoting health equity as reflected in the applicant's personal statement, statement of purpose, letters of recommendation, and/or resume/CV
- Insight on and/or experience in working with communities as reflected in the applicant's personal statement, letters of recommendation, and/or resume/CV
- Interest in and career goals related to public health as reflected in work, volun-

teer, and life experiences described in the application, personal statement, letters of recommendation, and/or resume/CV.

The Admissions Committee carefully evaluates each applicant's academic abilities and their potential contributions to the public health workforce, particularly in improving the health of individuals in underserved communities.

For additional information on admission requirements and important dates and deadlines, please visit: smpph.ucr.edu/master-public-health.

Program of Study
The MPH program consists of a minimum of 68 units of graduate courses. The curriculum consists of required core courses, an applied public health practice experience (practicum), a required capstone research project or thesis, and elective courses.

The curriculum consists of the items below:

1. **Public Health Core: (9 courses)** PBHL 200; PBHL 201; PBHL 202A; PBHL 203; PBHL 204; PBHL 205; PBHL 202B; PBHL 206 and PBHL 207
2. **Statistics for Public Health (2 Courses):** STAT 233A & STAT 233B
3. **Health Behavior & Policy Interventions Elective (1 course)** PBHL 240 or PBHL 241
4. **Additional Public Health Related Electives (3 courses)**
5. **Applied Public Health Practice Experience (Practicum) (4 units):** PBHL 298i
6. **Integrative Learning Experience (4 units):** Students may choose to complete either Plan I (Thesis) - PBHL 289A or Plan II (Capstone Project) - PBHL 289B
   - **Plan 1 (Thesis): PBHL 289A** Students must submit a master's thesis in accordance with the general requirements of the university. The thesis is original research work, and it should demonstrate the student's ability to study a research area, identify an open public health problem, analyze the problem, and make a research contribution. The thesis requires a presentation and must be approved by a committee of at least three faculty members.
   - **Plan 2 (Capstone Project): PBHL 289B** Students must complete a research project under the guidance of a faculty member. The project will be approved by a committee of at least two faculty members and requires a presentation and written report.

   Mode option(s) The final thesis defense and capstone project presentation can be taken in one of the following modes:
   - **In-Person** – all committee members and student physically present
   - **Hybrid** – some committee members/student in-person, some committee members/student remote
   - **Remote** – all committee members and student have the option to attend remotely

   The student and their advisor will discuss which mode best suits the subject matter, with the advisor making the final determination.

Professional Development Training
Professional development training is offered to MPH students throughout the core curriculum. This training will include presentations, communications, grant writing, and research and career training. Students will complete a Leadership and Career Readiness Plan as part of their MPH Integrative Learning Experience.

Graduate Courses

PPBHL 200 Foundations of Public Health 4 Lecture, 3 hours; activity, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Provides an introductory survey of the history, science, and principles of public health. Examines the major causes of morbidity and mortality in Inland Southern California, the United States, and globally. Introduces public health perspectives on health and illness, health inequities, and public health policy and practice locally, nationally, and globally.

PBHL 201 Research Methods For Public Health 4 Lecture, 3 hours; activity, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Aims to develop public health researchers who are deeply committed to driving meaningful change. Offers a practical exploration of the principles and practices of public health research such as design, communication, advocacy, and intervention with a central focus on health equity.

PBHL 202A Community Health Theory and Practice I 4 Lecture, 3 hours; activity, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Covers the theories and practices that describe and influence community health promotion. Includes examining the personal, social, and environmental factors that influence health status and behaviors, as well as the influence of individuals, groups, institutions, societal structures, and policies on these behaviors.

PBHL 202B Community Health Theory and Practice 2 4 Lecture, 3 hours; activity, 3 hours. Prerequisite(s): PBHL 202A with a grade of C- or better; graduate standing; or consent of instructor. Applies theories and practices introduced in Community Health Theory and Practice 1. Focuses on building skills for developing community health interventions, project budgets, program implementation and evaluation, and grant proposal development.

PBHL 203 Ethics in Public Health 4 Lecture, 3 hours; activity, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Covers issues of scientific integrity including ethical issues in public health policy and practice; guidelines for responsible conduct of research; federal and international codes; administrative review and approval; conflict of interest; and privacy and safety of research participants. Satisfies the requirements for training in public health ethics.

PBHL 204 Epidemiology 4 Lecture, 3 hours; activity, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Introduces the basic concepts of epidemiology including disease transmission, measures of disease impact, cohort studies, estimating prevalence and risk, causal inference, and analyses of epidemiologic data for historical and contemporary issues in public health.

PBHL 205 Environmental Health 4 Lecture, 4 hours. Prerequisite(s): graduate standing; or consent of instructor. Examines the interdisciplinary relationship between environmental health and social justice emphasizing gender, race, class, and globalization as analytical lenses. Topics include urban pollution, workplace exposure, industrial catastrophe, invisible environmental hazards, community activism, reproductive health, global capitalism, and new health challenges imposed by climate change.

PBHL 206 Health Policy and Administration 4 Lecture, 3 hours; activity, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Provides an overview of the United States healthcare system including the programs, providers, policies, and payment systems. Addresses key issues encountered today with the organization and administration of health services and the prospective implications and consequences for the future.

PBHL 207 Program Planning and Evaluation For Public Health 4 Lecture, 4 hours. Prerequisite(s): graduate standing; or consent of instructor. Supports the development of knowledge and skills needed to conduct community health program planning and evaluation. Highlights on best practices that are effective, culturally responsive, equity-focused, and utilization-focused. Promotes the development of program and evaluation plans that are aligned with health issues of interest to communities.

PBHL 240 Policy to Promote Public Health 4 Lecture, 3 hours; activity, 3 hours. Prerequisite(s): restricted to major(s) Public Health; graduate standing; or consent of instructor. Introduction to public and institutional policy. Covers foundations, development, implementation, and evaluation of public health policy. Examines examples of policy arenas in several public health domains including tobacco control, food and beverage policy, infectious disease, and social and structural determinants of health.

PBHL 241 Community Public Health Methods For Behavioral Health 4 Lecture, 3 hours; activity, 3 hours. Prerequisite(s): restricted to major(s) Public Health; graduate standing; or consent of instructor. Introduces public health methods for conducting community-engaged and participatory behavioral health prevention, research, evaluation, and practice. Explores strategies for designing, implementing, and evaluating community-based interventions and prevention. Focuses on behavioral health and the social determinants of mental health including substance use disorders. Addresses health disparities and influencing policy.

PBHL 289A Integrative Learning Experience: Thesis 4 Written work, 3 hours; research, 9 hours. Prerequisite(s): PBHL 298I,

may be taken concurrently; an integrative learning experience agreement will be required; graduate standing; and consent of instructor. Synthesizes core competencies through a culminating thesis, selecting a public health topic aligned with personal interests and career goals. This experience, along with a Leadership and Career Readiness Plan, demonstrates readiness for public health practice. Graded Satisfactory (S) or No Credit (NC). IP graded until all assessments are completed and competencies are achieved, at which time a final grade is assigned. Only 4 units may be counted towards graduation requirement. Course is repeatable to a maximum of 12 units.

PBHL 289B Integrative Learning Experience: Capstone 4 Written work, 3 hours; research, 9 hours. Prerequisite(s): PBHL 298I, may be taken concurrently; an integrative learning experience agreement will be required; graduate standing; and consent of instructor. Synthesizes core competencies through a culminating project that addresses a public health topic aligned with personal interests and career goals. This experience, along with a Leadership and Career Readiness Plan, demonstrates readiness for public health practice. Graded Satisfactory (S) or No Credit (NC). IP graded until all assessments are completed and competencies are achieved, at which time a final grade is assigned. Only 4 units may be counted towards graduation requirement. Course is repeatable to a maximum of 12 units.

PBHL 290 Directed Studies 1 to 6 Research, 3 to 18 hours. Prerequisite(s): petition for 290 course is required from graduate division; graduate standing; and consent of instructor. Explores literature or research topics under the direction of a faculty member. Provides opportunities to undertake advanced work on a topic appropriate to the special interests and needs. Allows for topics that are not covered in a regularly offered course on campus. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

PBHL 292 Concurrent Analytical Studies 1 to 4 Research, 3 to 12 hours. Prerequisite(s): completion of a PBHL 292 enrollment form; graduate standing; and consent of instructor. Taken concurrently with relevant 100-series course on an individual basis. Includes specific additional projects related to the 100-series course. Provides faculty guidance and evaluation throughout the quarter. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PBHL 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): completion of a PBHL 297 enrollment form; graduate standing; and consent of instructor. Exploratory research toward the development of research that is not directly related to a thesis or capstone project. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PBHL 298I Applied Public Health Practice Experience (practicum) 1 to 12 Written work, 1 to 12 hours; internship, 3 to 36 hours. Prerequisite(s): prior to registering for the MPH Applied Practice Experience (PBHL 298I) students must have their internship plan approved by both their site preceptor and their faculty internship advisor. A maximum of 4 quarter units may be counted toward the degree requirements. May be taken one, two or three quarters; graduate standing. Provides opportunities for those who are working towards an MPH degree to develop, apply, and demonstrate multiple competencies required for successful public health practice. Graded Satisfactory (S) or No Credit (NC). Graded in progress until 120 hours of internship is completed, at which time a final grade is assigned. Course is repeatable to a maximum of 16 units.

PBHL 299 Research For Thesis Or Capstone 1 to 12 Research, 3 to 36 hours. Prerequisite(s): completion of a PBHL 299 enrollment form; graduate standing; and consent of instructor. Provides opportunity for independent research related to the integrative learning experience thesis or capstone project. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Public Policy

Subject abbreviation: PBPL

David C. Volz, Ph.D. (Environmental Sciences)

Major

Public policy analysis is the use of decision-making theory and evidence-based methods to the study of substantive public policy problems. The objective of public policy analysis is to improve the quality of public policy-making by critically examining the design and relevance of public policies, their implementation and execution, and their impact on households, communities, and the society at large. By its very nature, policy analysis is multidisciplinary. For instance, policies to address health problems in society must draw on developments in philosophy, economics, political science, medicine, and ethics (among other disciplines).

Career Opportunities

A degree in public policy equips students to go into a range of different careers. Examples include working as a policy analyst for local, regional, state, or national government agencies; a governmental or public relations officer for a private sector firm; an employee of a public advocacy group; or as a leader of a community-based, non-profit organization.

New Student Seminar

PBPL 050 is a seminar designed for first year and transfer students that meets weekly with several aspirations including community building, orientation to the campus and the major, academic support and career exploration. The goal of this seminar is to set the foundation for the major and the students' experience at UCR. The seminar is for first-year and transfer students admitted in the Fall term. The seminar is recommended, but not required for completion of the degree. The seminar carries 2 units of academic credit and is graded on an "S/NC" basis.

University Requirements

See Undergraduate Studies section.

College Requirements

See School of Public Policy section.

Major Requirements

The major requirements for the B.A. degree in Public Policy are as follows:

Students will not be admitted into the major until they have completed PBPL 001 with a "C"grade or better.

1. **Lower-division requirements (eight courses [at least 32 units])**
   a) PBPL 001
   b) PBPL 002
   c) ECON 003
   d) PBPL 004
   e) Math 004
   f) One course from CS 005 or CS 009A
   g) PBPL 060A, PBPL 060B
2. **Upper-division requirements**
   a) Upper Division Core (one course required (four units)
   PBPL 101
   b) Upper Division Electives (8 courses required (at least 32 units)
   PBPL 102, PBPL 103, PBPL 105, PBPL 110, PBPL 121, PBPL 127, PBPL 130, PBPL 132, PBPL 133, PBPL 150, PBPL 151, PBPL 152, PBPL 153, PBPL 154, PBPL 155, PBPL 156,

PBPL 157, PBPL 158, PBPL 159, PBPL 160, PBPL 162, PBPL 163, PBPL 164, PBPL 166, PBPL 167, PBPL 170, PBPL 171, PBPL 172, PBPL 177, PBPL 178, PBPL 179, PBPL 180, PBPL 182, PBPL 184, PBPL 185, PBPL 186

3. **Public Policy Seminar/Colloquia**
   During the junior and senior years, students must enroll in PBPL 191 (Seminar in Public Policy), which includes attendance at public lectures to the campus community given by outside speakers — typically policy makers, administrators and researchers — on timely and important policy issues facing the Inland Empire, the state, the nation, and the world.
4. **Domestic or International Policy Practicum**
   In the third or fourth year of the program (or during the summer between the third and fourth years), students must undertake a policy practicum (PBPL 198-I for a minimum of four (4) units), which consists of an internship (paid or voluntary) on a policy issue or problem with a local, state or federal government agency, nonprofit or for-profit organization, a trade association, a labor/trade union, or a public-affairs firm. The Public Policy Program Committee helps students locate internship opportunities. The internship provides students with an opportunity to gain real-world experience and apply the analytical skills learned in the classroom. Students enrolled in the UC Washington Center (UCDC) and UC Center Sacramento (UCCS) programs or the Education Abroad Program can apply that experience toward the policy practicum requirement, and do not need to undertake a separate internship.
5. **Senior Thesis (for Honors candidates only)**
   Students who have an outstanding academic record in their course work during the first three years of the program can become candidates for Honors in Public Policy during the spring quarter of their junior year. All honors candidates must enroll in a two-quarter senior thesis seminar (PBPL 195H) that will culminate in a written thesis covering a real policy problem of the student's choice. The thesis project could grow out of the practicum experience.

Minor

1. **Lower-division requirements (three courses [at least 12 units])**
   a) PBPL 001
   b) PBPL 002
   c) Select one course from the following
   PBPL 004, PBPL 006, or PBPL 010
2. **Upper-division requirements**
   Upper Division Electives (3 courses required (at least 12 units)
   PBPL 101, PBPL 102, PBPL 103, PBPL 105, PBPL 110, PBPL 121, PBPL 127, PBPL 130, PBPL 132, PBPL 133, PBPL 150, PBPL 151, PBPL 152, PBPL 153, PBPL 154, PBPL 155, PBPL 156, PBPL 157, PBPL 158, PBPL 159, PBPL 160, PBPL 162, PBPL 163, PBPL 164, PBPL 166, PBPL 167, PBPL 170, PBPL 171, PBPL 172, PBPL 177, PBPL 178, PBPL 179, PBPL 180, PBPL 182, PBPL 184, PBPL 185, PBPL 186
3. **Public Policy Seminar/Colloquia**
   During the junior and senior years, students must enroll in PBPL 191 (Seminar in Public Policy), which includes attendance at public lectures to the campus community by outside speakers — typically policy makers, administrators and researchers — on timely and important policy issues facing the Inland Empire, the state, the nation, and the world.

Combined B.A. + M.P.P. Five-Year Program

The School of Public Policy offers a combined B.A. + M.P.P. program in public policy, designed to lead to a Bachelor of Arts degree as well as a Master of Public Policy degree in five years. The coursework for the new program will be the same as that for the existing BA and MPP programs. Only students who are public policy majors with a cumulative GPA at least 3.0 overall and 3.3 in the major (upper division classes only, with a minimum of 16 units of these courses to be completed by the end of spring quarter of the junior year) are eligible to apply for this program before the end of their junior year. Students in the B.A. + M.P.P. program can count up to 20 units of MPP courses toward undergraduate degree requirements.

Applicants to the combined program must include a statement of interest, indicating why the student is interested in an M.P.P. degree and how prior academic and work experience has prepared the student an M.P.P. degree, and a minimum of two recommendation letters from UCR faculty members, at least one of whom must be a faculty member in the School of Public Policy. The GRE requirement will be waived for these applicants.

Graduate Program

The School of Public Policy offers the Master of Public Policy (MPP) program leading to a Master's degree in public policy.

Admissions Requirements
Applications for the MPP program, which is housed within the UCR School of Public Policy, are accepted for fall entry. Applicants must have completed a bachelor's degree or an approved equivalent from an accredited institution, and must have successfully taken courses in microeconomics, statistics, and an introduction to politics and government, or their equivalent during their undergraduate study. Applicants whose first language is not English are required to submit acceptable scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). Additionally, each applicant must submit three letters of recommendation, at least one letter of recommendation must be an academic reference and any others can reflect work or internship experience. All other application requirements are specified in the graduate application.

Program of Study
The MPP program consists of 72 units of graduate courses. The curriculum consists of 11 required core courses, which includes a required policy internship, a required capstone research project spanning two quarters (which substitutes for a final examination), and a total of five elective courses.

Students entering the MPP program from the Graduate Preparatory Program in Public Policy (GPP-PP) from University Extension will complete 36 units. Of the 36 units, 16 units are required:

- PBPL 216
- PBPL 289A
- PBPL 289B
- PBPL 298I

The balance of the 20 units will include courses from the elective areas.

1. **Core Courses:**
   a) **The Policy Process (2 courses):** PBPL 200, PBPL 202
   b) **Policy Methods (6 courses):** PBPL 205, PBPL 210, PBPL 212, PBPL 214, PBPL 215, PBPL 220
   c) **Institutional Context (2 courses):** PBPL 216, PBPL 222
   d) **Internship:** PBPL 298I
2. **Elective Courses**
   Students are required to complete 5 courses from the selection below. Additional courses can be approved with the consent of the graduate advisor.
   PBPL 204, PBPL 206, PBPL 225, PBPL 230F, PBPL 233, PBPL 234, PBPL 235, PBPL 236E, PBPL 245, PBPL 250, PBPL 252, PBPL 255, PBPL 260, PBPL 261, PBPL 262, PBPL 263, PBPL 264, PBPL 265, PBPL 266, PBPL 270E, PBPL 270F, PBPL 272, PBPL 272, PBPL 273, PBPL 280, PBPL 290
3. **Capstone Research Project**
   Students must complete a capstone research project in the second year of the program.
   a) PBPL 289A, PBPL 289B Normative

Normative Time to Degree Two years

Lower-Division Courses

PBPL 001 Introduction to Public Policy Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Provides a comprehensive introduction to the social science analysis of public policy. Studies the need for public policies; why public policies succeed or fail; how to scientifically evaluate public policies; why politics drive which public policies are adopted; and how public policies get implemented.

PBPL 002 Politics and Public Policy 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to the political institutions and processes that govern public policy in the United States and the tools and techniques used in public policy analysis. Part I presents policymaking models and methods of policy analysis. Part II applies these concepts to specific policy areas, illustrated by real-world case studies.

PBPL 003 Global Food and Agricultural Policy 4 Lecture, 3 hours; extra reading, 3

hours. Prerequisite(s): ECON 003 with a grade of C- or better. Examines policies affecting food and agriculture. Integrates economic theory, empirical analysis, and policy applications for assessing domestic and global policies. Applies introductory supply and demand analysis, welfare economics, and trade models to evaluate effects of subsidies, tariffs, environmental programs, and market regulations on producers, consumers, and society.

PBPL 004 Ethics, Professionalism, and Public Policy 4 Lecture, 3 hours; discussion, 1 hour. Examines extent to which issues of fairness, social justice, and morality should factor into the choice of public policies. Includes trade-off between social justice and efficiency; actors whose value perspectives often reflect public policy; ethical standards to which policy makers and practitioners are held; and professionalism in public service.

PBPL 006 Introduction to Public Health 4 Lecture, 3 hours; discussion, 1 hour. Introduces the field of public health as a multidisciplinary area of research and practice. Provides an appreciation of its approaches, goals, and history. Surveys its many conceptual and methodological tools for addressing a range of health issues.

PBPL 010 Introduction to Geographic Information Systems 4 Lecture, 3 hours; discussion, 1 hour. Provides an introduction to the fundamental concepts of Geographic Information Systems (GIS), Geographic Information Science (GIScience), and their application to public policy and social science research. Also covers the use of geographic data and software in public policy and related practice.

PBPL 050 Introduction to Public Policy Major and University 2 Lecture, 1 hour; written work, 3 hours. Prerequisite(s): none. Introduces the Public Policy major. Provides opportunities to engage with Public Policy faculty and advisors to learn about research and program requirements. Explores the structure, culture, and various support systems in place in the University. Addresses student success in the major. Graded Satisfactory (S) or No Credit (NC).

PBPL 060A Data Analysis For Public Policy 1 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PBPL 001 with a grade of C- or better, CS 005 with a grade of C- or better or CS 009A with a grade of C- or better; or consent of instructor. Introduction to data input, output, and calculation of key summary statistics. Explores concepts of correlation, measurement, and the requirements for establishing causality. Covers regression analysis, the normal distribution, and the law of large numbers.

PBPL 060B Data Analysis For Public Policy 2 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PBPL 060A with a grade of C- or better; or consent of instructor. Introduction to the concept of sampling uncertainty and hypothesis testing required to establish causal inference. Explores inclusion of control variables in a multiple regression framework and why data generated from natural experiments and randomized control trials are valuable to policy analysts.

PBPL 090 Special Studies 1 to 3 Individual Study, 3 to 9 hours. Prerequisite(s): consent of program chair. Individual study, directed by a faculty member, to meet special curricular needs. Course is repeatable to a maximum of 8 units.

PBPL 101 Research Methods and Public Policy 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): PBPL 001; restricted to class level standing of junior, or senior; or consent of instructor. Examines methods for conducting social science research to inform public policy debates. Concentrates on measurement, sampling, research design, causality, natural quasi-experiments, surveys, and qualitative analyses. Studies and debates pressing public policy issues of the time including transportation, crime, immigration, healthcare, poverty, inequality, social policy, environment, and natural resources.

PBPL 102 Borderline Immigration Policies and Community Change Processes 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduces experiences of immigrants in the southwest borderland region of the U.S. Immigration history, trends, and legislation are critical components to the course. Examine immigration policy impact on economic and health indicators as well as the family system. Examine a range of change strategies used to empower the immigrant community.

PBPL 103 Economic Development Policy 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Provide a broad overview of theories and models of urban growth and economic development, as well as the strategies and practices in implementing different strategies. Identifies the challenges of developing regions, cities and communities that are economically dynamic, socially equitable and environmentally sustainable.

PBPL 105 Qualitative Research Methods and Public Policy 4 Lecture, 3 hours; individual study, 2 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Introduces a variety of qualitative research methods used in social science and public policy. Examines various stages and techniques of qualitative methods including research design, ethics, participant observation, focus groups, interviewing, analysis, and fieldwork. Reveals utility of methods in public policy and gaining insight on complex social issues.

PBPL 110 Basics of Public Budgeting and Finance 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): PBPL 001 with a grade of C- or better; restricted to class level standing of junior, or senior. Covers the basics of public sector budgeting and financing, which are central to nearly every facet of public policy. Includes operating and capital budgets, the funding of budgets, personnel issues, analytical techniques, financial management, and effectively communicating data to stakeholders.

PBPL 121 Crime and Public Policies 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): PBPL 001 with a grade of C- or better; restricted to class level standing of junior, or senior. Reviews various crime and criminal-justice system topics, the problems that accompany them, and policies and practices that address them. Links practice and policy. Encourages analytical and strategic thinking about these issues and policies.

PBPL 127 Sociological Determinants of Health 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 5 hours; research, 3 hours. Prerequisite(s): SOC 001 with a grade of C- or better or SOC 001H with a grade of C- or better; or consent of instructor. Introduces the role that social factors play in shaping the occurrence and distribution of disease and death in populations with an emphasis on socioeconomic status, racism, social relationships and social stress. A particular emphasis is placed on sociological origins of health inequalities. Cross-listed with SOC 127.

PBPL 130 Management of International Water 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores basic concepts of international water law. Examines how these concepts, as well as conflict definitions, negotiation principles, and cooperation principles, are applied to international waters. Includes analysis of several major international water cases utilizing contemporary literature. Cross-listed with GBST 130.

PBPL 132 Water Economics, Management and Policy: California and Beyond 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Introduction to the complexities of water resource economics, management and policy in California, and comparison to other states and countries. Evaluates the California water sector, its problems, and approaches used to address them. Explores contemporary water issues and policy interventions that have been attempted, with resulting efficiency and equity.

PBPL 133 Cost Benefit Analysis For Public Policy 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): ECON 003 with a grade of C- or better; restricted to class level standing of junior, or senior. Provides the skills needed to be producers and critical consumers of Cost-Benefit Analysis (CBA). Studies the basic methodological tools needed to conduct a CBA. Engages with key conceptual issues related to risk and uncertainty,

intergenerational discounting, inequality, and the value of human life.

PBPL 150 Urban Informatics For Public Policy 4 Lecture, 3 hours; research, 2 hours; term paper, 1 hour. Prerequisite(s): PBPL 010 with a grade of C- or better; restricted to class level standing of junior, or senior; or consent of instructor. Analyzes the spatial structure of cities for a range of socioeconomic issues such as demographic changes, affordable housing, and economic development. Utilizes up-to-date geographic information systems (GIS) techniques to gain hands-on learning experiences with the core theories in urban geography and their policy applications in both U.S. and international contexts.

PBPL 151 Geographic Information Systems For Urban Transportation 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): PBPL 010 with a grade of C- or better, PBPL 060A with a grade of C- or better, PBPL 060B with a grade of C- or better; restricted to class level standing of junior, or senior. Studies transportation analysis through the lens of geographic information science/systems, or GIS-T. Surveys current ideas and issues in the transportation field. Conveys concepts critical to understanding transportation from spatial and user perspectives. Includes the social, political, economic, environmental, and policy consequences/outcomes of transportation.

PBPL 152 Geoprogramming 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): PBPL 010 with a grade of C- or better, CS 009A with a grade of C- or better; restricted to class level standing of junior, or senior. Introduces basic computational concepts using Python, an object-oriented scripting language, for data processing, analysis, and visualization in geographic research. Provides high-demand skill sets within public policy, commercial and nonprofit spatial data analytics sectors, and GIS development.

PBPL 153 Machine Learning and Deep Learning With Geographic Information Systems 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): CS 010 with a grade of C- or better, PBPL 010 with a grade of C- or better, PBPL 060A with a grade of C- or better, PBPL 060B with a grade of C- or better; restricted to class level standing of junior, or senior. Introduces the concept of GeoAI, interdisciplinary field between geography and artificial intelligence (AI). Provides novel approaches for addressing various geospatial problems in the natural environment and human society. Explores machine learning concepts and models and how to use them to address geospatial problems. Emphasizes both theoretical concepts and hands-on skills.

PBPL 154 Human-Centered Spatial Data Science 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): PBPL 010 with a grade of C- or better, CS 009A with a grade of C- or better, PBPL 060A with a grade of C- or better, PBPL 060B with a grade of C- or better; restricted to class level standing of junior, or senior. Provides students the skills and knowledge needed to explore and analyze 'big data' with an understanding of technical, social, and ethical considerations. Students will understand how one can use spatial theories, data, and analytics to develop strategies, plans, and policies to improve business and community operations and public policy.

PBPL 155 Women's Labor and the Economy 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 102 or ECON 104A. A special-topics based labor economics course. Focuses on one important dimension of worker differences: gender. Covers the topics of human capital, wages and employment, occupational choice, discrimination, the family as an economic unit, and public policy. Cross-listed with ECON 155, and GSST 155.

PBPL 156 Geovisualization For Public Policy 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): PBPL 010 with a grade of C- or better, CS 009A with a grade of C- or better; restricted to class level standing of junior, or senior. Introduces the unique nature of spatial data and how to apply spatial data analysis and geovisualization techniques to policy problems. Highlights ways to think creatively about policy through a spatial lens and understand the challenges of using data to develop robust strategies and solutions through visual means.

PBPL 157 Labor in the Public Sector 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 102 or ECON 104A. A labor economics course on employment in the public sector. Explores questions of wages and contract structuring, recruitment, training, risk, collective bargaining, licensing, rent-seeking and corruption, and influence in the public sector. Cross-listed with ECON 157.

PBPL 158 Advanced Spatial Analysis 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): CS 010 with a grade of C- or better, PBPL 010 with a grade of C- or better, PBPL 060A with a grade of C- or better, PBPL 060B with a grade of C- or better; restricted to class level standing of junior, or senior. Examines conceptual and applied aspects of spatial statistical methods. Focuses on the computational aspects of Exploratory Spatial Data Analysis (ESDA) methods for three different types of spatial data: lattice, point processes, and geostatistical. Develops familiarity with the fundamental methodological and operational issues in the statistical analysis of geographic information.

PBPL 159 Drones and Geospatial Analysis For Public Policy 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): PBPL 010 with a grade of C- or better, CS 009A with a grade of C- or better; restricted to class level standing of junior, or senior. Provides skills and knowledge needed to understand remotely sensed imagery and use of unmanned aerial vehicles. Provides the foundational skills for using remotely sensed data and spatial analysis techniques. Encourages creative thinking about policy challenges and how the fusion of secondary data sources provides unique insights and solutions.

PBPL 160 Immigrant Health and Wellbeing 4 Lecture, 3 hours; individual study, 2 hours; term paper, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior. Introduction to community-engaged methods in health disparities research. Examines health disparities and social determinants of health and conducts in-depth examination of community engaged research methods. Provides theoretical principles, methods, and skills needed to plan and implement community-engaged research.

PBPL 162 Health in All Policies 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PBPL 001 with a grade of C- or better or SOC 001 with a grade of C- or better or SOC 001H with a grade of B or better; restricted to class level standing of junior, or senior. Explores social influences on health and the role that public policies play in shaping the social determinants of health. Examines the link between social circumstances (socioeconomics, race, ethnicity, environment) and health outcomes. Identifies connections and considers whether and to what extent public policy mitigates harmful influences or stimulates positive outcomes.

PBPL 163 Public Health Policy 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): PBPL 001 with a grade of C- or better; restricted to class level standing of junior, or senior. Explores the role of public policy within public health approaches to health and disease. Addresses how public policy is a necessary component for delivering many core functions and essential services of public health. Also reviews conceptual and methodological tools useful for formulating and analyzing policies targeting various health issues.

PBPL 164 Social Innovation in Theory and Practice 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Introduction to theories and practices associated with social innovation and public policy. Explores key concepts and debates in the field of social innovation including social entrepreneurship, systems approaches, and design thinking. Evaluates practices of social innovation through case studies and applications to policy and civic engagement.

PBPL 166 Intergovernmental Relations 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Introduction to American intergovernmental relations. Topics include federalism; fiscal federalism; national-state, interstate, state-local, and national-local relations; tribal governments; networks; and interstate relations. Examines current intergovernmental problems and formulates recommendations to policymakers.

PBPL 167 Medical Sociology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Introduces key concepts and theories in medical sociology and their application to a variety of health issues. Exemplar topics include social construction of health and illness, medicalization, stigma and labeling, patient-

provider interaction, sociology of medical professionals, social determinants of health, and political economy of health. Cross-listed with SOC 167.

PBPL 170 Technology, Policy, and Ethics 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): upper-division standing. Provides contemporary perspectives on interplays between technology, public policy, and ethics. Covers social, legal, and ethical issues such as liability, as well as environmental, patent, and copyright law. Cross-listed with ENGR 170.

PBPL 171 Globalization 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior. Covers technological drivers of globalization. Includes social, economic, and political consequences. Explores the cultural aspects of globalization, including barriers and drivers for economic and cultural interdependence and integration. Also explores virtual global organizations. Cross-listed with ENGR 171, and NASC 171.

PBPL 172 Environmental Policy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ECON 003 or ECON 003H; restricted to class level standing of junior, or senior. Provides overview of United States and California environmental policy. Examines economic and political justification for government intervention, different policy tools available to improve environmental quality, and the political, legal, and economic forces that determine policy outcomes. Reviews current environmental issues including climate change, air quality, water quality, and energy policy.

PBPL 177 Housing Policy 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): PBPL 001; restricted to class level standing of junior, or senior. Introduces affordable housing policies in the United States. Explores the key policy tools available to build, maintain, and preserve affordable housing. Draws on current social science research to evaluate the effectiveness of these programs and identify challenges to current policy.

PBPL 178 Urban Issues and Policy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Covers theories and explanations regarding urban struggles in contemporary times. Discusses forces and social structures that influence cities and the experiences of urban dwellers. Encourages analytical and strategic thinking about these issues and discusses policies that ameliorate them. Considers the role policies play in contributing to and addressing urban problems. Credit is awarded for one of the following PBPL 178, PBPL 182, SOC 182, or URST 182.

PBPL 179 Public Policy and Digital Platforms 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Explores digital platforms such as Instagram, TikTok, and X and their rapid global user growth during the past few decades. Discusses the issues resulting from this boom including free speech, censorship, and online safety. Addresses the question of government's role in regulating digital platforms.

PBPL 180 Special Topics in Public Policy 4 Lecture, 3 hours; individual study, 2 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior. Explores various topics of public policy within the instructor's area of specialization. Course is repeatable as content or topic changes to a maximum of 12 units.

PBPL 182 Urban Problems 4 Lecture, 3 hours; discussion, 1 hour; term paper, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior. An interdisciplinary examination of selected urban problems such as civil disorders, transportation, housing, welfare, and planning. Cross-listed with SOC 182, and URST 182. Credit is awarded for one of the following PBPL 182, SOC 182, URST 182, or PBPL 178.

PBPL 184 Law and Justice 4 Lecture, 3 hours; written work, 2 hours; extra reading, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior. Provides an overview of the criminal justice system. Covers the role of the District Attorney and the Public Defender's offices. Examines the judicial branch and modern-day courts. Discusses law enforcement's role along with the Probation Department and the Department of Mental Health. Analyzes the justice system reform.

PBPL 185 Race and Law Enforcement 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Explores the role of race and ethnicity in the historical and contemporary practice of United States law enforcement. Evaluates the study of race and policing to explore the evidence of racial bias in the application of police tactics and uncover evidence-based methods for reducing racial disparities in policing outcomes.

PBPL 186 Policy Evaluation in Development Economics 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): ECON 003 or ECON 003H; or consent of instructor. An overview of randomized impact evaluation as a tool of the causal revolution in development economics. Introduces experimental methods and covers the application of those methods to conducting impact evaluations in a range of development settings including education, health, labor, and economics of the firm, microfinance, environment, and political economy. Cross-listed with ECON 186.

PBPL 190 Special Studies 1 to 5 Individual Study, 3 to 15 hours. Prerequisite(s): consent of program chair. Individual study, directed by a faculty member, to meet special curricular needs. Course is repeatable to a maximum of 15 units.

PBPL 191 Professional Engagement in Public Policy 2 Seminar, 2 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Covers many aspects of professional career development in public policy including developing career goals; developing applications for fellowships, leadership, or internship opportunities; and building professional networks by attending public lectures on campus. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

PBPL 195H Senior Honors Thesis 1 to 4 Thesis, 3 to 12 hours. Prerequisite(s): senior standing in Public Policy; admission to University Honors or consent of instructor. Students complete research in public policy and write a senior honors thesis under the guidance of a faculty member. Satisfactory (S) or No Credit (NC) grading is not available. Course is repeatable to a maximum of 12 units.

PBPL 197 Research For Undergraduates 1 to 4 Consultation, 1 to 4 hours; research, 1 to 4 hours. Prerequisite(s): BUS 115 or PSYC 011 or SOC 005 or STAT 004 or STAT 008 or STAT 155. Examines community activities and legislative processes in the region and the state. Includes designing and shaping research to address community needs and objectives; planning and performing applied research using quantitative, qualitative, and mixed methods; and developing writing and oral communication skills. Course is repeatable to a maximum of 8 units.

PBPL 198I Individual Internship in Public Policy 1 to 12 Written work, 1 to 12 hours; internship, 2 to 24 hours. Prerequisite(s): restricted to class level standing of junior; restricted to major(s) Public Policy, Public Policy BA + MPP. Internship in a public or quasi-public agency or business concern in matters relating to public policy. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 16 units.

Graduate Courses

PBPL 200 Introduction to Policy Analysis 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Studies the process by which policy decisions are made. Focuses on the analytical tools (benefit-cost, cost effectiveness, decision tree, and optimization analysis) that are used to choose among competing proposals as well as the analytical motivations for choice.

PBPL 202 Policy Institutions and Processes 4 Lecture, 3 hours; extra reading, 1 hour; research, 2 hours. Prerequisite(s): graduate standing; or consent of instructor. Explores the various institutions in a country that shape, formulate, implement, and enforce policy as well as the manner in which these institutions make or influence policy. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 204 Regional Policy-Making Across Administrative Jurisdictions 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Introduction to the analytical tools used in regional policy analysis as well as to the processes of policy development, implementation, and evaluation. Includes analysis of case studies of councils of

government and other regional bodies that have emerged or been created to provide regional governance. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 205 Research Design and Statistics For Public Policy 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Introduces research design and techniques for writing graduate-level research papers. Covers measurement, sampling, experimental and quasi-experimental designs, survey research and instrumentation, field research, and research using available data. Also introduces data processing, elementary statistics, and data visualization techniques. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 206 State Governments as Laboratories of Change 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Examines the politics, institutions, and policy processes of state governments and assesses the extent to which variation in state political institutions shapes politics and policies across states. Substantive topics include health care, education, corrections, economic development, land use planning, environmental protection, and social welfare. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 210 Quantitative Methods For Public Policy 1 4 Lecture, 3 hours; research, 2 hours; term paper, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Introduces statistical concepts and software with an emphasis on application. Covers correlation, bivariate and multivariate linear regression, regression diagnostics, nonlinear and interaction effects, and regression analysis for categorical dependent variables. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 212 Qualitative Social Science Methods 4 Lecture, 3 hours; extra reading, 1.5 hours; research, 1.5 hours. Prerequisite(s): graduate standing; or consent of instructor. Introduces the qualitative methods widely used in the social sciences and their use in analyzing policy formulation, policy implementation, and policy effects. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 214 Applied Microeconomics For Public Policy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Shows how economic analysis impacts public policy issues. Identifies the relevant economic analyses to address various public policy problems and to comprehend and assess what professional economists can contribute to the shaping, implementation, and evaluation of public policies. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 215 Economics For Policy Analysis 2 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Covers various market failures that justify government policy intervention; how economic analysis is used to measure impacts of policies; and how policy design can improve economic efficiency. Introduces policy issues confronting our society including access to health care, excess pollution, provision of public goods, education, social insurance, and taxation. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 216 Public Leadership and Management 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Introduction to the basic principles and practices of leadership suitable for local, regional, national, and global/international settings. Also assists in developing the capacity to be a public leader. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 220 Quantitative Methods For Public Policy 2 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Introduces common statistical methods used to establish causality when evaluating policy impacts. Applies statistical techniques to current policy issues. Covers panel data, randomized control trials, matching methods and synthetic controls, difference in differences, instrumental variables, and regression discontinuity. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 222 Ethics, Professionalism, and the Normative Bases of Public Policies 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Examines the normative bases of public policies; in other words, the extent to which issues of fairness, social justice, and morality should factor into the choice of public policies. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 224 Global-Local Policy Connections: Case Studies in Poverty, Water, and Sustainable Development 4 Lecture, 3 hours; extra reading, 1.5 hours; research, 1.5 hours. Prerequisite(s): graduate standing; or consent of instructor. Illustrates how the United States can learn from the successful policy experiences of other countries, and vice versa. Explores global experiences in four topical areas including poverty, environment, urbanism, and health. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 225 Survey Design For Public Policy 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Examines strategies for planning, designing, and conducting surveys for government, nonprofit, and health organizations. Focuses on survey data collection modes (such as face-to-face, mail, telephone, and Internet, as well as survey questionnaire design and implementation. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 230 (E-Z) Topics in Health Policy 4 Prerequisite(s): graduate standing. Topics related to health policy. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 230F Public Policy and Health 4 Seminar, 3 hours; term paper, 1 hour; extra Reading, 1 hour; research, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Introduces multiple public policy domains - housing, environment, immigration and others - affect the health of populations. It follows that as public policy is the developed the health of populations is influenced. Students learn how public policy initiatives in multiple domains can be leveraged to improve population health. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 233 Environmental Economics and Policy 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Theory and practice of environmental economics and its application to environmental policymaking. Applies tools of economic theory to problems of managing natural resources and environmental quality, with particular emphasis on externalities, sustainability, pollution control, resource extraction, and environmental valuation. Alternative public policy instruments for environmental management are considered and evaluated. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Credit is awarded for one of the following PBPL 233 or ECON 226.

PBPL 234 Poverty in Global Perspective 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Interdisciplinary and international view of the social sciences of poverty. Topics include causes, consequences, and potential solutions to poverty. Compares different social science methodologies and theories. Evaluates and debates relevant social policies. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 235 Economic Development in United States Cities 4 Lecture, 3 hours; extra reading, 1.5 hours; term paper, 1.5 hours. Prerequisite(s): graduate standing; or consent of instructor. Introduces theories and models of urban growth and economic development. Analyzes and evaluates the strategies and practices in implementing these theories and models. Examines the challenges of developing regions, cities, and communities that are economically dynamic, socially equitable, and environmentally sustainable. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 236 (E-Z) Urban and Spatial Analyses 4 Prerequisite(s): graduate standing. Topics related to urban and spatial analyses. May be taken Satisfactory (S) or

No Credit (NC) with consent of instructor and graduate advisor.

PBPL 236E United States Census Data and Policy Studies 4 Seminar, 3 hours; term paper, 1 hour; research, 1 hour; extra reading, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Addresses in depth the census data as the primary resource for analyzing local and regional changes, especially in urban settings. Substantive topics include, but not limited to, immigration, racial and ethnic change, employment, health, and poverty issues. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 237 Interest Groups and Policy Advocacy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Examines the history of interest groups in America, how they are formed and maintain their membership, how they influence politics and policy, and where they fit in our society and government. Provides a comprehensive introduction to organized interests in the United States and strategies they use to advocate for themselves. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 245 Comparative Global Water Policy 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Covers issues and problems faced by developing and industrialized countries. Compares and analyzes the debate about efficiency vs. equity and protection of the environment, prices vs. quotas, water as a public good, economic good or social good, and adaptation in the water sector to climate change. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 246 Agricultural and Food Policy 4 Seminar, 3 hours; written work, 2 hours; extra reading, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Focuses on the application of economic principles and data analysis to analyze current public policy issues affecting U.S. and world food systems and agricultural sectors. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 250 Public Budgeting and Finance 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Addresses public budgeting and finance as critical components of public policy. Covers reading public financial documents; budget preparation and budget cycles; government and its relation to the economy, governmental revenues, and expenditures; capital budgeting; debt management; public accounting; financial reporting; and intergovernmental fiscal relations. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 252 Crime Mapping Analysis 4 Lecture, 3 hours; laboratory, 1 hour; research, 2 hours. Prerequisite(s): graduate standing; or consent of instructor. Covers crime mapping and crime analysis including the systematic application of geovisualization tools combined with statistical, geometric, and spatial analysis. Explores the distribution of criminal events in both space and time, the efficiency and efficacy of police services, and the interactions of offenders and targets.

PBPL 255 Mapping For the Common Good 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Provide a theoretical and technical understanding of maps, spatial data, and geovisualization. Highlights how geographic information technologies and spatial reasoning skills impact our understanding of the world. Explores how spatial data and mapping can develop strategies, plans, and policies to improve the quality of life for communities and their citizens. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 260 Education Policy Analysis 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Examines major issues and reform movements in public education that are at the forefront of the national policy agenda today. Views each educational reform issue in light of its connection to four themes driving reform efforts: (1) equity, (2) adequacy, (3) autonomy, and (4) accountability. Credit is awarded for one of the following PBPL 260 or EDUC 209.

PBPL 261 Higher Education Policy 4 Seminar, 3 hours; extra reading, 2 hours; research, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Provides an advanced introduction to higher education policy and policymaking. Begins with theories of power and how they relate to higher education policy. Examines process models of policy making. Considers five areas of higher education policymaking: science policy, competitiveness policy, student aid policy, access and completion policy, and accountability policy. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 262 Economics in Higher Education 4 Seminar, 3 hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Examines the economics of higher education from two perspectives. First, it examines the debate on why college costs have escalated, how that affects access, and what might be done. Second, it looks inside universities, where their money comes from, the debate over budgeting systems, and means of managing costs internally. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 263 Litigation and Public Policy 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Introduces the American legal system and discusses how litigation forms and affects public policy. Discusses competing philosophies of what law can and should do, as well as discussions of how law advances or constrains the achievement of various political, economic, and social goals. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 264 Methods in Health Disparities Research: An Introduction to Community Engaged Research 4 Seminar, 3 hours; individual study, 2 hours; term paper, 1 hour. Prerequisite(s): PBPL 230F or SOC 288; graduate standing; or consent of instructor. Introduction to community-engaged methods in health disparities research. Examines health disparities and social determinants of health and conducts in-depth examination of community-engaged research methods. Provides theoretical principles, methods, and skills needed to plan and implement community-engaged research.

PBPL 265 Advanced Methods in Health Disparities Research: An Application of Community Engaged Research 4 Lecture, 1 hour; research, 6 hours; term paper, 3 hours. Prerequisite(s): PBPL 264; graduate standing; or consent of instructor. Advanced course in the application of community-engaged methods in health disparities research. Provides students with hands-on experience to plan and implement community-engaged health disparities research as an independent scholar. Course is repeatable to a maximum of 12 units.

PBPL 266 Transportation Policy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Introduces transportation planning, finance, and policymaking focusing on policies and practices in the United States. Discusses the interaction of transportation, land use, pricing, finance, and project evaluation. Includes a discussion of transportation equity, transportation technology, and the intersection of transportation and public health. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 270 (E-Z) Topics in Immigration Policy 4 Prerequisite(s): graduate standing. Topics related to immigration policy. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 270E General Perspectives On Immigration Policy 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Introduction to a global and comparative perspective on immigration policy, with a special focus as it applies to the United States. Focus on debates over the political rights of immigrants, immigration enforcement, unauthorized migration, economic migration, family migration, refugee flows, citizenship, social integration, and political participation. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 270F Borderland Policies and Community Processes 4 Seminar, 3 hours; term paper, 1 hour; research, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces the experiences of immigrants in the southwest borderland region of the U.S. Explores immigration history, trends, and legislation. Examines the immigration policy impact on economic and health indicators as well as the family systems and dynamics. Attention to change strategies used to empower the immigrant community. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor

PBPL 271 Racial Inequality in Politics and Policy 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Politics and policy of race and social inequality in the United States. Topics include disparities in health, education, income, wealth and civic engagement. Students gain an understanding of the history of racial inequality, including its changes over time, and the efficacy of contemporary solutions to address ongoing racial disparities. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 272 Policy and Politics in California 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Introduction to politics and policy in California, paying particular attention to the nature of American federalism, institutions of state government, direct democracy, the role of partisanship and demographic diversity, and various problems of governance as they relate to issues at the state and local levels. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 273 Geographic Information Systems For Public Policy 4 Lecture, 4 hours. Prerequisite(s): graduate standing or consent of instructor. Introduction to geographic information systems (GIS), spatial data and applications of spatial analysis in the social sciences and public policy. Theoretical, technical, and policy dimensions of GIS in policy settings. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 274 Social Innovation in Theory and Practice 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Introduces the theories and practices associated with social innovation and public policy. Explores key concepts and debates that include discussions about social entrepreneurship, systems approaches, and design thinking. Follows with practices of social innovation including case studies at varying levels and applications specific to public policy areas. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 280 Special Topics in Public Policy 4 Seminar, 4 hours. Prerequisite(s): graduate standing; or consent of instructor. Seminars or lectures on current topics in public policy and other related fields presented by faculty members. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content or topic changes.

PBPL 289A Capstone Research Project 4 Seminar, 4 hours. Prerequisite(s): graduate standing or consent of instructor. Research and investigate a topic of policy significance and relevance, producing a technical paper of publishable quality. Includes specific topic of investigation designed to foster integration of learning by incorporating knowledge acquired throughout the 2-year program. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Graded In Progress (IP) until PBPL 289A and PBPL 289B are completed, at which time a final grade is assigned.

PBPL 289B Capstone Research Project 4 Seminar, 4 hours. Prerequisite(s): PBPL 289A; graduate standing; consent of instructor. Research and investigate a topic of policy significance and relevance, producing a technical paper of publishable quality. Includes specific topic of investigation designed to foster integration of learning by incorporating knowledge acquired throughout the 2-year program. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 290 Directed Studies 1 to 6 Activity, 3 to 18 hours. Prerequisite(s): graduate standing and consent of instructor. Advanced work in a topic or topics appropriate to the student's special interests and needs. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PBPL 291 Individual Study in Coordinated Areas 1 to 12 Activity, 3 to 36 hours. Prerequisite(s): graduate standing and consent of instructor. A program of study designed to advise and assist candidates who are preparing for masters and/or doctoral examinations. Graded Satisfactory (S) or No Credit (NC). Course is repeatable

PBPL 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing and consent of instructor. Individual research performed under the direction of a faculty advisor. Designed for students preparing their capstone prospectuses. Students meet in groups by appointment with a faculty advisor to discuss issues of capstone writing. Emphasis is placed on the development of research design. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PBPL 298I Individual Internship 1 to 12 Internship, 2 to 24 hours; written work 1 to 12 hours. Prerequisite(s): graduate standing or consent of instructor. Internship in a public or quasi-public agency concerning matters relating to public policy. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 16 units.

Public Policy Designated Emphasis

Subject abbreviation: PBPL
School of Public Policy

School of Public Policy
Mark C. Long, MPP, Ph.D., Dean
Richard C. Carpiano, Ph.D., MPH, Associate Dean & Chair

Distinguished Professor
Bruce G. Link, Ph.D.

Professors
Cecilia Ayón, MSW, Ph.D.
Bruce A. Babcock, Ph.D.
Ken Baerenklau, Ph.D.
Richard M. Carpiano, Ph.D., MPH
Kevin M. Esterling, Ph.D.
Tony Grubesic, Ph.D.
Mark C. Long, MPP, Ph.D.
Sharon S. Oselin, Ph.D.
Kurt A. Schwabe, Ph.D.
Qingfang Wang, Ph.D.
Ran Wei, Ph.D.

Professor Emeriti
Ariel Dinar, Ph.D.

Associate Professor
Robynn Cox, Ph.D.

Assistant Professors
Jennifer C. Gaudette, J.D., Ph.D.
Wei Guo, Ph.D.
Wei Kang, Ph.D.
Mehdi Nemati, Ph.D.
Stan Oklobdzija, Ph.D.

Associate Professor of Teaching
Andy Crosby, Ph.D.

Cooperating Faculty
Anil B. Deolalikar, Ph.D. (Economics)
David C. Volz, Ph.D. (Environmental Sciences)

Designated Emphasis Requirements

Students must complete four graduate courses (16 units) in total, of which two should be core courses in the Master of Public Policy program, one course from the list of MPP program elective courses, and one graduate course (from an approved list) offered by a department that is not the student's own department. Note that students cannot apply units taken to fulfill the DE program requirement toward their own graduate program requirements.

1. **Two (2) required core courses (8 units) offered by the School of Public Policy:** PBPL 200, PBPL 220.
2. **One (1) required elective course (4 units) offered by the School of Public Policy selected from:** PBPL 206, PBPL 210, PBPL 212, PBPL 214, PBPL 224, PBPL 230F, PBPL 233, PBPL 234, PBPL 241, PBPL 245, PBPL 252, PBPL 260/EDUC 209, PBPL 261, PBPL 262, PBPL 264, PBPL 265, PBPL 270E, PBPL 270F, PBPL 271, PBPL 272.
3. **One (1) required course from any of the following programs that is not the student's own graduate program:** ECON

236, ECON 237, ECON 240, ECON 241, ECON 243, ECON, 250, ECON 254, ECON 260, ECON 261, ECON 264, ECON 265, EDUC 203, EDUC 269M, EDUC 245G, EDUC 269E, CEE 232, ENGR 200, ENGR 201, ENGR 203, ENSC 201, ENSC 206, ENSC 227, GEO 205, GEO 252, GEO 255, GEO 260, POSC 252, POSC 268, POSC 271, POSC, 282, SOC 245, SOC 257, SOC 251, SOC 252, SOC 253

4. **Research Requirement:** Students in the Designated Emphasis are required to demonstrate their research capacity by writing a review paper that will focus on a policy issue/problem and the policy solutions (including design, implementation, and cost-effectiveness) to address the problem. Selection of the policy issue and the structure of the paper are to be agreed upon with a faculty member from the School of Public Policy, who will serve as a mentor, with an option for joint mentorship with a faculty member from another department (including the student's own department). It is expected that the review paper, of about 25-30 pages long, will be at a publishable quality to be completed within 1-2 quarters.

All requirements for the Designated Emphasis must be satisfied within a year of a student advancing to candidacy in their Ph.D. field; a minimum GPA of 3.0 is required for the award of the Designated Emphasis.

Robotics Program

The Marlan and Rosemary Bourns College of Engineering

Program Committee

Nael Abu-Ghazaleh, Ph.D. (Computer Science and Engineering)
Philip L. Brisk, Ph.D. (Computer Science and Engineering)
Yue Dong, Ph.D. (Computer Science and Engineering)
Ioannis Karamouzas, Ph.D. (Computer Science and Engineering)
Eamonn Keogh, Ph.D. (Computer Science and Engineering)
Evangelos Papalexakis, Ph.D. (Computer Science and Engineering)
Christian Shelton, Ph.D. (Computer Science and Engineering)
Greg Ver Steeg, Ph.D. (Computer Science and Engineering)
Salman Asif, Ph.D. (Electrical and Computer Engineering)
Matt Barth, Ph.D. (Electrical and Computer Engineering)
Bir Bhanu, Ph.D. (Electrical and Computer Engineering)
Jay Farrell, Ph.D. (Electrical and Computer Engineering)
Konstantinos Karydis, Ph.D. (Electrical and Computer Engineering)
Hyoseung Kim, Ph.D. (Electrical and Computer Engineering)
Cong Liu, Ph.D. (Electrical and Computer Engineering)
Jiachen Liu, Ph.D. (Electrical and Computer Engineering)
Hang Qiu, Ph.D. (Electrical and Computer Engineering)
Wei Ren, Ph.D. (Electrical and Computer Engineering)
Amit K. Roy-Chowdhury, Ph.D. (Electrical and Computer Engineering)
Vishwanath Saragadam, Ph.D. (Electrical and Computer Engineering)
Mingyu Cai, Ph.D. (Mechanical Engineering)
Erfan Nosari, Ph.D. (Mechanical Engineering)
Fabio Pasqualetti, Ph.D. (Mechanical Engineering)
Jonathan Realmuto, Ph.D. (Mechanical Engineering)
Jun Sheng, Ph.D. (Mechanical Engineering)
Sundararajan Venkatadriagaram, Ph.D. (Mechanical Engineering)
Luat Vuong, Ph.D. (Mechanical Engineering)

Major

Robotics Engineering Undergraduate Major

Robotics studies the design, operation, and deployment of autonomous intelligent systems and mechanisms. Robotics is a fundamentally multidisciplinary field, with core components spanning engineering and computer science, and applications extending beyond science and technology. Courses in the B.S. in Robotics Engineering program focus both on the theory and the practice of contemporary robotics science and engineering, and prepare students for professional careers and graduate studies in robotics and beyond (e.g., autonomous systems, intelligent control systems, and decision making).

The B.S. in Robotics Engineering major is an interdepartmental program offered by the Marlan and Rosemary Bourns College of Engineering (BCOE), and involves the Departments of Mechanical Engineering, Electrical and Computer Engineering, and Computer Science and Engineering. Students are advised in and have their records maintained by the BCOE Office of Student Academic Affairs. Students must fulfill the breadth requirements of the Bourns College of Engineering.

University Requirements

See Undergraduate Students section.

College Requirements

For details on breath requirements, see the Colleges and Programs section of this catalog. Students are encouraged to consult their advisor regarding requirements.

Transfer Admission Criteria

Required:

1. Computer Science 10A (Intro to Computer Science for Science, Math, and Engineering I)
2. Computer Science 10B (Intro to Computer Science for Science, Math, and Engineering II)
3. Math 9A (First-Year Calculus), Math 9B (First-Year Calculus), Math 9C (First-Year Calculus)
4. Physics 40A (General Physics)

Required three courses from:

1. Computer Science 10C (Intro to Data Structures and Algorithms)
2. Computer Science 61 (Machine Organization and Assembly Language)
3. Electrical Engineering 5 (Circuits and Electronics)
4. Mechanical Engineering 9 (Engineering Graphics and Design)
5. Physics 40B (General Physics)
6. Physics 40C (General Physics)
7. Math 31/EE20B (Applied Linear Algebra)
8. Math 46/EE20A (Intro to Ordinary Differential Equations)

Major Requirements

1. **Lower-division requirements (68 units minimum)**
   a. MATH 009A or MATH 009AH; MATH 009B or MATH 009BH; MATH 009C or MATH 009 CH; MATH10A; MATH 011; MATH 031; MATH 045/EE 020A.
   b. PHYS 040A; PHYS 040B; PHYS 040C.
   c. CS 010A; CS 010B; CS 010C; CS 061.
   d. ME 009
   e. EE 005.
2. **Upper-division requirements (65 units)**
   a. CS 100; CS 120B / EE 120B.
   b. ME 120; ME 143
   c. EE 106; EE 111; EE 114; EE 120A / CS 120A; EE132; EE142 / CS 171; EE 144/ME 144 EE/CS 148.
   d. Five courses (at least 20 units) from the following list, none of which can also be used to satisfy other major requirements: CS 111; CS 122A; CS 130; CS 133; CS 135; CS 141; CS 145; CS 150; CS 160; CS 169; CS 170; CS 173; CS 177; ME 103; ME 110; ME 122; ME 130; ME 131; ME 133; ME 145/EE 145; ME 153; ME 174; EE 105; EE 115; EE 128; EE 131/CS 131; EE 140; EE 141; EE 146; EE 147; EE 150; EE 151; EE 152; ENGR 160.
   e. One of the following two-course sequences: CS 178A and CS 178B, or EE 175A and EE 175B, or ME 175B and ME 175C.

Change of Major Criteria

All students who request a change of major to Robotics Engineering must meet the following requirements:

- Be in good academic standing
- Have no less than a C- in any Math,
- Science and Engineering coursework
- Be able to complete major within maximum allowable units.
- Complete all the courses listed below, based on the total number of units earned, prior to submitting the major change request
- UCR transfer students interested in changing to a BCOE major must have been admissible to the major at point of entry, or must satisfy transfer admission and change of major requirements before earning 120 units.
- If changing in the 90-119 units category, student must have the ability to complete major within 5 years of entry as a Freshmen or 3 years after entry as a Transfer student.
- Students who have earned 120 or more units are not eligible for a change of major

in BCOE. NOTE: AP/IB units are excluded from maximum unit calculation.

- Any deviations will require approval of the Robotics Program Chair.

0 – 45 Units
Completion of ENGL 001A with C or better and completion of the following with at least a 3.0 GPA:

- MATH 009A
- MATH 009B
- CS 010A
- CS 010B
- PHYS 040A

46 – 89 Units
Completion of ENGL 001A with C or better and completion of the following with at least a 3.0 GPA:

- MATH 009A
- MATH 009B
- MATH 009C
- MATH/CS 011
- CS 010A
- CS 010B
- CS 010C
- PHYS 040A

90 – 119 Units
Completion of ENGL 001A with C or better and completion of the following with at least a 3.0 GPA:

- MATH 009A
- MATH 009B
- MATH 009C
- MATH/CS 011
- MATH 045/EE0 20A
- MATH046
- CS 010A
- CS 010B
- CS 010C
- PHYS 040A
- PHYS 040B
- ME 009

Graduate Program

The Robotics program offers the M.S. degree in Robotics after completion of the following requirements.

Master of Science in Robotics

Admission
All applicants to this program must have completed a Bachelor's degree or its approved equivalent from an accredited institution and to have attained undergraduate record that satisfies the standards established by the Graduate Division and University Graduate Council. Applicants should have at least an undergraduate major in Mechanical Engineering, Computer Engineering, Computer Science, Electrical Engineering or a closely related field. Applicants who fail to meet this criterion may sometimes be admitted with course deficiencies, provided they take remedial steps to cover the deficiencies.

A student who is deficient in a competency area may be asked to complete the corresponding UCR course with a letter grade of at least B, or to pass a challenge examination based on that course's final exam with a grade of at least B. All such remedial work should be completed within the first year of graduate study, and in all cases the deficiency(s) must be corrected BEFORE a student can enroll in any graduate course from the same specialty area. The details will be decided by the Graduate Advisor of the program in consultation with the student.

The Graduate Record Exam, General Test (GRE) is not required to apply for the M.S. Robotics program. Relevant GRE subject tests may be beneficial to the candidate's application, but are not required. Applicants whose first language is not English are required to submit acceptable scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) unless they have a degree from an institution where English is the exclusive language of instruction. Additionally each applicant must submit letters of recommendation, as per the admission requirements. All other application requirements are specified in the graduate application.

The committee designing the program fully recognizes that students from ME, EE, CEN and CS have different undergraduate training. The program is designed so that all students who have completed their undergraduate degrees in these areas will be able to take these courses. The program also allows for a number of undergrad courses which can be taken to build the fundamentals necessary before the graduate course is taken.

Course Work
The MS in Robotics requires the completion of 40 units of coursework, including a capstone experience. Units are divided among core, focus area, and elective courses. A total of 12 units maximum can be at the undergraduate level, selected from the list of courses below. Colloquium units do not count towards the 40 units.

Core Courses:
Five courses for a total of 20 units are required. All students must complete the same core courses:

CS 224/EE242A – Foundations of Machine Learning

CS/EE 265A – Foundations of Robotics: Planning and Control

CS/EE 265B – Foundations of Robotics: Sensing and Navigation

ME 224 – Computational methods for robotics

ME 225 – Design and fabrication of robots

Focus Area Courses:
Three courses for a total of 12 units are required. Courses must belong to the same focus area, which is selected by the student from the four possible choices. At most, one focus course can be at the undergraduate level.

1. **Embodied AI and Machine Learning**
   CS 170, CS 171/EE142, CS 173, CS 205, CS 222, CS 277, CS/EE 228, CS 229/EE242B, CS 235, CS/EE 248, CS258/EE227, EE 146, EE 236, EE 241, EE 243, EE 244, EE 247, EE 250, EE 267, EE 268, EE 269, ME 202, ME 233
2. **Motion Planning and Autonomous Navigation**
   EE 132/ME 121, EE 144, EE 151, EE 231, EE 235, EE 236, EE 237, EE 238, EE 239, EE 246, EE 268, ME 145, ME 220, ME 221, ME 223
3. **Robot Design and System Integration**
   CS/EE 131, CS 135, CS256/EE258, EE 128, EE 217, EE 246, EE 252, EE 255, EE 258, EE 267, ME 174, ME 175B, ME 175C, ME 210, ME 230, ME 232, ME 233, ME 271

Elective Courses:
Students completing the comprehensive exam option will take two courses for a total of 8 units chosen from the options below. Students completing the project option will complete 8 units of CS, EE, or ME 297. Any courses not listed will require approval of the program graduate advisor.

1. course from the focus areas above that hasn't already been used.
2. ME 114, ME 118, ME 120, ME 130, ME 133, ME 153, ME 176, ME 200, ME 201, ME 203, ME 210, ME 231, ME 233, ME 270, ME 274
3. Any course listed in the EE Graduate Manual in the areas Signals, Systems and Machine Intelligence (SSMI) and VLSI Circuits and Systems (VCS).
4. Undergrad courses in the following undergrad EE focus areas are allowed: Communications, Signal Processing and Networking; Controls, Robotics and Machine Intelligence; and VLSI and Embedded Systems.
5. Any graduate CS course listed in the Catalog under the CS Graduate Program in the Major Specialty Areas of C (Databases, Information Retrieval, Data Mining, and Machine Learning), D (Operating Systems, Distributed Systems, and High Performance Computing), or E (Computer Networks).
6. Undergraduate CS courses CS170, CS 171, CS 172, CS 173.

Professional Development
All M.S. Robotics students must satisfactorily complete a colloquium course every quarter of their study, CS 287, EE 259, or ME 250. The inter- departmental nature of the Robotics program calls for students attending colloquia in multiple departments.

Additionally, students in the program must submit a Professional Development Report that details the students' efforts in developing their technical writing and presentation skills. This report should be submitted to and approved by the program Oversight Committee, as part of the Capstone experience. Specific guidance for this report will be provided by the committee to the students.

Capstone Experience (Plan II)
Students must complete a capstone experience that integrates knowledge from across their course of study by selecting one of the two options below:

a. **Comprehensive Exam Option** – Students take a comprehensive exam based on the courses in the program. The faculty committee overseeing the program will coordinate with the individual departments on the logistics of the exam.
b. **Project Option** – Students must complete a research project under the guidance of a faculty member. The project will be approved by a committee of at least two faculty members. **Normative Time** – Six quarters (two years)

Society, Environment, and Health Equity

Subject abbreviation: SEHE
College of Humanities, Arts, and Social Sciences

Dana Simmons, Ph.D., Chair
@SEHE_UCR; sehe.ucr.edu

Professors
Juliann Emmons Allison, Ph.D., M.F.A.
Ellen Reese, Ph.D.
Catherine Gudis, Ph.D.
Bronwyn Leebaw, Ph.D.
Dana Simmons, Ph.D.
Jade Sasser, Ph.D., MPH

Associate Professors
Cassia Roth, Ph.D., MPH
Chikako Takeshita, Ph.D.

Assistant Professors
Cristina Gomez Vidal, Ph.D., MSW

Majors

SEHE majors address complex social, medical, and environmental problems with a local and global focus on sustainability, equity, and social justice. Our interdisciplinary majors are grounded in the tools and concepts of the arts, humanities, and social sciences. Majors prepare undergraduate students for high-demand careers and post-graduate study in areas such as health care, health policy, and sustainability, serving the complex and diverse needs of the Inland Southern California region and beyond. Internships, work study, and fellowships, such as the UCR Bonnie Reiss Leading on Climate Fellowship, are available to students.

Environmental Studies Major

Through arts, humanities and social sciences education, this major equips students with knowledge, theory, and skills that advance their contribution to a world in which environmental degradation has become an increasingly significant subject of concern. To gain a deeper understanding of the complex interactions between the workings of human societies and ecological changes, the major engages a range of environmental challenges including climate change, air and water pollution, biodiversity loss, energy demands, toxic accumulations, waste management, deforestation and desertification, food security, and water scarcity as social phenomena, and examines how they intersect with broader societal issues such as environmental justice, policy and governance, history of colonialism, global capitalism, hunger and poverty, structural racism, gender inequality, health inequity, and community resilience. The major also introduces humanities approaches such as critical theory, environmental philosophy, regional history, storytelling, and other creative expressions to enrich students' intellectual relationships with nature and non-human elements. The major emphasizes community engagement as a necessary step in finding solutions for environmental challenges.

This interdisciplinary major will prepare students to make career choices that involve: promoting sustainable practices in various capacities as employees in public services, education, healthcare, or the private sector; joining nonprofit organizations with a focus on issues pertaining to environmental sustainability or social justice; and continuing their career development by pursuing professional and graduate education in sustainability, public policy, urban and regional planning, business, law, and public health. To learn more about the major, please consult this informational video: youtube.com/watch?v=icbAiAk19uc.

Global and Community Health Major

The major equips students with the knowledge, theory, and skills necessary to understand health disparities and promote the goal of health equity. Drawing on courses primarily in the arts, humanities and social sciences with an explicit framework of delivering health justice - fair and just health opportunities to everyone - this interdisciplinary field transcends traditional biomedical approaches to provide a historically-grounded, multi-level understanding of health and illness, systems of healing, and evidence-based solutions to global health inequities. Global and Community Health students learn to think critically about complex issues that affect health, healthcare, and health policy. The major investigates how political, economic, demographic, cultural, social, and biological factors interact to produce health (in)equities. The major prepares students for a wide range of careers and postgraduate study, including public service in healthcare, public health, social work, policy advocacy, consulting, research, and non-profit organizations focused on health and equity. Through in-depth, engaged learning experiences, the major nurtures community leaders and global citizens who can meet the global and community health challenges of the 21st century. To learn more about the major, please consult this informational video: youtube.com/watch?v=YQFL-97yaV8.

Students interested in pursuing a health profession (such as medicine, nursing, or public health) should consult the CHASS Pre-Health Pathway Checklist and meet with a Health Professions Advising Center advisor as early as possible.

Environmental Studies Major

Major Requirements (B.A.)

The major requirements for the general B.A. degree in Environmental Studies are as follows (52 units total):

1) **Lower-Division Requirement (4 courses, 16–17 units)**
   a) SEHE 001
   b) Two courses from the following list of courses in natural, earth, and environmental sciences or global community health. (Cannot double count with the CHASS math and science 20 unit requirement): BPSC 011, BPSC 021, ENSC 001, ENSC 002, ENSC 003, ENSC 004, ENSC 006/ECON 006, GEO 002, GEO 003, GEO 004, GEO 005, GEO 007, GEO 008, GEO 009 or GEO 009H, GEO 010, GEO 011 or GEO 011H, GEO 012, PHYS 018, SEHE 002
   c) One additional science course with a lab or STAT 004, SEHE 005/STAT 005 or equivalent (cannot double count with the CHASS 20 unit science and math requirement)

Comparable lower-division courses taken elsewhere may be counted toward the lower-division requirements (1a-c); up to four advanced placement units earned in high school may count toward fulfillment as well. Please consult with the academic advisors for further details.

2) **Upper-Division Requirements (9 courses, 36 units)**
   a) SEHE 101
   b) One of the following courses in environment and health: SE HE 105, SEHE 106, SEHE 106S, SEHE 110
   c) Four courses selected from any of the following (i–v)
      i) **Climate Studies:** ENGR 171/NASC 171/PBPL 171, GSST 173/SEHE 141, SEHE 116, SEHE 131, SEHE 132, SEHE 138
      ii) **Environmental Justice:** ETST 179, POSC 137/SEHE 137 or POSC 137S/SEHE 137S, SEHE 110, SEHE 135, LABR 175/SEHE 175
      iii) **Environmental Governance:** ANTH 132, GSST 131, MCS 122, MCS 159, POSC 106/SEHE 136 or POSC 106S/SEHE 136S, POSC 127/SEHE 127 or POSC 127S/SEHE 127S, POSC 139/SEHE 139 or POSC 139S/SEHE 139S, SEHE 130, SEHE 131
      iv) **Environmental Humanities:** AST 180/JPN 180/MCS, 180, ENGL 120A, ENGL 120T, ETST 153, GSST 161/SEHE 123, GSST 181/SEHE 142, HISA 119/SEHE 144, MCS 108, MCS 117, MCS 170, MCS 175/SEHE 143/SPN 125
      v) **Special Topics in Environmental Studies:** GSST 145/SEHE 145, GSST 148/SEHE 148, SEHE 159, SEHE 190
   d) One course in gender, race and structural inequities: ANTH 127 or ANTH 127S, ETST 102, ETST 111, ETST 113, ETST 163E, GSST 107, GSST 109, GSST 113, GSST 176, MCS 109, MCS 160, MCS 189, ETST 128/SOC 128, ETST 128S/SOC 128S, SEHE 176, SOC 161
   e) One additional SEHE course or an upper- division course from a college or school other than CHASS related to the environment, sustainability, or climate change
   f) Capstone: At least four units of SEHE 193, LABR 198G/SEHE 198G, or SEHE 198-I

Suggested course sequencing for four-year students:

First and second year: Complete SEHE 001 and lower-division major requirements (1.a, 1.b, and 1.c) in addition to the university and college requirements. Third year: SEHE 101, SEHE 105, SEHE 106, SEHE 106S, or SEHE 110; two courses for requirement 2.c, and one for requirement 2.d. Fourth year: Two remaining courses for requirements 2.c, one for 2.e., and a capstone course.

Suggested course sequencing for transfer students and students changing majors:

First year: SEHE 001 (must be completed before enrolling in SEHE 101), SEHE 101; SEHE 105, SEHE 106, SEHE 106S or SEHE 110; two courses for requirement 2.c. Second year: Two remaining courses for requirement 2.c., one for 2.d., one for 2.e., and a capstone course. Lower-division CNAS courses (requirements 1.b and 1.c) can be spread between the first and second year.

Environmental Studies Minor

Minor Requirements (20 units)

1) **Lower-division requirement (1 course, 4 units) SEHE 001**

2) **Upper-division requirement (4 courses, at least 16 units)**

   i) **Climate Studies:** GSST 173/SEHE 141, NASC 171/ENGR 171/PBPL 171, SEHE 116, SEHE 131, SEHE 132, SEHE 138

   ii) **Environmental Justice:** ETST 179, GSST 171/SEHE 105, POSC 137/SEHE 137 or POSC 137S/SEHE 137S, SEHE 110, SEHE 106 or SEHE 106S, SEHE 129, SEHE 135

   iii) **Environmental Governance:** ANTH 132, GSST 131, MCS 122, MCS 159, POSC 106/SEHE 136 or POSC 106S/SEHE 136S, POSC 127/SEHE 127 or POSC 127S/SEHE 127S, POSC 139/SEHE 139 or POSC 139S/SEHE 139S, SEHE 130, SEHE 131

   iv) **Environmental Humanities:** AST 180/JPN 180/MCS, 180, ENGL 120A, ENGL 120T, ETST 153, GSST 161/SEHE 123, GSST 181/SEHE 142, MCS 108, MCS 117, MCS 170, MCS 175/SEHE 143/SPN 125

   v) **Special Topics in Environmental Studies:** GSST 145/SEHE 145, GSST 148/SEHE 148, SEHE 159

Global and Community Health Major

Major Requirements (B.A.)

1) **Lower-Division Requirement (4 courses, 16 units)**

   a) SEHE 002 Health Equity and Health Justice (4 units)

   b) One course in statistical analysis (4 units): SEHE 005/STAT 005, STAT 004 or equivalent

   c) One course (4 units) in natural science: BCH 010, BIOL 030, BIOL 034, BIOL 040, BPSC 011, BPSC 021, BPSC 050/ENTM 050, CBNS 004, CBNS 010, CHEM 003, ENSC 001, ENSC 002, ENSC 004, GEO 003, GEO 004, GEO 007, PLPA 010

   d) One course (4 units) in global and/or local perspectives in health and/or environmental health, from the following: ANTH 20 or ANTH 20S, BLKS 001, ENGL 022, GBST 001, GBST 002, GSST013 or GSST013S, MHHS 001, PHIL 009 or PHIL 009H, POSC 017, SEHE 001, SFCS 001. An Upper Division course from 2(c) below may be used to fulfill this requirement.

   Comparable lower-division courses taken elsewhere may be counted toward the lower- division requirements (1.a-1.d); up to four advanced placement units earned in high school may count toward fulfillment as well. Please consult with the academic advisors for further details.

2) **Upper-Division Requirements (9 courses, 36 units)**

   a) SEHE 101

   b) One of the following courses in environment and health: SEHE 105, SEHE 106, SEHE 106S, SEHE 110

   c) Four courses in global and community health from among the following. Must include at least two SEHE courses. ANTH 144F/GSST 185, ANTH 144I/SEHE 181, ANTH 144K/SEHE 182, ANTH 144N/SEHE 183, AST 180/JPN 180/MCS 180, BLKS 114, ECON 129, ENSC 103, ETST 116/HISA 147, GBST 102, GBST 103, GSST 161/SEHE 123, GSST 164/SEHE 161, LABR 175/SEHE 175, MCS 106, MCS 117, PBPL 127/SOC 127, SOC 120, PBPL 167/SOC 167, PHIL 167, POSC 179/SEHE 179, POSC 179S/SEHE 179S, POSC 180, RLST 110, RLST 122, SEHE 116, SEHE 129, SEHE 162, SEHE 163, SEHE 168/SOC 144, SOC 183H, SEHE 172, HIST 107/SEHE 173, SEHE 174, SEHE 176; SEHE 189, SEHE 190

   d) One course in gender, race, and structural inequities from among the following: ANTH 127 or ANTH 127S, ANTH 142(E-Z), ETST 102, ETST 111, ETST 113/HISA 134, ETST 128/SOC 128, ETST 128S/SOC 128S, ETST 163E, GSST 107, GSST 109, GSST 113, GSST 131, GSST 176, MCS 109, MCS 160, MCS 189, SOC 161

   e) One additional Upper Division course in SEHE

   f) Capstone: At least four units of SEHE 193, LABR 198G/SEHE 198G or SEHE 198I

3) **Global Health**

   At least one course from the requirements above (1a-d or 2a-f) must have a global focus: GBST 001, GBST 002, GBST 102, GBST 103, GSST 109, POSC 017, POSC 179/SEHE 179, POSC 179S/SEHE 179S, RLST 122, SEHE 162, SEHE 163, SEHE 172, HIST 107/SEHE 173, SEHE 176, ANTH 144I/SEHE 181, or ANTH 144N/SEHE 183.

   Suggested course sequencing for four-year students:

   First and second year: Coomplete SEHE 002 and lower-division major requirements (1.a-1.d) in addition to the university and college requirements. Third year: SEHE 101; SEHE 105, SEHE 106, SEHE 106S, or SEHE 110; two courses for requirement 2.c; and one for requirement 2.d. Fourth year: Two remaining courses for requirement 2.c and a capstone course.

   Suggested course sequencing for transfer students and students changing majors:

   First year: SEHE 002 (must be completed before enrolling in SEHE 101), SEHE 101, SEHE 105, SEHE 106, SEHE 106S or SEHE 110; two courses for requirement 2.c. Second year: Two remaining courses for requirement 2.c., one for 2.d. and a capstone course. Lower-division requirements 1.b, 1.c and 1.d can be spread between the first and second years.

Global and Community Health Minor

Minor Requirements

1) **Lower-division requirements (1 course, 4 units):**

   SEHE 002 – Health Equity and Health Justice

2) **Upper-division requirements (4 courses, 16 units) from among the following:**

   ANTH 144I/SEHE 181, GSST 161, GSST 164/SEHE 161, GSST 171/SEHE 105, LABR 175/SEHE 175, POSC 179/SEHE 179, POSC 179S/SEHE 179S, SEHE 101, SEHE 106 or SEHE 106S, SEHE 110, SEHE 116, SEHE 162, SEHE 163, SEHE 168/SOC 144, SEHE 172, HIST 107/SEHE 173, SEHE 174, SEHE 176, SEHE 182/ANTH 144K, SEHE 183/ANTH 144N, SEHE 189

Lower-Division Courses

SEHE 001 Environment, Society, and Culture 4 Lecture, 3 hours; discussion, 1 hour; activity, 1 hour; extra reading, 1 hour. Introduces humanities and social sciences approaches in environmental studies to examine how society and human values affect the natural environment. Topics include agriculture and food security, biodiversity conservation, climate change, and deforestation. Introduces the role of race, class, and gender in shaping environmental burdens, benefits, and activism. Offered online only.

SEHE 002 Introduction to Health Equity and Health Justice 4 Lecture, 3 hours; discussion, 1 hour. Introduces theories and methodologies for the study of community health as well as global and local health inequities. Identifies health disparities trends, patterns, and causes in the United States and globally including historical, social, and structural factors. Considers policies and interventions addressing health disparities including community-engaged research. Offered online only.

SEHE 005 Statistics, Health, and Society 4 Lecture, 3 hours; discussion, 1 hour. An introduction to statistics using social, health, and environmental applications. Topics include descriptive statistics; simple linear regression and correlation; probability; discrete and continuous distributions; confidence intervals; hypothesis testing; and one-way analysis of variance. Cross-listed with STAT 005. Credit is awarded for one of the following SEHE 005, STAT 005, or STAT 004. Credit is not awarded for STAT 005 or SEHE 005 if already awarded to STAT 008, STAT 010, or STAT 011

Upper-Division Courses

SEHE 101 Community Research Methods: An Anti-Oppressive Toolkit 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): SEHE 001 or SEHE 002; or consent of instructor. Addresses research design, research ethics, data collection and management, and public engagement. Reviews and practices disciplinary methods including social science, ethnography, history, critical reading, science and technology studies, statistical analysis, and feminist and critical race theories.

SEHE 104 The Art of Research: An Interdisciplinary Seminar-Workshop 4 Lecture, 3 hours; workshop, 2 hours; research, 1 hour. Prerequisite(s): SEHE 101; or equivalent; restricted to class level standing of junior, or senior; or consent of instructor. Introduces key concepts, methods, debates, and practices in the emerging interdisciplinary field of arts-based research. Integrates lecture, discussion, and in-class, arts-based practices to understand and address local social justice issues and health inequities.

SEHE 105 Environmental Health and Social Justice 4 Lecture, 3 hours; activity, 3 hours. Prerequisite(s): SEHE 001; or an introductory level environmental studies class; restricted to class level standing of junior, or senior. Introduces emotional responses to climate change, including anxiety, grief, and trauma. Identifies the relationships between emotions and mental health outcomes. Explores the roles of race, class, gender, age, and social marginalization.

SEHE 106 Movements and Advocacy For Social Change in Environmental Justice and Health Equity 4 Lecture, 3 hours; research, 1 hour; individual study, 1 hour; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. An overview of contemporary, comparative, and historical research on social and political movements. Includes legal and policy advocacy, health equity, sustainability, and environmental justice. Examines the motivations, visions, and contexts shaping these movements. Also examines movement and advocacy outcomes, challenges, and opportunities for promoting health equity and environmental justice. Credit is awarded for one of the following SEHE 106 or SEHE 106S.

SEHE 106S Movements and Advocacy For Social Change in Environmental Justice and Health Equity 5 Lecture, 3 hours; discussion, 1 hour; individual study, 1 hour; research, 1 hour; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. An overview of contemporary, comparative, and historical research on social and political movements. Includes legal and policy advocacy, health equity, sustainability, and environmental justice. Examines the motivations, visions, and contexts shaping these movements. Also examines movement and advocacy outcomes, challenges, and opportunities for promoting health equity and environmental justice. Credit is awarded for one of the following SEHE 106S or SEHE 106.

SEHE 110 Environmental Health and Activism in Southern California 4 Lecture, 3 hours; research, 1 hour; extra reading, 1 hour; activity, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Interdisciplinary cross-examination of environmental challenges, social inequities, human health consequences, and environmental justice activisms focusing on Southern California. Investigates the historical contribution of regional industrial developments and racial stratification to poor environmental health. Examines the spatial distribution of environmental and health burdens using California's mapping and indexing tools.

SEHE 115 Ethnography: Collaborative/ Activist Interdisciplinary Research 4 Lecture, 3 hours; research, 2 hours; written work, 1 hour. Prerequisite(s): GBST 001; or consent of instructor. Explores the ethnographic methodologies that are the interdisciplinary tools researchers use to describe and document everyday lived lives. Engages through various practicum and independent research utilizing literary sources. Includes composition of a research proposal and video presentation of independent findings. Cross-listed with GBST 115.

SEHE 116 Climate Anxiety and Mental Health 4 Lecture, 3 hours; extra reading, 1 hour; written work, 1 hour; research, 1 hour. Prerequisite(s): SEHE 001; Any introductory level environmental studies course; restricted to class level standing of junior, or senior; or consent of instructor. Introduces emotional responses to climate change. Identifies the relationships between emotions and mental health outcomes. Explores the roles of race, gender, age, and social marginalization.

SEHE 123 Gender and Science 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Focuses on the intersections of Western constructions of gender and scientific knowledge since the sixteenth century. Considers the cultural and political roles of the scientist in terms of gender; the structuring of objectivity and objects of study; the status of scientific knowledge; and the emergence of feminist science studies. Cross-listed with GSST 161. Credit is awarded for one of the following GSST 161, SEHE 123, GSST 161S, or SEHE 123S.

SEHE 123S Gender and Science 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Focuses on the intersections of Western constructions of gender and scientific knowledge since the sixteenth century. Considers the cultural and political roles of the scientist in terms of gender; the structuring of objectivity and objects of study; the status of scientific knowledge; and the emergence of feminist science studies. Cross-listed with GSST 161S. Credit is awarded for one of the following GSST 161S, SEHE 123S, GSST 161, or SEHE 123.

SEHE 127 Global Environmental Politics 4 Lecture, 3 hours; field, 1 hour; individual study, 1 hour; written work, 1 hour. Prerequisite(s): POSC 020 or POSC 020H. Introduces the study and practice of global environmental politics. Explores major developments in the evolution of international environmental law and policy. Covers ozone depletion, acid rain, marine pollution and whaling, tropical deforestation, overpopulation, and the impact of environmental degradation. Cross-listed with POSC 127. Credit is awarded for one of the following POSC 127, SEHE 127, POSC 127S, or SEHE 127S.

SEHE 127S Global Environmental Politics 5 Lecture, 3 hours; discussion, 1 hour; field, 1 hour; individual study, 1 hour; written work, 1 hour. Prerequisite(s): POSC 020 or POSC 020H. Introduces the study and practice of global environmental politics. Explores the major developments in the evolution of international environmental law and policy. Covers ozone depletion, acid rain, marine pollution and whaling, tropical deforestation, overpopulation, and the impact of environmental degradation. Cross-listed with POSC 127S. Credit is awarded for one of the following POSC 127S, SEHE 127S, POSC 127, or SEHE 127.

SEHE 129 Food Justice 4 Lecture, 3 hours; term paper, 1 hour; extra reading, 2 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Explores relations of power, love, desire, hunger, and taste through food and food systems. Considers how food is found, grown, made, bought, sold, shared, and consumed. Covers food apartheid and carceral food systems; metabolic disease; nutrition and nourishment; the right to food; and movements to decolonize food systems.

SEHE 130 Environmental Planning & Management 4 Lecture, 3 hours; activity, 1 hour; extra reading, 1 hour; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Introduces environmental policy and regulation and environmental analysis of issues. Includes conservation, air quality, water quality and access, waste management, disaster planning, risk assessment, and environmental justice.

SEHE 131 Global Climate Politics & Policy 4 Lecture, 3 hours; activity, 1 hour; written work, 1 hour; extra reading, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Explores global climate policies in relation to the Global Climate Politics Framework Convention on Climate Change (UNFCCC). Addresses the critique of neoliberal climate policies, the politics of climate justice, and low carbon challenges and opportunities.

SEHE 132 Community Resilience to Climate Change 4 Lecture, 3 hours; activity, 1 hour; research, 1 hour; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Introduction to the theory and practices of climate resilience in rural and

urban settings around the globe. Examines strategies for assessing climate resilience in different communities and building socially just action plans.

SEHE 133 Mindfulness, Climate Action, and Resilience 4 Lecture, 3 hours; activity, 1 hour; written work, 2 hours; extra reading, 2 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Develops personal and social skills to respond to the climate crisis and interrelated global crises the (polycrisis). Reviews climate science and introduces the polycrisis concept. Develops mindfulness and other contemplative practices. Explores strategies for effective climate communication and action to navigate and build a meaningful future. Cross-listed with GBST 133.

SEHE 135 Environmental War Crimes 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Explores when environmental destruction is considered to be a crime of war. Examines how people work to expose hazards, threats, and hidden burdens associated with environmental legacies of war. Addresses how communities pursue ecological recovery in connection with projects that are established to facilitate peacebuilding, reparations, and transformative justice. Credit is awarded for one of the following SEHE 135 or SEHE 135S.

SEHE 135S Environmental War Crimes 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Explores when environmental destruction is considered to be a crime of war. Examines how people work to expose hazards, threats, and hidden burdens associated with environmental legacies of war. Addresses how communities pursue ecological recovery in connection with projects that are established to facilitate peacebuilding, reparations, and transformative justice. Credit is awarded for one of the following SEHE 135S or SEHE 135.

SEHE 136 Environmental Political Thought 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Addresses various philosophical aspects of the human relationship to the environment from social, political, and economic perspectives. Includes debates related to issues such as how should human beings interact with their environment, as well as the relationship of environmental practice to liberalism, democracy, and capitalism. Cross-listed with POSC 106. Credit is awarded for one of the following POSC 106, SEHE 136, POSC 106S, or SEHE 136S.

SEHE 136S Environmental Political Thought 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Addresses various philosophical aspects of the human relationship to the environment from social, political, and economic perspectives. Includes debates related to issues such as how should human beings interact with their environment, as well as the relationship of environmental practice to liberalism, democracy, and capitalism. Cross-listed with POSC 106S. Credit is awarded for one of the following POSC 106S, SEHE 136S, POSC 106, or SEHE 136.

SEHE 137 Environmental Justice and Human Rights 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines how notions of justice and human rights have been brought to bear on environmental and sustainability debates. Also examines the theoretical and historical basis of the environmental justice and human rights movements. Topics include local concerns (including "food deserts") and air pollution, as well as global problems. Cross-listed with POSC 137. Credit is awarded for one of the following POSC 137, SEHE 137, POSC 137S, or SEHE 137S.

SEHE 137S Environmental Justice and Human Rights 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines how notions of justice and human rights have been brought to bear on environmental and sustainability debates. Also examines the theoretical and historical basis of the environmental justice and human rights movements. Topics include local concerns (including "food deserts") and air pollution, as well as global problems. Cross-listed with POSC 137S. Credit is awarded for one of the following POSC 137S, SEHE 137S, POSC 137, or SEHE 137.

SEHE 138 Net Zero Climate, Technology, and Society 4 Lecture, 3 hours; activity, 1 hour; individual study, 1 hour; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines Net-Zero approaches to climate change from interdisciplinary social science perspectives. Considers carbon management technologies such as metal-organic frameworks (MOFs) and artificial photosynthesis as scientific and social products that embody the promises and ironies of technical solutions to climate change.

SEHE 139 Environment, Sustainability, and Society 4 Lecture, 3 hours; individual study, 2 hours; written work, 1 hour. Prerequisite(s): POSC 017 or POSC 020 or POSC 020H or SOC 020; or consent of instructor. Examines the relationship of human society to the natural environment from a multi disciplinary approach. Considers ways in which values, paradigms, policies, technologies, and their interactions have determined humans' current unsustainable relationship with the earth. Explores challenges inherent in moving society toward a more environmentally sustainable future. Cross-listed with POSC 139. Credit is awarded for one of the following POSC 139, SEHE 139, POSC 139S, or SEHE 139S.

SEHE 139S Environment, Sustainability, and Society 5 Lecture, 3 hours; discussion, 1 hour; individual study, 2 hours; written work, 1 hour. Prerequisite(s): POSC 017 or POSC 020 or POSC 020H or SOC 020; or consent of instructor. Examines the relationship of human society to the natural environment from a multi disciplinary approach. Considers the ways in which values, paradigms, policies, technologies, and their interactions have determined humans' current unsustainable relationship with the earth. Explores challenges inherent in moving society toward a more environmentally sustainable future. Cross-listed with POSC 139S. Credit is awarded for one of the following POSC 139S, SEHE 139S, POSC 139, or SEHE 139.

SEHE 141 Gender and Climate Change 4 Lecture, 3 hours; activity, 3 hours. Prerequisite(s): GSST 001 or GSST 001H or GSST 001S; GSST 020 or GSST 020H or GSST 020S or GSST 021. Examines the global social impacts of climate change that are magnified based on existing inequalities. Focuses on the disparity between men and women in their vulnerability and ability to cope with the global phenomenon. Investigates both women as "victims" of global warming and their positive roles in climate change mitigation. Cross-listed with GSST 173.

SEHE 142 Feminisms and Environmentalisms 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): GSST 001 or GSST 001H or GSST 001S; GSST 020 or GSST 020H or GSST 020S or GSST 021. Explores women's and feminist involvement in environmental movements. Examines how gender shapes our relationships with and approaches to environmental problems in the United States and globally. Investigates intersections between feminist concerns (health, reproduction, mothering, gender equity, and social justice) and environmental issues (conservation, pollution and global warming, and sustainability). Cross-listed with GSST 181.

SEHE 144 Modern U.s. Consumer Culture 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines the history of mass consumer culture in the United States. Includes the shift from mass production to mass consumption; the grown in advertising and marketing; relationships of race and gender to the market; impacts on built and natural environment; rise of logistics; and waste. Cross-listed with HISA 119. Credit is awarded for one of the following HISA 119, SEHE 144, HISA 119S, or SEHE 144S.

SEHE 144S Modern U.s. Consumer Culture 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines the history of mass consumer culture in the United States. Includes the shift from mass production to mass consumption; the grown in advertising and marketing; relationships of race and gender to the market; impacts on built and natural environment; rise of logistics;

and waste. Cross-listed with HISA 119S. Credit is awarded for one of the following HISA 119S, SEHE 144S, HISA 119, or SEHE 144.

SEHE 145 Intersectionality, Ecology, and Community Design 4 Lecture, 3 hours; extra reading, 2 hours; research, 4 hours. Prerequisite(s): GSST 021. Introduces theoretical underpinnings of ecological utopias and ecotopias. Examines practical aspects of designing these intentional communities focused on sustainability. Includes discussion and critique of proposed ecotopias, analysis of egalitarian economic systems, inclusive and participatory political institutions, and social mores adopted by existing ecovillages and other sustainable intentional communities. Cross-listed with GSST 145.

SEHE 148 Intersectionality, Ecology, and Design Science 4 Lecture, 3 hours; practicum, 3 hours; extra reading, 2 hours; field, 2 hours; written work, 2 hours. Prerequisite(s): GSST 145, may be taken concurrently. Introduces regenerative design. Emphasizes stability and resiliency of natural systems and intersectional praxis of environmental justice in agricultural and social design. Recognizes sustainable food, water, and shelter requires understanding structures of power that shape and maintain discrimination. Includes agroecology; climate; health; permaculture; intentional communities; social activism; and sustainability. Cross-listed with GSST 148.

SEHE 154 Typhoons and Other Disasters 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, senior, or masters; or consent of instructor. Explores how typhoons and other climatological events inform literatures around the Atlantic, the Indian Ocean, and the Pacific. Addresses themes of coloniality, climate change, diaspora, disaster capitalism, and the Anthropocene. Cross-listed with CPLT 184, and SEAS 154.

SEHE 159 Special Topics in Environmental Studies 4 Lecture, 3 hours; individual study, 1 hour; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Explores specific topics in Environmental Studies. Course content varies and is announced as the course is offered. Course is repeatable as content or topic changes to a maximum of 8 units.

SEHE 160 Introduction to Epidemiology in Global and Community Health 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Introduces methods and applications of epidemiology with emphasis on community and global health. Covers concepts including measures of morbidity and mortality, sources of data, study designs, measures of effect, screening, and practical applications. Addresses chronic and infectious disease epidemiology, public health surveillance systems, and procedures involved in investigating an outbreak.

SEHE 161 Reproductive Justice 4 Lecture, 3 hours; research, 1 hour; individual study, 3 hours; written work, 2 hours; extra reading, 2 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Introduces reproductive justice concepts of intersectionality, systemic oppression, the triple pillar approach, and human rights. Analyzes inequality and power in shaping the reproductive contexts of people's lives, behaviors, and outcomes. Cross-listed with GSST 164.

SEHE 162 Giving Birth 4 Lecture, 3 hours; term paper, 1 hour; extra reading, 2 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines maternal care in the U.S. and worldwide. Analyzes childbirth as a social practice and a cultural construction. Topics include maternal mortality and morbidity, childbirth in different cultures, medicalization of childbirth, alternative and natural birth movements, media representations of childbirth, birth stories, and attitudes toward cesarean section.

SEHE 163 Globalizing Roe: the Past, Present, and Future of Abortion Worldwide 4 Lecture, 3 hours; extra reading, 1 hour; written work, 1 hour; research, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Surveys the modern history of abortion policy and provision from legal, medical, religious, and public health perspectives. Centers the lived experiences of different individuals in their need to access abortion from a global lens.

SEHE 168 Interpersonal Relationship Violence 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 001 with a grade of C- or better or SOC 001H with a grade of C- or better; SOC 004 with a grade of C- or better; SOC 005 with a grade of C- or better; or consent of instructor. Addresses causes, identification, and prevention of and responses to interpersonal relationship violence, such as family violence and partner violence. Examines theories and research findings for practical field application. Promotes better understanding of this common social problem and prepares for careers involving contact with victims and/or perpetrators of relationship violence. Cross-listed with SOC 144.

SEHE 170H Aging in America 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Explores special topics in sociology. Segment H may be offered online or in-person. H. Aging In America; M. Geographic Inform Sysms & Mapping In Soc & Other Social Sciences: principles, Techniques, & Research; P. Poverty And Welfare; W. Social Mobility. Cross-listed with SEHE 170 (E-Z), and SOC 183 (E-Z).

SEHE 170M Geographic Inform Sysms & Mapping in Soc & Other Social Sciences:principles, Techniques, & Research 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Explores special topics in sociology. Segment H may be offered online or in-person. H. Aging In America; M. Geographic Inform Sysms & Mapping In Soc & Other Social Sciences: principles, Techniques, & Research; P. Poverty And Welfare; W. Social Mobility. Cross-listed with SEHE 170 (E-Z), and SOC 183 (E-Z).

SEHE 170P Poverty and Welfare 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Explores special topics in sociology. Segment H may be offered online or in-person. H. Aging In America; M. Geographic Inform Sysms & Mapping In Soc & Other Social Sciences: principles, Techniques, & Research; P. Poverty And Welfare; W. Social Mobility. Cross-listed with SEHE 170 (E-Z), and SOC 183 (E-Z).

SEHE 170W Social Mobility 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Explores special topics in sociology. Segment H may be offered online or in-person. H. Aging In America; M. Geographic Inform Sysms & Mapping In Soc & Other Social Sciences: principles, Techniques,& Research; P. Poverty And Welfare; W. Social Mobility. Cross-listed with SEHE 170 (E-Z), and SOC 183 (E-Z).

SEHE 172 Public Health: Then and Now 4 Lecture, 3 hours; research, 1 hour; extra reading, 1 hour; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Surveys the modern history of societal attempts to protect the health of human populations. Focuses on the lived experiences of individuals and cultures in the development of public health globally.

SEHE 173 Disease and Society 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Covers a world history of disease and how it relates to cultural shocks, environmental change, and survival. Evaluates the complex and reciprocal relationship between illness and society, and the historical dynamics around power, race, gender, and class which define disease and shape life chances, medicine and health. Cross-listed with HIST 107.

SEHE 174 Eugenics, Disability and Social Justice 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines the intersections of race, disability, and the history and legacy of eugenics. Explores how theories of hereditary fitness shaped categories and experiences of disability, citizenship, reproduction, and race.

SEHE 175 Transforming Toxic Jobs: Health and Work in the United States 4 Lecture, 3 hours; research, 1 hour; written work, 1 hour; extra reading, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines research on health and work including occupational health; how work and employment impact health outcomes and health care; work experiences of health care providers; and the role of policies and organized efforts by workers, their allies, and clients to improve health and well-being

at work and in the community. Cross-listed with LABR 175.

SEHE 176 Race, Gender, and Health: Diasporic Perspectives 4 Lecture, 3 hours; research, 1 hour; extra reading, 1 hour; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Surveys ways in which historical legacies of slavery and racialization affect the health of racialized peoples from a diasporic perspective. Focuses on (but not limited to) the African diaspora in the Americas. Offered online only.

SEHE 179 Politics of Global Health 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Explores the intersection of politics and global health focusing on how political decisions, international relations, and power dynamics shape health outcomes globally. Topics include health governance, policy-making processes, human rights, the role of international organizations, and the impact of political and economic systems on health equity. Cross-listed with POSC 179. Credit is awarded for one of the following POSC 179, SEHE 179, POSC 179S, or SEHE 179S.

SEHE 179S Politics of Global Health 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Explores the intersection of politics and global health focusing on how political decisions, international relations, and power dynamics shape health outcomes globally. Topics include health governance, policy-making processes, human rights, the role of international organizations, and the impact of political and economic systems on health equity. Cross-listed with POSC 179S. Credit is awarded for one of the following POSC 179S, SEHE 179S, POSC 179, or SEHE 179.

SEHE 181 Anthropology of Human Immunodeficiency Virus (hiv) 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. A cross-cultural examination of the global Human Immunodeficiency Virus (HIV) epidemic from an anthropological perspective. Cross-listed with ANTH 144I.

SEHE 182 Drugs and Culture 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. A cross-cultural examination of drug use and its relation to race, class, gender, morality, laws, and health policy. Cross-listed with ANTH 144K.

SEHE 183 Anthropology of Global Health 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines the overlaps, debates, and potential of medical anthropology to address contemporary issues in global health. Focuses on how the historical development, theoretical frameworks, methodological approaches, and ethical debates within medical anthropology can contribute to a just and inclusive version of global health. Cross-listed with ANTH 144N.

SEHE 189 Special Topics in Global and Community Health 4 Lecture, 3 hours; individual study, 1 hour; extra reading, 1 hour; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Explores specific topics in Global and Community Health. Topics are announced in the Schedule of Classes. Course is repeatable as content or topic changes to a maximum of 8 units.

SEHE 190 Special Studies 1 to 5 Consultation, 1 hour; activity, 2 to 15 hours. Prerequisite(s): restricted to class level standing of junior, or senior; and consent of instructor. Individual study directed by a faculty member to meet special curricular needs. Course is repeatable to a maximum of 15 units.

SEHE 191 SEHE Seminar 1 or 2 Seminar, 1 or 2 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Features researchers, community organizers, and professionals in environmental justice and health equity. Provides opportunities to build relationships, network, participate in the SEHE community, and engage in experiential education. Student-organized and faculty-supervised. Topics include Latinx and the environment, climate and health, and SEHE research in progress. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as content or topic changes to a maximum of 12 units.

SEHE 193 Capstone in Society, Environment & Health Equity 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): SEHE 101; restricted to class level standing of junior, or senior; or consent of instructor. Completion of a capstone project that synthesizes and integrates the knowledge and skills obtained throughout the program. Develops skills in the formulation of research questions on topics in Society, Environment, and Health Equity, the use of primary or secondary data, and theory. Course is repeatable to a maximum of 8 units.

SEHE 197 Research For Undergraduates 1 to 4 Seminar, 1 hour; research, 3 to 12 hours. Prerequisite(s): restricted to class level standing of junior, or senior; and consent of instructor. Provides letter grade for written term paper or oral presentation; otherwise, provides only Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 12 units.

SEHE 198G Group Internship in Labor Studies and Society, Environment, and Health Equity 4 Seminar, 3 hours; internship, 1 hour; written work, 1 hour; extra reading, 1 hour. Prerequisite(s): LABR 001 or SEHE 001 or SEHE 002 or SEHE 002S; restricted to major(s) Environmental Studies, Global and Community Health, Labor Studies; completion of internship activities for 3 hours per week before enrollment; and consent of instructor. Examines strategies for organizing and advocating for environmental justice and health equity within working class communities generally and within the Inland Empire. Provides hands-on professional experiences with community organizations related to environment and/or health justice. Critically reflects on internship experiences through course readings, in-class discussions, writing assignments, and oral presentations. Course is repeatable to a maximum of 16 units. Cross-listed with LABR 198G.

SEHE 198I Individual Internship in Society, Environment, and Health Equity 1 to 12 Research, 1 to 12 hours; internship, 2 to 24 hours. Prerequisite(s): restricted to class level standing of junior, or senior; and consent of instructor. An individual internship in a community or professional organization in matters relating to environmental studies and/or global and community health to gain professional experience and skills. Course is repeatable to a maximum of 12 units.

SFCS 001 Introduction to Speculative Fiction and Cultures of Science 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. Investigates the relationship among science, technology, medicine, and the genre of science fiction. Emphasizes exchanges between technology and popular culture. Covers fiction by H.G. Wells, Kim Stanley Robinson, and Nancy Kress and critical readings by Steven Shafer, Donna Haraway, and Bruno Latour.

SFCS 123 Reclaiming the Dark: Black Life Is Speculative Fiction 4 Lecture, 3 hours; activity, 2 hours; extra reading, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Explores alternative states of being, doing, and imagining in, around, and through Black life and culture. Covers writers, artists, and activists such as Octavia Butler, Toni Morrison, Cedric Robinson, the Combahee River Collective, N. K. Jemisin, Adrienne Maree Brown, Kevin Quashie, Nnedi Okorafor, and Ursula K. Le Guin. Cross-listed with BLKS 123.

SFCS 193 Senior Seminar in Speculative Fiction and Cultures of Science 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): SFCS 001; or consent of instructor. Develops skills in the formulation and investigation of research questions in science fiction and technoculture studies. Synthesizes and integrates knowledge and skills obtained in the minor. Includes a major research project and presentations by guest speakers.

Kirk Williams, Ph.D.

Majors

Sociology is the scientific study of human behavior, interaction and organization. It provides a historical and comparative perspective on human societies and offers a framework for understanding society and the complex social world.

Students majoring in sociology can choose between a B.A. or B.S. degree. The department also offers majors in Sociology/Administrative Studies, and Sociology/Law and Society; as well as a minor in sociology. All students must meet quarterly prior to course enrollment with the student affairs officer or the undergraduate advisor to develop a program of studies.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

Sociology Major

The major requirements for the B.A. and B.S. degrees in Sociology are as follows:

For the Bachelor of Arts

Sociology Department requirements (14 courses [at least 56 units])

Students will not be admitted into the major until lower-division requirements are satisfied. All courses in the major must be taken for a letter grade.

1. **Lower-division requirements (5 courses [at least 20 units])**
   a) SOC 001 or SOC 001H with a grade of "C-" or better
   b) SOC 003, SOC 004, SOC 005 with a grade of "C-" or better in each
   c) One additional lower-division Sociology courses with a grade of "C-" or better
2. **Upper-division requirements (9 courses [at least 36 units])**
   a) SOC 168 or SOC 169
   b) A minimum of one course each selected from four of the following five areas of emphasis:
      (1) **Social Institutions, Organizations and Change:** SOC 112, SOC 121, SOC 122, SOC 123, SOC 125, SOC 137, SOC 139/MCS 139, SOC 143/URST 143, SOC 150, SOC 151, SOC 156, SOC 160, SOC 176/BUS 176, SOC 179, SOC 181, SOC 182/URST 182, SOC 184
      (2) **Social Psychology:** SOC 173, SOC 174, SOC 175, SOC 177 E-Z, SOC 178, SOC 186E, SOC 186F, SOC 186G
      (3) **Social Inequality:** SOC 128, SOC 129, SOC 130, SOC 131 E-Z, SOC 132, SOC 133, SOC 135, SOC 161, SOC 162, SOC 163, SOC 164, SOC 165
      (4) **Criminology and Deviance:** SOC 134, SOC 144, SOC 145, SOC 147, SOC 149, SOC 159, SOC 180
      (5) **Family and Gender:** SOC 140, SOC 141, SOC 142, SOC 146, SOC 155 E-Z
   c) An additional four elective courses (at least 16 units) in Sociology (No more than 5 units from any combination of SOC 190, SOC 197, SOC 198-I.)

For the Bachelor of Science

Sociology Department requirements (16 courses [at least 64 units])

Students will not be admitted into the major until lower-division requirements are satisfied. All courses in the major must be taken for a letter grade.

1. **Lower-division requirements (5 courses [at least 20 units])**
   a) SOC 001 or SOC 001H with a grade of "C-" or better
   b) SOC 003, SOC 004, SOC 005 with a grade of "C-" or better in each
   c) One additional lower-division Sociology courses with a grade of "C-" or better
2. **Upper-division requirements (11 courses [at least 44 units])**
   a) SOC 110, SOC 168, SOC 169
   b) A minimum of one course each selected from four of the following five areas of emphasis:
      (1) **Social Institutions, Organizations and Change:** SOC 112, SOC 121, SOC 122, SOC 123, SOC 125, SOC 126, SOC 137, SOC 139/MCS 139, SOC 143/URST 143, SOC 150, SOC 151, SOC 156, SOC 160, SOC176/BUS 176, SOC 179, SOC 181, SOC 182/URST 182, SOC 184
      (2) **Social Psychology:** SOC 173, SOC 174, SOC 175, SOC 177 E-Z, SOC 178, SOC 186E, SOC 186F, SOC 186G
      (3) **Social Inequality:** SOC 128, SOC 129, SOC 130, SOC 131 E-Z, SOC 132, SOC 133, SOC 135, SOC 161, SOC 162, SOC 163, SOC 164, SOC 165
      (4) **Criminology and Deviance:** SOC 134, SOC 144, SOC 145, SOC 147, SOC 149, SOC 159, SOC 180
      (5) **Family and Gender:** SOC 140, SOC 141, SOC 142, SOC 146, SOC 155 E-Z
   c) An additional four elective courses (at least 16 units) in Sociology (No more than 5 units from any combination of SOC 190, SOC 197, SOC 198-I.)

Sociology/Administrative Studies Major

The major requirements for the B.A. and B.S. degree in Sociology/Administrative Studies are as follows:

For the Bachelor of Arts

Sociology Department requirements (14 courses [at least 56 units])

Students will not be admitted into the major until lower-division requirements are satisfied. All courses in the major must be taken for a letter grade.

1. **Lower-division requirements (5 courses [at least 20 units])**
   a) SOC 001 or SOC 001H with a grade of "C-" or better
   b) SOC 003, SOC 004, SOC 005 with a grade of "C-" or better in each
   c) One additional lower-division Sociology courses with a grade of "C-" or better
2. **Upper-division requirements (9 courses [at least 36 units])**
   a) SOC 168 or SOC 169
   b) A minimum of one course each selected from four of the following five areas of emphasis:
      (1) **Social Institutions, Organizations and Change:** SOC 112, SOC 121, SOC 122, SOC 123, SOC 125, SOC 126, SOC 137, SOC 139/MCS 139, SOC 143/URST 143, SOC 150, SOC 151, SOC 156, SOC 160, SOC 176/BUS 176, SOC 179, SOC 181, SOC 182/URST 182, SOC 184
      (2) **Social Psychology:** SOC 173,

SOC 174, SOC 175, SOC 177 E-Z, SOC 178, SOC 186E, SOC 186F, SOC 186G

(3) **Social Inequality:** SOC 128, SOC 129, SOC 130, SOC 131 E-Z, SOC 132, SOC 133, SOC 135, SOC 161, SOC 162, SOC 163, SOC 164, SOC 165

(4) **Criminology and Deviance:** SOC 134, SOC 144, SOC 145, SOC 147, SOC 149, SOC 159, SOC 180

(5) **Family and Gender:** SOC 140, SOC 141, SOC 142, SOC 146, SOC 155 E-Z

c) An additional four elective courses (at least 16 units) in Sociology (No more than 5 units from any combination of SOC 190, SOC 197, SOC 198-I.)

Administrative Studies requirements (37 units)

. **Lower-division courses (17 units)**

a) BUS 010, BUS 020

b) STAT 008 or equivalent (may be used to satisfy breadth requirements)

c) CS 008 (may be used to satisfy breadth requirements)

2. **Upper-division requirements (20 units)**

a) Two courses (8 units) from the list below:

(1) ECON 102 or ECON 103 or ECON 104A or ECON130 or ECON 162/BUS 162

(2) PSYC 140 or PSYC 142

(3) SOC 150 or SOC 151

(4) POSC 181 or POSC 182E or POSC 182G or POSC 183 or POSC 186

(5) ANTH 127 or ANTH 127S or ANTH 131

These two courses must be outside the discipline of Sociology and cannot be courses included as part of the three-course Business Administration track or their cross-listed equivalents.

b) A three-course track (12 units) in Business Administration courses from one of the following:

(1) **Organizations (General):** BUS 100W, BUS 107, BUS 158/ANTH 105, BUS 176/ SOC 176, SOC 150, SOC 151

(2) **Human Resources Management/ Labor Relations:** BUS 100W, BUS 107, BUS 121, BUS 144, BUS 145, BUS 153/ ECON 153, BUS 155, BUS 156, BUS 157, PSYC 142

(3) **Business and Society:** BUS 100W, BUS 102, BUS 107, PHIL 116, POSC 182E or POSC 182G, POSC 186

(4) **Marketing:** BUS 103, and two from BUS 111, BUS 112, BUS 113, BUS 114, BUS 115, BUS 116, BUS 117, BUS 118, BUS 119, BUS 124, BUS 126, BUS 151, BUS 152, BUS 159, BUS 164, BUS 182

(5) **Managerial Accounting/Taxation:** BUS 108, and two from BUS 166, BUS 168A, BUS 168B

(6) **Financial Accounting:** BUS 108, BUS 165A, BUS 165B, BUS 165C, BUS 167

(7) **Finance:** BUS 106/ECON 134 and two from BUS 131, BUS 132, BUS 134, BUS 135, BUS 136, BUS 137, BUS 138, BUS 139 BUS 140E, BUS 141, BUS 147

(8) **Management Information Systems:** BUS 101, BUS 110, BUS 125, BUS 128, BUS 171, BUS 172, BUS 173, BUS 174, BUS 175, BUS 179

(9) **Production Management:** BUS 104/ STAT 104, and two from BUS 105, BUS 122, BUS 127/STAT 127

Note: In filling the dual requirements of the selected major, students may not count more than two courses toward both parts of their total requirements (Sociology requirements and Administrative Studies requirements).

For the Bachelor of Science

Sociology Department requirements (16 courses [at least 64 units])

Students will not be admitted into the major until lower-division requirements are satisfied. All courses in the major must be taken for a letter grade.

1. **Lower-division requirements (5 courses [at least 20 units])**

a) SOC 001 or SOC 001H with a grade of "C-" or better

b) SOC 003, SOC 004, SOC 005 with a grade of "C-" or better in each

c) One additional lower-division Sociology courses with a grade of "C-" or better

2. **Upper-division requirements (11 courses [at least 44 units])**

a) SOC 110, SOC 168, SOC 169

b) A minimum of one course each selected from four of the following five areas of emphasis:

(1) **Social Institutions, Organizations and Change:** SOC 112, SOC 121, SOC 122, SOC 123, SOC 125, SOC 126, SOC 137, SOC 139/MCS 139 SOC 143/URST 143, SOC 150, SOC 151, SOC 156, SOC 160, SOC 176/BUS 176, SOC 179, SOC 181, SOC 182/URST 182, SOC 184

(2) **Social Psychology:** SOC 173, SOC 174, SOC 175, SOC 177 E-Z, SOC 178, SOC 186E, SOC 186F, SOC 186G

(3) **Social Inequality:** SOC 128, SOC 129, SOC 130, SOC 131 E-Z, SOC 132, SOC 133, SOC 135, SOC 161, SOC 162, SOC 163, SOC 164, SOC 165

(4) **Criminology and Deviance:** SOC 134, SOC 144, SOC 145, SOC 147, SOC 149, SOC 159, SOC 180

(5) **Family and Gender:** SOC 140, SOC 141, SOC 142, SOC 146, SOC 155 E-Z

c) An additional four elective courses (at least 16 units) in Sociology (No more than 5 units from any combination of SOC 190, SOC 197, SOC 198-I.)

Administrative Studies requirements (37 units)

1. **Lower-division courses (17 units)**

a) BUS 010, BUS 020

b) STAT 008 or equivalent (may be used to satisfy breadth requirements)

c) CS 008 (may be used to satisfy breadth requirements)

2. **Upper-division requirements (20 units)**

a) Two courses (8 units) from the list below:

(1) ECON 102 or ECON 103 or ECON 104A or ECON130 or ECON 162/BUS 162

(2) PSYC 140 or PSYC 142

(3) SOC 150 or SOC 151

(4) POSC 181 or POSC 182E or POSC 182G or POSC 183 or POSC 186

(5) ANTH 127 or ANTH 127S or ANTH 131

These two courses must be outside the discipline of Sociology and cannot be courses included as part of the three- course Business Administration track or their cross-listed equivalents.

b) A three-course track (12 units) in Business Administration courses from one of the following:

(1) **Organizations (General):** BUS 100W, BUS 107, BUS 158/ANTH 105, BUS 176/ SOC 176, SOC 150, SOC 151

(2) **Human Resources Management/ Labor Relations:** BUS 100W, BUS 107, BUS 121, BUS 144, BUS 145, BUS 153/ ECON 153, BUS 155, BUS 156, BUS 157, PSYC 142

(3) **Business and Society:** BUS 100W, BUS 102, BUS 107, PHIL 116, POSC182, POSC 186

(4) **Marketing:** BUS 103, and two from BUS 111, BUS 112, BUS 113, BUS 114, BUS 115, BUS 116, BUS 117, BUS 118, BUS 119, BUS 124, BUS 126, BUS 151, BUS 152, BUS 159, BUS 164, BUS 182

(5) **Managerial Accounting/Taxation:** BUS 108, and two from BUS 166, BUS 168A, BUS 168B

(6) **Financial Accounting:** BUS 108, BUS 165A, BUS 165B, BUS 165C, BUS 167

(7) **Finance:** BUS 106/ECON 134 and two from BUS 131, BUS 132, BUS 134, BUS 135, BUS 136, BUS 137, BUS 138, BUS 139 BUS 140E, BUS 141, BUS 147

(8) **Management Information Systems:** BUS 101, BUS 110, BUS 125, BUS 128, BUS 171, BUS 172, BUS 173, BUS 174, BUS 175, BUS 179

(9) **Production Management:** BUS 104/ STAT 104, and two from BUS 105, BUS 122, BUS 127/STAT 127

Note: In filling the dual requirements of the selected major, students may not count more than two courses toward both parts of their total requirements (Sociology requirements and Administrative Studies requirements).

Sociology/Law and Society Major

The major requirements for the B.A. and B.S. degrees in Sociology/Law and Society are as follows:

For the Bachelor of Arts

Sociology Department requirements (14 courses [at least 56 units])

The Law and Society major is open to undergraduate students with junior standing who

have completed LWSO 100 with a grade of "C" or higher. Students will not be admitted into the major until lower-division SOC requirements are satisfied. All courses in the major must be taken for a letter grade.

1. **Lower-division requirements (5 courses [at least 20 units])**
   a) SOC 001 or SOC 001H with a grade of "C-" or better
   b) SOC 003, SOC 004, SOC 005 with a grade of "C-" or better in each
   c) One additional lower-division Sociology courses with a grade of "C-" or better
2. **Upper-division requirements (9 courses [at least 36 units])**
   a) SOC 168 or SOC 169
   b) A minimum of one course each selected from four of the following five areas of emphasis:
      (1) **Social Institutions, Organizations and Change:** SOC 112, SOC 121, SOC 122, SOC 123, SOC 125, SOC 137, SOC 143/URST 143, SOC 150, SOC 151, SOC 156 SOC 160, SOC 176/BUS 176, SOC 179, SOC 181, SOC 182/URST 182, SOC 184
      (2) **Social Psychology:** SOC 173, SOC 174, SOC 175, SOC 177 E-Z, SOC 178, SOC 186E, SOC 186F, SOC 186G
      (3) **Social Inequality:** SOC 128, SOC 129, SOC 130, SOC 131 E-Z, SOC 132, SOC 133, SOC 135, SOC 161, SOC 162, SOC 163, SOC 164, SOC 165
      (4) **Criminology and Deviance:** SOC 134, SOC 144, SOC 145, SOC 147, SOC 149, SOC 159, SOC 180
      (5) **Family and Gender:** SOC 140, SOC 141, SOC 142, SOC 146, SOC 155 E-Z
   c) An additional four elective courses (at least 16 units) in Sociology (No more than 5 units from any combination of SOC 190, SOC 197, SOC 198-I.)

Law and Society requirements (36 units)

a) PHIL 007 or PHIL 007H
b) LWSO 100 (with a grade of "C" or better)
c) One course chosen from POSC 114, PSYC 012, SOC 004 (or equivalent course in research methods)
d) Three courses chosen from ANTH 127, ECON 119, HISE 153, PHIL 165, POSC 167, PSYC 175, SOC 159.
e) Two courses chosen from HISA 120A, HISA 120B, HISE 123, LWSO 175 (E-Z), PHIL 164, POSC 111, POSC 166, POSC 168, POSC 186, SOC 147, SOC 149, SOC 180.
f) LWSO 193, Senior Seminar

Note: For sections d) and e) combined, not more than two courses may be taken from the same department. In filling the dual requirements of the major, students may not count more than two courses toward both parts of their total requirements (Sociology requirements and Law and Society requirements).

For the Bachelor of Science

Sociology Department requirements (16 courses [at least 64 units])

The Law and Society major is open to undergraduate students with junior standing who have completed LWSO 100 with a grade of "C" or higher. Students will not be admitted into the major until lower-division SOC requirements are satisfied. All courses in the major must be taken for a letter grade.

1. **Lower-division requirements (5 courses [at least 20 units])**
   a) SOC 001 or SOC 001H with a grade of "C-" or better
   b) SOC 003, SOC 004, SOC 005 with a grade of "C-" or better in each
   c) One additional lower-division Sociology courses with a grade of "C-" or better
2. **Upper-division requirements (11 courses [at least 44 units])**
   a) SOC 110, SOC 168, SOC 169
   b) A minimum of one course each selected from four of the following five areas of emphasis:
      (1) **Social Institutions, Organizations and Change:** SOC 112, SOC 121, SOC 122, SOC 123, SOC 125, SOC 126, SOC 137, SOC 139/MCS 139, SOC 143/URST 143, SOC 150, SOC 151, SOC 156, SOC 160, SOC 176/BUS 176, SOC 179, SOC 182/URST 182, SOC 181, SOC 184
      (2) **Social Psychology:** SOC 173, SOC 174, SOC 175, SOC 177 E-Z, SOC 178, SOC 186E, SOC 186F, SOC 186G
      (3) **Social Inequality:** SOC 128, SOC 129, SOC 130, SOC 131 E-Z, SOC 132, SOC 133, SOC 135, SOC 161, SOC 162, SOC 163, SOC 164, SOC 165
      (4) **Criminology and Deviance:** SOC 134, SOC 144, SOC 145, SOC 147, SOC 149, SOC 159, SOC 180
      (5) **Family and Gender:** SOC 140, SOC 141, SOC 142, SOC 146, SOC 155 E-Z
   c) An additional four elective courses (at least 16 units) in Sociology (No more than 5 units from any combination of SOC 190, SOC 197, SOC 198-I.)

Law and Society requirements (36 units)

a) PHIL 007 or PHIL 007H
b) LWSO 100 (with a grade of "C" or better)
c) One course chosen from POSC 114, PSYC 012, SOC 004 (or equivalent course in research methods)
d) Three courses chosen from ANTH 127, ECON 119, HISE 153, PHIL 165, POSC 167, PSYC 175, SOC 159.
e) Two courses chosen from HISA 120A, HISA 120B, HISE 123, LWSO 175 (E-Z), PHIL 164, POSC 111, POSC 166, POSC 168, POSC 186, SOC 147, SOC 149, SOC 180.
f) LWSO 193, Senior Seminar

Note: For sections d) and e) combined, not more than two courses may be taken from the same department. In filling the dual requirements of the major, students may not count more than two courses toward both parts of their total requirements (Sociology requirements and Law and Society requirements).

Minor

The requirements for the minor in Sociology are as follows:

1. **SOC 001, SOC 004, SOC 005**
2. **Sixteen (16) upper-division units from**
   a) SOC 168 or SOC 169
   b) Any three additional upper-division courses in Sociology with no more than 4 units in any combination of SOC 190, SOC 197, SOC 198-I

There can be no substitution for the courses listed without prior departmental approval.

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Sociology Undergraduate Honors Program

Students who meet the departmental requirements for academic excellence are invited at the end of their junior year to participate in the Sociology Undergraduate Honors Program during their senior year. The students enroll in SOC 195 to work on an honors thesis under the supervision of a faculty member, for a total of 12 units distributed over three quarters. Students in the program also participate in SOC 199H, a year-long seminar led by the chair of Undergraduate Affairs Committee, for which they receive a total of 3 additional units of credit.

Education Abroad

Education Abroad is an excellent opportunity to learn more about another country and its culture while taking courses to earn units toward graduation. Students should plan study abroad well in advance to ensure that the courses taken fit with their overall program at UCR. Consult the departmental student affairs officer for assistance. For further details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

Graduate Program

The Department of Sociology offers the M.A. and Ph.D. degrees in Sociology. The graduate program in Sociology is designed to prepare students for research and teaching careers in the discipline of sociology. The graduate program is designed as a full-time course of study for students seeking the Ph.D. degree. The M.A. degree in Sociology is awarded as part of a student's required progress toward admittance into the Ph.D. program in Sociology. The Department of Sociology does not award an M.A. degree to a student who already received an M.A. degree in Sociology from another institution.

Doctoral Degree

Admission

Admission into the graduate program is based

on the following criteria:

1. Prior academic performance, especially in undergraduate or graduate Sociology classes
2. Letters of reference from persons familiar with an applicant's potential for achieving academic excellence
3. The extent to which an applicant's areas of expressed interest coincide with teaching and research emphases in the department
4. A writing sample: a professional or term paper
5. Record of overcoming adversity and contributions to diversity
6. Motivation to study, passion for, commitment to, and creativity in sociology

In general, students are admitted for the fall quarter of each academic year. Applicants to the graduate program for mid-year admissions are not recommended because the sequence of core courses is designed to begin with the fall quarter. The deadline for an application for admission for the fall quarter is December 5, also the deadline for various university fellowship programs. A detailed statement of degree requirements and procedures for the graduate degree is available at **https://sociology.ucr.edu/prospective-grad-student-info/** General university requirements of the Graduate Division are at **graduate.ucr.edu** and in the Graduate Studies section of this catalog.

The graduate program is designed to allow students to proceed through three distinct stages in their pursuit of the Ph.D. degree: the basic core program, the period of specialization, and writing the dissertation.

Basic Core Program
All students must complete the basic core program, regardless of whether they hold a baccalaureate or master's degree at the time of admission. A student is expected to complete the basic core program in not less than three and not more than six academic quarters. The chair of the graduate affairs committee advises students about the core program.

Course Requirements for the Core Program

1. In the core program, the minimum requirement is 44 units of academic work with no grade less than a "B". Work in the basic core courses must be distributed as follows:
   a) **Core sequence in theory:** SOC 202A, SOC 202B
   b) **Core course in research design:** SOC 200
   c) **Core sequence in qualitative methodology:** SOC 204A, SOC 204B
   d) **Core sequence in statistics:** SOC 203A, SOC 203B
   e) **Proseminar in Sociology:** SOC 232
   f) **Research colloquium:** SOC 293 (required in the first year)
   g) **Thesis writing:** SOC 250
   h) **A minimum of one course from each of two specialization areas** (excluding all courses in a-g above, as well as SOC 205, SOC 206, SOC 208, SOC 258, SOC 290, SOC 291, SOC 297, SOC 293, SOC 299, SOC 301 and SOC 401).

Format for Defenses and Oral Exam
As explained below, the department requires an MA thesis defense, an oral exam, and a dissertation defense. The department will allow any of the following formats for the defenses and exam: in person, hybrid, and remote. The student's committee chair will decide the format, taking into consideration the preferences of the student and committee members. In the case of hybrid exams, 1) anyone (student or committee member) can be in person and anyone can be online; and 2) the student, if participating in person, may participate without anyone else present in person.

M.A. Thesis and Oral Examination
Each student must complete a thesis for completion of the master's degree. This paper reflects the student's areas of theoretical and substantive interest since entrance into the program, and it is written in a form, content, and style appropriate for publication. A three-person faculty committee oversees the evaluation of the paper and the oral defense of the thesis. See **Format for Defenses and Oral Exam** section above for details on the format for the defense. The thesis must be completed and presented to the full department by the end of the student's sixth quarter of enrollment. If a student does not possess a Sociology MA from another institution and wishes to apply for the MA degree at UCR, the thesis must be submitted electronically to the Graduate Division, following the formatting guidelines provided on the Graduate Division web page. The normative time to an MA degree is 2 years.

On the basis of a favorable recommendation from the three-person faculty committee, the faculty votes to recommend the awarding of the M.A. degree in Sociology. If the M.A. is awarded or if the student already has an M.A. in Sociology, the faculty then votes on whether the student should continue in the Ph.D. program. If a student is allowed to continue in the Ph.D. program, the faculty then votes on whether to accept the two areas of specialization in which the student requests to be examined.

Professional Development Training
Each student must complete the following professional training courses: Soc 232 and Soc 293. Normally Soc 232 (Proseminar in Sociology) is completed in the fall of the first year as part of the core program. Soc 293 (Research Topics in Sociology) is required in the first year. In addition, Sociology 301: Directed Studies in the Teaching of Sociology is required prior to or concurrent with the completion of teaching assistantships in the program.

Period of Specialization
After admission to two areas of specialization (see M.A. Thesis and Oral Examination, above), students must complete coursework and qualifying examinations in two (one primary and one secondary) areas of specialization. A student must complete specialization coursework with a grade of "B" or better in each course. Other graduate-level courses may be used to fulfill this requirement with Graduate Affairs Committee approval. The areas of specialization offered in the department, and course requirements in these areas, are as follows:

1. **Criminology and Sociolegal Studies**
   SOC 249. Two (if primary) or one (if secondary) of the following SOC courses: 264F, 268, 278, 279, 280E, 280F, 280G, 280I, 280J, 280K, 280M, 280S.
2. **Gender Studies**
   Two (if primary) or one (if secondary) of the following SOC courses: 240, 256, 262, 264E, 264F, 264G, 264M, 264P, 264T, 268, 285N.
3. **Medical Sociology**
   SOC 284 and SOC 288. If primary, one additional from the following SOC courses: 286, 287.
4. **Organizations and Institutions**
   Either SOC 244 or SOC 245. Two (if primary) or one (if secondary) of the following SOC courses: 242M, 243R, 243S, 253, 255I, 255L, 255M, 255N, 255O, 257E, 257F, 257G, 257J, 258, 263, 271, 280J
5. **Political Economy and Global Social Change**
   SOC 281. Two (if primary) or one (if secondary) of the following SOC courses: 243J, 243K, 243S, 251, 252, 255M, 257E, 255N, 257J, 258, 261, 263, 264M, 264P, 264T, 265J, 271, and 282. 258 can be taken to fulfill the specialization requirement or the advanced methods requirement, but not both. SOC 259 and SOC 260 are two unit courses that can be combined to substitute for one of the four unit courses listed above.
6. **Race and Class Inequality**
   SOC 246. Two (if primary) or one (if secondary) of the following SOC courses: 265F, 265I, 265J, 265R, 266, 267, 268, 271, 282. ETST 221 and ETST 245 also satisfy this requirement when taught by Dr. Mirandé.
7. **Social Psychology**
   SOC 248. Two (if primary) or one (if secondary) of the following SOC courses: 285E, 285F, 285G, 285I, 285J, 285K, 285N, 285S.

A student's program must include at least one academic quarter of classroom teaching experience at the college level. In addition, students must take one course in any area of specialization and at least one course (or the equivalent, 4 units) of advanced methods from within the department (SOC 205, SOC 206, SOC 208, SOC 258) with a grade of "B" or better in each course. Students must also give one additional research presentation (to the presentation of the MA) as part of the department colloquium series at some point in Years 3 through degree completion. All required coursework must be completed by the end of year three (9th quarter).

Examination Sequence

1. Standing committees composed of faculty in each area administer the written qualifying examination in the student's primary and secondary areas of specialization. A student must complete written examinations in each area of specialization before the end of the fourth year of graduate study. Note In lieu of an exam in a secondary specialization, a student may produce, during the student's residence in the program, a soloauthored paper

that has been published or accepted for publication as a peer-reviewed article or book chapter that fits the secondary specialization, as determined by the chair of the secondary specialization committee. If the MA thesis for the program is ultimately published, this published piece cannot count as the published paper for the secondary specialization.

2. Upon completion of 1) the two written area examinations, 2) the selection of a dissertation committee approved by the graduate advisor, and
3. a dissertation proposal, the student must complete and pass an oral examination covering the areas of specialization and the dissertation proposal. The oral examination is conducted by a committee of at least five faculty members, including 1) at least one faculty member from each of the two specialization areas, 2) three members of the student's dissertation committee (who may also represent the areas of specialization), and 3) one "outside member" from another department representing the faculty as a whole. See **Format for Defenses and Oral Exam** section above for details on the format for the oral exam.

Students who pass the oral examination and all course requirements are advanced to candidacy for the Ph.D. degree.

Dissertation and Final Oral Examination
The dissertation is normally completed within one year after advancement to candidacy. After the dissertation is prepared according to the rules and format of the Graduate Division and signed and approved by a student's dissertation committee, an oral defense of the dissertation is held. See **Format for Defenses and Oral Exam** section above for details on the format for the defense. The defense may be waived in exceptional circumstances. The dissertation must be filed electronically with the Graduate Division.

Normative Time to Degree for the PhD is 6 years, inclusive.

Lower-Division Courses

SOC 001 Introduction to Sociology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Covers the basic concepts and theories relating to the study of humans as participants in group life, analysis of culture, social institutions, personality development, and processes of social interaction. Credit is only awarded for one of SOC 001 or SOC 001H.

SOC 001H Honors Introduction to Sociology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to University Honors or consent of instructor. Honors course corresponding to SOC 001. An in-depth look at concepts and theories relating to the study of humans as participants in group life, analysis of culture, social institutions, personality development, and processes of social interaction. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of SOC 001 or SOC 001H.

SOC 002 (E-Z) Sociological Foundations 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 001 or SOC 001H. Selected topics which promote critical thinking skills essential for success in upper-division sociology courses. For hours and prerequisites, see segment descriptions.

SOC 002G Introduction to Global Change and Inequality 4 Lecture, 3 hours; activity, 3 hours. Prerequisite(s): SOC 001 or SOC 001H; or consent of instructor. Introduces basic concepts and perspectives in the macro-comparative study of social change and inequality at the global level. Explores causes and consequences of globalization in the arenas of economy, polity, and culture. Emphasizes their impacts upon various forms of inequality worldwide. Credit is awarded for one of the following SOC 002G or SOC 002GS.

SOC 002GS Intro Global Chg & Inequality 5 Lecture, 3 hours; discussion, 1 hour; activity, 3 hours. Prerequisite(s): SOC 001 or SOC 001H; or consent of instructor. Introduces basic concepts and perspectives in the macro-comparative study of social change and inequality at the global level. Explores causes and consequences of globalization in the arenas of economy, polity, and culture. Emphasizes their impacts upon various forms of inequality worldwide. Credit is awarded for one of the following SOC 002GS or SOC 002G.

SOC 002I Inequality in American Society 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 001 or SOC 001H. Examines inequality in modern American society and how gender, race, ethnicity, and social class maintain inequality.

SOC 002M Introduction to Criminology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 001 or SOC 001H. Analyzes the nature and patterning of criminality focusing on theoretical and methodological issues encountered in research. Examines explanations and crime control policies regarding linkages among social conflicts and inequalities, criminal laws and enforcement practices, and social deviance.

SOC 002R Racial and Ethnic Issues in American Society 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 001 or SOC 001H. Introduces issues and topics associated with racial and ethnic populations in U.S. society. Focuses on social processes that stratify American society by ethnicity and race.

SOC 002S Social Problems 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 001 or SOC 001H. The application of major sociological theories, concepts, and perspectives to the study of social problems in contemporary society. Utilizes an analytical approach.

SOC 004 Methods of Sociological Inquiry 5 Lecture, 3 hours; discussion, 1 hour; research, 3 hours. Prerequisite(s): SOC 001 with a grade of C- or better or SOC 001H with a grade of C- or better. Applies the fundamentals of science to social research. Investigates problems of research design, sampling, measurement of social phenomena, conduct of field studies, and interpretation of qualitative and quantitative social data.

SOC 005 Statistical Analysis 5 Lecture, 3 hours; discussion, 1 hour; research, 3 hours. Prerequisite(s): SOC 004 with a grade of C- or better; or consent of instructor. Covers logical and procedural aspects of the application of statistical methods for data reduction and hypothesis testing in sociology. Includes distributions, tabulations, central tendency, variability, independence, contrasts, correlation and regression, and nonparametrics.

SOC 020 American Society 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): none. Examines the culture and structure of American society. Topics include beliefs, key institutions, community patterns, and systems of inequality.

SOC 028 Introduction to the Sociology of Gender 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduces gender as a system of inequality that organizes social life and shapes the distribution of resources, power, and privilege in ways that benefit men over women, including the social construction of gender in everyday life and the gendering of organizations and institutions such as the workplace.

SOC 030 Identity and Society 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): none. Studies the nature of the self, one's identities, and their role in social behavior. Examines the processes of self-verification, self-esteem, self-efficacy, and authenticity using social psychological theories. Introduces research methods that allow the study of self and identity processes.

SOC 031 Couples and Families 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Examines the major trends in marriage, families, and intimate relationships. Focuses on how inequality and diversity affect loving and family relations. Discusses the dynamics of gender inequality among families and couples and how family life is shaped by race and ethnicity, social class, divorce, and sexuality.

SOC 035 Global Political Economy 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): SOC 005 with a grade of C- or better or ECON 101 with a grade of C- or better or PSYC 011 with a grade of C- or better or STAT 004 with a grade of C- or better or STAT 008 with a grade of C- or better; or consent of instructor. Examines economic and political outcomes and assumes these are mutually constitutive. Focuses on macro-level phenomena and takes the global political economy (as it varies structurally and historically) as its unit of analysis. Applies the scientific method and draws broadly from qualitative and quantitative approaches. Credit is awarded for one of the following SOC 035 or SOC 035S.

SOC 035S Global Political Economy 5 Lecture, 3 hours; discussion, 1 hour; written work, 3 hours. Prerequisite(s): SOC 005 with a grade of C- or better or ECON 101 with a grade of C- or better or PSYC 011 with a grade of C- or better or STAT 004 with a grade of C- or better or STAT 008 with a grade of C- or better; or consent of instructor. Examines economic and political outcomes and assumes these are mutually constitutive. Focuses on macro-level phenomena and takes the global political economy (as it varies structurally and historically) as its unit of analysis. Applies the scientific method and draws broadly from qualitative and quantitative approaches. Credit is awarded for one of the following SOC 035S or SOC 035.

Upper-Division Courses

SOC 110 Multivariate Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 005 with a grade of C- or better; or consent of instructor. Involves computer analysis of social and behavioral data using statistical inference, multiple-regression, simulation, and multivariate nonparametric techniques.

SOC 111 World Inequality 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): restricted to class level standing of sophomore, junior, or senior; or consent of instructor. Covers the inequalities that manifest between and within countries. Focuses on economic disparities along with inequalities relating to gender dynamics, political representation, and health outcomes. Also explores other dimensions including poverty and inter-generational mobility. Offers a comparative examination of major world regions.

SOC 112 Sociology of the Labor Movement 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): SOC 001 or SOC 001H. Introduces sociological literature related to the labor movement. Provides a comparative and historical overview of research on unions, workers' centers, and other organizational forms and collective actions through which working-class people have sought to improve their working and living conditions. Credit is awarded for one of the following SOC 112 or SOC 112S.

SOC 112S Sociology of the Labor Movement 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 4 hours; research, 4 hours. Prerequisite(s): SOC 001 or SOC 001H. Introduces sociological literature related to the labor movement. Provides a comparative and historical overview of research on unions, workers' centers, and other organizational forms and collective actions through which working-class people have sought to improve their working and living conditions. Credit is awarded for one of the following SOC 112S or SOC 112.

SOC 120 Society and Mental Health 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Covers the social causes and patterns of mental health and disorder in the United States. Examines scientific research on the social determinants of mental health and disorder, inequalities of mental health, and access to mental health care and US mental health care policies.

SOC 122 Social Change 5 Lecture, 3 hours; research, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. A study of patterns of social change, resistance to change, and change-producing processes and agencies.

SOC 124 Sports, Competition, and Society 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Introduction to the sociology of sports. Surveys competitive sports groups with respect to the functions they perform, the allocation of roles, the use of rewards and punishments, risks and harms that athletes face, and deviant behavior. Offers a historical overview and examines factors that produce elite performance.

SOC 127 Sociological Determinants of Health 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 5 hours; research, 3 hours. Prerequisite(s): SOC 001 with a grade of C- or better or SOC 001H with a grade of C- or better; or consent of instructor. Introduces the role that social factors play in shaping the occurrence and distribution of disease and death in populations with an emphasis on socioeconomic status, racism, social relationships and social stress. A particular emphasis is placed on sociological origins of health inequalities. Cross-listed with PBPL 127.

SOC 128 Chicano Sociology 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Analysis of the Mexican experience in U.S. society. Explores the history as a minority; mass immigration in the twentieth century; relationships with American institutions; present socioeconomic status; variations in social status from region to region; political emergence and variations in values; and social relations and integration with non-Mexicans. Cross-listed with ETST 128. Credit is awarded for one of the following SOC 128, ETST 128, ETST 128S, or SOC 128S.

SOC 128S Chicano Sociology 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 4 hours; individual study, 4 hours; written work, 4 hours. Prerequisite(s): upper-division standing or consent of instructor. Analysis of the Mexican experience in U.S. society. Explores the history as a minority; mass immigration in the twentieth century; relationships with American institutions; present socioeconomic status; variations in social status from region to region; political emergence and variations in values; and social relations and integration with non-Mexicans. Cross-listed with ETST 128S. Credit is awarded for only one of ETST 128/SOC 128 or ETST 128S/SOC 128S.

SOC 130 Race and Ethnic Relations 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 005 with "C-" or better or consent of instructor. A study of underrepresented racial and ethnic groups. Involves a comparative analysis of the dynamics and consequences of discrimination of racial and ethnic groups in the United States.

SOC 131 (E-Z) Selected Ethnic Groups 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. In-depth studies of particular ethnic groups in the United States. Treats a specific ethnic group for an entire quarter

SOC 133 Inequality and Social Class 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): SOC 005 with a "C-" or better or consent of instructor. Covers the analysis of theory and research concerning sources of inequality in the distribution of scarce rewards in societies. Addresses the influence of aspects of social class and processes involving the hierarchical allocation of social groups to positions.

SOC 137 Population 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): SOC 005 with a "C-" or better or consent of instructor. Introduction to the study of human populations including theories, concepts, and measures. Explores the social causes and consequences of population trends. Emphasizes population problems including population growth, fertility, migration, and mortality.

SOC 139 Mass Media and Popular Culture 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 001 or SOC 001H. A comparative analysis of the television, radio, record, cinema, and journalism industries as social institutions and a discussion of contemporary developments in mass communications theory. A study of the relationship between the social processes of modern society and the content of popular culture. Cross-listed with MCS 139.

SOC 140 The Sociology of Women 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): GSST 001 or GSST 001H or GSST 001S or SOC 001 or SOC 001H. Analyzes the role women have played in society emphasizing modern American society. Considers some of the social determinants of women's positions and the efforts being made to bring about change. Cross-listed with GSST 143.

SOC 142 Sociology of the Family 5 Lecture, 3 hours; discussion, 1 hour; field, 3 hours. Prerequisite(s): SOC 005 with a "C-" or better or consent of instructor. A comparative and historical treatment of the family. Explores major theoretical frameworks developed for conceptualizing the family as a social system within the context of the relation between social structure and family group processes.

SOC 143 Urban Sociology 5 Lecture, 3 hours; extra reading, 3 hours; field, 3 hours. Prerequisite(s): SOC 001 or SOC 001H; or consent of instructor. A comparative examination of metropolitan and other urban communities with emphasis on processes of urbanization. Cross-listed with URST 143.

SOC 144 Interpersonal Relationship Violence 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 001 with a grade of C- or better or SOC 001H with a grade of C- or better; SOC 004 with a grade of C- or better; SOC 005 with a grade of C- or better; or consent of instructor. Addresses causes, identification, and prevention of and responses to interpersonal relationship violence, such as family violence and partner violence. Examines theories and research findings for practical field application. Promotes better understanding of this common social problem and prepares for careers involving contact with victims and/or perpetrators of relationship violence. Cross-listed with SEHE 168.

SOC 145 Law and Subordination 5 Lecture, 3 hours; field, 6 hours. Prerequisite(s): upper-division standing in Ethnic Studies or Sociology; ETST 128/SOC 128 or ETST 128S/SOC128. A comparative and historical analysis of subordinated communities and law emphasizing integrating theoretical understanding of racial, class, and gender subordination. Includes field experience working directly with groups that have traditionally lacked equal access to the legal and judicial system. Cross-listed with ETST 145.

SOC 146 Gender in Global Perspective 4 Lecture, 3 hours; extra reading, 3 hours; written work, 3 hours. Prerequisite(s): SOC 001 or SOC 001H or SOC 028. Examines gender using global and comparative perspectives. Explores how gender is constructed in different societies. Proves the relationship between gender and globalization. Considers resistance to global processes that create and reinforce gender inequalities.

SOC 147 Corrections 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 005 with a "C-" or better or consent of instructor. Involves a review, analysis, and criticism of the major techniques of resocialization of adult and juvenile offenders. Surveys the history, application, and theory of probation, parole, incarceration, and delinquency prevention programs. Discusses the methods involved in evaluating the effectiveness of correctional programs. May provide opportunities for field work.

SOC 149 Organized Crime 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 005 with "C-" or better or consent of instructor. A review of the operations, structures, history, and theories of syndicated crime in the United States. Emphasizes the implications of organized crime on the development of criminological theory, the operation of formal organizations, and American ethnic relations.

SOC 150 The Sociology of Economic Organizations 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines how the scope and nature of formal and informal organizations are shaped by sociological processes external to them, such as the influence of governments, institutions, networks, and resources. Illustrates the processes with examples from contemporary United States and from other periods and cultures.

SOC 151 Formal Organizations 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior. Examines the structures of formal organizations, the forces that shape them, and the impact they have on their participants, their environments, and one another. Surveys the major classical and contemporary theories of human behavior in organizations.

SOC 155 (E-Z) Topics in the Sociology of Gender 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): SOC 001 or SOC 001H; SOC 028. Intensively studies selected topics in the sociology of gender. Course is repeatable to a maximum of units.

SOC 159 Sociology of Law 5 Lecture, 3 hours; discussion, 1 hour; field, 3 hours. Prerequisite(s): SOC 001 with a grade of C- or better or SOC 001H with a grade of C- or better; SOC 004 with a grade of C- or better; restricted to major(s) Anthropology/Law & Society, Economics/Law and Society, History/Law and Society, Law & Society, Philosophy/Law and Society, Political Sci/Law and Society, Psychology/Law and Society, Sociology, Sociology/Administrative Stds, Sociology/Law and Society. Introduction to social scientific perspectives and research on the nature, sources, dimensions, and impact of law.

SOC 160 Sociology of Education 5 Lecture, 3 hours; discussion, 1 hour; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A comparative analysis of educational institutions in complex societies and their relation to a society's political and economic structure. Examines the school as a societal subsystem consisting of teacher, student, and administrator roles with its own evolving subculture.

SOC 161 Immigration and Society 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): SOC 001 or SOC 001H. Analyzes the origins of immigration and its nature, patterns, and trends in the twentieth century in Western societies, with special emphasis on the United States. Topics include theories of immigration, causes of immigration, sources of immigrants, immigration laws, reactions to immigrants, and the effects of immigration on the host society.

SOC 167 Medical Sociology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Introduces key concepts and theories in medical sociology and their application to a variety of health issues. Exemplar topics include social construction of health and illness, medicalization, stigma and labeling, patient-provider interaction, sociology of medical professionals, social determinants of health, and political economy of health. Cross-listed with PBPL 167.

SOC 168 Development of Sociological Theory 5 Lecture, 3 hours; discussion, 1 hour; written work, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Covers the emergence of sociology as a systematic discipline. Provides a critical analysis of sociological theory from the nineteenth and early and mid-twentieth centuries.

SOC 169 Modern Sociological Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. An analysis and critical evaluation of sociological theory from 1920 to the present. Explores the growth of current sociological theories and recent trends in conceptual formulations.

SOC 170 Sociology of Aging and the Life Course 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines aging from a sociological, life-course perspective, emphasizing how social institutions, family roles, and the timing of life events shape inequality and well-being across societies. Explores key debates on caregiving, health, retirement, and population aging in the United States and other countries.

SOC 173 Social Psychology: Sociological Orientation 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): SOC 005 with a grade of C- or better; or consent of instructor. A study of the sociological contributions to theory and research in social psychology. Focuses on the relationship between culture and group life to human behavior and personality.

SOC 174 Socialization and Personality 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 005 with a grade of C- or better; or consent of instructor. Analyzes socialization from various theoretical perspectives emphasizing the impact of patterns of child rearing on personality development. Provides a historical and cross-cultural treatment focusing on the relation among family structure, social structure, and socialization processes.

SOC 175 Social Roles and Interaction 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 001 with a grade of C- or better or SOC 001H with a grade of C- or better; SOC 004 with a grade of C- or better, SOC 005 with a grade of C- or better. Covers the nature of face-to-face contact between persons in everyday life. Examines the relationship among the social self, social roles, and communication in the day-to-day activities of people in informal groups, closed establishments, and public contacts.

SOC 176 The Sociology of Work in Organizations 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): SOC 001 or SOC 001H or consent of instructor. Emphasizes the roles of individuals in organizations. Topics include the effects of jobs on workers, long-term trends in the nature of work, and differences in work among major segments of the labor force. Cross-listed with BUS 176.

SOC 177 (E-Z) Topics in Social Psychology: Sociological Orientation 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): SOC 001 or SOC 001H; SOC 030. Intensively studies selected topics in social psychology, such as the individual and social change, attribution theory, experimentation in social psychology, exchange and consistency theories in social

psychology, and applied social psychology. E. Social Psychology Of Gender; G. Theories Of Interpersonal Behavior.

SOC 178 Sociology of Emotions 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): SOC 001 with a grade of C- or better or SOC 001H with a grade of C- or better; SOC 004 with a grade of C- or better; SOC 005 with a grade of C- or better; SOC 173 or SOC 174 or SOC 175. Surveys theory and research on emotions. Focuses on sociological and social psychological theories. Also covers evolutionary, biological, and cognitive theories. Studies a range of emotions such as shame and embarrassment; guilt, empathy, and sympathy; jealousy and envy; and anger.

SOC 179 Social Movements and Collective Action 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): SOC 001 with a grade of C- or better or SOC 001H with a grade of C- or better; SOC 004 with a grade of C- or better; SOC 005 with a grade of C- or better; SOC 168 or SOC 169. Examines the emergence and outcomes of collective action and social movements. Considers the conditions under which social movements develop and why they succeed or fail. Utilizes sociological theories to understand collective action and social movements. Includes analysis of the U.S. civil rights movement, feminist movement, and LGBIT movement.

SOC 180 Deviance and Control 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 001 with a grade of C- or better or SOC 001H with a grade of C- or better; SOC 004 with a grade of C- or better; SOC 005 with a grade of C- or better; or consent of instructor. Introduction to sociological analysis of deviance as defined by informal and formal processes of social control in varying cultural, legal, and political contexts.

SOC 181 World-Systems and Globalization 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): SOC 005 with a grade of C- or better, SOC 001 with a grade of C- or better or ECON 101 with a grade of C- or better or PSYC 011 with a grade of C- or better or STAT 004 with a grade of C- or better or STAT 008 with a grade of C- or better; or consent of instructor. Provides systematic comparisons of societies and world-systems emphasizing changes in the logic of social development. Credit is awarded for one of the following SOC 181 or SOC 181S.

SOC 181S World -Systems and Globalization 5 Lecture, 3 hours; discussion, 1 hour; research, 3 hours. Prerequisite(s): SOC 001 with a grade of C- or better, SOC 005 with a grade of C- or better or ECON 101 with a grade of C- or better or PSYC 011 with a grade of C- or better or STAT 004 with a grade of C- or better or STAT 008 with a grade of C- or better; or consent of instructor. Systematic comparisons of societies and world-systems with emphasis on changes in the logic of social development. Credit is awarded for one of the following SOC 181S or SOC 181.

SOC 182 Urban Problems 4 Lecture, 3 hours; discussion, 1 hour; term paper, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior. An interdisciplinary examination of selected urban problems such as civil disorders, transportation, housing, welfare, and planning. Cross-listed with PBPL 182, and URST 182. Credit is awarded for one of the following PBPL 182, SOC 182, URST 182, or PBPL 178.

SOC 183 (E-Z) Special Topics in Sociology 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Explores special topics in sociology. Segment H may be offered online or in-person. H. Aging In America; M. Geographic Inform Sysms & Mapping In Soc & Other Social Sciences:principles, Techniques, & Research; P. Poverty And Welfare; W. Social Mobility. Cross-listed with SEHE 170 (E-Z).

SOC 184 Environmental Sociology 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): SOC 001 with a grade of C- or better or SOC 001H with a grade of C- or better, SOC 004 with a grade of C- or better, SOC 005 with a grade of C- or better. A sociological approach to the study of mainstream environmentalism. Addresses societal implications of environmental reform; the nature of distributive impacts (costs and benefits); environmental conflict resolution; land-use decision making; and the placement of noxious facilities in minority, working class, and poor communities.

SOC 187 Capstone Seminar in Sociology 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): SOC 004 with a grade of C- or better; restricted to class level standing of junior, or senior; restricted to major(s) Sociology; or consent of instructor. Examines selected topics in Sociology through readings, oral presentations, research and writing, and active participation in seminar discussions. Course is repeatable as content or topic changes to a maximum of 12 units.

SOC 189 Globalization and Development 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): SOC 001 with a grade of C- or better or SOC 001H with a grade of C- or better; SOC 004 with a grade of C- or better; restricted to class level standing of junior, or senior; or consent of instructor. Examines the trend, nature, and processes of multidimensional globalization. Explores broad implications of globalization in transforming the world in various aspects. Investigates development issues and how to build a better world.

SOC 190 Special Studies 1 to 5 Individual Study, 3 to 15 hours. Prerequisite(s): upper-division standing; consent of instructor and Department Chair. Individual study, directed by a faculty member, to meet special curricular needs. Course is repeatable to a maximum of 15 units.

SOC 195 Senior Thesis 2 to 4 Total credit may not exceed 12 units. Required for all participants in the department's senior honors program, who must enroll for 4 units per quarter for a total of three quarters. Students wishing to undertake senior thesis projects outside the senior honors program, may enroll in SOC 195 for 2-4 units per quarter for one, two, or three quarters.

SOC 197 Research For Undergraduates 1 to 4 variable hours, Prerequisite(s): upper-division standing with consent of instructor. Directed original research. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

SOC 198I Individual Internship in Sociology 1 to 12 Internship, 2 to 24 hours; written work, 1 to 12 hours. Prerequisite(s): SOC 004 with a grade of C- or better; restricted to class level standing of junior, or senior; and consent of instructor. Individual internship in community agencies to observe community processes. Course is repeatable to a maximum of 16 units.

SOC 199H Senior Honors Research 1 Research, 3 hours. Prerequisite(s): senior standing in Sociology. Required seminar for all participants in the department's senior honors program. Must be taken in conjunction with SOC 195, and for a total of three quarters. Course is repeatable.

Graduate Courses

SOC 200 Research Design 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Provides basic training in research design for sociologists. Begins with strategies for deriving theoretically informed empirical questions. Proceeds with discussion of how to collect and analyze date most appropriate to answer such questions. This course is required for both the M.A. and Ph.D. in Sociology. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 202A History of Sociological Theory 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines the development of sociological theory from 1830 to 1930, stressing the major ideas, concepts, and principles developed by early social theorists.

SOC 202B Contemporary Sociological Theory 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): SOC 202A or consent of instructor. Examines sociological theory from 1930 to the present, stressing the major ideas, analyses, and principles developed by contemporary theorists.

SOC 203A Quantitative Methods 1 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing in Sociology or consent of instructor. Covers principles of partial and joint association, variance, and statistical estimation through the use of the general linear model for normal linear regression with continuous or categorical multiple independent variables. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 203B Quantitative Methods 2 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing in Sociology; SOC 203A or equivalent or consent of instructor. Covers generalizations of the general linear model to limited dependent

variables. Also covers mixed models for data arising from nested, time-series, and pooled cross-sectional and time-series designs. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 204A Qualitative Methods 1 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. An overview of the uses of qualitative methods in sociology. Topics include epistemological questions, ethnography, interviewing, historical and comparative methods, and research ethics. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 204B Qualitative Methods 2 4 Seminar, 3 hours; extra reading, 2 hours; research, 2 hours. Prerequisite(s): SOC 204A, graduate standing or consent of instructor. Designed to develop skills in conducting qualitative research. Emphasizes with the organization, interpretation/analysis, and presentation of textual data. Students who take this course to meet Sociology M.A./Ph.D. requirements receive a letter grade; other students may be graded Satisfactory (S) or No Credit (NC) with consent of the instructor.

SOC 205 Categorical and Survival Data Analysis 4 Seminar, 3 hours; laboratory, 1 hour; extra reading, 2 hours., Prerequisite(s): SOC 203B, graduate standing; or consent of instructor. Introduces the analysis of limited dependent variables in social science and epidemiologic research. Covers in detail survival analysis including recent advances and emerging controversies. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 206 Advanced Methods in Quantitative Sociology 2 or 4 Seminar, 2 or 4 hours. Prerequisite(s): graduate standing; or consent of instructor. Discusses sociological works in the quantitative tradition. Emphasizes developing and refining skills in quantitative methods. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content or topic changes to a maximum of 12 units.

SOC 208 Advanced Methods in Qualitative Sociology 2 or 4 Seminar, 2 or 4 hours. Prerequisite(s): graduate standing; or consent of instructor. Discusses sociological works in the qualitative tradition. Emphasizes developing and refining skills in qualitative methods. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content or topic changes to a maximum of 12 units.

SOC 210 Citizenship 4 Seminar, 3 hours; extra reading, 3,hours. Prerequisite(s): graduate standing or consent of instructor. Considers theories of citizenship. Focuses on the intersection of politics, economics, and culture, combining theoretical work and applied study. Designed for graduate students interested in social and political theory, cultural studies, and cultural policy studies. Sociology graduate students who are not advanced to candidacy for the Ph.D. receive a letter grade; other students receive a letter grade or petition for a Satisfactory (S) or No Credit (NC) grade.

SOC 222 Evolutionary Sociology 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing Reviews theory and research within sociology on evolutionary processes. Includes stage models of societal evolution, rise and demise of inter-societal or world systems, and biological bases for human behavior, interaction, and social organization.

SOC 232 Proseminar in Sociology 2 Lecture, 2 hours. Prerequisite(s): admission to the graduate program; graduate standing .An orientation to sociology as a scholarly discipline and empirical science. Includes an overview of ethical standards required of members of the American Sociological Association and training in seeking external fellowships and grants. Required of all first-year graduate students. Graded Satisfactory (S) or No Credit (NC).

SOC 240 Sociology of Gender 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Course will cover a broad variety of issues in the sociology of gender including socialization to gender roles, sexuality and sexual relations, housework, changing patterns of labor force participation, women in politics, and other germane issues. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and advisor.

SOC 242 (E-Z) Sociological Theory 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): SOC 202A or SOC 202B; graduate standing. Advanced study in sociological theory: E. History Of Theory; F. Issues In Contemporary Theory; G. Issues In Theory Construction; M. Macrostructural Analysis.

SOC 243 (E-Z) Special Topics in Sociology 4 Lecture, 3 hours. Prerequisite(s): graduate standing. Critical analysis of current theory and research in special areas of sociology. Covers a single topic not contained in a regular course. Each topic is announced when the course is offered.

SOC 243E Evolutionary Sociology 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing; consent of instructor. Examines new theoretical approaches that pursue evolutionary logic in sociology. Considers how these new theoretical insights and perspectives can be incorporated into traditional sociological models. Students who take the course to meet specialization requirements receive a letter grade; other students receive a letter grade or Satisfactory (S) or No Credit (NC) grade.

SOC 243F Sociology of Aging 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing; consent of instructor. A comprehensive review of current theory and research in sociology of aging. Covers theories of adjustment to aging, demography and economics of retirement, family, friendship and community relations, minority aging and issues in social policy. Students who take the course to meet specialization requirements receive a letter grade; other students receive a letter grade or Satisfactory (S) or No Credit (NC) grade.

SOC 243G Geographic Information Systems and Mapping in Sociology and Other Social Sciences 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): graduate standing; consent of instructor. Introduces principles and techniques of geographic information systems and mapping in relation to sociology and other social science disciplines, such as political science, anthropology, history, and economics. Explores research applications in sociology and related disciplines. Students who take the course to meet specialization requirements receive a letter grade; other students receive a letter grade or Satisfactory (S) or No Credit (NC) grade.

SOC 243J Comparative and World Historical Sociology 4 Lecture, 4 hours. Prerequisite(s): graduate standing; consent of instructor. Topics include comparative national development, comparing world-systems, globalization, and social movements. Students who take the course to meet specialization requirements receive a letter grade; other students receive a letter grade or Satisfactory (S) or No Credit (NC) grade.

SOC 243K Social Change: Global Perspectives 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing; consent of instructor. Analyzes the globalization of the world from the Paleolithic era to the present, emphasizing the modern period. Gives students a holistic understanding of social change by examining topics grouped under the rubric of globalization today. Students who take the course to meet specialization requirements receive a letter grade; other students receive a letter grade or Satisfactory (S) or No Credit (NC) grade.

SOC 243R Religion and Society 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing; consent of instructor. Analysis of the relationship between society and religion. An examination of the social structures of selected Eastern and Western religions and the interplay of religion with other societal institutions from both a historical and comparative perspective. Students who take the course to meet specialization requirements receive a letter grade; other students receive a letter grade or Satisfactory (S) or No Credit (NC) grade.

SOC 243S Social Movements 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing; consent of instructor. Provides an overview of the sociological literature on social movements. Reviews major theoretical debates about the rise, development, and impact of social movements as well as determinants of participation in social movements. Examines classic and contemporary case studies of various kinds of social movements. Students who take the course to meet specialization requirements receive a letter grade; other students receive a letter grade or Satisfactory (S) or No Credit (NC) grade.

SOC 244 Institutional Analysis 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. The comparative and historical analysis of human social institutions, with emphasis on: (a) the emergence and development of the basic institutional systems of economy, polity, kinship, religion, law, and education; (b) the structure and process of these institutions in varying types of societies; (c) the interrelation of these institutions to each other and to other structuring processes. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and advisor.

SOC 245 Large-Scale Organizations 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A review of the sociological literature on large-scale organizations. Provides an introduction to rational, political, ecological, economic, and institutional models of large-scale organizations. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and advisor.

SOC 246 Race and Class Inequality 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduction to the various theories of racial and class inequality. Areas covered will include social scientific explanations for racial and ethnic inequality; ideological justifications for racial, ethnic, and class inequality; intersection of caste, class, and race in world inequality; and strategies to end inequality. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and advisor.

SOC 248 Core Course On Social Psychology 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A review of the sociological literature on social psychology. Students who take the course to meet specialization requirements receive a letter grade; other students receive a letter grade or Satisfactory (S) or No Credit (NC) grade.

SOC 249 Contemporary Research and Theory in Criminology and Sociolegal Studies 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Review of basic issues and major contributions in studies of crime, deviance, and law. May be taken Satisfactory (S) or No Credit (NC) with permission of instructor and advisor.

SOC 250 Thesis Preparation 4 Seminar, 3 hours; Research, 3 hours. Prerequisite(s): SOC 200; graduate standing. Imparts the logic, process, and style of professional sociological research as students engage in supervised research integrating theory with data to satisfy the thesis requirements. Includes strategies to complete and communicate a thorough literature review, formulate theoretically driven empirical questions, report analytical results in a style consistent with professional standards. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 251 Current Research in Political Economy and Global Social Change 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Reviews current research in the field of political economy and global social change. Emphasizes new developments and promising new directions. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable.

SOC 253 Current Research in Organizations and Institutions 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Reviews the latest research and theory on organizations and institutions, focusing on the relationship between organizations and institutions or between one institutional complex and the organizational systems within it. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 254 Current Research in Social Psychology 4 Seminar, 2 hours; research, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Reviews current theory and research and addresses future directions in social psychology. Graded Satisfactory (S) or No Credit (NC).

SOC 255 (E-Z) Topics in Large-Scale Organizations 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Advanced study of large-scale organizations: I. Organizational Theory; L. Methods Of Organizational Research; M. The Sociology Of Work; N. Economic Organization; O. Social Organization Of Sciences. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 256 Current Research in Feminist and Gender Sociology 4 Seminar, 2 hours; extra reading, 3 hours; written work, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Reviews current theory and research in feminist and gender sociology, with particular attention to new developments in the field. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 12 units.

SOC 257 (E-Z) Topics in Institutional Analysis 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Advanced seminars in institutional analysis: E. Economic Sociology; F. The Sociology Of Family And Kinship; G. The Sociology Of Education; J. Political Sociology. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 258 Quantitative Macro Comparative Methods 4 Seminar, 3 hours; research, 2 hours; term paper, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Imparts methodological skills necessary to advance quantitative-macro comparative social science. Begins with the logic and trans-methodological concerns of macro-comparative analysis. Quantitative methods covered include models for static time-series cross-section and panel data, dynamic panel data, nested data, structural equations, social networks, identification/causality and techniques for testing conditional hypotheses and visualization. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 259 Research Practicum On Transnational Social Movements 2 Lecture, 2 hours; discussion, 1 hour; extra reading, 1 hour; written work, 1 hour; research, 1 hour. Prerequisite(s): graduate standing in Sociology. Examines the history of and current developments in transnational social movements including inter-movement relations and North-South issues within movements, as well as the development of global civil society. Focuses on collaborative research projects, though may also include development of individual projects. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable for a maximum of 12 units.

SOC 260 Research Practicum On the Evolution of Settlements and Polities 2 Lecture, .5 hours; discussion, .5 hours; practicum, 1 hour; workshop, .5 hours; extra reading, 2.5 hours; individual study, 2.5 hours; research, 2.5 hours; written work, 2.5 hours. Prerequisite(s): graduate standing in Sociology. Focuses on ongoing collective research projects on the evolution of polities and settlements. Studies the growth and decline of human settlements and polities in world historical and evolutionary perspective including those in nomadic and small-scale sedentary societies, early cities and states, and the emergence of empires and contemporary world cities. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 12 units.

SOC 261 World-Systems Analysis 4 Seminar, 4 hours. Prerequisite(s): graduate standing or consent of instructor .Focuses on social evolution, world-systems analysis, and globalization. Students who take the course to meet specialization requirements receive a letter grade; other students receive a letter grade or Satisfactory (S) or No Credit (NC) grade.

SOC 262 Feminist Theory 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Provides an overview of recent debates about theory and method in gender studies. Explores relationships between feminist theory, feminist practice, and social science. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 263 Women and Work in World Historical Perspective 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines the role of women as workers in a variety of societies. Considers the role of women in developments and the impact of development on women's economic roles. May be taken

Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 264 (E-Z) Topics in Gender Studies 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Advanced study in the sociology of gender. E. Gender And Families; F. Domestic And Sexual Violence; G. The Sociology Of Men; M. Gender In Comparative Perspectives; P. Gender, Politics, And Public Policy; T. Transnational Sex, Romance, And Marriage. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 265 (E-Z) Topics in Race and Class Inequality 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Advanced study in race and class inequality. F. Black America; I. Chicano Sociology; J. World Inequality; R. Racial, Ethnic, And Immigrant Families. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 266 Race and Ethnic Relations 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A review of sociological literature on race and ethnic minorities, patterns of conflict and ethnic antagonism, and systems of dominance. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 268 Law, Race, Class, and Gender 4 Seminar, 3 hours, research, 3 hours, Prerequisite(s): graduate standing or consent of instructor. Presents an analysis of how issues of race, class, and gender shape legal thought and jurisprudence. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and advisor.

SOC 271 Inequality and Stratification 4 Lecture, 3 hours; seminar, 1 hour; research, 2 hours; term paper, 1 hour; written work 1 hour; individual study, 4 hours. Prerequisite(s): graduate standing or consent of instructor. Survey's the broad sociological literature on inequality and stratification. Key foci include the principle causes of income and earnings inequality in the United States and internationally. After some attention to general theory, weekly topics include causes related to race, class, gender, organizations, structural and socioeconomic changes and institutions. May be taken Satisfactory (S) or No Credit (NC) by students advanced to candidacy for the Ph.D.

SOC 278 Punishment and Correction: Evaluating Theories and Policies 4 Seminar, 3 hours; research, 3 hours, Prerequisite(s): graduate standing or consent of instructor. Takes a critical and evaluative approach to the punishment and correctional systems, assessing what "works and doesn't work" in efforts to reduce crime and delinquency. Examines prisons, probation, and other crime control measures from a perspective emphasizing the need for systematic evaluation research. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 280 (E-Z) Topics in Criminology and Sociolegal Studies 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Advanced seminars in criminology and sociolegal studies. E. Patterns Of Criminal And Deviant Behavior; F. Ecological Perspectives On Crime And Delinquency; G. Biological And Psychobiological Studies Of Crime And Delinquency; I. Conflict And Radical Approaches In Criminology And Sociolegal Studies; J. Sociological Theories Of Law; K. Law, Power, And Social Conflict; M. Political Criminality; S. Substance Use And Crime. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 281 Political Economy and Global Social Change 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on classical and contemporary political economy, social movements, and the historical development of social systems. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 282 International Migration 4 Seminar, 4 hours. Prerequisite(s): graduate standing; or consent of instructor. A research course in the concepts, theories, and techniques used in the analysis of international migration. Covers the nature and origins of patterns and trends in global migration from colonial times to the twenty-first century. Provides an overview of migration theories, migration policies, current research on immigration. Course is repeatable.

SOC 284 Medical Sociology Graduate Seminar 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Survey's key concepts and theories in medical sociology and their application to a variety of health issues. Exemplar topics include social construction of health and illness, medicalization, stigma and labeling, patient-provider interaction, sociology of medical professionals, and social determinants of health. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 285 (E-Z) Topics in Social Psychology 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Advanced study in family and social psychology. E. Theory In Social Psychology; F. Neurosociology; G. The Interaction Process; I. Sociolinguistics; J. Social Psychology Of Emotions; K. Small Groups; N. Social Psychology Of Gender; S. Self And Identity. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 286 Life Course and Health 4 Seminar, 4 hours; term paper, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Covers sociological theories, interdisciplinary theories and methods for life course approaches to health. Discusses health outcome measurements, study design, and sources on bias. Includes historical influence, structural constraints, human agency, minority health and early origins of adult health and intergenerational influence. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 287 Migration and Health 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Provides a comprehensive overview of the central theoretical debates and empirical work on migration and health. Topics include the theoretical and methodological challenges associated with studying migration and health; the long-term health effects of migration; and emerging areas in migration and health. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 288 Social Determinants of Health 4 Seminar, 4 hours; term paper, 5 hours. Prerequisite(s): recommended that students have basic qualitative and quantitative methods training; graduate standing; or consent of instructor. Focuses on how social factors shape patterns and experiences of health and illness for individuals and populations. Covers the impact on accessing medical care. Includes many other "mechanisms" or "pathways", social environments, personal beliefs, behaviors/lifestyles, stress, and access to resources, that may promote or harm health. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 290 Directed Studies 1 to 6 Scheduled research, 3-15 hours; consultation, 1 hour, Prerequisite(s): graduate standing and consent of instructor. This course is designed to provide students with reading and research work under the tutorial supervision of a faculty member in support of developing their knowledge of specialty areas and/or preparing original research work. With consent of the graduate advisor, this course may be taken for a letter grade to satisfy required seminars in the period of specialization if regular seminars are not available. Otherwise course will be graded Satisfactory (S) or No Credit (NC). Course is repeatable.

SOC 291 Individual Study in Coordinated Areas 1 to 12 Individual Study, 3 to 36 hours. Prerequisite(s): graduate standing. A program of study designed to advise and assist candidates who are preparing for doctoral examinations. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

SOC 293 Research Topics in Sociology 2 Lecture, 2 hours. Prerequisite(s): graduate standing in Sociology. A series of lectures by guests, faculty, and advanced graduate students on research topics in sociology. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

SOC 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing. Individual research performed under the direction of a faculty advisor. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

SOC 299 Research For Thesis Or Dissertation 1 to 12 Prerequisite(s): graduate standing or consent of instructor. Graded

Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Course

SOC 301 Directed Studies in the Teaching of Sociology 2 Consultation, 1 hour; practicum, 3 hours. Prerequisite(s): consent of instructor; prior or concurrent enrollment in the Teaching Assistant Development Program offered by the Graduate Division. Discussion and evaluation of pedagogical techniques and materials used in the teaching of sociology at the college level. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Soil and Water Sciences

The program in Soil and Water Science is not currently accepting new students. We encourage you to visit the catalog section for Environmental Sciences to meet your graduate study needs.

If you have questions please call (800) 735-0717 or (951) 827-5621.

Southeast Asian Studies Minor

Subject abbreviation: SEAS
College of Humanities, Arts, and Social Sciences

seatrip.ucr.edu

The SEATRiP Program at the University of California, Riverside—Southeast Asia: Texts, Rituals, Performance—brings together scholars who share an ongoing interest in the arts and humanities and are actively engaged with the languages and expressive cultures of Southeast Asia.

The Southeast Asian Studies minor is an interdepartmental program centered on the study of the arts and cultures of Southeast Asia. The scholars associated with the Program address regionally-specific texts, rituals and performances. They seek to develop better understandings of the forms and practices through which ideas and ideologies are creatively expressed, shaped and communicated within and among different societies of Southeast Asia as week as the Southeast Asian diaspora.

1. **Lower-division requirements (8 units)**
   a) Four (4) units from lower lower-division lecture courses on Southeast Asian literature and culture:

      AST 049/HIST 046/SEAS 047, AST 062/ CPLT 062, AST 063/CPLT 063, AST 064/ MCS 049/VNM 064, AST 065

   b) Four (4) units chosen from above or from one of the Southeast Asian languages (Vietnamese/Indonesian/ Tagalog).
2. **Upper-division requirements (16 units):**
   a) Sixteen (16) units in Southeast Asian literature and culture chosen from

Graduate Program

The Master's Program in Southeast Asian Studies is an interdepartmental program centered on the study of the arts and cultures of Southeast Asia and its diasporas. To understand Southeast Asia as a region, students need to make sense of and engage with its diverse expressive forms of culture (including visual arts, literature, and performance) which are crucial in building and maintaining individual as well as group identity both within and across national or ethnic boundaries.

This program is designed for students with a strong interest in Southeast Asia, including those already admitted or enrolled in another graduate program. Students can be concurrently enrolled in both the Southeast Asian Studies M.A. program and another graduate degree program. Students may also apply concurrently for the Southeast Asian Studies M.A. - Ph.D. Track in Anthropology, Comparative Literature, Ethnic Studies, History or Music.

Admission

All applicants must fulfill the standard admission requirements as established by the Graduate Division. Additionally, applicants must submit a Statement of Purpose to indicate a serious interest in Southeast Asian Studies (or a specific country or area in this region) as well as a writing sample (such as a past term paper or course essay) to demonstrate basic skills of scholarship.

Foreign Language

Students must acquire (or increase) a distinct level of proficiency in at least one language relevant to Southeast Asian Studies prior to beginning research for the thesis and no later than the fifth quarter in the program. The required proficiency can be demonstrated by way of an exam, by completing one year of course work with a "B" or better, or by alternate certification, including completion of an approved intensive summer language program. International students from Southeast Asia may use their native language to fulfill this requirement.

Course Work

All students are required to pass the Proseminar in Southeast Asian Studies (ANTH 202/CPLT 200/SEAS 200) with a "B" or better. Additionally, students must pass (with a "B" or better) a graduate level seminar in four of the following six areas (any 100-level course must be paired with SEAS 292):

1. **Southeast Asian performance**
   ANTH 126/AST 123/DNCE 123/MUS 123, ANTH 176/AST 127/DNCE 127/ETST 172/MUS 127, AST 119/MUS 119, AST 124/MUS 124
2. **Southeast Asian religions**
   ANTH 257/ RLST 253/ SEAS 202, RLST 111, RLST 150/SEAS 150, RLST 200B, RLST 252
3. **Southeast Asian cultures**
   SEAS 203/ANTH 203, ANTH 136/SEAS 136, ANTH 140I
4. **History of Southeast Asia**
   SEAS 204/HIST 242, AST 126/HIST 185/SEAS 185, AST 129/HIST 186/SEAS 186, AST 160/ HIST 184/SEAS 184/VNM 184
5. **Literatures of Southeast Asia**
   SEAS 205/CPLT 205, AST 163/CPLT 163/ SEAS 163, AST 167/CPLT 167/SEAS 167
6. **Media in Southeast Asia**
   SEAS 206, AST 187/MCS 167/SEAS 177, CPLT 173U/MCS 173U

In addition, students can select four other graduate seminars or approved upper division undergraduate courses in accordance with their main field of interest and after approval by the Graduate Advisor and the student's Thesis Committee. A total of 40 units of coursework, including thesis, are required for the degree in Southeast Asian Studies.

Students concurrently enrolled in another graduate program may, when appropriate, include units earned in that program toward the 40 units of the M.A. in Southeast Asian Studies. However, there must be at least 36 units uniquely applied to the Southeast Asian Studies degree.

Plan I (Thesis)

Students enrolled in the Southeast Asian Stud-

ies Graduate Program (for the terminal M.A.) who choose the thesis option must submit an essay (thesis) of 50-70 pages reflecting original research, written under the supervision of a member of the program who also functions as the chair of their Thesis Committee. At the beginning of the second year students should write a research proposal outlining their research project. Approximately ten pages in length this proposal should describe the aims of the research and provide a broader theoretical framework. After this is approved students begin to conduct individual research in the field or in the library. Students must enroll in a minimum of 4 units of Thesis Study (SEAS 299) or Directed Research (SEAS 297) under the supervision of a Southeast Asian Studies faculty. Before filing the thesis with the Graduate Division students must pass a formal oral examination or defense.

Plan II (Comprehensive Exam)

a) Students enrolled in the Southeast Asian Studies Graduate Program (for the terminal M.A.) who choose the comprehensive examination must submit a final project made up of two components: a) participation in community activism, volunteer work, or an internship; b) a written report of 25-30 pages. Students must enroll in a minimum of 4 units of Directed Research (SEAS297) under the supervision of a Southeast Asian Studies faculty who also functions as the chair of their Comprehensive Exam Committee. The student's coursework, activism or internship experiences, and written report will be the basis for a comprehensive oral exam. Students must submit the written report to their adviser and exam committee members before the exam. Students must pass the comprehensive exam in order to receive their M. A. degree.

b) Students concurrently enrolled in another degree program requiring an M.A. thesis may (with the approval of the Southeast Asian Studies faculty) be awarded the M.A. degree by passing a comprehensive oral examination on the basis of that thesis connected to Southeast Asia and its diasporas.

Concurrent Enrollment

Concurrent Enrollment students are enrolled in both the M.A SEAS program and a Ph.D. program in a cooperating department. These students must complete the following 40 units to earn the degree:

- 20 units of core courses, listed above, unique to SEAS program.
  - SEAS 200
  - 4 courses from the 6 above areas
- 16 elective units can be from the home Ph.D. program with the approval of SEAS faculty.

4 units in either SEAS 297 or 299 toward completing the comprehensive exam or thesis.

M.A. – Ph.D. Track

M.A. – Ph.D. Track students are in the M.A SEAS program and have been preliminarily accepted to a Ph.D. program in a cooperating department. These students must complete the following 40 units to earn the degree:

- 20 units of core courses, listed above, unique to SEAS program.
  - SEAS 200
  - 4 courses from the 6 above areas
- 16 elective units can be from the home Ph.D. program with the approval of SEAS faculty.
- 4 units in SEAS 299 toward completing the thesis.

Continuation in the Ph.D. program is not guaranteed, but subject to review by the cooperating department. After completion of the M.A. in Southeast Asian Studies, M.A. – Ph.D. track students will need to reapply through Graduate Admissions (fee waived) to the cooperating department for approval and official admission into the Ph.D. program.

University Requirements

All master's students must be enrolled for at least three quarters to fulfill the University residency requirement and must hold at least a 3.00 GPA in all upper division and graduate level course work related to the degree. A minimum of 40 units must be completed of which 36 must be graduate level (200 level) or approved upper division undergraduate (100 level) and apply only to the M.A. in Southeast Asian Studies.

Normative Time to Degree Two years

Lower-Division Courses

SEAS 062 Introduction to Southeast Asian Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. An introduction to modern and contemporary Southeast Asian literature and culture with a focus on individual national histories. Explores the relationship between aesthetics, politics, and academic scholarship. Readings are in translation; classes conducted in English. Cross-listed with CPLT 062, and AST 062.

SEAS 063 Reading Southeast Asian Stories 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to the modern short story in Southeast Asia focusing on literariness and the act of reading. Readings are in translation; classes conducted in English. Course is repeatable as content or topic changes to a maximum of 8 units. Cross-listed with AST 063, and CPLT 063.

SEAS 064 Introduction to Vietnamese and Diasporic Film Culture 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. Explores the revival of film production in Vietnam following the Vietnam War. Focuses on the means of production, state control, and international distribution. Engages in critical viewing strategies and analytical visual critique. Readings are in translation; classes conducted in English. Cross-listed with AST 064, and VNM 064.

Upper-Division Courses

SEAS 119 Ecopoetics Against War 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines literature from the Asias / Global South to discuss ecopoetics in a time of war. Focuses on recent literary and theoretical texts to understand how war intersects with contemporary environmental problems such as toxicity, nuclearization, extractive industrialization, and enclosure. Course materials in English. Cross-listed with CPLT 119.

SEAS 123 Southeast Asian Performance 4 Lecture, 3 hours; screening, 2 hours; extra reading, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Introduction to the roles and genres of expressive culture in Southeast Asia, including dance, music, theater, film, and digital culture. Performance is discussed as both a time-honored and a contemporary medium for cultural production, from the courts to everyday experience. Cross-listed with ANTH 126, AST 123, DNCE 123, and MUS 123.

SEAS 127 Music Cultures of Southeast Asia 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of music, dance, theatre, and ritual in the Philippines, Indonesia, Malaysia, Thailand, Myanmar (Burma), Laos, Cambodia, and Vietnam. Designed for the student interested in the performing arts and cultures of mainland and insular Southeast Asia. No Western music background is required. Cross-listed with ANTH 176, AST 127, DNCE 127, ETST 172, and MUS 127.

SEAS 130 Filipino American Culture 4 Seminar, 3 hours; screening, 3 hours. Prerequisite(s): MCS 001. Explores the politics of a range of Filipino American expressive, performative, and creative forms (e.g., Pilipino Culture Night) video, art, fiction, theater, in tandem with the study of theoretical and socio-historical scholarship in the interdisciplinary field of Filipino American Studies. Cross-listed with MCS 130.

SEAS 136 Anthropological Perspectives On Gender in Southeast Asia 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s):ANTH 001 or ANTH 001H or ANTH 001W or equivalent. Examines the intersections of gender, power, and sexuality in post-colonial Southeast Asia. Revisits early ethnographic claims of gender equality. Addresses current anthropological literature on the effects of colonialism, capitalism, and globalization on gender roles and relations within national and transnational contexts. Cross-listed with ANTH 136. Credit is awarded for only one of ANTH 136/SEAS 136 or ANTH 136S/SEAS 136S.

SEAS 136S Anthropological Perspectives On Gender in Southeast Asia 5 Lecture, 3 hours; discussion, 1 hour; field, 1 hour; extra reading, 2 hours. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W or equivalent Examines the intersections of gender, power, and sexuality in post-colonial Southeast Asia. Revisits early ethnographic claims of gender equality. Addresses current anthropological literature on the effects of colonialism, capitalism, and globalization on gender roles and relations within national and transnational contexts. Cross-listed with ANTH 136S. Credit is awarded for only one of ANTH 136/SEAS 136 or ANTH 136S/SEAS 136S.

SEAS 137 The Vietnamese Americans: the Refugee and Immigrant Experience 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Focuses on the Vietnamese American experience in contemporary society. Emphasizes the relationship of Vietnamese Americans to the larger society and on intergenerational strains and conflicts. Topics include socioeconomic and educational problems, family, religion, and the relationship between Vietnamese Americans and other ethnic groups. Cross-listed with ETST 137.

SEAS 143 Critical Filipino(a) Studies: Histories and Legacies of United States Conquest, Colonialism,& Empire 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): ETST 001 or ETST 001H or ETST 002 or ETST 002H or ETST 003 or ETST 004 or HIST 004 or ETST 005 or ETST 005H or ETST 007 or ETST 007H or ETST 008 or ETST 012 or ETST 012H or RLST 012 or RLST 012H or ETST 014; or consent of instructor. Critically examines and theorizes the historical impact and legacies of U.S. conquest and colonialism in the Philippines. Analyzes the origins of Filipino American civic existence and its links to histories of U.S. racial formation, racialized industrialization, and racialized frontier warfare. Cross-listed with ETST 143.

SEAS 149 Southeast Asian Religions 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one Religious Studies course or upper-division standing or consent of instructor. Introduces aspects of religion in various Southeast Asian countries including Indonesia, Malaysia, Thailand, Cambodia, Vietnam, and the Philippines. Provides contextualized readings featuring historical, anthropological, literary, and other disciplinary perspectives. Cross-listed with RLST 149.

SEAS 150 Islam in Southeast Asia 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduces the religious, intellectual, and cultural history of Muslim Southeast Asia. Includes Indonesia, Malaysia, and Brunei, as well as minority communities in Singapore, Thailand, Cambodia, and the southern Philippines. Examines a series of contextualized readings in translated primary sources. Approaches texts from historical, anthropological, literary, and other disciplinary perspectives. Cross-listed with RLST 150.

SEAS 154 Typhoons and Other Disasters 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, senior, or masters; or consent of instructor. Explores how typhoons and other climatological events inform literatures around the Atlantic, the Indian Ocean, and the Pacific. Addresses themes of coloniality, climate change, diaspora, disaster capitalism, and the Anthropocene. Cross-listed with CPLT 184, and SEHE 154.

SEAS 161 Translating Modern Southeast Asian Texts 4 Lecture, 3 hours; term paper, 1.5 hours; written work,1.5 hours. Prerequisite(s): upper-division standing; knowledge of one Southeast Asian language is recommended. An introduction to translating modern Southeast Asian texts into English. Presents translations of texts from Vietnam, Indonesia, and the Philippines in a context of theory. Materials are in English. Course is repeatable as content changes to a maximum of 8 units. Cross-listed with AST 161.

SEAS 162 Vietnamese Literary History 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing. A historical analysis of Vietnamese literature from its oral tradition to contemporary fiction. Follows the formation of the nation-state and the subsequent struggles with the Chinese, French, Japanese, and Americans. No knowledge of Vietnamese required. Readings are in translation or bilingual editions. Classes are conducted in English. Cross-listed with AST 162, VNM 162, and HIST 187.

SEAS 163 Nationalism and the Novel 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the novel and its role within nationalism as a representative summary or mirror of the nation. Cross-listed with CPLT 163, and AST 163.

SEAS 164 Vietnamese American Culture 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of the pervasive aspects of Vietnamese American culture. Includes shared histories, acculturation patterns, class diversity, identity struggles, community-building literary and cultural production, youth issues, and cultural survival. Also introduces foundational literature, visual culture, and scholarship in the field. Cross-listed with VNM 164, and AST 164.

SEAS 165 (E-Z) Themes in Vietnamese Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. An exploration of Vietnamese literature in translation as seen through the lens of a particular theme or issue. Focuses on the implications of gender and sexuality on nation formation. All materials are read or viewed in English. E. Women And War. Cross-listed with AST 165 (E-Z), GSST 165 (E-Z), and VNM 165 (E-Z).

SEAS 166 Vietnam and the Philippines 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the comparative national histories of Vietnam and the Philippines by way of great literary works in various genres including poetry, short fiction, and novels. All materials are read in English. Cross-listed with CPLT 166, AST 166, and VNM 166.

SEAS 167 Postcolonial Literature and Criticism in Southeast Asia and South Asia 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores how the theoretical concepts of postcolonial criticism inform and challenge the literature of Southeast Asia and South Asia, as the literature itself pushes the limits of the criticism. Addresses themes of nation, identity, space, gender, home, diaspora, alterity, history, sexuality, transnationalism, neocolonialism, tourism, and education. Cross-listed with CPLT 167, and AST 167.

SEAS 168 Javanese Gamelan Ensemble: Beginning 2 Studio, 6 hours. Prerequisite(s): upper-division standing and consent of instructor. Study and performance of the Central Javanese gamelan, consisting mainly of gongs and gong-chime instruments. Readings and discussions focus on Javanese culture. Course is repeatable. Cross-listed with AST 168 and MUS 168.

SEAS 170 Rondalla Ensemble 1 to 2 Studio, 2 to 4 hours. Prerequisite(s): upper-division standing or consent of instructor. Study and performance of the Filipino rondalla, an ensemble consisting of various sizes of lure-like and guitar-like instruments. Discussions focus on Filipino culture. Cross-listed with AST 170 and MUS 170. Course is repeatable.

SEAS 172 Gender in Southeast Asian Diasporic Literature and Film 5 Lecture, 3 hours; screening, 3; written work, 1 hour; extra reading, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Focuses on former Indochinese refugees who are producing literature and films in the United States and France. Examines how the perception of Indochina has been constructed, particularly how the region has been gendered female in the colonial imaginary. Explores the return of Southeast Asian immigrants to the Western gaze. Cross-listed with GSST 122, and MCS 142.

SEAS 175 Asian American Women: Writing the Self in Literature and Film 4 Lecture, 3 hours; screening, 1 hour; written work, 1 hour; extra reading, 1 hour. Prerequisite(s): MCS 010, upper-division standing, or consent of instructor. Analyzes Asian American autobiographies and films written and directed by women. Explores why the genre of autobiography is enabling and contentious within Asian American women's writings. Examines films to see how such women filmmakers contend with memory, gender, and identity. Cross-listed with GSST 124, and MCS 123.

SEAS 184 The Vietnam Wars 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. An introduction to Vietnamese history in the twentieth century. Covers the three Indochina wars (1945-1986) from different Vietnamese perspectives. Topics include experiences during French colonial rule; the anticolonial movements; periods of French and American military involvement up to 1975; the postwar society; and the post-doi moi society. Cross-listed with AST 160, HIST 184, and VNM 184.

SEAS 185 Southeast Asia, Prehistory to 1800 4 Lecture, 3 hours; extra reading, 3. Prerequisite(s): upper-division standing or consent of instructor. Covers the major Southeast Asian historical periods and cultures. Includes prehistory, classical kingdoms, and early modern trading states.

Considers the role of ancient stories, religious systems, technologies, and art forms in forming traditional Southeast Asian identities, as well as the influences on these identities from outside the region. Cross-listed with HIST 185 and AST 126.

SEAS 186 Modern Southeast Asia, 1800 to Present 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the formation of modern Southeast Asian nations and cultures since 1800. Compares colonial and postcolonial experiences in the region. Studies the formation of nationalist movements and the relationship of nationalist history with traditional and local histories. Considers the role of the individual, modern media, and global trade in the near-present. Cross-listed with HIST 186, and AST 129.

Graduate Courses

SSEAS 200 Topics in Southeast Asian Studies 4 Seminar, 3 hours; written work, 2 hours; term paper, 1 hour. Prerequisite(s): graduate standing or consent of instructor. An introduction to the world of Southeast Asia and the scholarly discussions about it, with an emphasis on cultural aspects, embedded in their historical context. Materials are in English. Course is repeatable as content changes to a maximum of 12 units. Cross-listed with ANTH 202 and CPLT 200.

SEAS 201 Musics of Southeast Asia 4 Seminar, 3 hours; term paper, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on historical and ethnographic literature of Southeast Asia and its diasporas. Discusses scholarly literature on music and expressive culture generally, including dance, theater, and ritual. Cross-listed with MUS 272.

SEAS 202 Southeast Asian Religions 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Discusses different and dynamic aspects of religion in various Southeast Asian countries, including Indonesia, Malaysia, Thailand, Cambodia, Vietnam, and the Philippines. Explores contextualized readings featuring historical, anthropological, literary, and other disciplinary perspectives on this diverse region. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as topic changes up to 8 units. Cross-listed with ANTH 257 and RLST 253.

SEAS 203 Southeast Asian Cultures 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Surveys ethnographic literature on Southeast Asian cultures, with an emphasis on contemporary research. Covers anthropological approaches to the study of text, ritual, and performance practices; intercultural dynamics; the impact of colonialism and nationalism on traditional cultures; and globalization. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with ANTH 203.

SEAS 204 Approaches to Southeast Asian History 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces students to central historical problems, historiographical debates, materials, and theoretical approaches in Southeast Asian history. Readings each week focus on a different theme. Course is repeatable to a maximum of 8 units. Cross-listed with HIST 242.

SEAS 205 Literature of Southeast Asia 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores themes and theories related to understanding literature and literary culture in Southeast Asia, insisting that the space of literature reaches beyond the text to include all disciplines. Students critically read, engage in, and question discourses of nationhood, identity, loss, mourning , history, and memoir. Course is repeatable as content changes to a maximum of 12 units. Cross-listed with CPLT 205.

SEAS 206 Southeast Asian Diasporic Literature and Film 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores the contemporary works by Southeast Asian immigrants within the United States and France. Emphasizes the concept that the dynamic production of culture is a negotiation of power and an expression of resistance. Provides an interdisciplinary framework by utilizing historical as well as theoretical works to contextualize the cultural productions. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content changes to a maximum of 12 units.

SEAS 243A Research Seminar in Southeast Asian History 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Discusses Southeast Asian topics from regional, comparative, and local perspectives. May be taken as a one- or two-quarter course (HIST 243A/SEAS 243A, HIST 243B/SEAS 243B). After completing both HIST 243A/SEAS 243A and HIST 243B/SEAS 243B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units. Cross-listed with HIST 243A.

SEAS 243B Research Seminar in Southeast Asian History 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor; HIST 243A/SEAS 243A. Discusses Southeast Asian topics from regional, comparative, and local perspectives. Students produce a substantial research paper that continues their work from HIST 243A/SEAS 243A. May be taken as a one- or two-quarter course (HIST 243A/SEAS 243A, HIST 243B/SEAS 243B). After completing both HIST 243A/SEAS 243A and HIST 243B/SEAS 243B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units. Cross-listed with HIST 243B.

SEAS 290 Directed Studies 1 to 6 Individual Study, 3 to 18 hours. Prerequisite(s): consent of instructor and graduate advisor. Directed study to meet special curricular needs. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

SEAS 292 Concurrent Analytical Studies in Southeast Asian Studies 1 to 4 Individual Study, 3 to 12 hours. Prerequisite(s): graduate standing; consent of instructor and graduate advisor. Taken concurrently with a 100-series course, but on an individual basis. Devoted to research, criticism, and written work at the graduate level related to the 100-series course. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

SEAS 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): consent of instructor; graduate standing. Individualized research under the sponsorship of specific faculty members. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

SEAS 299 Research For the Thesis 1 to 12 Thesis, 3 to 36 hours. Prerequisite(s): graduate standing; and consent of thesis director. Research and preparation for the thesis. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Southeast Asian Studies Designated Emphasis

Subject abbreviation: SEAS
College of Humanities, Arts, and Social Sciences

seatrip.ucr.edu

Committee in Charge

Muhamad Ali, Ph.D. (Religious Studies)
David Biggs, Ph.D. (History)
Charmaine Craig, M.F.A. (Creative Writing)
Weihsin Gui, Ph.D. (English)
Tamara Ho, Ph.D. (Gender and Sexuality Studies)
Mariam Beevi Lam, Ph.D. (Comparative Literature and Foreign Languages)
Sally A. Ness, Ph.D. (Anthropology)
Victoria Reyes, Ph.D. (Sociology)
Maria Sarita See, Ph.D. (Media & Cultural Studies)
Christina Schwenkel, Ph.D., Chair (Anthropology)
Rican Vue, Ph.D. (Education)
Deborah A. Wong, Ph.D. (Music)

The Designated Emphasis in Southeast Asian Studies, a specialization that includes new methods of inquiry in conjunction with a student's disciplinary field of interest, is awarded in addition to a Ph.D. degree.

A total of 16 units of coursework is required:

1. **12 units of course work in SEAS, from at least two departments**
   a. 4 units in (required)
   ANTH 202/ CPLT 200/SEAS 200
   b. Choose the additional 8 units from the lists below

Graduate Seminars:
ANTH 257/ RLST 253/ SEAS 202, ANTH 203/ SEAS 203, HIST 242/ SEAS 204, CPLT 205/ SEAS 205,

SEAS 206, SEAS 243A, SEAS 243B

Upper Division Undergraduate Courses:
MCS 130/SEAS 130, ANTH 136/SEAS 136, ETST 137/SEAS 137, ETST 143A/SEAS 143A, ETST 143B/SEAS 143B, ANTH 140I, RLST 145/SEAS 145, RLST 149/SEAS 149, RLST 150/SEAS 150, AST 161/SEAS 161, AST 162/HIST 187/SEAS 162/VNM 162, AST 163/CPLT 163/SEAS 163, AST 164/SEAS 164/VNM 164, AST 165 (E-Z)/GSST 165 (E-Z)/SEAS 165 (E -Z)/VNM 165 (E-Z), AST 166/CPLT 166/SEAS 166/VNM 166, AST 167/CPLT 167/SEAS 167, GSST 122/MCS 142/SEAS 172, GSST 124/MCS123/SEAS 175, AST 187/MCS 167/SEAS 177, AST 160/HIST 184/SEAS 184/VNM 184, AST 26/HIST 185/SEAS 185, AST 129/HIST 186/SEAS 186, AST 189/HIST 189/SEAS 189/VNM 189, ANTH 176/AST 127/DNCE127/ETST 172/MUS 127

2. **4 units of Thesis Study (SEAS 299) or directed Research (SEAS 297) resulting in a paper supervised by a member of the Southeast Asian Studies Program.**

Courses taken for the Designated Emphasis cannot be used toward the Ph.D. Language proficiency is preferable, though not required.

Speculative Fiction and Cultures of Science Minor

Subject abbreviation: SFCS
College of Humanities, Arts, and Social Sciences

Committee in Charge
- andré carrington (English)
- Gloria Kim (Media and Cultural Studies)
- Eric Schwitzgebel (Philosophy)
- Dana Simmons (History)
- Sheryl Vint (English / Media and Cultural Studies)

Supporting Faculty
- Derek Burrill (Media and Cultural Studies)
- andré carrington (English)
- John Jennings (Media and Cultural Studies)
- Gloria Kim (Media and Cultural Studies)
- Stuart Krieger (Theatre, Film, and Digital Production)
- Tim Labor (Media and Cultural Studies)
- Juliette Levy (History)
- Yolanda Moses (Anthropology)
- Lisa Raphals, (Comparative Literature)
- Judith Rodenbeck (Media and Cultural Studies)
- Richard Rodriguez (Media and Cultural Studies)
- Robin Russin (Theatre, Film and Digital Production)
- Chikako Takeshita (Gender and Sexuality Studies)
- James Tobias (English)
- Susan Zieger (English)

The minor in Speculative Fiction and Cultures of Science explores intersections among speculative fiction, science and technology studies (STS), and traditions of speculative thought. We study the pervasive role of speculative discourses in public culture, investigating the complex and reciprocal exchanges among futuristic discourses, research agendas, public policy decisions, media texts, and daily life in technologically saturated societies. Using the combined perspectives of cultural studies and STS helps students develop critical literacy about their media-dominated landscape through which to understand its discourses of science and the future. Bringing speculative fictions and STS into dialogue, our scholars focus on understanding technological change in specific contexts by analyzing the texts and practices that have responded to, critiqued, and build upon the ways science shapes our cultural, material, and economic milieu. Speculative thinking and speculative fictions are central to many of the most compelling contemporary research concerns, such as the Anthropocene, climate change, genetic engineering, and discourses of the posthuman. We examine the histories and cultures of science, technology, and medicine to understand the role culture plays in the production of science and the reciprocal way changes in science and technology shape culture. Our program uniquely emphasizes the role of popular culture and the genres of speculative fiction, in particular, for serving as an imaginative testing ground for technological innovation, articulating hopes and anxieties regarding technological change, and mediating public understandings of science and its applications.

1. **Requirements (24 units)**
   a) Four (4) units from SFCS 001 or from the approved substitutes ENGL 146/MCS 146 or ANTH 162.
   b) Sixteen (16) additional units, selected from the following groups. Students must take at least four (4) units from two of the three groups.

   GROUP ONE: Fine Arts; selected from CRWT 162; CRWT 172; MCS 146; MCS 133; MCS 151G; MCS 153 (E-Z); MCS 170; TFDP 166C.

   GROUP TWO: Humanities; selected from CPLT 118; CPAC 132; ENGL 179A; ENGL 179SA; ENGL 179B; ENGL 179C; JPN 184; HIST 105; HIST 107/SEHE 173; HISA 147; MCS 109; MCS 147; MCS 149; MCS 157; MCS 158; MCS 166; MCS 175; PHIL 137; PHIL 167.

   GROUP THREE: Social Sciences; selected from ANTH 144F; ANTH 144E; GSST 106; GSST 161; GSST 185; GSST 187; GSST 189.

   c) Four (4) units from SFCS 193 (senior seminar) or CPLT 193 or ENGL 189 or MCS 193 or PHIL 193

All students must take the introductory course (SFCS 001) and the senior seminar or approved equivalents listed above. There is no required order in which elective courses must be taken but credit in SFCS 001 is required for entry into SFCS 193.

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for information on minors.

Lower-Division Courses

SFCS 001 Introduction to Speculative Fiction and Cultures of Science 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. Investigates the relationship among science, technology, medicine, and the genre of science fiction. Emphasizes exchanges between technology and popular culture. Covers fiction by H.G. Wells, Kim Stanley Robinson, and Nancy Kress and critical readings by Steven Shafer, Donna Haraway, and Bruno Latour.

Upper-Division Courses

SFCS 123 Reclaiming the Dark: Black Life Is Speculative Fiction 4 Lecture, 3 hours; activity, 2 hours; extra reading, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Explores alternative states of being, doing, and imagining in, around, and through Black life and culture. Covers writers, artists, and activists such as Octavia Butler, Toni Morrison, Cedric Robinson, the Combahee River Collective, N. K. Jemisin, Adrienne Maree Brown, Kevin Quashie, Nnedi Okorafor, and Ursula K. Le Guin. Cross-listed with BLKS 123.

SFCS 193 Senior Seminar in Speculative Fiction and Cultures of Science 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): SFCS 001; or consent of instructor. Develops skills in the formulation and investigation of research questions in science fiction and technoculture studies. Synthesizes and integrates knowledge and skills obtained in the minor. Includes a major research project and presentations by guest speakers.

Designated Emphasis Requirements

The Designated Emphasis is a 12-unit interdisciplinary graduate course of study, requiring coursework across at least two departments. Two of the three required courses, if otherwise eligible, may count towards the student's Ph.D. requirements.

1. All students must complete a ENGL 297 graduate course (4 units) with an affiliated faculty member that produces an approximately 25-page research paper. This course will fulfill the research requirement of the Designated Emphasis.
2. Two (2) courses (8 units) selected from ANTH 262, CPLT 272, CPLT 273, CPLT 275, CPLT 276, CWPA 255, ENGL 246, ENGL 247, ENGL 248, ETST 243F, HIST 287A, MUS 251, MUS 264, and PHIL 237. Students may ask to count another course with relevant content as approved by the Designated Emphasis Director. Students must select courses from at least two different departments or programs, one of which may be their home department. Undergraduate courses taken to fulfill these requirements must be accompanied by a 292 course with extra work mutually agreed upon by professor and student.

All requirements for the Designated Emphasis must be satisfied before a student advances to candidacy in their Ph.D. field; a minimum GPA of 3.0 is required for the award of the Designated Emphasis.

Barbara Beaver, M.S.
Linda M. Penas, Ph.D.

Major

The Department of Statistics is concerned with teaching, research, and statistical consulting. The courses offered present a comprehensive spectrum of statistical and probability theory, in so far as such theory is necessary for the understanding and analysis of observational data. The applications of the theory delineated in the courses may be made in any field of experience. Laboratory classes in which examples related to the student's actual field of interest are worked out, play an essential part. The department offers both B.A. and B.S. degrees in Statistics as well as a B.S. in Statistics with options in Statistical Computing and Quantitative Management; the M.S. degree in Statistics; and the Ph.D. degree in Applied Statistics.

The courses STAT 004, STAT 005, STAT 008, STAT 010, STAT 011, STAT 104/BUS 104, STAT 110, STAT 130, STAT 140, STAT 146, and STAT 155 are intended for students of other departments who wish a knowledge of statistical techniques. Some of them may be taken as electives by statistics majors. The objective of these courses is to acquaint the student with the elements of statistics with only the necessary amount of mathematical training.

The courses STAT 107, STAT 157 and STAT 167 are computer-oriented courses intended for students who would like to learn about computer programming in the most important languages and who would like to learn about statistical computing.

Transfer Students
Students transferring to the Statistics major must complete courses comparable to the following one-year sequence before they transfer:

1. First-year calculus, equivalent to MATH 007A or MATH 009A or MATH 09HA, MATH 007B or MATH 009B or MATH 09HB, MATH 009C or MATH 09HC, each course completed with a grade of "B-" or better.

Computing Laboratories

The department has two large undergraduate Windows-based teaching laboratories. These laboratories provide users access to a wide variety of statistical software packages including SAS, R, Minitab, and SPSS, and other popular software packages including Mathematica, Adobe Acrobat, and Microsoft Office. The department also houses the Garber Research Computing Laboratory, which is a combination of a UNIX/LINUX-based system with multiple workstations and several Windows-based machines.

Statistical Consulting Center

The Statistical Consulting Collaboratory provides a broad range of analytical and statistical support services, including design of experiments, statistical inference, hypothesis testing, and data modeling for the campus community, and promotes cooperative research between statisticians and other investigators in all fields of the application of statistics. The Collaboratory is staffed by:

Yehua Li, Ph.D., Faculty Director; Karen Huaying Xu, Ph.D., Associate Director; Xinping Cui, Ph.D., Faculty Advisor; and rotating graduate students.

Change of Major Criteria

All courses taken to fulfill major requirements must be completed with grades of "C-" or better after repeats.

Freshman (0-44.9 units earned)
Completion of the following with grade of "C-"or better and must be in good academic standing. (2.0 quarter and cumulative GPA)

- MATH 007A or MATH 009A or MATH 09HA, MATH 007B or MATH 009B or MATH 09HB

Sophomores (45-89.9 earned units)
Completion of the following with grade of "C-"or better and must be in good academic standing. (2.0 quarter and cumulative GPA)

- MATH 007A or MATH 009A or MATH 09HA, MATH 007B or MATH 009B or MATH 09HB, MATH 009C or MATH 09HC

4 (four) additional units of college-level Mathematics or Statistics (STAT 010 recommended)

Juniors (90-134.9 earned units)
Completion of the following with grade of "C-"or better and must be in good academic standing. (2.0 quarter and cumulative GPA)

- MATH 007A or MATH 009A or MATH 09HA, MATH 007B or MATH 009B or MATH 09HB, MATH 009C or MATH 09HC, STAT 010, STAT 011

8 (eight) additional units of college level Mathematics or Statistics (MATH 031 and STAT 107 recommended)

Seniors (135 or more earned units)
Completion of the following with grade of "C-"or better and must be in good academic standing. (2.0 quarter and cumulative GPA)

- MATH 007A or MATH 009A or MATH 09HA, MATH 007B or MATH 009B or MATH 09HB, MATH 009C or MATH 09HC, MATH 031, STAT 010 (or equivalent), STAT 011 (or equivalent), STAT 107, STAT 160A (or equivalent), STAT 160B (or equivalent)

Major change requests are reviewed during the 2nd, 3rd, 4th & 10th weeks of each quarter.

Transfer Selection Criteria

Applicants to majors in the College of Natural and Agricultural Sciences are selected on the

basis of academic preparation, as assessed by their GPA and the strength of preparation for the intended major. A GPA of at least 2.70 is required. (This is a baseline GPA for consideration and not a guarantee of admission.)

In addition, applicants will need to complete college courses comparable to at least two of the following UCR year-long sequences in order to meet selection criteria for this major. Courses must be completed with "C" grades or better:

- MATH 007A or MATH 009A or MATH 09HA, MATH 007B or MATH 009B or MATH 09HB, and MATH 009C or MATH 09HC (mandatory). A grade of "B-" or better is required in this series.

And at least one sequence from:

1. BIOL 005A, BIOL 05LA or BIOL 020 and BIOL 005B (and BIOL 005C, if articulated)
2. CHEM 001A, CHEM 01LA, CHEM 001B, CHEM 01LB, CHEM 001C, and CHEM 01LC
3. Organic chemistry (one-year lower-division), each course completed with a grade of "B" or better
4. PHYS 002A, PHYS 02LA, PHYS 002B, PHYS 02LB PHYS 002C, and PHYS 02LC
5. PHYS 040A, PHYS 040B, and PHYS 040C
6. MATH 010A and MATH 010B, or one course in linear algebra.

Courses must be completed with a letter grade, with no grade lower than a "C." Students should visit **assist.org** for updated and comprehensive major preparation requirements.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Natural and Agricultural Sciences, Colleges and Programs section.

Some of the following requirements for the major may also fulfill some of the college's breadth requirements. Consult with a department advisor for course planning.

Major Requirements

The department offers both a B.A. and a B.S. degree in Statistics as well as a B.S. in Statistics with options in Statistical Computing and Quantitative Management.

The major requirements for the B.A. and the B.S. degrees in Statistics are as follows:

For the Bachelor of Arts

1. **Core requirements (34–38 units)**
   a) CS 010A
   b) One math sequence from the following:
      (i) MATH 007A or MATH 009A or MATH 09HA, MATH 007B or MATH 009B or MATH 09HB, MATH 009C or MATH 09HC
      (ii) MATH 005A, MATH 005B, MATH 005C
   c) MATH 010A, MATH 031
   d) STAT 010, STAT 011
2. **Upper-division requirements (36–37 units)**
   a) Thirty-two (32) units of upper-division course work to include twenty-eight units in (1) and four units in (2).
      (1) STAT 107, STAT 160A, STAT 160B, STAT 160C, STAT 169, STAT 170, STAT 171
      (2) Four (4) units of STAT 183 taken during senior year
   b) Four (4) units of additional coursework chosen from STAT 110, BUS 127/STAT 127, STAT 130, STAT 140, STAT 146, STAT 150, STAT 157, STAT 161, STAT 167 or from related fields with the approval of the major advisor.

For the Bachelor of Science

1. **Core requirements (34–38 units)**
   a) CS 010A
   b) One math sequence from the following:
      (i) MATH 007A or MATH 009A or MATH 09HA, MATH 007B or MATH 009B or MATH 09HB, MATH 009C or MATH 09HC
      (ii) MATH 005, MATH 005B, MATH 005C
   c) MATH 010A, MATH 031
   d) STAT 010, STAT 011
2. **Upper-division requirements (52–53 units)**
   a) Thirty-two (32) units of upper-division course work to include twenty-eight units in (1) and four units in (2)
      (1) STAT 107, STAT 160A, STAT 160B, STAT 160C, STAT 169, STAT 170, STAT 171
      (2) Four (4) units of STAT 183 taken during senior year
   b) Twenty (20) units of additional course work chosen from STAT 110, STAT 127/BUS 127, STAT 130, STAT 140, STAT 146, STAT 150, STAT 157, STAT 161, STAT 167 or from related fields with the approval of the major advisor.

Statistical Computing Option

The requirements for this option are in addition to the requirements for the B.S. in Statistics, except that the option requirement takes the place of the 20 units in 2.b) under Upper-division requirements for the B.S. in Statistics.

1. **Lower-division requirements (8 units):** CS 010B, CS 010C
2. **Upper-division requirements (16 units)**
   a) STAT 167
   b) Twelve (12) units of coursework selected from
      (1) CS 100, CS 111, CS 141, CS 177
      (2) MATH 120, MATH 135A, MATH 135B

Quantitative Management Option

The requirements for this option are in addition to the requirements for the B.S. in Statistics, except that the option requirement takes the place of the 20 units in 2.b) above.

1. **Lower-division requirements (18 units)**
   a) ECON 002, ECON 003 or ECON 003H
   b) BUS 020
   c) one of the following:
      (i) BUS 010
      (ii) BUS 021, optional for any area but required for those who choose area (3) Accounting under 2.b below
2. **Upper-division requirements (16 units)**
   a) BUS/STAT 104
   b) Three courses from one area:
      (1) **Marketing:** BUS 103 and two other courses from BUS 111, BUS 112, BUS 114, BUS 115, BUS 116, BUS 117, BUS 118, BUS 119
      (2) **Finance:** BUS 106 and two other courses from BUS 138, BUS 139, BUS 140
      (3) **Accounting:** BUS 108, BUS 165A, BUS 165B, BUS 168A, BUS 168B, BUS 169A
      (4) **Management:** BUS 143, BUS 144, BUS 145, BUS 149, BUS 150
      (5) **Information Systems:** BUS 101 and two other courses from BUS 171, BUS 173, BUS 174, BUS 175
      (6) **Operations & Supply Chain Management:** BUS 122, BUS 123, BUS 124, BUS 125, BUS 126, BUS 128, BUS 130

Minor

The minor in Statistics is designed to give students in either the social sciences or the physical sciences a cohesive set of statistics courses to deal with the data analytic aspects of their disciplines and to understand the statistical summaries that are encountered in everyday activities.

The following are the requirements for the minor in Statistics.

1. Lower-division requirements (10 units): STAT 010, STAT 011
2. Upper-division requirements (24 units):
   a) STAT 107
   b) STAT 156A or STAT 160A, STAT 156B or STAT 160B
   c) Twelve (12) units of upper-division statistics courses excluding STAT 155.

Of the specified upper-division units, a minimum of 16 must be unique to the minor and may not be used to satisfy major requirements.

No more than 4 units may be in courses numbered 190 through 199.

See Minors under the College of Natural and Agricultural Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Joint B.S.+1 Statistics M.S. Program

The College of Natural and Agricultural Science offers a combined B.S.+1 Statistics M.S. program, designed to allow successful B.S. graduates who have taken some graduate level statistics courses in their senior standing year in UCR to complete the Master of Science degree in Statistics in one year, by allowing up to 12 units of graduate level coursework taken in UCR as an undergraduate to be counted towards the MS degree requirements.

A student should apply for the B.S.+1 Statistics

M.S. program (including transfer students) before the start of their senior standing year. To apply, the student must have a cumulative GPA at least 3.0 overall, 3.3 GPA in the statistics major, and have completed STAT 160ABC with GPA at least 3.3 in STAT 160ABC sequence.. These are minimum requirements and do not guarantee the admission. The application to the B.S.+1 M.S. program must include a transcript, and at least two recommendation letters. Submission of GRE scores with the application is recommended but not required. During students' senior year, students must apply via the Graduate Division for the M.S. portion. Matriculation into the graduate portion of the B.S.+1 M.S. program occurs in the Fall term following their final year, provided: (a) the M.S. application is accepted, (b) throughout the final undergraduate year at UCR the student has a cumulative GPA 3.0 or higher, (c) by the end of senior standing year, the student completes the B.S. degree requirements.

Incoming freshman students who apply to the Statistics B.S. program may simultaneously apply for preliminary conditional admission into the B.S.+1 Statistics M.S. program provided their high-school GPA is at least 3.6, they satisfy the Entry-Level Writing requirement prior to matriculation, and they are eligible to enroll in or to receive credit for MATH 7A or MATH 9A upon arrival or in their first quarter.

Preliminary conditional admission status is maintained as long as the student is a Statistics B.S. student in good standing with a cumulative GPA of at least 3.0. Conditionally admitted students still need to apply for full admission by the start of their senior standing year as described above and apply via the Graduate Division for the MS portion. Continuing undergraduate students who meet the above criteria may apply to the program by submitting a petition and should confer with their staff advisor for details.

To earn the MS degree, students are required to complete a minimum of 41 units that must include STAT 201A, 201B, 201C, STAT 202A, 202B, 202C, STAT 207, STAT 208, STAT 288, and two quarters of STAT 293, and pass the written exam. No more than 12 units earned prior to matriculation to graduate status can be applied towards the MS degree requirements. The courses that can be double counted must be graduate level courses and be eligible to be counted as electives in the B.S. requirements. Students receive credit toward the 41 units by completing STAT 201ABC (recommended) or some other graduate level courses, approved by the graduate advisor, as an undergraduate senior.

Comprehensive Examination
All M.S. students are required to take a written comprehensive examination and pass at the M.S. level, with no more than two attempts allowed to pass. A program proposal is not required.

Advancement to Candidacy
Advancement for the master's candidacy occurs at the beginning of the quarter the student plans to graduate.

Professional Development
Students in the Statistics B.S.+1 M.S. Program must register two quarters of STAT 293, which give students training in (a) the ability to use fundamental statistical techniques to formulate problem and solution in diverse real-world application; (b) the ability to use at least one statistical software package to conduct statistical data analysis; (c) the ability to communicate with researchers in statistical community and other disciplines by using graphical methods to display and interpret information.

Normative time
The normative time to B.S. is four years, and the normative time of the MS portion is one year (five years total).

Graduate Programs

The Department of Statistics offers the M.S. degree in Statistics and the Ph.D. degree in Applied Statistics.

Admission
Domestic and international applicants applying to the M.S. and Ph.D. program may submit GRE General Test scores (verbal, quantitative, and analytical), but it is not a requirement. In addition, TOEFL scores must be supplied by applicants whose first language is not English who do not hold a degree from a U.S. institution. The department considers applications for teaching assistantships at the same time as those for fellowships. Normally, Ph.D. eligible admitted students are awarded five year financial assistantship.

Master's Program

The Department of Statistics offers the M.S. degree in Statistics.

Admission
Students entering the Master's program must have completed a bachelor's degree with sufficient training in Mathematics and a strong background in Statistics or have taken STAT 160A, STAT 160B, STAT 160C, STAT 161 and STAT 169, STAT 170, STAT 171, covering basic areas of probability and statistics.

Students must also meet the other requirements for admission as specified by the Graduate Division. The program is Plan II (Comprehensive Examination) described in the Graduate Studies section of this catalog. No foreign language is required.

Course Work
Graduate students in Statistics must have taken appropriate courses in Mathematics to give them the proper background for graduate work in Statistics. Important areas include Calculus (at least MATH 009A, MATH 009B, MATH 009C, and MATH 010A) and Linear Algebra (at least MATH 131).

Degree Requirements
Each student must complete 41 units of coursework that must include STAT 201ABC, STAT 202ABC, STAT 207, STAT 208, STAT 288, and two consecutive quarters of STAT 293.

Our MS program is course-based, so the completion of oral qualifying exams and thesis defense are not required by our MS program.

Comprehensive Examination
All M.S. students are required to take a written comprehensive examination and pass at the M.S. level, with no more than two attempts allowed to pass. The written qualifying exam is offered two times in each year, the first in Summer and the second in Fall quarter. All students in the program are required to take their first attempt of the exam in Summer. The second exam in Fall can only be taken by the students· who fail to pass the exam in their first attempt. Exceptions can be made based on the approval of Graduate Advisor. A program proposal is not required.

Advancement to Candidacy
Advancing to candidacy takes place when students complete all the course requirements and pass the written exam.

Professional Development Requirement:
Two quarters of STAT 293 give students training in (a) the ability to use fundamental statistical techniques to formulate problem and solution in diverse real-world application; (b)the ability to use at least one statistical software package to conduct statistical data analysis; (c) the ability to communicate with researchers in statistical community and other disciplines by using graphical methods to display and interpret information.

Petition to Change Degree Objective
Some students can petition to change their degree objective from the M.S. degree to the Ph.D. program in Applied Statistics depending on their performances in the written comprehensive exam and coursework.

The Master of Science in Business Analytics (MSBA)

The Master of Science in Business Analytics (MSBA) program is designed to extend the training of students with analytical backgrounds in business or statistics to allow them to apply their skills to business data. Increasingly large amounts of data are available about customers, costs, and suppliers, which can be analyzed to improve operations, increase the yield on marketing programs and understand pricing and financing better, which all add to the value of the business.

The MSBA interdepartmental program is offered by the School of Business and the Department of Statistics. Depending on the curriculum track, the degree requires 48 to 49 units of study, which can be done as a full-time one-academic-year program or over a longer period on a part- time basis.

Admission
To ensure that students have the prior knowledge to succeed in the program, admission is limited to applicants who have studied statistics or another quantitative discipline such as mathematics, physics, engineering, computer science, or economics or another quantitative discipline such as mathematics, physics, engineering, computer science, or economics or a quantitative business discipline (such as operations, finance and marketing) as undergraduates. Applicants to the program must have completed a bachelor's degree or its approved equivalent in one of these four disciplines. Students who have weaker statistical training but otherwise show promise will be required to take STAT 171 or similar courses before entering the program. Applicants who do not have an undergraduate degree in statistics or one of the

quantitative business disciplines may be considered for admission if they provide sufficient evidence of appropriate training.

Applicants must have received their undergraduate degrees from an accredited institution, and have attained a record that satisfies the standards established by the Graduate Division and University Graduate Council.

All applicants must submit scores from the Graduate Management Admissions Test (GMAT) or Graduate Record Exam, General Test (GRE). Applicants whose first language is not English are required to submit acceptable scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) unless they have a degree from an institution where English is the exclusive language of instruction. Additionally, each applicant must submit at least two letters of recommendation, at least one of which must be an academic reference. All other application requirements are specified in the graduate application or in the General UCR catalog.

Course Work
Once admitted, students follow one of three tracks:

- Statistics Academic Track (48 units)
- Business Academic Track (48 units)
- Practicum Track (49 units)

The statistics academic track and the business academic track offer alternative academic preparation pathways. The practicum track augments either of those academic tracks with a one-unit internship. The statistics academic track is for students who studied a quantitative discipline other than statistics or one of the business disciplines as undergraduates (finance, operations, or marketing) and the business academic track is for students who focused on statistics as undergraduates. Students opting for the third practicum track will follow either the statistics or the business track depending on their academic background as described above, and in addition, are required to undertake an internship (MGT 298I – 1 unit) to fulfill track requirements. All tracks culminate in a two-quarter capstone class that applies their understanding of business analytics to a project.

Required courses

1. MGT 256 Business Analytics for Management
2. MGT 286A-B Capstone in Business Analytics
3. STAT 208 Statistical Data Mining Methods
4. STAT 232 Statistics for Business Analytics

Business Academic Track (Choose any four from the following five courses):

5. MGT 202 Financial Management
6. MGT 204 Cost and Management Accounting
7. MGT 207 Operations Management
8. MGT 209 Marketing Management
9. STAT 206 Statistical Computing

Statistics Academic Track:

5. **Choose one of the following:**
   MGT 202 Financial Management ***or***
   MGT 204 Cost and Management Accounting ***or***
   MGT 207 Operations Management ***or***
   MGT 209 Marketing Management
6. MGT 219 Spreadsheet Modeling for Decision-Making ***or***
   MGT 267 Applied Business Forecasting
7. STAT 200 Foundational Methods for Business Analytics
8. STAT 206 Statistical Computing

Concentrations
Students choose a set of three courses in either marketing, operations or finance. These concentration courses provide depth to the student's understanding of the area in which they will carry out a capstone course project.

Marketing:

1. MGT 228 Consumer Behavior **or**
   MGT 257 Marketing Strategy
2. MGT 251 Market Analytics
3. MGT 253 Digital Marketing

Operations:

1. MGT 219 (Spreadsheet Modeling for Decision-Making)
2. MGT 239 Simulation for Business
3. MGT 258 Logistics and Supply Chain Management

Finance:

1. MGT 227 Fixed Income Securities and Markets **or**
   MGT 244 Corporate Risk Management
2. MGT 232 Derivatives and Asset Pricing
3. MGT 252 Investments and Portfolio Management **or**
   MGT 295F Empirical Methods in Finance

Professional Development Requirement:

1. MGT 286B gives students training in
   (a) the ability to use fundamental statistical techniques to formulate problems and solutions in diverse real-world applications;
   (b) the ability to use at least one statistical software package to conduct statistical data analysis;
   (c) the ability to communicate with business managers about statistical data by using graphical methods in conjunction with written analysis to describe and interpret information.

Plan I (Thesis) is not an option for the MSBA degree program.

Plan II (Comprehensive Examination)
requires that at least 18 units be in graduate level courses taken at a UC campus. None of these may be in courses numbered 297 or 299. Every candidate must take a comprehensive examination, the content of which is determined by the program. Candidates for the degree are required to complete all of the general requirements specified by Graduate Studies. The program is intended to conform to Plan II.

Normative Time
One year for full-time students; Two years for part-time enrollees.

Doctoral Degree

The Department of Statistics offers the Ph.D. degree in Applied Statistics.

The program emphasizes both the theory of statistics and its application to special fields of interest. In addition to courses in statistics, a student would take courses in a substantive field from which a thesis problem requiring a statistical approach should arise. The substantive field may be chosen from areas such as biology, economics, political science, psychology or administration. Specialties might include, for example, population genetics, biological control, hydrology, epidemiology, geology, discrimination in learning, or scales and measurements.

Admission
Students entering the program must have completed either a bachelor's degree or a Master's degree in Statistics, Computer Science, Mathematics, or some other quantitatively based discipline. Students lacking sufficient preparation for some statistics graduate classes must complete some preparatory work in Statistics, Computer Science, or Mathematics depending on their background. Students also have to meet the general requirements listed in the Graduate Studies section of this catalog.

Change Degree Objective
Students with a Bachelor's degree in the Ph.D. program who have satisfied all the requirements for the Master's degree may apply for this degree while completing requirements for the Ph.D. program.

Ph.D. Course Requirements

I. Course Requirements
   (A) Core: STAT 202A, STAT 202B, STAT 202C, STAT 207, STAT 208, STAT 210A, STAT 210B, STAT 288, and two consecutive quarters of STAT 293.
   (B) 24 units of additional 200 level Statistics courses not graded S/NC, excluding STAT 201A, STAT 201B, STAT 201C, STAT 231A and STAT 231B.
   (C) Substantive: Four units (or equivalent) in substantive field with a minimum GPA of 3.00 appropriate to the student's interest. The requirement may be waived if the student already has the background in the substantive area.
   (D) Nine units of STAT 251 Statistics Colloquium before graduation.

II. Teaching: At least three quarters of teaching service.

III. Miscellaneous: In preparation for the written qualifying examinations, a student can register for up to 6 units of STAT 291 (Individual Studies in Coordinated Areas) only during quarters that the student actually participates in qualifying examinations.

Foreign Language Requirement None

Written and Oral Qualifying Examination
All Ph.D. students are required to take a written qualifying examination and pass at the Ph.D. level, with no more than two attempts allowed to pass. The written qualifying exam is offered two times in each year, the first in Summer quarter and the second in Fall quarter. Students who start coursework with STAT 210A take the first attempt at the written exam Summer quarter before the start of their

second year. Students who start coursework with STAT 201A take the first attempt at the written exam in Summer quarter before the start of the third year. The second exam can only be taken by students who fail to pass the exam in their first attempt. Students must take the second attempt in the Fall quarter immediately following the Summer quarter of the failed attempt. Exceptions can be made based on the approval of the Graduate Advisor. After passing the written exam the student will work with advisor to prepare for the oral examination.

Advancement to Candidacy
Oral Qualifying Exam must be completed no later than the end of Year Three of the student's graduate training. Exceptions can be made based on the approval of Graduate Advisor. Advancing to candidacy takes place when students complete all the course requirements and pass the written and oral exams.

Dissertation
The dissertation is pertinent to a problem area specified by the candidate's substantive field and is submitted in accordance with the requirements of the Graduate Division, Riverside.

Candidates must successfully defend their dissertation research in a public oral presentation, selecting one of the modalities.

Oral Qualifying Exam and Final Defense Modality for the Ph.D. degree:
The modalities will be as follows, **In-Person, Hybrid or Remote**:

Students taking the oral qualifying exam/presenting a final defense **in person** are expected to present on campus with all committee members physically present.

Students taking the oral qualifying exam/presenting a final defense **hybrid**, have the option for some committee members/students to attend in-person and some committee members/students to attend remotely.

Students taking the oral qualifying exam/presenting a final defense **remotely**; all participants, students, and committee members can participate remotely.

The Hybrid and Remote options can be selected if the student or faculty member cannot attend in person due to travel or health reasons. The student, in agreement with their committee chairperson, will determine the modality.

Teaching Requirement
All students in the program, for at least three quarters, assist with laboratory (practice) sections of undergraduate Statistics courses or individual tutorial (consultative) work with undergraduate students.

Professional Development Requirement:

1. **STAT 293 gives students training in**
   (a) the ability to use fundamental statistical techniques to formulate problem and solution in diverse real-world application;
   (b) the ability to use at least one statistical software package to conduct statistical data analysis;
   (c) the ability to communicate with researchers in statistical community and other disciplines by using graphical methods to display and interpret information.
2. **Professional writing development:** Students are trained to prepare a research proposal on topics relevant to the student's research area as part of their written qualifying exam.
3. **Pedagogy:** Ph.D. students are required to enroll in Teaching Assistant Development Program (TADP) Orientation in order to TA and enroll in STAT 302 during the quarter they teach. Three quarters of TA experience required.

Normative Time to Degree 15 quarters

Lower-Division Courses

STAT 004 Elements of Data Science 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Explores basic concepts, algorithms, and techniques of data science with simulation and data visualization. Topics include summarizing and visualizing data using R or Python, causality, randomness, decision making in the presence of uncertainty, prediction, and classification. Credit is awarded for one of the following STAT 004, SEHE 005, or STAT 005. Credit is not awarded for STAT 004 if it has already been awarded for STAT 008, STAT 010, or STAT 011.

STAT 005 Statistics, Health, and Society 4 Lecture, 3 hours; discussion, 1 hour. An introduction to statistics using social, health, and environmental applications. Topics include descriptive statistics; simple linear regression and correlation; probability; discrete and continuous distributions; confidence intervals; hypothesis testing; and one-way analysis of variance. Cross-listed with SEHE 005. Credit is awarded for one of the following SEHE 005, STAT 005, or STAT 004. Credit is not awarded for STAT 005 or SEHE 005 if already awarded to STAT 008, STAT 010, or STAT 011

STAT 008 Statistics For Business 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): MATH 004 or MATH 005A or MATH 006B or MATH 005B, may be taken concurrently or MATH 007A, may be taken concurrently or MATH 009A, may be taken concurrently or MATH 09HA, may be taken concurrently or MATH 022, may be taken concurrently; or equivalent. An introduction to statistics using business applications. Topics include descriptive statistics; probability; discrete and continuous distributions; Bayes' theorem; random variables; estimation and confidence intervals; hypothesis testing; and simple linear regression. Recommended for Business majors. Credit is awarded for one of the following STAT 008 or STAT 010.

STAT 010 Introduction to Statistics 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): MATH 005A or MATH 006B or MATH 005B, may be taken concurrently or MATH 007A, may be taken concurrently or MATH 009A, may be taken concurrently or MATH 09HA, may be taken concurrently. A general introduction to descriptive and inferential statistics. Topics include histograms; descriptive statistics; probability; normal and binomial distributions; sampling distributions; hypothesis testing; and confidence intervals. Recommended for non-Business majors. Credit is awarded for one of the following STAT 010 or STAT 008.

STAT 011 Introduction to Statistical Modeling 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): STAT 008 with a grade of C- or better or STAT 010 with a grade of C- or better. Topics include linear regression, correlation, analysis of variance, and simple experimental designs.

Upper-Division Courses

STAT 104 Decision Analysis and Management Science 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 008 or STAT 010; or equivalents; or consent of instructor. A survey of deterministic and probabilistic models for decision making. Topics include linear programming and extensions, networks, dynamic programming, decision trees, queuing models, and simulation. Explores the application of these models in decision making. Cross-listed with BUS 104.

STAT 107 Introduction to Statistical Computing With R 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 008 or STAT 010; or equivalent. An introduction to the R programing language. Topics include data management, basic statistical analysis and graphics, use of functions and packages, simple programming, and reproducible work.

STAT 108 Data Science Ethics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CS 105 or STAT 107 or CS 171; or consent of instructor. Covers ethics specifically related to data science. Topics include data privacy; data curation and storage; discrimination and bias arising in the machine learning process; statistical topics such as generalization, causality, curse of dimensionality, and sampling bias; data communication; and strategies for conceptualizing, measuring, and mitigating problems in data-driven decision-making. Cross-listed with CS 108. Credit is awarded for one of the following CS 108, STAT 108, CS 212, or STAT 212.

STAT 110 Biostatistical Methods in Life Sciences 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): STAT 011 or STAT 107; or equivalent. Provides undergraduate majors or those interested in life sciences with statistical tools for analyzing different types of data frequently encountered in life sciences. Emphasizes applications of methodology including contingency table analysis, linear regression and ANOVA, maximum likelihood method and the estimation-maximization algorithm, logistic regression, Poisson regression, and survival analysis.

STAT 127 Introduction to Quality Improvements 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 008 or STAT 010; or ECON 101. Explores Deming's 14 points for management, graphical methods, fishbone diagram, Pareto analysis, control charts for

attributes and variables, cusum and moving average charts, and process-capability. Also covers economic design, acceptance sampling, Taguchi method, parameter design, tolerance design, reliability, hazard rate, censoring, and accelerated life testing. Cross-listed with BUS 127.

STAT 130 Sampling Surveys 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 011 or STAT 107; or equivalent. Covers simple random sampling, stratified sampling, cluster sampling, and ratio and regression estimates. Also explores random response, capture-recapture, and jack-knife techniques.

STAT 140 Nonparametric Techniques 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 011 or STAT 107; or equivalent. Covers randomization tests, rank tests, methods of association, and distribution-free tests.

STAT 146 Statistical Forecasting Techniques 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 156A or STAT 160A. Topics include exponential smoothing, simple and multiple regression analysis, time series, trend analysis, and seasonal analysis.

STAT 150 Spatial Statistics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 107; or consent of instructor. An introduction to spatial statistics. Topics include spatial homogeneity, heterogeneity, autocorrelation, sampling, interpolation techniques, spatial centrality, dispersion metrics, hot-spot analysis, and spatial regression.

STAT 155 Probability and Statistics For Science and Engineering 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 009C, may be taken concurrently or MATH 09HC, may be taken concurrently or MATH 005C, may be taken concurrently. Covers sample spaces and probability; random variables and probability distributions; elements of statistical inference; and testing and estimation. Also addresses selected topics in multivariate distributions and introduces stochastic processes. Credit is not awarded for STAT 155 if it has already been awarded for STAT 156A or STAT 160A.

STAT 156A Mathematical Statistics With Applications For Data Science I 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 005C or MATH 009C, may be taken concurrently or MATH 09HC, may be taken concurrently. Introduction to frequentist probability concepts, random variables, and their distributions. Discusses key theorems and inequalities in probability theory. Introduces frequentist methods of point and interval estimation. Credit is awarded for one of the following STAT 156A or STAT 160A.

STAT 156B Mathematical Statistics With Applications For Data Science 2 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 156A with a grade of C- or better. Topics include illustrative applications of Frequentist theory to linear regression; logistic regression and ANOVA; introduction to Bayes' rule, Bayesian probability concepts, and credible intervals; analysis of contingency tables; applications of sequential statistics; and methods for observational studies and missing data. Credit is awarded for one of the following STAT 156B or STAT 160B.

STAT 157 Statistical Computing With Sas 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 010 with a grade of C- or better; CS 009A with a grade of C- or better or CS 010A with a grade of C- or better or STAT 107 with a grade of C- or better; or equivalent. Covers statistical computing with SAS. Topics include syntax and programming logic; data management; basic statistical analysis; statistical graphics; regression; and macros.

STAT 160A Elements of Probability and Statistical Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 005C or MATH 009C, may be taken concurrently or MATH 09HC, may be taken concurrently. Topics include statistical regularity, probability spaces, fundamental theorems in discrete probability, Bayes' theorem, random variables, densities and distribution functions, and continuous distributions. Credit is awarded for one of the following STAT 160A or STAT 156A.

STAT 160B Elements of Probability and Statistical Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 160A with a grade of C- or better. Topics include transformations of random variables and central limit theorem, distributions of sample statistics, statistical inference, and estimation. Credit is awarded for one of the following STAT 160B or STAT 156B.

STAT 160C Elements of Probability and Statistical Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 160B with a grade of "C-" or better. Topics include hypothesis testing, chi-square tests, and nonparametric methods.

STAT 161 Introduction to Probability Models 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 156B with a grade of C- or better or STAT 160B with a grade of C- or better. Covers compound distributions, branching processes, and random walk. Explores continuous time models such as Poisson process and queuing models. Examines the Markov property and introduces Markov chains. Also covers simple time series models.

STAT 167 Introduction to Data Science 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 107 with a grade of C- or better; CS 009A with a grade of C- or better or CS 010A with a grade of C- or better. Introduction to data science using the R programming language. Topics include big data management, visualization and analytical skills, unsupervised and supervised statistical learning methods, and real-world data science application examples.

STAT 169 Design of Experiments 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 107; STAT 156B or STAT 160B; or equivalent. Topics include principles of design; completely randomized designs; and one-way analysis of variance. Covers complete block designs and two-way analysis of variance; multiple comparisons; and complete factorial experiments. Explores fixed, random, and mixed models; split-plot designs; nested designs; analysis of covariance; sample size determination; and power analysis.

STAT 170 Regression Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 107; STAT 156B or STAT 160B; or equivalent. Topics include simple and multiple linear regression, scatter-plots, and point and interval estimation. Addresses prediction, testing, calibration, interpretation, and practical applications of multiple regression. Explores simple, partial, and multiple correlation; variable selection methods; diagnostic procedures; and regression for longitudinal data.

STAT 171 General Statistical Models 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 170. Covers generalized linear models and least squares, analysis of covariance, nonlinear regression, and nonlinear least squares. Explores regression methods for discrete data including loglinear models, logistic regression, and discriminant analysis. Also addresses regression methods for life data, the Cox survival model, the Kaplan-Meier estimation, and the Mantel-Haenszel test.

STAT 183 Statistical Consulting 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 169; STAT 170; STAT 171; restricted to class level standing of senior. Introduces the statistical consulting process. Promotes consulting skills including developing effective communication skills, applying statistical methodology to client projects, and learning how to manage time and resources in a consulting environment. Satisfactory(S) or No Credit(N/C) is not available.

STAT 190 Special Studies 1 to 5 hours to be arranged. To be taken with the consent of the chair of the department as a means of meeting special curricular problems. Course is repeatable to a maximum of 10 units.

STAT 197 Research For Undergraduates 2 to 4 Research, 3 to 6 hours; individual study, 3 to 6 hours. Prerequisite(s): restricted to class level standing of junior, or senior; and consent of instructor. An introduction to research in Statistics. Requires a research project completed under the supervision of a Statistics faculty member or a group of faculty members. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) No Credit (NC) grade. Course is repeatable to a maximum of 8 units.

STAT 198I Individual Internship in Statistics 1 to 12 Internship, 2 to 24 hours; research, 1 to 12 hours. Prerequisite(s): restricted to class level standing of junior, or senior; and consent of instructor. An internship to provide statistical field experience in governmental, industrial, or research units. Projects must be approved by the Statistics Department and the head of the unit in which the internship is to be carried out. Requires a written report. Total credit toward graduation may not exceed 12 units. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 16 units.

STAT 199H Senior Honors Research 1 to 5 Prerequisite(s): senior standing with major concentration in statistics and with consent of instructor. Senior standing with major concentration in statistics and with consent of instructor. Course is repeatable to a maximum of 10 units.

Graduate Courses

STAT 200 Foundational Methods For Business Analytics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 010; restricted to major(s) Business Administration, Business Analytics; graduate standing; or consent of instructor. Introduces the fundamental methods of data analysis, visualization, inference, and prediction needed for business analytics. Provides a working knowledge of using R to perform data analysis.

STAT 201A Theory of Probability and Statistics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010B; STAT 160C or equivalent; graduate standing; or consent of instructor. Topics include probability and conditional probability; random variables: univariate and multivariate; distributions; independence; moments; generating functions; transformations, and standard distributions. Also addresses multivariate normal distribution; order statistics; inequalities; convergence concepts; law of large numbers, and the central limit theorem. Credit is not awarded for STAT 201A, if it has already been awarded to STAT 210A if STAT 210A was taken prior to Fall 2013.

STAT 201B Theory of Probability and Statistics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; STAT 201A or equivalent; or consent of instructor. Topics include exponential families; delta method; inference concepts; sufficiency; point estimation; unbiasedness; completeness; and consistency. Also explores relative efficiency; maximum likelihood; method of moments; interval estimation; pivotals; and approximate intervals and regions. Credit is not awarded for STAT 201B if it has already been awarded to STAT 210B if STAT 210B was taken prior to Fall 2013.

STAT 201C Theory of Probability and Statistics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; STAT 201B or equivalent, or consent of instructor. Topics include Bayesian estimation; prior selection; loss functions; admissibility; hypothesis testing; Neyman-Pearson lemma; size; power; UMP tests; likelihood ratio tests; sequential tests; non-parametric tests; and bootstrap. Credit is not awarded to STAT 201C if it has already been awarded to STAT 210C.

STAT 202A Regression, Anova, and Design 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 170; or equivalent; graduate standing; or consent of instructor. Topics include linear regression models; correlations; fitting and prediction; diagnostics; transformations; collinearity; and influential observations. Also addresses model selection; subset selection; Bayesian model selection; regularization; shrinkage methods; and non-parametric and semi-parametric regressions.

STAT 202B Regression, Anova, and Design 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 169, STAT 170 or STAT 202A; or equivalent; graduate standing; or consent of instructor. Topics include fixed effects models with or without interactions; Types 1- 4 ANOVA; multiple testing; ANCOVA; mixed effects models; ML and REML estimation methods; BLUP; multiple crossed and nested factors; analysis of longitudinal data; general linear mixed models; parametric models for covariance structure; and Bayesian ANOVA.

STAT 202C Regression, Anova, and Design 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 169, STAT 170 or STAT 202B; or equivalent; graduate standing; or consent of instructor. Topics include basic principles of experimentation; clinical trials; completely randomized design; power and sample size; randomized block design; Latin square design; factorial experiments; response surface experiments; case control studies; matched case-control studies; choice experiments; and Bayesian design of experiments.

STAT 203A Bayesian Statistics I 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 160C or equivalent; graduate standing. Subjective probability, Renyi axiom system, Savage axioms, coherence, Bayes theorem, credibility intervals, Lindley paradox, empirical Bayes estimation, natural conjugate priors, de Finetti's theorem, approximation methods, Bayesian bootstrap, Bayesian computer programs.

STAT 203B Bayesian Statistics 2 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 203A; graduating standing. Assessing priors, nonparametric density estimation for expert group judgements, Bayesian regression, Bayesian analysis of variance, Bayesian regression with correlated disturbances and heteroscedasticity, Bayesian inference in time series models, Bayesian classification, Bayesian inference in spatial statistics, Bayesian factor analysis, disputed authorship.

STAT 204A Advanced Design and Analysis of Experiments 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 202C or equivalent, graduate standing; or consent of instructor. Topics include block, row-column, crossover and repeated measure designs; factorial experiments; confounding; fractional factorials; response surface designs; method of steepest ascent; canonical representation; rotatable, minimum bias, variance, and mean square error designs.

STAT 204B Advanced Design and Analysis of Experiments 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 204A or equivalent, graduate standing; or consent of instructor. Topics include mixture experiments; split-plot; optimum design theory; locally optimal designs; binomial experiments; dose response experiments; group sequential and time sequential design and analysis for failure time end points; adaptive designs.

STAT 205 Discrete Data Analysis 4 Lecture, 3 hours; discussion 1 hour. Prerequisite(s): STAT 160A, STAT 160B, STAT 160C or equivalents; graduate standing; or consent of instructor. Contingency tables, log-linear models, information theory models, maximum likelihood estimation, goodness of fit, measures of association, computational procedures.

STAT 206 Statistical Computing 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 160C or consent of instructor. STAT 206 online section; enrollment in the Online-Master-in-Science in Engineering program. Topics include statistical programming, simulation studies, smoothing and density estimation, generating random variables, optimization, Monte Carlo methods, Bootstrap, permutation methods, cross-validation.

STAT 207 Advanced Statistical Computing 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 201A and STAT 206 or equivalents; graduate standing; or consent of instructor. Topics include computational aspects of optimization; numerical integration; Advanced Monte Carlo methods; expectation maximization (EM) algorithm; Markov chain and Monte Carlo methods; and other current computational methods.

STAT 208 Statistical Data Mining Methods 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 201A; STAT 201B; STAT 202A; graduate standing; or consent of instructor. Covers principle data-mining methodologies and applications. Includes Bayes and LDA classifiers, logistic regression and neural network classifiers, support vector classifiers, classification trees, predictive modeling, ridge and lasso regressions, k-means and Dendrogram clustering methods, business analytics, and mining association rules. Features R and SAS programming languages. Credit is awarded for one of the following STAT 208 or ECON 220.

STAT 209 Software Tools For Big Data Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 206, STAT 208; graduate standing; or consent of instructor. Introduction to modern software tools for big data analytics and visualization, supervised and unsupervised statistical learning, database management systems, and parallel and distributed computing. Includes hands-on exercises on the aforementioned topics using R, Python, and SQL. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

STAT 210A Advanced Theory of Probability and Statistics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; STAT 201C or equivalent; or consent of instructor. Topics include measure spaces; measure integration; convergence theorems; absolute continuity; product spaces; Tonelli-fubini theorems; convolutions and transforms; probability spaces; and existence and extension theorems. Also covers inequalities; independence; conditional probability and expectation; convergence concepts; laws of large numbers; weak convergence; and central limit theorem. Credit is not awarded for STAT 201A if it has already been awarded to STAT 210A if STAT 210A was taken prior to Fall 2013.

STAT 210B Advanced Theory of Probability and Statistics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 210A; graduate standing. Topics include estimation, decision theory, Bayes and empirical Bayes rules, and efficiency. Credit is not awarded for STAT 201B if it has already been awarded to STAT 210B if STAT 210B was taken prior to Fall 2013.

STAT 212 Data Science Ethics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CS 252A or EE 251A or CS 235 or CS 224 or STAT 207 or STAT 208; graduate standing. Covers ethics specifically related to data science. Includes data privacy; data curation and storage; discrimination and bias arising in the machine learning process; statistical topics such as generalization, causality, curse of dimensionality, and sampling bias; data communication; and strategies for conceptualizing, measuring, and mitigating problems in data-driven decision-making. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with CS 212. Credit is awarded for one of the following CS 212, STAT 212, CS 108, or STAT 108.

STAT 215 Stochastic Processes 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 160A, STAT 160B, STAT 160C, STAT 161; graduate standing. The Markov property; Markov chains; Markov processes and Poisson processes. Birth and death models. Queues. Random walks. Renewal processes. Wiener processes and diffusion.

STAT 217 Mixture Models and Their Applications 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 170, STAT 171, STAT 201C; or equivalent; graduate standing. An introduction of mixture models (also known as latent class models or unsupervised learning models). Includes expectation-maximization (EM) algorithm, mixtures of regression models, and their applications such as clustering and density estimation.

STAT 218 Survival Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 170; graduate standing; or consent of instructor. Introduction to common statistical concepts and methods for analyzing time-to-event data. Topics include survival and hazard functions, censoring and truncation, Kaplan-Meier estimator, log-rank test, Cox proportional hazards model and partial likelihood, variants of Cox model, and alternatives to Cox model. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

STAT 220A Multivariate Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 160A, STAT 160B, STAT 160C, or equivalents; graduate standing; familiarity with matrix algebra. Topics include algebra and calculus of vectors and matrices, special multivariate distributions (Normal, Wishart, Hotelling's T-squared, multivariate T, multivariate log-normal, etc).

STAT 220B Multivariate Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 220A; graduate standing; or consent of instructor. Topics include categorical dependent variable regression, loglinear models, inference in the multivariate normal distribution, multivariate multiple regression, hypothesis testing, likelihood ratio tests, multivariate analysis of variance and covariance, principal components analysis, factor analysis, and classification and discrimination models.

STAT 231A Statistics For Biological Sciences 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 011; or equivalent; restricted to major(s) Biochemistry and Molecular Bio, Biomedical Sciences, Botany, Botany (Plant Genetics), Botany/Plant Sciences, Cell, Molecular, and Developme, Entomology, Environmental Toxicology, Evoltn, Ecol & Organismal Bio, Genetics, Genomics & Bioinform, Microbiology, Neuroscience, Plant Biology, Plant Biology (Plant Genetics), Plant Pathology; graduate standing; or consent of instructor. Covers one- and two-sample tests, one- and two-way analysis of variance, multiple comparison, simple and multiple linear regression, nonparametric statistics, and categorical data.

STAT 231B Statistics For Biological Sciences 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 031; or equivalent; STAT 231A or consent of instructor; graduate standing in Biochemistry and Molecular Biology; Biomedical Sciences; Botany; Cell, Molecular, and Developmental Biology; Entomology; Environmental Toxicology; Genetics, Genomics, & Bioinfomatics; Evolution, Ecology, and Organismal Biology; Microbiology; ; Neuroscience; Plant Biology; Plant Genetics; Plant Pathology; or Plant Science. Covers logistic regression, analysis of covariance, advanced experimental designs, randomization, bootstrapping, jackknifing, and other procedures.

STAT 232 Statistics For Business Analytics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 011; or equivalent; STAT 232 is for Master of Business Analytics (BSBA) program and cannot be used to fulfill credit requirements towards Statistics PhD (STAP); graduate standing; or consent of instructor. Focuses on computing techniques and statistical decision-making approaches. Offers hands-on experience in analyses using R; the interface between relational database and R; data wrangling and visualization; analysis of variance; regression; variable selection; and forecasting. Includes statistical concepts such as correlation versus causality and designed experiments versus observational studies.

STAT 233A Statistics For Public Health 1 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): restricted to major(s) Masters of Public Health Program; graduate standing; or consent of instructor. Defines the role of statistics in public health research and practice. Develops skills to perform exploratory data analysis; learn basic probability and distributions, estimation, and hypothesis testing procedures; and apply them to real-world public health problems. First course in a two-course sequence.

STAT 233B Statistics For Public Health 2 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 233A; restricted to major(s) Masters of Public Health Program; graduate standing; or consent of instructor. Develops skills to perform regression (linear, logistic, and Poisson regression models) and survival data analyses. Additional topics may include power analysis and longitudinal data analysis methods. Applies these methods to real-world public health problems. Second course in a two-course sequence.

STAT 235 Neural Networks and Deep Learning in Business 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 200, STAT 206; restricted to major(s) Business Analytics; graduate standing; or consent of instructor. Delves into modern deep learning methodologies and their transformative applications in business analytics. Covers a wide range of neural network and deep learning topics in business applications. Includes methods introduction, implementations in Python, and a final project on a real-world business problem.

STAT 240 Nonparametric Methods 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): STAT 160A, STAT 160B, STAT 160C; graduate standing. Theory of distribution-free statistics, ranking statistics, rank correlation, U-statistics. Nonparametric point and interval estimation. Empirical distribution function methods. Combinatorial problems; runs, matching, occupancy; limiting distributions.

STAT 251 Statistics Colloquium 1 Colloquium, 1.5 hours. Prerequisite(s): graduate standing; and consent of instructor. Presentation of current research in statistics by faculty, advanced graduate students, and guest lecturers. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

STAT 255 (E-Z) Seminar On Topics in Applied Statistics 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): see individual segments for prerequisites; graduate standing; or consent of instructor. Provides discussions and lectures by graduate students and faculty on topics related to student and faculty research. The department will maintain a listing of all 255 segments, their unit value, and grading basis.

STAT 255G Seminar On Topics in Applied Statistics 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Covers linear models; theory of least squares; general prediction theory; testing lack of fit; model assessment and selection; mixed models and variance components; collinearity and alternative estimates; generalized linear models; lasso for linear models and generalized linear models; and Bayesian linear models.

STAT 255I Seminar in Order Statistics 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 160C and graduate standing. Basic distribution theory of order statistics. Bounds and approximations for moments of order statistics. Inference using

order statistics. Record values, concomitants, and outliers. Asymptotic theory. Students may receive either a letter grade or Satisfactory (S) or No Credit (NC) grade. See instructor for grading basis; no petition is necessary.

STAT 255J Seminar On Topics in Applied Statistics 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Topics include linear mixed effects models; generalized linear models; nonlinear mixed effects models; repeated measures; ANOVA/MANOVA; graphical data exploration; correlation structures; parameter estimation/testing inference; and model selection, diagnostics, and limitations. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

STAT 255K Inference For Stochastic Process 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing. Maximum likelihood estimation for Markow chains, branching processes, and general stochastic processes; properties of maximum likelihood estimates: likelihood ratio test for Markow chains; and sequential probability ratio tests for some stochastic processes. Students may receive either a letter grade or Satisfactory (S) or No Credit (NC) grade. See instructor for grading basis; no petition is required.

STAT 255M Seminar On Topics in Applied Statistics 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Includes industrial experiments, evolutionary operations, quality assurance, on-line and off-line quality improvement, signal-to-noise ratios, performance criteria, control charts, acceptance sampling, and basic concepts of reliability. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

STAT 255N Seminar in Advanced Statistics 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing. Analysis of data, taking account of spatial variations; optimal selection of sample sites; related design considerations; appropriate estimation techniques; variogram and covariance functions estimation using residuals; and practical illustrations. Students may receive either a letter grade or Satisfactory (S) or No Credit (NC) grade. See instructor for grading basis; no petition is required.

STAT 255Q Reliability and Life Testing Models 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 160A, STAT 160B, STAT 160C and graduate standing. Structural properties and reliability of coherent systems; cumulative-damage models; fault tree analysis; renewal theory in replacement models; maintenance and replacement models; availability theory; limit distributions for series and parallel systems; censored sampling.

STAT 255R Statistics For Epidemiological Studies 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; STAT 160C, STAT 171, or equivalents or consent of instructor. An introduction to statistical methods for detecting and monitoring disease outbreaks. Focuses on the methods currently in use and the latest developments in literature. Includes univariate and multivariate temporal methods, as well as spatio-temporal methods. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination.

STAT 255S Seminar On Topics in Applied Statistics 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Topics in health statistics essential for statisticians in the health field. Includes life tables, survival analysis, and an introduction to epidemiology and intermediate biostatistics. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

STAT 255T Seminar On Topics in Applied Statistics 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Addresses topics related to modern nonparametric statistics. Includes nonparametric density estimation, nonparametric regression, permutation test, bootstrap, and multivariate nonparametric methods. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

STAT 288 Literature Seminar 1 Seminar, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Students will make oral presentations summarizing important research papers in the statistics literature. All graduate students are encouraged to participate. Topics may vary each term. Graded Satisfactory (S) or No Credit (NC).

STAT 290 Directed Studies 1 to 6 Prerequisite(s): graduate standing and consent of instructor. Individual studies on specially selected topics in statistical applications. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

STAT 291 Individual Studies in Coordinated Areas 1 to 6 Consultation, 1 to 6 hours. Prerequisite(s): graduate standing. A program of studies designed to assist candidates who are preparing for examinations. Open to M.S. and Ph.D. students; does not count toward the unit requirement for the M.S. degree. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

STAT 292 Concurrent Analytical Studies 1 to 4 Research, 3 to 12 hours, Prerequisite(s): consent of instructor and concurrent enrollment in 100-series course; graduate standing. To be taken on an individual basis. Student will complete a graduate paper related to the 100-series course. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

STAT 293 Methods in Applied Statistics 4 Lecture, 3 hours; discussion, 1 hours, Prerequisite(s): STAT 201C, STAT 202C or equivalent; graduate standing; or consent of instructor. Illustrates problems in interdisciplinary collaborations. Motivates the study and application of advanced statistical methods in applied statistics. Course is repeatable to a maximum of 8 units.

STAT 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing and consent of instructor. Directed research in applications of statistics in biological studies, including computer simulation. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

STAT 298I Individual Internship in Statistics 1 to 12 Research, 1 to 12 hours; internship, 2 to 24 hours. Prerequisite(s): restricted to major(s) Statistics; graduate standing; or consent of instructor. An internship to provide statistical field experience in governmental, industrial, or research units. Projects must be approved by the Statistics Department and the head of the unit in which the internship is to be carried out. Requires a written report. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 16 units.

STAT 299 Research For Thesis Or Dissertation 1 to 12 Research, 3 to 36 hours. Prerequisite(s): graduate standing and consent of instructor. Original research in an area selected for the advanced degree. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Course

STAT 302 College Teaching Practicum 1 to 4 Practicum, 3 to 12 hours. Prerequisite(s): graduate standing and consent of instructor. Required of all teaching assistants in the department. Credit not applicable to graduate unit requirements. Supervised teaching in college level classes under the supervision of the course instructor. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Study of Religion

Subject abbreviation: RLST
College of Humanities, Arts, and Social Sciences

Matthew W. King, Ph.D., Chair
Department Office, 4033 CHASS Interdisciplinary North
mking@ucr.edu
(951) 827-7969; studyofreligion.ucr.edu

Distinguished Professor

Pashaura Singh, Ph.D. *Dr. Jasbir Singh Saini Endowed Chair in Sikh and Punjabi Studies*

Full Professors

Michael Alexander, Ph.D. *Maimonides Chair in Jewish Studies*
Matthew King, Ph.D.
Amanda Lucia, Ph.D.
Melissa M. Wilcox, Ph.D. *Holstein Family and Community Chair in Religious Studies*

Professors Emeriti

Vivian-Lee Nyitray, Ph.D.
Ivan A. Strenski, Ph.D.

Associate Professors

Elyse Ambrose, Ph.D.
Paul Chang, Ph.D.
Muhamad Ali, Ph.D.

Ana Bajželj, Ph.D., *Shrimad Rajchandra Endowed Chair in Jain Studies*

Assistant Professors

Sahin Acikgoz, Ph.D.

Major

The Department for the Study of Religion provides an opportunity for students to interrogate religion, as a subject always entangled with ethnicity, politics, economics, gender, class, sexuality, and race. With a degree in the study of religion, students examine how religious life is mediated by practice, materiality, language, the senses, embodiment, and culture. The study of religion is interdisciplinary, and students engage in social scientific, cultural, and historical interpretive methods, among others, to study a broad spectrum of the world's religious traditions. Majoring in the study of religion can be an excellent preparation for a variety of careers, such as law, bioethics, human services, business, medicine, education, social work, writing, and the arts.

The study of religion at UCR develops in students a variety of valuable and transferable skills. These include disciplined attention to the facts (texts, ideas, history, behavior), critical reflection and analysis about claims of meaning and value and about assumptions and methods used in the study of religion, and descriptive and analytical writing about religious history, ideas, motivations, practices, and ethical concerns. A minor in Religious Studies is also a productive way to couple interests in such areas as political science, sociology, medicine, psychology, and law with the ethical and cultural contexts in which such fields are enmeshed. Students are encouraged to consult with the department chair and other faculty about their questions and interests.

The Holstein Family and Community Chair in Religious Studies

The Holstein Family and Community Chair in Religious Studies is an endowed faculty chair, the result of a generous contribution given by the Robert and Loretta Holstein family and by friends of the Holstein family and the university. Dr. Melissa M. Wilcox, the holder of this chair, is a distinguished scholar and teacher whose work focuses on queer and transgender studies in religion, and on religion, power, and social justice more broadly. For more information on programs and events sponsored by the Holstein Chair, please see **http://religiousstudies.ucr.edu/holstein-chair/**

The Dr. Jasbir Singh Saini Endowed Chair in Sikh and Punjabi Studies

The Dr. Jasbir Singh Saini Endowed Chair in Sikh and Punjabi Studies is the result of a generous contribution given by the Saini Foundation, the Sikh Foundation and by a number of individuals and the University. It honors the memory of the late Dr. Jasbir Singh Saini, who was a cardiologist in Phoenix, Arizona. Dr. Pashaura Singh has been appointed to the Chair and is a leading scholar and teacher whose work in the field of Adi Granth studies is internationally acclaimed. For more information on the Endowed Chair, please visit the following website: **https://spstudies.ucr.edu/**

Maimonides Chair in Jewish Studies

The Maimonides Endowed Chair in Jewish Studies was established in 2014 with support from nearly three dozen individuals, foundations and organizations to fund research and other activities aimed at fostering better understanding of the history and heritage of Jewish people. The chair Dr. Michael Alexander is a leading scholar and teacher whose work addresses religion, ethnicity, genocide, and issues of modern Jewish identity. For more information on the Endowed Chair, please visit the following website: **http://jewishstudies.ucr.edu**

Shrimad Rajchandra Endowed Chair in Jain Studies

The Shrimad Rajchandra Endowed Chair in Jain Studies was made possible by generous donations from Dr. Jasvant Modi and Dr. Meera Modi, Mr. Mahesh Wadher and Mrs. Usha Wadher, Mr. Vijay Chheda and Mrs. Madhu Chheda, and other members of the Jain community of Southern California. Established in 2017, commemorating the 150th birth anniversary of the Jain spiritual teacher and reformer Shrimad Rajchandra, the Chair's mission is to pursue critical scholarly research of Jainism and advance its study at UCR. Dr. Ana Bajželj was appointed to the Chair in 2018.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

Religious Studies Major

The major requirements for the B.A. degree in Religious Studies are as follows:

1. **Lower-division requirements (12 units)**
   a) Three lower-division courses in the Study of Religion.
2. **Upper-division requirements (40 units)**
   a) Eight upper-division courses in the Study of Religion (closely related courses from other programs or departments may be substituted upon approval).
   b) RLST 100 or RLST 102
   c) RLST 195. Senior Thesis. Preparation and completion of a substantial research project, normally a minimum of 3,000 words, conducted under the supervision of a faculty advisor in the student's area of study. Students pursuing the University Honors curriculum may satisfy this requirement through successful compleiton of the Honors Capstone sequence (HNPG 198H and HNPG 199H, 4 units total) with a project rooted in Religious Studies and approved by the department.

The programs of all majors should be developed in consultation with their advisors.

Art History/Religious Studies Major

The Art History/Religious Studies Major combines the disciplinary interest in the history of the visual arts with its related religious content and background. Three concentrations are offered. Students must select one family of religions, either Asian or Western, and combine it with the study of the history of the visual arts in the corresponding area of artistic endeavor. Or, students wishing to combine Asian and Western materials to serve a comparative purpose are invited to design their own major in consultation with faculty representatives from both departments. Students are encouraged to include study abroad as part of their major and should plan well in advance to ensure that the courses taken fit with their overall program at UCR. Students in this major will be well prepared for graduate studies in either art history or religious studies.

The major requirements for the B.A. degree in Art History/Religious Studies are as follows:

Asian Concentration (52 units)

1. **Lower-division requirements (12 units)**
   a) Art History (4 units): AHS 015
   b) Asian Studies (4 units): AST 030/CHN 030
   c) Religious Studies (4 units): RLST 005
2. **Upper-division requirements (40 units)**
   a) Art History (16 units): AHS 140, AHS 141, AHS 143, CPLT 141
   b) Religious Studies (24 units) choose from: RLST 101, RLST 103, RLST 105, RLST 106, RLST 142/AST 142/CHN 142, RLST 144/CPLT 144
3. **Optional 190 level work in either Art History or Religious Studies**

Student-designed Comparative Concentration (52 units)

1. **Lower-division requirements (12 units)**
   a) Art History, choose at least 4 units: AHS 015, AHS 017A, AHS 017B, AHS 017C, AST 030/CHN 030
   b) Religious Studies, choose at least 4 units: RLST 005, RLST 007, RLST 010
2. **Upper-division requirements (40 units)**
   a) Art History, choose at least 12 units: AHS 140, AHS 141, AHS 143, AHS 155, AHS 156, AHS 157, AHS 159, AHS 161, AHS 162, AHS 164, AHS 171, AHS 172, CPLT 141
   b) Religious Studies, choose at least 12 units: RLST 100, RLST 101, RLST 103, RLST 105, RLST 106, RLST 111, RLST 121, RLST 128 (E-Z), RLST 130, RLST 131, RLST 135/HISE 130, RLST 136, RLST 142/AST 142/CHN 142, RLST 144/CPLT 144
3. **Optional 190 level work in either Art History or Religious Studies**

Western Concentration (52 units)

1. **Lower-division requirements (16 units)**
   a) Art History (12 units): AHS 017A, AHS 017B, AHS 017C
   b) Religious Studies (4 units) choose from: RLST 007, RLST 010
2. **Upper-division requirements (36 units)**
   a) Art History (16 units) choose from: AHS 155, AHS 156, AHS 157, AHS 159, AHS 161, AHS 162, AHS 164, AHS 171, AHS 172
   b) Religious Studies (20 units) choose

from: RLST 100, RLST 111, RLST 121, RLST 128 (E-Z), RLST 130, RLST 131, RLST 135/HISE 130, RLST 136

3. **Optional 190 level work in either Art History or Religious Studies**

Religious Studies/Administrative Studies Major

The major requirements for the B.A. degree in Religious Studies/Administrative Studies are as follows:

Religious Studies requirements (48 units)

1. **Lower-division requirements (12 units)**
   a) Three lower-division courses in the Study of Religion.
2. **Upper-division requirements (36 units)**
   a) Seven upper-division courses in the Study of Religion (closely related courses from other programs or departments may be substituted upon approval).
   b) RLST 100 or RLST 102
   c) RLST 195. Senior Thesis. Preparation and completion of a substantial research project, normally a minimum of 3,000 words, conducted under the supervision of a faculty advisor in the student's area of study. Students pursuing the University Honors curriculum may satisfy this requirement through successful completion of the Honors Capston sequence (HNPG 198H and HNPG 199H, 4 units total) with a project rooted in Religious Studies and approved by the department.

Administrative Studies requirements (37 units)

1. **Lower-division requirements (17 units)**
   a) BUS 010, BUS 020
   b) STAT 008 or equivalent (may be used to satisfy breadth requirements
   c) CS 008 (may be used to satisfy breadth requirements)
2. **Upper-division requirements (20 units)**
   a) Two courses (8 units) from the list below:
      (1) ECON 102 or ECON 103 or ECON 104A or ECON 130 or ECON 162/BUS 162
      (2) PSYC 140 or PSYC 142
      (3) SOC 150 or SOC 151
      (4) POSC 181 or POSC 182E or POSC 182G or POSC 183 or POSC 186
      (5) ANTH 127 or ANTH 127S or ANTH 131

      These two courses must be outside the discipline of the relevant major and cannot be courses included as part of the three-course Business Administration track or their cross-listed equivalents.
   b) A three-course track (12 units) in Business Administration courses, from one of the following:
      (1) **Organizations (General)**: BUS 100W, BUS 107, BUS 158/ANTH 105, BUS 176/SOC 176, SOC 150, SOC 151
      (2) **Human Resources Management/Labor Relations**: BUS 100W, BUS 107, BUS 121, BUS 144, BUS 145, BUS 153/ECON 153, BUS 155, BUS 156, BUS 157, PSYC 142
      (3) **Business and Society:** BUS 100W, BUS 102, BUS 107, PHIL 116, POSC 182E or POSC 182G, POSC 186
      (4) **Marketing**: BUS 103, and two from BUS 111, BUS112, BUS 113, BUS 114, BUS 115, BUS 116, BUS 117, BUS 118, BUS 119, BUS 124, BUS 126, BUS 151, BUS 152, BUS 159, BUS 164, BUS 182
      (5) **Managerial Accounting/Taxation**: BUS 108, and two from BUS 166, BUS 168A, BUS 168B
      (6) **Financial Accounting**: BUS 108, BUS 165A, BUS 165B, BUS 165C, BUS 167
      (7) **Finance**: BUS 106/ECON 134 and two from BUS 131, BUS 132, BUS 134, BUS 135, BUS 136, BUS 137, BUS 138, BUS 139, BUS 140E, BUS 141, BUS 147
      (8) **Management Information Systems**: BUS 101, BUS 110, BUS 125, BUS 128, BUS 171, BUS 172, BUS 173, BUS 174, BUS 175, BUS 179
      (9) **Production Management**: BUS 104/STAT 104, and two from BUS 105, BUS 122, BUS 127/STAT 127

      The programs of all majors should be developed in consultation with their advisors.

Minor

Requirements for a minor in Religious Studies are as follows:

1. **Lower-division requirements (12 units)**
   a) Three lower-division elective courses in the Study of Religion
2. **Upper-division requirements (16 units)**
   a) Four upper-division elective courses in the Study of Religion

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Education Abroad

Education Abroad is an excellent opportunity to learn more about another country and its culture while taking courses to earn units toward graduation. Students should plan study abroad well in advance to ensure that the courses taken fit with their overall program at UCR. Consult the departmental student affairs officer for assistance. For further details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

Graduate Program

The Department of Religious Studies offers the M.A. and Ph.D. degrees in Religious Studies.

The graduate program in Religious Studies instructs students in the critical academic religious studies. The Ph.D. program focuses on preparing students to enter into academia as researchers and university instructors in a specific field of expertise.

Admission

Although an undergraduate major in religious studies is not required for admission into the graduate program, applicants should demonstrate significant interest and background in the critical academic religious studiess and the appropriate scholarly approaches to religious studies. Applicants to the M.A. and Ph.D. programs must demonstrate scholarly acuity, as well as interest in the critical questions of the discipline of religious studies. Given the broader scope of the M.A. program, applicants to this degree program do not need to specify a particular field of study or concentration they wish to pursue in the program. Applicants to the Ph.D. program, however, should indicate in their applications the current direction of their interests with regard to a specific Ph.D. concentration and field of study.

Master's Degree (M.A.)

The Department of Religious Studies offers two programs of study leading to the M.A. degree (Plan I and Plan II).

Course work

All M.A. students must complete a minimum of 36 units for the degree, including specific course requirements as follows:

1. RLST 201: Thinking about Religion: Classic Theories in the Religious Studies
2. RLST 202: Contemporary Theories and Theorists in the Religious Studies
3. At least 16 additional units at the 200 level in Religious Studies. With approval from the Director of Graduate Studies, 200-level courses in related departments may also fulfill this requirement.
4. Professional development requirement: All M.A. students are required to take three units of the Colloquium in Religious Studies and one unit of additional 400-level coursework in religious studies.
5. The remaining 12 units may be taken as 200-level courses, or as 100-level courses taken in conjunction with RLST 292: Concurrent Studies in Religious Studies. Any RLST course at these levels may fulfill this requirement, and with approval from the Director of Graduate Studies, courses at these levels in related departments may also fulfill this requirement.

Capstone: M.A. Plan I

In addition to the coursework listed above, Plan I M.A. students must prepare a Master's thesis of publication length (typically 25-30 pages) that presents original research and analysis relevant to the field of religious studies under the supervision of a thesis committee.

Capstone: M.A. Plan II

In addition to the coursework listed above, Plan II M.A. students must successfully complete a final master's project under the supervision of a master's committee. Students have some flexibility in the nature of this project, which may take the form of a single, comprehensive written examination designed by the master's committee in consultation with the student, or an applied project suitable for the student's future career goals.

Students planning to complete the Ph.D. must complete the M.A. Plan I.

Language Requirement

Students must demonstrate reading proficiency in

a language other than English that is relevant to their interests in religious studies; the department must approve the choice of language prior to completion of the language requirement. If a language is primarily used in spoken form, then spoken proficiency must be demonstrated instead of written proficiency. If there is no clear choice of language for a student's interests (e.g. in the case of a student whose interests lie primarily with theoretical approaches stemming from Anglophone theorists), then the student should select either French or German. This requirement can be fulfilled through a departmental examination of written and/or spoken proficiency, by passing a designated language course (e.g., FREN 009A, FREN 009B, GERM 002R), or by alternative certification (such as a diploma from a foreign language institute).

Normative Time to Degree 6 quarters.

Doctoral Degree (Ph.D.)

Coursework
The following courses are required for all Ph.D. students:

1. RLST 201: Thinking about Religion: Classic Theories in the Study of Religion
2. RLST 202: Contemporary Theories and Theorists in the Study of Religion
3. at least one course in methods training, such as RLST 203: Hermeneutics and History, RLST 204: Analytics of Power, RLST 205: Transnational Religions, RLST 208: Otherwise Methods, RLST 231: Ethnographic Methodology, RLST 263: Historiography of Sikh Hermeneutics, or a comparable course with approval of the Director of Graduate Studies.
4. at least four units of the one-unit 400-level professionalization courses, including three units of RLST 401: Colloquium and one unit of the student's choice of RLST 402, 403, or 404.

Concentration
Ph.D. students must select one of the following concentrations, and are expected both to take the associated core course and to focus aspects of their doctoral exams and their dissertation on this theme:

Hermeneutics and History

Analytics of Power

Transnational Religions

M.A. in Religious Studies degree for Ph.D. students
Students entering the Ph.D. program without an M.A. in Religious Studies may apply for the M.A. degree after they have completed the requirements for the M.A. Plan I.

Sixth quarter review:
All Ph.D. students will undergo a review of their performance in the program by the end of their sixth quarter. The review, conducted by the Graduate Program Committee in consultation with the faculty members with whom the student has worked, with particular attention to the evaluation of the student's Advisor, will make one of three recommendations: Proceed, Hold, or Terminate. Students receiving a recommendation of Hold may reapply once during the following Fall quarter, to proceed in the program. Those receiving a recommendation of Terminate who have not previously completed an M.A. in Religious Studies may enroll in the following Fall quarter to complete the requirements for the M.A. I or the M.A. II. However, termination of the Ph.D. track (effective upon notification) also results in the termination of the dissertation funding package initially awarded and any teaching employment.

Written and oral qualifying examinations
Students must complete a round of qualifying written examinations, followed by an oral defense of those examinations, by the end of their third year and following the completion of all coursework. Students complete the three written examinations over a two- to three week period.

The topic and the content of each exam is determined by the student in consultation with the examination committee, and must be approved by that committee. After completing the written examinations, students undergo an oral examination by committee. The content of the oral examination is based on the written examination questions and answers.

Both the written and oral examination are composed, administered, and evaluated by a qualifying committee, nominated nine to twelve months before the exam by the student in consultation with the department faculty, and appointed by the graduate dean.

The oral qualifying exam can be taken in one of the following modes: in-person, remote, or hybrid. The student and their advisor will discuss which mode best suits the subject matter, with the advisor making the final determination. Students taking the exam in-person are expected to be present on campus with all committee members physically present. If hybrid is chosen, the student is expected to be present on campus for the exam in a video enabled room that supports some committee members being physically present and others remote. For a remote exam, all committee members and the student are expected to be in attendance remotely online.

Upon successful completion of the written and oral qualifying examinations, the student is recommended to the graduate dean for advancement to candidacy; at this time, the student also nominates a dissertation committee.

Language requirement
Students must demonstrate reading proficiency in two languages other than English that are relevant to their interests in religious studies; the department must approve the choice of languages prior to completion of the language requirement. If a language is primarily used in spoken form, then spoken proficiency must be demonstrated instead of reading proficiency. If there is no clear choice of language for a student's interests (e.g. in the case of a student whose interests lie primarily with theoretical approaches stemming from Anglophone theorists), then the student should select French and German. This requirement can be fulfilled through a departmental examination of written and/or spoken proficiency, by passing a designated language course (e.g., FREN 009A, FREN 009B, GERM 002R), or by alternative certification (such as a diploma from a foreign language institute).

Dissertation and final defense
Following advancement to candidacy, and working closely with the dissertation committee, doctoral candidates must prepare a dissertation prospectus for approval by that committee. Once all committee members have communicated their approval of the prospectus and all other relevant approvals (e.g., Institutional Review Board) have been obtained, the candidate should begin the process of researching and writing the dissertation, which should be prepared and presented as prescribed by the Graduate Division. When the dissertation is complete and all members of the dissertation committee are satisfied with the written work, the candidate must schedule a dissertation defense. The final defense can be taken in one of the following modes: in-person, remote, or hybrid. The student and their advisor will discuss which mode best suits the subject matter, with the advisor making the final determination. Students taking the exam in-person are expected to be present on campus with all committee members physically present. If hybrid is chosen, the student is expected to be present on campus for the exam in a video enabled room that supports some committee members being physically present and others remote. For a remote exam, all committee members and the student are expected to be in attendance remotely online. This final, public oral examination consists of a 45-minute keynote-style presentation of the dissertation research, followed by questions from the committee and the public audience.

Normative Time to Degree 18 quarters.

Lower-Division Courses

RLST 001 Sex, Sin, and Scripture 4 Lecture, 3 hours; discussion, 1 hour; individual study, .5 hours; term paper, .5 hours. Prerequisite(s): none. An introduction to the academic study of religion. Engages the study of religion thematically, thinking through taboos and injunctions as they are related to specific social and historical contexts. Examines global religious beliefs and practices from diverse cultural perspectives. Credit is awarded for only one of RLST 001 or RLST 001H.

RLST 001H Honors Sex, Sin, and Scripture 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours; individual study, .5 hours; term paper, .5 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor, Honors course corresponding to RLST 001. An introduction to the academic study of religion. Engages the study of religion thematically, thinking through taboos and injunctions as they are related to specific social and historical contexts. Examines global religious beliefs and practices from diverse cultural perspectives. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of RLST 001 or RLST 001H.

RLST 002 Introduction to Comparative Scripture 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to the comparisons of Scripture. Includes Sikhism, Zoroastrianism, Judaism, Christianity, Islam, Hinduism, Buddhism, Taoism, and Confucianism. Also addresses a number of the

modern New Religious Movements.

RLST 003 Paths of Joy: Therapeutic Dimensions of Spiritual Traditions 3 Seminar, 3 hours. Prerequisite(s): none. Explores therapeutic wisdom traditions that make claims about how to reduce suffering and achieve fulfillment and happiness. Considers worldwide literatures and rituals for their therapeutic claims. Also examines the positive psychology movement, which weds academic research to the task of individual self-help.

RLST 004 Religion, Society, and Culture 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduction to the study of religion through the lenses of sociology and cultural studies. Explores the mutual influence of religion and social institutions, politics, social movements, and popular culture. Topics may include pluralism, new religious movements and "spirituality", popular culture, social power, and politics. Credit is awarded for one of the following RLST 004 or RLST 004H.

RLST 004H Honors Religion, Society, and Culture 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to University Honors; or consent of instructor. Honors course corresponding to RLST 004. Introduction to the study of religion through the lenses of sociology and cultural studies. Explores the mutual influence of religion and social institutions, politics, social movements, and popular culture. Topics may include pluralism, new religious movements and "spirituality", popular culture, social power, and politics. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for one of the following RLST 004H or RLST 004.

RLST 005 Introduction to Asian Religions 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to Asian religions including Hinduism, Buddhism, Sikhism, Confucianism, Taoism, and Shinto. Credit is awarded for one of the following RLST 005 or RLST 005H.

RLST 005H Honors Introduction to Asian Religions 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): admission to University Honors; or consent of instructor. Honors course corresponding to RLST 005. An introduction to Asian religions including Hinduism, Buddhism, Sikhism, Confucianism, Taoism, and Shinto. Credit is awarded for one of the following RLST 005H or RLST 005.

RLST 006 Jesus 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): none. Examines the figure of Jesus from two main perspectives: historical investigations of Jesus in his first-century context and modern representations of Jesus in the United States.

RLST 007 Jews, Christians, and Muslims 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): none. Surveys the history, institutions, theologies, and representations of Jews, Christians, and Muslims. Includes distinguishing characteristics, foundational texts, interpretive traditions, rituals, material culture, ethics, political ideologies, and historical interactions of the three religious traditions. Credit is awarded for one of the following RLST 007 or RLST 007H. Credit is awarded for one of the following RLST 007 or RLST 007H.

RLST 007H Honors Jews, Christians, and Muslims 5 Lecture, 3 hours; discussion, 2 hours; extra reading, 3 hours. Prerequisite(s): admission to University Honors. Honors course corresponding to RLST 007. Surveys the history and contemporary religious institutions and representations of Jews, Christians, and Muslims. Includes distinguishing characteristics, foundational texts, interpretive traditions, rituals, material culture, ethics, political ideologies, and historical interactions. Credit is awarded for one of the following RLST 007H or RLST 007.

RLST 010 Introduction to the Bible 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): none. A preparation for informed study of the Bible. Examines contemporary interpretive stances, history, methods, and major themes through the study of significant portions of the Bible.

RLST 011 Islam and Feminism 4 Lecture, 3 hours; discussion, 1 hour; written work, 1 hour; term paper, 1 hour. Prerequisite(s): none. Focuses on the intersections between Islam and feminism. Topics include feminist interpretations of the Qur'an, Muslim women's movements and activisms in Islamic and non-Islamic societies, and the complex interactions between the nation-state, religion, gender, and sexuality. Cross-listed with GSST 012, and MEIS 012. Credit is awarded for one of the following RLST 011, GSST 012, MEIS 012, GSST 012H, MEIS 012H, or RLST 011H.

RLST 011H Honors Islam and Feminism 4 Lecture, 3 hours; discussion, 1 hour. Honors course corresponding to RLST 011. Focuses on the intersections between Islam and feminism. Topics include feminist interpretations of the Qur'an, Muslim women's movements and activisms in Islamic and non-Islamic societies, and the complex interactions between the nation-state, religion, gender, and sexuality. Cross-listed with GSST 012H, and MEIS 012H. Credit is awarded for one of the following RLST 011H, GSST 012H, MEIS 012H, GSST 012, MEIS 012, or RLST 011.

RLST 012 Religious Myths and Rituals 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to the meanings, origins, and functions of religion; the roles of myths, rituals, and symbols; and images of transcendence. Examines religious beliefs and expressions from diverse cultural perspectives. Utilizes materials from indigenous Native (North and South) American, African American, and/or Asian American religions. Cross-listed with ETST 012. Credit is awarded for only one of ETST 012/RLST 012 or ETST 012H/RLST 012H.

RLST 012H Honors Religious Myths and Rituals 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): admission to University Honors or consent of instructor. Honors course corresponding to ETST 012/RLST 012. An introduction to the meanings, origins, and functions of religion; the roles of myths, rituals, and symbols; images of transcendence; and understanding religious beliefs and expressions from diverse cultural perspectives. Utilizes source materials from indigenous Native (North and South) American, African American, and/or Asian American religions. Satisfactory (S) or No Credit (NC) grading is not available. Cross-listed with ETST 012H. Credit is awarded for only one of ETST 012/RLST 012 or ETST 012H/RLST 012H.

RLST 013 Religion and Democracy 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. A broad exploration of the complex relationships between religion and democracy. Topics may include the treatment of religion in state constitutions; the role of religion in promoting or repressing democratic governments and movements; state repression of religion; religion in social and civic activism; and religion, peace, and conflict. Credit is awarded for one of the following RLST 013 or RLST 013H.

RLST 013H Religion and Democracy 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to University Honors. Honors course corresponding to RLST 013. A broad exploration of the complex relationships between religion and democracy. Topics may include the treatment of religion in state constitutions; the role of religion in promoting or repressing democratic governments and movements; state repression of religion; religion in social and civic activism; and religion, peace, and conflict. Credit is awarded for one of the following RLST 013H or RLST 013.

RLST 014 Religion and Science 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): none. Covers major themes in the relation of science and religion. Addresses issues between science and Western religions focusing on Islam and Buddhism. Includes in-depth study of creationism and Darwinian evolution. Explores religious meaning in a scientific cosmos through the study of the contemporary world.

RLST 015 Death 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Investigates the psychological aspects of facing death and dealing with dying persons; cross-cultural religious and philosophical interpretations of death (such as new life, resurrection, and rebirth); and medical, ethical, and legal issues such as physician-assisted suicide and euthanasia. Credit is awarded for one of the following RLST 015 or RLST 015H.

RLST 015H Honors Death 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to University Honors or consent of instructor. Honors course corresponding to RLST 015. An examination of three sets of issues pertaining to death and dying: psychological and experiential aspects of facing medical crisis, illness, death, and grief; cross-cultural perspectives on the ways in which death is conceived in selected religions of the world

with respect to life and claims about afterlife; public policy issues that involve ethical, legal, and medical concerns regarding euthanasia, physician-assisted suicide, and hospice alternatives. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of RLST 015 or RLST 015H.

RLST 016 Sexuality and Religion in Global Perspective 4 Lecture, 3 hours; discussion, 1 hour. Introduces sexuality studies within the comparative study of religion, rooted in the theoretical frameworks of gender and sexuality studies. Explores the central themes of transnationalism and global dynamics of power. Focuses on critical heterosexuality studies with some LGBT studies and an underlying queer studies perspective. Cross-listed with GSST 016. Credit is awarded for one of the following RLST 016, GSST 016, GSST 016H, or RLST 016H.

RLST 016H Honors Sexuality and Religion in Global Perspective 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to University Honors; or consent of instructor. Honors course corresponding to RLST 016. Introduces sexuality studies within the comparative study of religion, rooted in the theoretical frameworks of gender and sexuality studies. Explores the central themes of transnationalism and global dynamics of power. Focuses on critical heterosexuality studies with some LGBT studies and an underlying queer studies perspective. Cross-listed with GSST 016H. Credit is awarded for one of the following RLST 016H, GSST 016H, GSST 016, or RLST 016.

RLST 019 Black Religion in the United States 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduction to religion in the experiences of Black people in the United States. Topics include Black religion in the social imagination, in ritual, the arts (e.g., African American spirituals, literature), Black Nationalism, social change, and queernesses in Black religion. Engages primary sources for examining religious contributions in society. Cross-listed with BLKS 019.

RLST 024 Introduction to Native American Culture and Religion 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Interdisciplinary study of contemporary and historic Native American efforts to resist colonialism, with a strong emphasis on land matters, identity issues, and religious forms. Promotes critical reflection on historic and contemporary culture and politics. Cross-listed with HIST 034.

RLST 044 Gods, Ghosts, and Grandparents 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduction to the rich diversity of Chinese beliefs and practices concerning gods, ghosts, and ancestors through primary and secondary sources. Includes oracle bone inscriptions, philosophical arguments on the existence of spirits, tomb contracts, sutra promoting the goddess Guanyin as Giver of Sons, ghost stories, and eyewitness accounts of funeral rituals. Cross-listed with HIST 044.

RLST 067 Language and Text in Contemporary South Asian Religions 4 Seminar, 3 hours; written work, 6 hours. Prerequisite(s): none. Prepares to undertake independent research of literary sources in contemporary South Asian religious traditions, as well as navigating impacts of Hindi and Urdu linguistic traditions. Focuses on the modern linguistic landscape of Hindustani (hybrid Hindi/Urdu) within the context of religious and culturally revered literary texts. Cross-listed with AST 067.

RLST 068 Language and Text Inner Asian Religions 4 Seminar, 3 hours; written work, 6 hours. Prerequisite(s): none. Focuses on classical linguistic landscape of Tibetan and, in some years, classical Mongolian within the context of religious and culturally revered texts and literary practices. Introduces students to advanced study of major classical language and literature. Cross-listed with AST 068.

RLST 098 Religion of Modern China 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Examines religions of modern China from Ming to the present. Considers religion and its relationship to politics, society, and culture in the imperial, republican, and communist contexts and the American diaspora. Engages with both heterodox and "mainstream" or "officially sanctioned" traditions while evaluating the factors that merit labels.

Upper-Division Courses

RLST 100 The Problem of Religion 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): one Religious Studies course or upper-division standing or consent of instructor. A survey of critics and defenders of religion who debate meanings and functions of religion in relation to modern challenges such as religious pluralism, secularism, and scientific inquiry. Addresses topics of assigned instructor's expertise

RLST 101 Religions of India 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): one lower-division course in Religious Studies or consent of instructor. An examination of the major religious traditions in India with special emphasis on Hinduism and Buddhism.

RLST 102 Contemporary Themes in Religion and Theory 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of contemporary cultural issues which pose challenges to the nature of religion and the way it is studied in the public university. Issues discussed include race, gender, power, colonialism, and religious commitment.

RLST 103 Decolonizing Religion 4 Lecture, 3 hours; individual study, 3 hours; research, 2 hours; term paper, 1 hour; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Introduces the constitution of the Western category of religion as it was (and is) fortified through colonial encounter. Engages deeply with colonial archives and underscores the collaboration between religion and colonial domination. Topics also include decolonizing methodologies in Religious Studies including liberation theology and critical theory.

RLST 104 Sikhism 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the social and religious evolution of Sikhism over the past five centuries, tracing its formation in North India to traditions beyond the Indian subcontinent; examines the teachings of Guru Nanak and major doctrinal developments under subsequent Gurus.

RLST 105 Gender, Sexuality, and Islam 4 Lecture, 3 hours; written work, 2 hours; term paper, 1 hour. Prerequisite(s): restricted to class level standing of sophomore, junior, or senior. Focuses on the intersections between gender, sexuality, and religion in Islamicate societies. Discusses the ways in which those formations have been shaped by histories of slavery, imperialism, colonialism, human rights discourses, neoliberalism, contemporary practices of Islamophobia, nationalism, and global LGBTQ activism. Cross-listed with GSST 110, and MEIS 110.

RLST 106 Buddhism 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Aspects of the history and development of Buddhism in its major forms (Theraveda, Mahayana, and Vajrayana). Studies of principal sutras, biographies, ethical treatises, birth narratives, and poetry.

RLST 107 Judaism 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Introduces Judaism as a religious tradition. Topics include Torah, rabbinic literature, theology, philosophy, mysticism, messianism and nationalism, ritual and worship, the synagogue, life cycle events, and festivals. Emphasizes global manifestations.

RLST 108 Modern Hinduism 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of developments in the Hindu religious tradition during the nineteenth and twentieth centuries, inside and outside of India. Topics covered include the impact of colonialism and nationalism on Hinduism, the rise of neo-Hindu movements, modern Hindu "fundamentalism," and Hinduism in the modern Western world.

RLST 109 New Religious Movements 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Analyzes the contexts in which new religions emerge, their relations with dominant religious traditions or normative cultures, and the religious content of such movements. Examines the "cult" versus "religion" debate; apocalyptic, eschatological, and millennial views of the world; the nature of charismatic leadership; regional patterns; and transnational trends.

RLST 110 Yoga: Ancient and Modern 4 Lecture, 3 hours; individual study, 1 hour; research, 1 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Investigates yoga in its transition from an ancient Indic system of contemplative practice to its modern postural forms. Engages the history of yoga in India and its primary texts and current cultural and religious debates activated through the globalization of modern postural yoga.

RLST 111 Islam 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An overview of Islam from the time of Muhammad (d. 632 A.D.) to the present. Attention is given to its distinctive beliefs and practices, its influence upon societies in which it became dominant, and its interaction with other traditions.

RLST 112 Islam in America 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Explores historical and contemporary dimensions of Islam in America and the way in which Islam shapes and is shaped by American politics and cultures. Introduces analytical tools for understanding Islam and contemporary ideas and practices including conversion, migration and diaspora, ritual, politics, ethics, education, gender, and media.

RLST 113 Topics in Modern Islam 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines key issues facing Islam in the modern world such as Islam's engagement with and reaction to nationalism, feminism, the status of sacred texts in the face of critical historical and philological studies, science, and technology.

RLST 114 Jainism: An Indian Religion of Non-Violence 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): Restricted to class level standing of junior, or senior; or consent of instructor. Introduces the Indian religion of Jainism. Explores various aspects of Jainism including history, sectarian divisions, texts, doctrines, practices, and its relationship with other Indian traditions.

RLST 115 Black Religion, Resistance, and Moral Imagination 4 Lecture, 4 hours. Prerequisite(s): restricted to class level standing of junior, or senior. A survey of various figures and communities that have resisted hegemonic norms in Black religion in the United States. Explores historical primary resources, literature, oral histories, and contemporary artistic and cultural productions. Examines moral visions of Black and collective resistance and thriving. Cross-listed with BLKS 115.

RLST 116 Religion and Violence 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the capacity of religion to mobilize and legitimate violence. Materials covered include theoretical texts by Rene Girard, Walter Burkert, Jonathan Z. Smith, and others, and case studies dealing with religion and violence in India, Northern Ireland, Egypt, Lebanon, Israel, Palestine, Sri Lanka, and the United States.

RLST 117 Mythology 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A comparative study of mythic traditions from several world cultures and religions viewed from a variety of theoretical perspectives. Includes material drawn from epics, religious texts, divine hymns, creation myths, heroic legends, and concepts of the afterlife as reflected in literary and nonliterary sources. Cross-listed with CLA 112, and CPLT 112.

RLST 118 The Problem of Evil: Understanding Evil and its Manifestations 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the ways that Western culture and religion have defined evil. Primarily investigates religious discourses, but also considers philosophical, social scientific, and popular ideas of evil. Examines evil from the perspectives of the victim, the perpetrator, and the voyeur, and in a variety of media such as fiction, nonfiction, and film.

RLST 119 Meditation as Medicine: A Critical Exploration 4 Seminar, 3 hours; written work, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. A critical exploration of the transformation of Buddhist meditation traditions over the last twenty-five centuries. Addresses the foundational techniques and debates in India; mass meditation as colonial resistance in Burma; recent interest in the brain sciences; and the commodification of mindfulness, compassion, and selflessness in the neoliberal marketplace. Cross-listed with AST 117, and MHHS 119.

RLST 120 Tibetan Buddhism: Dalai Lamas, Tantric Madness, and Mass Monasticism 4 Lecture, 3 hours; term paper, 1 hour; written work, 1 hour; research, 1 hour. Prerequisite(s): Restricted to class level standing of junior, or senior; or consent of instructor. Introduces the globally influential Tibetan Buddhist tradition of the Dalai Lamas, Covers the development of its unique history, doctrine, literary heritage, and gendered ritual cosmologies. Cross-listed with AST 120

RLST 121 The Hebrew Bible/Old Testament 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of the collection of books usually called the Old Testament by Christians and the Bible by Jews (the acronym T'N'CH is often used by Jews as well). The books are examined in their historical, cultural, and religious contexts, with attention to the methods of modern literary criticism.

RLST 122 Medicine and Asian Religions in Global Circulation 4 Lecture, 3 hours; individualized study, 6 hours; research, 1 hour; term paper, 2 hours. Prerequisite(s): Restricted to class level standing of Sophomore, Junior, or Senior. Considers the relationship between religious cosmologies, the organization of knowledge, and the practices for managing bodily and natural order that underpin three major medical traditions of Asia in premodern and modern periods: Ayurveda, Traditional Chinese Medicine, and Tibet's Four Tantra Tradition.

RLST 123 Global Christianity and Mission 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): Restricted to class level standing of junior, or senior; or consent of instructor. Explores how Christianity was indigenized in the cultures of Africa, Asia, and Latin America, where it is growing most rapidly today. Examines the role of the mission including historic dominance of Western Europe and North America. Considers the interactions of Christianity with gender, economics, vernacular language, local and international politics.

RLST 125 Studies in Religion 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior. Provides an in-depth consideration of specific topics in the study of religion. Course is repeatable as content or topic changes to a maximum of 16 units.

RLST 126 Israel: the Jewish State 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines Zionism and the state of Israel in the period from the first Zionist Congress in 1896 to the present. Addresses religious, social, economic, and political aspects of the Jewish state. Cross-listed with HIST 127.

RLST 127 The Holocaust 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the extermination of European Jewry during World War II. Surveys the history of the "Jewish Question"; Jewish-Christian relations; race; the systematic persecution and genocide of the Jews; and world responses to genocide. Addresses religious, philosophical, and political implications of the Holocaust, as well as continuing anti-Semitic trends. Cross-listed with HISE 147.

RLST 129 History of Philosophy in India 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. An examination of the main philosophical themes, figures, and texts in premodern India. Pays particular attention to Hindu, Buddhist, and Jain philosophy. Cross-listed with AST 130, and PHIL 129.

RLST 130 The Bible: New Testament 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An examination of the literature and history of the early Christian movement. Attention is given to New Testament materials and apocryphal writings.

RLST 131 The Buddha's Brain: Mind, Reality, and Power in the Buddhism-Science Dialogue 4 Seminar, 3 hours; written work, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. A critical history of the "Buddhism-

Science dialogue." Focuses on contested characterizations of mind, brain, and personhood. Includes reading and analyzing primary sources in the Indo-Tibetan Buddhist tradition alongside the brain sciences. Prepares for advanced courses and research in religious studies, the medical humanities, and Asian studies. Cross-listed with AST 131, and MHHS 131.

RLST 133 Christian Origins 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of the social, religious, and cultural development of Christianity in its first six centuries. Particular attention paid to issues of heresy/orthodoxy, material piety, and the rise of ecclesiastical institutions.

RLST 135A History of Christianity: Origins to the Reformation 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Surveys the history of Christianity from its origins through the Reformation. Includes the development of Christian beliefs, practices, and institutions in historical contexts. Cross-listed with HIST 130A.

RLST 135B History of Christianity: Modern Era 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Surveys the history of Christianity since 1500. Emphasizes the Christianization of Asia, Africa, and the Americas in the long colonial era. Follows developments in Christian belief, practice, and institutions up to the present. Topics include Reformation, mission, colonialism, empire, conversion, syncretism, modernity, Vatican II, and the rise of evangelical Christianity. Cross-listed with HIST 130B.

RLST 137A Religious Cultures in Early America 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor; HIST 017A is recommended. An introduction to religious beliefs and practices during the seventeenth and eighteenth centuries in the colonies that became the United States. Cross-listed with HISA 122A.

RLST 137B Religious Cultures in Modern America 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor; HIST 017B is recommended. An introduction to a variety of religious traditions, movements, and cultures from 1800 to the present in the United States. Cross-listed with HISA 122B.

RLST 140 Language and Text in Classical South Asian Religions 4 Seminar, 3 hours; written work, 6 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Prepares to undertake independent research of literary sources in South Asian religious traditions. Focuses on the linguistic landscape of Sanskrit within the context of religious and culturally revered literary texts. Topics include literature, translation theories, and introductory grammatical and syntactic analysis.

RLST 142 Zhuangzi 4 Lecture, 3 hours; research, 1 hour; extra reading, 1 hour; term paper, 1 hour. Prerequisite(s): CHN 107 or CHN 112 or PHIL 110. An examination of chaos, epistemological and linguistic relativism, fate, skill, and the character of the sage in the Chinese Daoist text Zhuangzi. Discusses the structure and style of this literary masterpiece. Students with knowledge of classical Chinese may arrange additional work through special studies. Cross-listed with AST 142, and CHN 142.

RLST 143 Divination and Prediction in China and Greece 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): AST 030 or CHN 030 or CPLT 030 or CHN 104 or CHN 105 or CHN 107 or CHN 108 or AST 142 or CHN 142 or RLST 142 or AST 148 or CHN 148 or CLA 010A or CLA 010B or CLA 010C or CLA 040 or CLA 050 or CLA 100 or CLA 112 or HISE 110 or CPLT 112 or RLST 117 or CLA 114 or CPLT 114 or CLA 120 or CPAC 102 or CLA 102 or CPAC 112 or CLA 113 or HISE 113 or CPAC 121 or CLA 121 or POSC 121 or CPAC 132 or AST 132 or CHN 132 or CLA 132 or CPAC 133 or HISE 114 or CPAC 134 or HIST 110 or CPAC 141 or AST 145 or CHN 141 or CLA 141 or POSC 140; restricted to class level standing of junior, or senior; or consent of instructor. Comparative study of early divination and prediction in early China, ancient Greece, or two other areas of the ancient world. Perspectives include social and intellectual contexts and institutions, as well as gender and boundaries between science, philosophy, and religion. Utilizes primary source material in texts and visual arts. Cross-listed with CHN 143, CLA 143, and CPAC 143.

RLST 144 Buddhist Literature 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Explores readings in canonical and non-canonical Buddhist texts. Includes Buddhist-influenced literature written by Asian, European, and American authors. Examines themes of emptiness, impermanence, and no-self. Cross-listed with AST 133.

RLST 146 Rhetoric and Discipline in Buddhist Studies 4 Lecture, 3 hours; written work, 2 hours; activity, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of key works in Buddhist studies in an effort to flesh out a critical history of academic portrayals of Buddhism. Explores the history and boundaries of the field and its relationship to modes of Buddhist and non-Buddhist rhetoric and interpretation in colonial, Orientalist, socialist, and neo-liberal contexts.

RLST 148 Religions of the Silk Road 4 Lecture, 3 hours; individual study, 3 hours; written work, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduction to religious traditions that flourished along the ancient Silk Road. Includes Zoroastrianism, Buddhism, Manichaeism, Nestorian Christianity, Islam, and Judaism. Focuses on the spread, development, and interaction through the medieval period. Considers ways in which the Silk Road period legacy figures in religious and political debates in contemporary Central Asia.

RLST 149 Southeast Asian Religions 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one Religious Studies course or upper-division standing or consent of instructor. Introduces aspects of religion in various Southeast Asian countries including Indonesia, Malaysia, Thailand, Cambodia, Vietnam, and the Philippines. Provides contextualized readings featuring historical, anthropological, literary, and other disciplinary perspectives. Cross-listed with SEAS 149.

RLST 150 Islam in Southeast Asia 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduces the religious, intellectual, and cultural history of Muslim Southeast Asia. Includes Indonesia, Malaysia, and Brunei, as well as minority communities in Singapore, Thailand, Cambodia, and the southern Philippines. Examines a series of contextualized readings in translated primary sources. Approaches texts from historical, anthropological, literary, and other disciplinary perspectives. Cross-listed with SEAS 150.

RLST 151 Reading the Qur'an 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of the Qur'an, Islam's primary scripture. Examines the contexts in which the text originated. Offers critical analyses of the Qur'an and discussion of its roles in the cultural histories of Muslim societies.

RLST 152 Religion and Opression 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): GSST 001 or GSST 001H or GSST 001S or RLST 001 or RLST 001H or RLST 002 or RLST 003 or RLST 005 or RLST 005H or RLST 007 or RLST 007H or RLST 010 or RLST 012 or ETST 012 or RLST 012H or ETST 012H or RLST 014 or RLST 015 or RLST 015H or RLST 024 or HIST 034 or RLST 044 or HIST 044; may be taken in sequence with RLST 153; or consent of instructor. Analyzes the relationship between religion and oppression, including religion as target of oppression, religion as cause of oppression, and religion as mitigating or exacerbating force in oppression. Religious studies, feminist, critical race, queer, and post/anti-colonial theoretical perspectives undergrid the analysis.

RLST 153 Religion and Social Justice 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): GSST 001 or GSST 001H or GSST 001S or RLST 001 or RLST 001H or RLST 002 or RLST 003 or RLST 005 or RLST 005H or RLST 007 or RLST 007H or RLST 010 or RLST 012 or ETST 012 or RLST 012H or ETST 012H or RLST 014 or RLST 015 or RLST 015H or RLST 024 or HIST 034 or RLST 044 or HIST 044; may be taken in sequence with RLST 152. Analyzes the roles of religion in revolution, resistance, protest, and social justice movements, including religion as motivation for revolution, religion as target of revolution, and revolution within religions. Religious studies, feminist, critical race, queer, and post/anti-colonial theoretical perspectives undergrid the analysis.

RLST 155 Peace in the Middle East 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of the roots of the Middle Eastern crises. Focuses on the Arab-Israeli conflict and possible solutions

toward peace. Addresses problems through historical, religious, and political lines of inquiry. Cross-listed with PHIL155.

RLST 156 Jews and Arabs 4 Lecture, 3 hours; extra reading, 3 hours Prerequisite(s): upper-division standing or consent of instructor. Traces the formation of the shared and divided history of the Jewish and Arab peoples. Focuses on the literary and institutional dimensions of this history, as well as the formation of related areas of study, such as religion, philosophy, literature, and psychoanalysis. Cross-listed with ARLC 156, CPLT 156, and MEIS 156.

RLST 159 Queer Religiosities 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): GSST 001 or GSST 001H or GSST 001S or RLST 001 or RLST 001H or RLST 002 or RLST 003 or RLST 005 or RLST 005H or RLST 007 or RLST 007H or RLST 010 or RLST 012 or ETST 012 or RLST 012H or ETST 012H or RLST 014 or RLST 015 or RLST 015H or RLST 024 or HIST 034 or RLST 044 or HIST 044. A comparative, thematic exploration of religion in the lives of contemporary same sex attracted and gender variant or gender nonconforming people around the world. Topics may include intersections of religion with: neoliberal economic and political strategies; globalization; global North/South inequities; settler colonialism; racial, economic, and gender inequalities; homonormativity/ homonationalism; queer activism. Cross-listed with GSST 159.

RLST 160 Religion, Gender and Sexuality 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examination of attitudes toward and images of women in diverse religious traditions. Includes issues such as the presence and absence of women in leadership roles; women's spiritual experiences; female founders of religious groups; and recent developments in feminist religious thought. Cross-listed with GSST 160.

RLST 161 Gender and Sexuality in U.s Religious History 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): GSST 001 or GSST 001H or GSST 001S or RLST 001 or RLST 001H or RLST 002 or RLST 003 or RLST 005 or RLST 005H or RLST 007 or RLST 007H or RLST 010 or RLST 012 or ETST 012 or RLST 012H or ETST 012H or RLST 014 or RLST 015 or RLST 015H or RLST 024 or HIST 034 or RLST 044 or HIST 044; or consent of instructor. Overview and analysis of gender and sexuality in religion from colonial period (including Spanish, French, Russian, and British colonies in what is now the United States) to present day. Combines critical and comparative religious studies approaches with historical methods and the analytical perspectives of intersectional gender, sexuality, and queer studies. Cross-listed with GSST 158.

RLST 162 Women's Issues in Modern Muslim Thought 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one Religious Studies course or upper-division standing or consent of instructor. Introduces complex religious and social issues related to the role of women in modern Islamic societies ranging from North America to Southeast Asia. Examines Muslim writings produced during the past century. Cross-listed with GSST 162.

RLST 166 Evangelical Religion, Media, and Culture in America 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduces the history of the use of media technologies among evangelicals. Addresses the interconnections between religious productions of meaning, proselytization, and politics. Explores the ways the critical interlace of religion and media both shapes and is shaped by the ways participants understand themselves as racial, gendered and classed subjects.

RLST 169 Religion and Music 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the complex intersection of sound, religion, religious experience, and culture. Explores how sacred music and varieties of sound-induced or sound-enhanced religious experience enables groups of people to construct religious meaning and understand their world. Focuses on musical forms of practices and embodied experiences of the sacred.

RLST 173 Political Religions and Religious Politics 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Investigation of major themes and issues in the intersection of religion and politics, such as the sacralization of politics, religious nationalisms, sacral kingship, revolutionary asceticism, "throne and altar," civil religion, millennialism, political myth and ritual, integralism, and the conformity of the polity to religious values. Cross-listed with POSC 109.

RLST 176 Peace and War 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of peace and war from diverse religious and ethical perspectives. Addresses nuclear and conventional war and revolutionary wars of liberation as ethical issues requiring social policy and personal decision. Topics include "just war," "holy war," nonviolence, and pacifism.

RLST 177 History of the Church in Latin America 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of the history of the church (e.g. Catholic, Protestant) in Latin America. Includes conquest and mission, indigenous responses to Christian conversion, the long colonial period, independence, revolution, and liberation theology movements. Explores the dynamics of church and culture, church and state, and church and social transformation. Cross-listed with HISA 168.

RLST 179 Pilgrimage 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of pilgrimage and religious tourism in selected traditions. Includes historical, sociological, anthropological, and ritual analysis of the construction of sacred time and space and of the formation of communal and personal identity.

RLST 180 Saints and Gurus 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores how religious virtuosi have shaped religious practice and the teaching of Hinduism, Buddhism, Jainism, Sikhism, and Islam in South Asia. Examines history, myth, poetry, meditation, yoga, and ritual, with a focus on how the ascetic ideal has shaped global imagination about South Asia.

RLST 190 Special Studies 1 to 5 Individual Study, 3 to 15 hours. Prerequisite(s): consent of instructor and department chair. To be taken to meet special curricular problems. Course is repeatable to a maximum of 16 units.

RLST 193 Senior Seminar 4 Seminar, 3 hours; written work, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Advanced undergraduate study of specific religious texts, traditions, or key underlying themes as set by the instructor. Topics vary each year.

RLST 195 Senior Thesis 1 to 4 Enrollment by request of student with the approval of the Program faculty, which must be granted no later than the quarter before the course is to be taken. May be taken for four units only in the first or second quarter of the senior year; two more units may be taken in a subsequent quarter. Total credit may not exceed 6 units.

RLST 197 Research For Undergraduates 1 to 2 Individual research, 3 to 6 hours. Prerequisite(s): upper-division standing or consent of instructor. Directed individual research. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination. Course is repeatable to a maximum of 4 units.

RLST 198I Individual Internship 1 to 6 Internship, 2 to 12 hours; reading and writing, 1-6 hours. Prerequisite(s): upper-division standing or consent of instructor; consent of department chair. An individually designed, academically grounded internship that provides an opportunity for advanced majors to apply their knowledge of religion to businesses and organizations outside the university. Prior approval of the instructor and supervisor is required for units, fieldwork, and academic content. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 6 units.

Graduate Courses

RLST 200A Religion, Politics, and Public Discourse 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor; consent of graduate advisor is required for students repeating the course. Critical examination of the intersections of religious identities and public politics. Topics vary by instructor but may include human rights, "church-state" debates, Islamism, civil religion, and postcolonial religions. Completion of the RLST 200A, RLST

200B, RLST 200C sequence fulfills the Graduate Professional Development Requirement. Course is repeatable to a maximum of 8 units if taken with different instructors.

RLST 200B Representations, Interpretations, and Critical Histories 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor; consent of graduate advisor is required for students repeating the course. Examines how religious identity and studies have shaped and been shaped by modes of representation, interpretation, and historical awareness. Topics vary but may include biographies, art and architecture, mass media, and scriptural interpretation. Completion of the RLST 200A, RLST 200B, RLST 200C sequence fulfills the Graduate Professional Development Requirement. Course is repeatable to a maximum of 8 units if taken with different instructors.

RLST 200C Religions in Contact 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor; consent of graduate advisor is required for students repeating the course. Examines how religions confront each other historically, politically, and metaphorically. Specific topics vary according to instructor but may include syncretism, mission and colonization, religious wars, ecumenism, and "world religion" movements. Completion of the RLST 200A, RLST 200B, RLST 200C sequence fulfills the Graduate Professional Development Requirement. Course is repeatable to a maximum of 8 units if taken with different instructors.

RLST 201 Thinking About Religion: Classic Theories in the Study of Religion 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A critical study of classic theories and theorists in the study of religion within their historical contexts. Featured thinkers include Frazer, Eliade, Smart, Spinoza, Durkheim, Freud, and Weber. Considers such intellectual movements as Higher Criticism of the Bible, psychoanalysis, phenomenology, and hermeneutics. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 202 Contemporary Theories and Theorists in the Study of Religion 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor; consent of graduate advisor is required for students repeating the course. A critical consideration of leading contemporary theories and theorists in religious studies. Selection of theories and theorists changes according to the interests of the instructor. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 16 units if taken with different instructors.

RLST 203 Hermeneutics and History 4 Seminar, 3 hours; term paper, 1 hour; extra reading, 2 hours. Prerequisite(s): graduate standing; or consent of instructor. Advanced topics in the critical study of religion, history, social theory, and hermeneutics. This course serves as the core course for the Hermeneutics and History Ph.D. track in Religious Studies.

RLST 204 Analytics of Power 4 Seminar, 3 hours; term paper, 1 hour; extra reading, 2 hours. Prerequisite(s): graduate standing; or consent of instructor. Advanced topics in the study of religion, power, and resistance. This course serves as the core course for the Analytics of Power Ph.D. track in Religious Studies.

RLST 205 Transnational Religions 4 Seminar, 3 hours; term paper, 1 hour; extra reading, 2 hours. Prerequisite(s): graduate standing; or consent of instructor. Advanced topics in the study of religion and transnationalism. Serves as the core course for the Transnational Religions PhD track in Religious Studies.

RLST 206 Queering Islam 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Explores whether queer and trans can function as useful and productive categories in Islamicate contexts despite their dominant Eurocentric and secular underpinnings. Also investigates what it would mean to integrate these categories through an Islamicate lens.

RLST 207 Queering Religion in the African Diaspora 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Surveys contemporary contributions to the disciplinary lines of queer African diaspora religious studies in the Americas and the Caribbean. Explores how queerness and queering functions in the study of spiritual and religious spaces. Includes study of embodiment, divinities, rituals, and spiritual and religious practices.

RLST 208 Otherwise Methods: Experiment in the Study of Religion 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Explores innovative and otherwise approaches to method in the study of religion. Examines themes of embodiment, divinities, rituals, cultural traditions, gender and sexuality, qualitative and quantitative approaches, and spiritual and religious practices. Invites interrogation and creative development (with collective insight) the methods that best serve research endeavors.

RLST 220 Advanced Topics in Method and Theory in the Study of Religion 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An inquiry into the major conceptual issues of the methods and theories employed in the study of religion. Topic varies from quarter to quarter. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 221 The Religious Studies-Theology Debate 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Addresses current debates concerning the relation of theologies to humanistic studies of religion. Covers neoorthodox, liberal, post-liberal and postmodern theologies as alternatives to varieties of the humanistic study of religion in the public university. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 224 Comparative Religious Ethics 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Inquiry into a variety of debates about ethics: religious and philosophical, theoretical and applied. Topics may include policy debates about bioethics, moral inquiries into virtue, ethics and minority discourse, violence and nonviolence as means of social change, or fundamental moral problems generated by suffering. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 230 Theory and Writing On Native American Religious Traditions 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Theoretical study of Native American religious history, including its research, interpretation, and writing, in relation to colonialism and tribal sovereignty. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 231 Ethnographic Methodology 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Assists in the design and implementation of sustained field research while engaging various theoretical approaches to ethnographic practice. Provides preparation for or in service of dissertation research. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 237 Asceticism 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Provides an analysis of the theories and practices associated with bodily renunciation, focused especially on the first Christian centuries. Explores issues such as fasting, sexual abstinence, and social withdrawal from a variety of critical perspectives, with special attention paid to gender, status, and the body in religion. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 238 Secularism and its Discontents 4 Seminar, 3 hours; written work, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Examines secularism as a historically situated formation and questions its ties to Christianity, modernity, and colonialism. Explores its intersections with politics, capitalism, gender, and race through postcolonial, feminist, queer, and critical race theoretical frameworks across diverse geographical and historical contexts.

RLST 240 Advanced Topics in the Study of North American Religion 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores major issues in recent scholarship in North American religion. Topics include debates over emerging theories such as narrative and market model approaches; secularism; immigration, race, and ethnicity; religion and national identity formation;

religious imagination in regards to border and boundary crossing; and the role of Protestant privilege. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 241 From Text to Scripture: Canon, Performance, Reception 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focusing on the Sikh sacred text as a primary example, investigates the intellectual and emotional factors underlying the composition, copying, canonization, and transmission of sacred texts, with attention to issues of production and reception in historical communities. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 245 Via Mystica 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines religious virtuosi in Islam, Christianity, Hinduism and Buddhism, including Puu Mi Bun, sufis, swamis, saints, and martyrs. Uncovers the close connection between these religions in terms of ritual technology, soteriological goals, meditative practices, and eschatological articulations. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 249 Public Religious Discourses in Modern Islam 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces the complexities of contemporary Islam as lived by Muslims in local and global contexts by examining the content and dynamics of modern discussions of religious and social issues in Muslim "public spheres." Involves primary and secondary sources of information. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 252 Southeast Asian Islam 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduction to contextualized readings in translated primary source texts in the fourteenth through the twenty-first centuries from Muslim Southeast Asia. Explores the richness of Islamicate culture in the region through discussions of broader issues of Islam, Muslim societies, and the academic study of religion. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 253 Southeast Asian Religions 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Discusses different and dynamic aspects of religion in various Southeast Asian countries including Indonesia, Malaysia, Thailand, Cambodia, Vietnam, and the Philippines. Explores contextualized readings featuring historical, anthropological, literary, and other disciplinary perspectives on this diverse region. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as topic changes to a maximum of 8 units. Cross-listed with ANTH 257 and SEAS 202.

RLST 254 Queer and Transgender Studies in Religion 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Advanced study of classic and current works in the subfields of queer and transgender studies in religion. Specific topics may include: queer analysis of sacred texts and religious histories, gender variance in religious traditions, queer/trans religious innovation, and queer feminist, critical race, and anti- and postcolonial studies perspectives on religion. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 257 The Sufis 4 Seminar, 3 hours; term paper, 2 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An introduction to sufism through an in-depth reading of the great Sufi poets. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with CWPA 257.

RLST 261 Problems in the Study of Buddhism 4 Seminar, 3 hours. research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines controversies in the field of Buddhist studies. Topics include the rise of asceticism in India, the composition of the earliest Buddhist texts, the process of transmission of texts and translation problems, the rise of sectarian debate, and women's role in Buddhist ecclesia. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 263 Historiography of Sikh Hermeneutics 4 Seminar, 3 hours. research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines the historiography of Sikh hermeneutics, focusing on the historical contexts of various schools of interpretations of the Adi Granth in premodern, modern, and postmodern periods. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 270 Topics in Jewish Studies 4 Seminar, 3 hours. research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines current problems in the field of Jewish studies. Topics address issues related to memory, identity, economy, power, gender, race, genetics, and culture. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 271 Antisemitism 4 Seminar, 3 hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Investigates the history and current state of antisemitism. Includes discussions of contributing forces such as political economy, xenophobia, nationalism, racism, and anti-Judaism, as well as the production and dissemination of narrative antisemitism.

RLST 272 Jews and the Economy 4 Seminar, 3 hours. research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Surveys facts and fictions about Jews and the economy. Topics include usury, the court Jew, finance, retail and manufacturing, labor movements, organized crime, and culture industries. Addresses select issues of culture and economy, as well as depictions of Jewish money in literature, film, and journalism. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 290 Directed Studies 1 to 5 Research, 3 to 15 hours. Prerequisite(s): graduate standing; consent of instructor and graduate advisor. Advanced work in a topic or topics appropriate to the student's special interests and needs. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

RLST 291 Individual Study in Coordinated Areas 1 to 12 Individual Study, 3 to 36 hours. Prerequisite(s): consent of instructor; doctoral standing. Program of study designed to advise and assist candidates who are preparing for qualifying examinations. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

RLST 292 Concurrent Studies in Religious Studies 1 to 4 Research, 3 to 12 hours. Prerequisite(s): concurrent enrollment in a RLST-100 level course; graduate standing; consent of instructor. Taken concurrently with a 100-level RLST course, but on an individual basis. Devoted to completion of a graduate paper based on research related to the 100-level course. Faculty guidance and evaluation is provided throughout the quarter. RLST 190, RLST 193, RLST 195, RLST 197, and RLST 198-I may not be used for this course arrangement. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

RLST 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): consent of instructor; graduate standing Individualized research under the sponsorship of specific faculty members. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

RLST 299 Research For the Dissertation 1 to 12 Research, 3 to 36 hours. Prerequisite(s): graduate standing; satisfactory completion of the Ph.D. qualifying examination. Research, under the direction of a faculty member, for preparation of the thesis or dissertation. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

RRLST 302 Teaching Practicum 1 to 4 Practicum, 3 to 12 hours. Prerequisite(s): appointment as a Teaching Assistant; graduate standing. Supervised teaching in lower- and upper-division Religious Studies courses. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

RLST 401 Colloquium in Religious Studies 1 Colloquium, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Religious Studies research colloquium participation. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as content or topic changes to a maximum of 6 units.

RLST 402 Pedagogy 1 Seminar, 1 hour; written work, 0.5 hour; extra reading, 0.5 hour.

Prerequisite(s): graduate standing; or consent of instructor. Pedagogical considerations in the teaching of religious studies. Graded Satisfactory (S) or No Credit (NC).

RLST 403 Surviving the Job Market 1 Seminar, 1 hour; written work, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Preparation for the traditional academic job market in religious studies. Graded Satisfactory (S) or No Credit (NC).

RLST 404 Research, Writing, and Publication 1 Seminar, 1 hour; written work, 1 hour. Prerequisite(s): graduate standing; and consent of instructor. Professional skill development in research preparation, funding, and publication. Graded Satisfactory (S) or No Credit (NC).

RLST 405 Careers in Applied Religious Studies 1 Seminar, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Introduction to and preparation for career options beyond the professorial track. Graded Satisfactory (S) or No Credit (NC).

Related Courses

ANTH 124 Ritual and Religion 4 Lecture, 3 hours. The elements and forms of religious belief and behavior; functions of ritual in society. Cross-cultural comparisons.

AHS 155 Cultures in Conflict: Art at the Fall of the Roman Empire 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Covers architecture, mosaic, wall painting, manuscript illumination, and sculpture from the origins of Christianity to the final dissolution of the Roman Empire. Stresses the role of art in the co-optation of the Church by the Empire and then in the aftermath of its fall.

AHS 156 Memory of Empire: the Art of Early Medieval Europe 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Covers manuscript illumination, barbarian jewelry, architecture, and sculpture from the fall of the Roman Empire and through the Carolingian Empire up to the tenth century. Stresses the interplay between indigenous Germanic and foreign classical traditions.

ENGL 100 (E-Z) Scriptures, Myths, and Interpretation 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Focuses on issues of scriptural and mythical analysis. Explores the impact of scripture and myth on literature written in English; textual development of the Hebrew scripture including the development of the King James version; major authors' uses of scripture and myth; exegesis; scripture and myth in current criticism and theory.

Kate Hackett, M.F.A.
Daphnie Sicre, Ph.D.
William Wohleb, M.F.A.

Assistant Professor of Teaching
Christophe Katrib, M.F.A.
Christopher Scott Murillo, M.F.A.
Megan Tabaque, M.F.A.

Continuing Lecturers
Michael Bucklin, M.F.A.
Louis Carazo, M.F.A.

Major

The Department of Theatre, Film, and Digital Production offers a B.A. in Theatre, Film, and Digital Production. The major focuses on three broad areas of theatre and film: literature, history, and criticism; performance, design, direction, and technology; and the elements of production. Students have the opportunity to write, perform, direct, and design. Three stages are available for rehearsals and performances: the 500-seat proscenium University Theatre, the 150-seat Studio Theatre in the Arts building with state-of-the-moment equipment for facilities, and the 120-seat Rehearsal Lab.

Students are able to practice acting in faculty-directed shows, student productions, student films, and class presentations. Special projects and studies are offered for advanced students to produce an original work or to study in more depth acting, directing, costume or scenic design, playwriting or screenwriting.

As part of the Theatre, Film, and Digital Production Department's ongoing goal to provide a comprehensive and world-class program in the performing arts, a **Filmmaking Track** is offered for students who are primarily interested in pursuing the goal of becoming filmmakers.

In addition to taking classes in filmmaking, screenwriting, acting, and technology, students will also take classes in literature and theory as requirements.

Student assistantships, work-study, and scholarships are available to students. For further information, call the Theatre, Film, and Digital Production Department, (951) 827-5568.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

The major requirements for the B.A. degree in Theatre, Film, and Digital Production are as follows:

Lower-division requirements (9 units)

1. TFDP 099
2. TFDP 020
3. Either TFDP 010, TFDP 021, TFDP 022, TFDP 050, TFDP 050S, TFDP 066, or TFDP 067

Track 1: Writing for the Performing Arts

Upper-division requirements (44 units)

1. **Literature, History, and Criticism (12 units)**
   a) TFDP 120A, TFDP 120B **(8 units)**
   b) **Four (4) units from** TFDP 122, TFDP 123, TFDP 124A, TFDP 124B, TFDP 125 (E-Z), TFDP 127, TFDP 191(E-Z)
2. **Writing for the Performing Arts (20 units)**
   a) TFDP 164A, TFDP 164B, TFDP 164C
   b TFDP 166A, TFDP 166B
3. **Eight (8) elective units from** TFDP 109, TFDP 110A, TFDP 114, TFDP 115, TFDP 150A, TFDP 150B, TFDP 152, TFDP 163, TFDP 165, TFDP 166C, TFDP 167, TFDP 169, TFDP 195, TFDP 198-I
4. **Production requirement:** Four (4) units from TFDP 170, TFDP 171, TFDP 172, TFDP 173, TFDP 174, or TFDP 175

Track 2: Filmmaking

Upper-division requirements (40 units)

1. **Filmmaking (16) units**
   a) TFDP 155 and TFDP 153A or TFDP 154 **(8 units)**
   b) **Eight (8) additional units from** TFDP 117, TFDP 130A, TFDP 130B, TFDP 142, TFDP 144, TFDP 151, TFDP 153B, TFDP 156A, TFDP 156B, TFDP 157, TFDP 159
2. **Screenwriting (4) units from** TFDP 163
3. **Twenty (20) elective units from** TFDP 100, TFDP 101, TFDP 109, TFDP 115, TFDP 120A, TFDP 120B, TFDP 122, TFDP 123, TFDP 133, TFDP 149, TFDP 150A, TFDP 150B, TFDP 152, TFDP 160, TFDP 161, TFDP 165, TFDP 167, TFDP 171, TFDP 172, TFDP 177 or TFDP 177S, TFDP 180 (E-Z), TFDP 185/MUS 185 or TFDP 185S/MUS 185S, TFDP 191(E-Z), TFDP 195, TFDP 198-I, TFDP 170, TFDP 173, TFDP 174, or TFDP 175

Track 3: Acting and Directing
Upper-division requirements (40-44 units)

1. **Acting/Directing (16 units)**
   a) **Acting emphasis:** TFDP 109, TFDP 110A, TFDP 110B (12 units)
      1) **Four (4) additional units from** TFDP 111A, TFDP 111B, TFDP 111C, TFDP 111D, TFDP 112 (E-Z), TFDP 113 (E-Z)
   b) **Directing emphasis:** TFDP 109, TFDP 150A, TFDP 150B (12 units)
      1) **Four (4) additional units from** TFDP 110A, TFDP 112 (E-Z), TFDP 113 (E-Z), TFDP 117, TFDP 153A, TFDP 154
2. **Literature History and Criticism (12 units):** TFDP 100, TFDP 120A, TFDP 120B
3. **Electives (4) units from** TFDP 066, TFDP 101, TFDP 110A, TFDP 110B, TFDP 111A, TFDP 111B, TFDP 111C, TFDP 111D, TFDP 112 (E-Z), TFDP 113 (E-Z), TFDP 115, TFDP 121, TFDP 122, TFDP 123, TFDP 124A, TFDP 124B, TFDP 125 (E-Z), TFDP 127, TFDP 136, TFDP 149, TFDP 150A, TFDP 150B, TFDP 152, TFDP 154, TFDP 155, TFDP 160, TFDP 161, TFDP 163, TFDP 185/MUS 185 or TFDP 185S/MUS 185S TFDP 177 or TFDP 177S, TFDP 180 (E-Z), TFDP 191 (E-Z), TFDP 195, TFDP 198-I
4. **Production requirement (8-12) units from** TFDP 170, TFDP 171, TFDP 172, TFDP 173, TFDP 174, or TFDP 175

Track 4: Production and Design
Upper-division requirements (40-44 units)

1. **Production and Design (16 units)**
   a) TFDP 101 **(4 units)**
   b) **Twelve (12) units from** TFDP 131, TFDP 132, TFDP 133, TFDP 135, TFDP 136, TFDP 142, TFDP 143, TFDP 145, TFDP 149, TFDP 180 (E-Z)
2. **Literature, History, and Criticism (12 units)**
   a) TFDP 100 **(4 units)**
   b) **Eight (8) units from** TFDP 120A, TFDP 120B, TFDP 121, TFDP 122, TFDP 124A, TFDP 124B, TFDP 125 (E-Z), TFDP 161, TFDP 176/DNCE 128/ANTH 128/AST 128, TFDP 177 or TFDP 177S, TFDP 191 (E-Z)
3. **Four (4 units) from** TFDP 109, TFDP 115, TFDP 150A, TFDP 150B, TFDP 152, TFDP 160, TFDP 195, TFDP 198-I
4. **Production requirement (8-12) units from** TFDP 170, TFDP 171, TFDP 172, TFDP 173, TFDP 174, or TFDP 175

Track 5: General Theatre, Film, and Digital Production
Upper-division requirements (40 units)

1. **Twelve (12) units of Literature, History, and Criticism:** TFDP 100, TFDP 120A, TFDP 120B
2. **Twelve (12) units of Additional Requirements from** TFDP 101, TFDP 103, TFDP 109, TFDP 121, TFDP 150A, TFDP 150B, TFDP 131, TFDP 132, TFDP 133, TFDP 135, TFDP 136, TFDP 138, TFDP 143, TFDP 145, TFDP 149, TFDP 153A, TFDP 154, TFDP 163, TFDP 164A/CRWT 164A, TFDP 166A
3. **Electives (8) eight units from** TFDP 115, TFDP 122, TFDP 124A, TFDP 124B, TFDP 125 (E-Z), TFDP 152, TFDP 161, TFDP 176/DNCE 128/ANTH 128/AST 128, TFDP 177 or TFDP 177S, TFDP 185/MUS 185 or TFDP 185S/MUS 185S, TFDP 180 (E-Z), TFDP 191 (E-Z), TFDP 195, TFDP 199
4. **Production requirement (8) units from** TFDP 170, TFDP 171, TFDP 172, TFDP 173, TFDP 174, or TFDP 175

Minor

The minor in Theatre, Film, and Digital Production follows the structure of the major requirements by exposing students to each of the areas that are essential to the creation of theatre and film, with the opportunity to take an additional course for depth or more exposure. The inclusion of production courses TFDP 170, TFDP 171, TFDP 172, TFDP 173, TFDP 174 and TFDP 175 gives the students the opportunity to put course work into the proper context and provides them with a practical understanding of the workings and problems of production. The minor in Theatre, Film, and Digital Production provides students with a basic understanding in major areas of study including performing arts literature, performance, and design. It also introduces the nonmajor to the discipline, providing breadth for those students majoring in unrelated disciplines.

Requirements for the minor (20 units)

1. **TFDP 100, TFDP 101, TFDP 109**
2. **Four (4) units from** TFDP 170, TFDP 171, TFDP 172, TFDP 173, TFDP 174 or TFDP 175
3. **One 4-unit upper-division course selected from** the department's Literature, History, Criticism area or the Performance, Direction, Playwriting, Screenwriting, Design, and Theatre Technology area.

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Education Abroad

Education Abroad is an excellent opportunity to learn more about another country and its culture while taking courses to earn units toward graduation. Students should plan study abroad well in advance to ensure that the courses taken fit with their overall program at UCR. Consult the departmental student affairs officer for assistance. For further details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

Graduate Program

The Department of Theatre, Film, and Digital Production in conjunction with the Department of Creative Writing offers the M.F.A. degree in Creative Writing and Writing for the Performing Arts. See Creative Writing and Writing for the Performing Arts in this catalog for more information and program requirements.

Lower-Division Courses

TFDP 010 Introduction to Acting 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none Introduction to acting in theatre, film, television, and performance art. Through exercises, lectures, videos, and on-site visits, explores the work of actors and their collaborations with other artists in historical and contemporary settings. Recommended for nonmajors.

TFDP 021 Introduction to Latinx Cultural Production On Stage and Screen 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to Latino theatre and film from 1965 to the present. Examines the major works of playwrights and important films and videos.

TFDP 022 Shakespeare in Performance 4 Lecture, 2 hours; workshop, 2 hours. Prerequisite(s): none. A study of contemporary Shakespearean production on stage and film. Considers the problems of adapting the text, creating visual elements, speaking the language, and performing the characters. Explores a wide range of performance styles.

TFDP 023 A Study of Technical Production Practices,equipment and Architecture For Film and Digital Media 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): restricted to class level standing of freshman, or sophomore; or consent of instructor. A study of technical production practices, equipment, and architecture for Film and Digital Media. Explores the application of production practices and principles of film and media production.

TFDP 024 A Study of Technical Production Practices,equipment and Architecture For Theatre and Live Action 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): none. A study of technical production practices, equipment, and architecture for theatre and live action. Explores the application of production practices and principles of stagecraft in relation to scenic, costume, lighting, sound, and projection design.

TFDP 042 Costume Construction 4 Lecture, 2 hours; laboratory, 6 hours. Prerequisite(s): none. A theoretical and practical study of theatrical costume production. Topics include draping and flat pattern development, fabric, fitting, and sewing techniques. Costume projects are required. Sewing skills helpful but not essential.

TFDP 044 Makeup For Theatre, Film, and Television 4 Discussion, 4 hours, Prerequisite(s): none. A study of the theory and practice of makeup for theatre, film, and television. Includes demonstrations by industry professionals.

TFDP 050 Public Speaking 4 Lecture, 3 hours; studio, 3 hours. Covers the principles and practice of effective speech composition and delivery. Provides the communicative skills essential in professional careers and community life. Credit is awarded for one of the following TFDP 050 or TFDP 050S.

TFDP 050S Public Speaking 4 Lecture, 3 hours; discussion, 1 hour. Covers the principles and practice of effective speech composition and delivery. Provides the communicative skills essential in professional careers and community life. Credit is awarded for one of the following TFDP 050S or TFDP 050.

TFDP 066 Screenwriting: How Movies Work 4 Lecture, 3 hours; discussion, 1 hour; screening, 8 hours per quarter. Prerequisite(s): none. An Introduction to writing for stage and screen. Addresses structure, character, dialogue, theme, and story. Cross-listed with CRWT 066, and MCS 066.

TFDP 067 Introduction to Playwriting and Screenwriting 4 Workshop, 3 hours; written work, 3 hours; screening, group activity, 3 hours/quarter; screening, individual activity, 3 hours/quarter. Prerequisite(s): CRWT 066/ MCS 066/TFDP 066 with a grade of "C-" or better or consent of instructor. An introduction to writing for stage and screen. Addresses structure, character, dialogue, theme, and story.

TFDP 099 Introduction to the Theatre Department 1 Lecture, 1 hour. Prerequisite(s): none. An introduction to the faculty and areas of study offered by the Department of Theatre. Promotes a better understanding of undergraduate opportunities, graduate training, and careers in the entertainment industry. Graded Satisfactory (S) or No Credit (NC).

Upper-Division Courses

TFDP 100 Play Analysis 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. In-depth analysis of selected plays. Explores structure, character, and imagery.

TFDP 101 Introduction to Design 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): TFDP 024; or consent of instructor. A comprehensive introduction to design for theatre, film, and television. Topics include design principles and practice of set, costume, and lighting. Includes the history of design and conceptual approaches and research.

TFDP 103 Introduction to Dramaturgy 4 Seminar, 4 hours. Prerequisite(s): TFDP 100; upper-division standing. Introduction to theatre dramaturgy, script analysis and advising for production. Topics include analyzing a dramatic text, researching production histories, preparing research materials for a production, season planning, lobby display, and working with new work.

TFDP 109 Acting: the Process 4 Lecture, 2 hours; workshop, 2 hours; written work, 1 hour; extra reading, 2 hours; individual study, 3 hours. Prerequisite(s): TFDP 099 or MCS 001; or consent of instructor. A comprehensive introduction to the process of acting. Topics include imagination, communication, and the psychophysical development of the actor's instrument. Explores basic approaches to the acting process through monologues and introductory scene study.

TFDP 110A Acting: Fundamentals 4 Lecture, 2 hours; workshop, 2 hours; activity, 2 hours; individual study, 3 hours; written work, 1 hour; extra reading, 2 hours. Prerequisite(s): TFDP 109 with a grade of D or better; or consent of instructor. A study of the acting fundamentals and the actor's basic tool kit. Topics include text analysis, actions and activities, problems and objectives, and audition technique. Explores basic approaches to characterization through audition practice, monologues, and scene study using methods such as Stanislavsky's "system," the American Method, and Meisner Technique.

TFDP 110B Acting: Techniques 4 Lecture, 2 hours; workshop, 2 hours; activity, 2 hours; individual study, 3 hours; written work, 1 hour; extra reading, 2 hours. Prerequisite(s): TFDP 110A; or consent of instructor. An examination of acting techniques from various global practitioners. Topics include advanced psychophysical work, advanced text analysis, the architecture of the stage space, and the actor-audience relationship in dynamic storytelling. Explores analysis and performance of scenes from a range of world dramas.

TFDP 111A Advanced Acting: Shakespeare and the Power of Language 4 Lecture, 2 hours; workshop, 2 hours; activity, 2 hours; individual study, 3 hours; written work, 1 hour; extra reading, 2 hours. Prerequisite(s): TFDP 110B; or consent of instructor. Advanced scene study in classic theatre to develop the actor's skills with heightened language. Emphasizes works by Shakespeare. Topics include performance styles, working on text and voice, and the power of images.

TFDP 111B Advanced Acting: Acting With Facts and Playing With the Truth 4 Lecture, 2 hours; workshop, 2 hours; activity, 2 hours; individual study, 3 hours; extra reading, 3 hours. Prerequisite(s): TFDP 110B; or consent of instructor. Advanced scene study in world theatre of the realistic mode to expand the actor's emotional repertoire, character range, and worldview. Includes in text and subtext, performance styles in fact-based and verbatim dramas, and the nature of truth in acting. Explores realism from Anton Chekhov to Anna Deavere Smith.

TFDP 111C Advanced Acting: Acting For the Camera 4 Lecture, 2 hours; studio, 4 hours. Prerequisite(s): TFDP 110B; or consent of instructor. A practical exploration of acting for camera. Topics include technicalities of performing for screen, adaptation of interpretative acting tools to performance from stage to screen, and auditioning for camera. Explores analysis of film/television scripts, recorded performance to camera, and analysis of iconic screen performances.

TFDP 111D Advanced Acting: the Business of Acting 4 Lecture, 2 hours; workshop, 2 hours; activity, 3 hours; individual study, 3 hours; written work, 1 hour; extra reading, 2 hours. Prerequisite(s): TFDP 111A or TFDP 111B or TFDP 111C; or consent of instructor. Examines professional strategies of the working actor. Topics include analysis of the casting process, portfolio creation (headshot, resume, reel), audition techniques, and business strategies and protocols.

TFDP 112 (E-Z) 4 Lecture, 2 hours. Study in voice, vocal performance techniques, and theories for actors.

TFDP 112E Dramatic Interpretation 4 Lecture, 4 hours. Prerequisite(s): upper-division standing or consent of instructor. Vocal presentation of text. Includes the use of various literary forms emphasizing rhythm, tonality, diction, imagery, focus, and phrasing as implements to convey the text, character, actions, and intentions.

TFDP 112F Voice and Diction 4 Lecture, 2 hours; workshop, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. The study of vocal production for actors. Focuses on breathing, relaxation, articulation, communication, and projection, enabling the actor to fill a theatre with clear, understandable speech. Also examines the International Phonetic Alphabet to assist in pronunciation.

TFDP 113 (E-Z) Movement For Actors and Performers 4 Lecture, 2 hours; workshop, 2 hours. Prerequisite(s): restricted to class level standing of junior, or senior. A study of movement techniques and theories for actors and performers. F. Stage Combat; M. Mime; N. Nonverbal Theatre.

TFDP 114 Acting For Writers 4 Lecture, 2 hours; discussion, 2 hours; research, 2 hours. Prerequisite(s): CRWT 164C or TFDP 164C or TFDP 166C; or consent of instructor. Examines the theory and practice of acting to enable writers to better understand how language reflects character, as well as how actors turn the written word into spoken language. Includes text work and improvisation. Credit is awarded for one of the following TFDP 114 or CWPA 214.

TFDP 115 Hip Hop Theatre 4 Lecture, 2 hours; workshop, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Provides tools to create new work by using elements of hip hop culture such as Graffiti Art, Emceein' (rappin'), DeeJayin' and Breakdancin' as primary means of storytelling on stage. Explores theoretical aspects of hip hop culture and a working knowledge of playwriting, acting, directing, and design.

TFDP 117 Directing For the Screen 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): TFDP 144; or consent of instructor. An introduction to the study of film directing from the perspective of film analysis and filmmaking practice. Explores the job of the director in the realms directors control: narrative form, mise-en-scene, cinematography, sound, and editing.

TFDP 120A Literature and History of the Theatre: the Classical Period Through the Italian Renaissance 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the literature and history of the theatre from the classical period through the Italian Renaissance. Focuses on analysis of representative plays, theatrical architecture,

and production modes.

TFDP 120B Literature and History of the Theatre: the Elizabethan Period Through the Nineteenth-Century 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the literature and history of the theatre from the Elizabethan period through the nineteenth century. Focuses on analysis of representative plays, theatrical architecture, and production modes.

TFDP 121 Dramaturgy: World of the Play 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A study of a significant play in the context of the social, intellectual, and artistic movements of its time. Offered simultaneously with the Theatre Department's production of the play. May also consider related works and writings. Course is repeatable as content changes to a maximum of 8 units.

TFDP 122 Theatre For Social Change 4 Lecture, 4 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines theatre for social change as created by grassroots theatrical organizations. Focuses on how community-based theatre groups develop works and how theatre in public or private spaces redefines traditional theatre practices.

TFDP 123 Asian/American Theatre: Disorienting the Stage 4 Seminar, 4 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the histories, theories and texts of Asian/American theatre. Explores themes such as Orientalism, imperialism, and immigration.

TFDP 124A American Theatre, 1900-1945 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examination of the major American playwrights, theatrical figures, and movements from 1900 through World War II.

TFDP 124B American Theatre, 1945-Present 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examination of the major American playwrights, theatrical figures, and movements from World War II to the present.

TFDP 125 (E-Z) History of the Theatre 4 Lecture, 4 hours. A study of the plays, playhouses, and players of the following theatrical eras: E. Classical Theatre; F. Medieval Theatre; G. Renaissance Theatre; I. Romantic Theatre; J. Realistic Theatre; K. Contemporary Theatre; M. American Theatre; N. Neo-classic Theatre; P. American Theatre And Drama Of The Great Depression; S. American Musical Theatre; T. Asian Theatre; X. Experimental Theatre In America. Course is repeatable.

TFDP 126A History of Dress 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A study of the psychological, sociological, and economic history of fashion and dress from 4000 B.C. to A.D. 1700.

TFDP 126B History of Dress 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A study of the psychological, sociological, and economic history of fashion and dress from A.D. 1700 to the present.

TFDP 127 Theories of the Modern Theatre 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the major theories underlying twentieth-century theatre practice. Special attention is paid to the ideas of important theatre artists such as Konstantin Stanislavsky, E. Gordon Craig, Antonin Artaud, and Bertolt Brecht.

TFDP 128 Seminar On the Life and Work of Tomas Rivera 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): consent of instructor. Introduction to the life and work of Tomas Rivera, UCR Chancellor (1979-1984) and foundational Chicana/o author. Explores the breadth of Rivera's writing (novel, poems, short stories, speeches) and his contributions through administrative leadership in higher education as well as personal papers in the UCR Tomas Rivera Archives in Special Collections.

TFDP 129 History of the Modern Theatre: Nineteenth-Century - Present 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing. Introduces the main developments in modern theatre from a global perspective. Explores major historical developments in theatre as a response to globalization, colonization, feminism, and other cultural developments. Course is repeatable as content changes to a maximum of 8 units.

TFDP 130A Producing Short Episodic Content A 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): TFDP 144 or TFDP 153B or TFDP 156A or TFDP 156B; or consent of instructor. Introduces techniques involved in producing a pilot for a short episodic content series in video. Reviews the entire production cycle for a pilot including casting and location scouting, working with actors, shooting, and editing.

TFDP 130B Producing Short Episodic Content B 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): TFDP 144 or TFDP 153B or TFDP 156A or TFDP 156B; or consent of instructor. Covers techniques and skills needed for producing episodes of a short episodic content series in video. Reviews the entire production cycle for two episodes including producing, directing, photographing, and editing.

TFDP 131 Sound Design For Theatre, Film, and Television 4 Lecture, 2 hours; workshop, 2 hours. Prerequisite(s): TFDP 101; or consent of instructor. Introduces sound design for theatre, film, and television productions. Covers topics such as critical listening, psycho acoustics, computer editing, sound recording and processing, and copyright laws pertaining to sampling.

TFDP 132 Lighting Design For Theatre, Film, and Television 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): TFDP 101; or consent of instructor. A study of design, technical production practices, and equipment for lighting in theatre, film, and television. Explores the application of production practices and principles of designing light for entertainment. Develops skills associated with the creation and execution of a lighting design.

TFDP 133 Scene Design For Theatre, Film, and Television 4 Lecture, 4 hours. Prerequisite(s): TFDP 101; or consent of instructor. An introduction to basic skills and techniques for theatre design and to issues of contemporary design for theatre, film, and television. Topics include sketching, rendering, drafting, and model making.

TFDP 135 Costume Design For Theatre, Film, and Television 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): TFDP 101; or consent of instructor. A study of theory, principles, and practice of costume design for theatre, film, and television.

TFDP 136 History of Theatre Design 4 Lecture, 4 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the development of scenic, costume, lighting, and sound design in theatre. Examines different styles of theatrical aesthetics throughout history focusing on Western culture.

TFDP 138 Art Direction For Film and Television 4 Lecture, 3 hours; individual study, 1.5 hours; screening 1.5 hours. Prerequisite(s): TFDP 101 or consent of instructor. An introduction to the design principles and methods professional art directors use in the entertainment industry. Projects related to feature film and television design explore current methods of presentation and composition for the film and television camera.

TFDP 142 The Art of Film 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): TFDP 155; or consent of instructor. An introduction to the analysis of cinema. Topics include film forms, genres, and Mise-en-Scene. Examines how creative choices by filmmakers affect what viewers experience and how they respond. Develops the skills of watching and listening closely that are necessary to become informed filmmakers.

TFDP 143 Scene Painting 4 Lecture, 2 hours; studio, 2 hours; individual study, 3 hours. Prerequisite(s): TFDP 024; or consent of instructor. Explores and applies techniques and materials used to create the various elements of scene design. Includes methods of set preparation, coating, mixing, palette preparation, spraying, transfer, texturing, finishing, and wall papering.

TFDP 144 Directing Actors For the Screen 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): TFDP 155; or consent of instructor. Develops skills needed to direct actors for the screen. Topics include communication, breaking down screenplays, identifying characters' objectives and arcs,

and blocking actors for the camera. Studies giving directions using action verbs, facts, imagination, and physical activities. Students will learn by directing and acting in scenes.

TFDP 145 Computer Aided Design For Theatre, Film, and Television 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): TFDP 101 or TFDP 024. Explores the established computer-aided design (CAD) applications in the design industry including 3DS Studio Max, Adobe Photoshop, and Vectorworks.

TFDP 149 Stage Management 4 Lecture, 4 hours. Prerequisite(s): TFDP 099. Explores the role and function of the stage manager in theatrical production. Provides basic skills to work in the field of stage management emphasizing organization, documentation, and dissemination of information.

TFDP 150A Directing 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): TFDP 099; or consent of instructor. Introduces directing for theater and film. Includes analyzing texts, preparing a rehearsal schedule, communicating with actors and designers, blocking scenes, utilizing space and lighting, and introducing concepts for directing projects. Also proposes various theories of directing.

TFDP 150B Directing 4 Lecture, 4 hours. Prerequisite(s): TFDP 150A or consent of instructor. An examination of the rehearsal process focusing on combining the elements of text, acting, and design.

TFDP 151 Transition to the Film Industry 4 Lecture, 3 hours; laboratory, 3 hours; research, 1 hour; screening, 1 hour; written work, 1 hour. Prerequisite(s): TFDP 155; restricted to class level standing of junior, or senior; or consent of instructor. Involves creating a plan for transition into professional life after college. Determines short- and long-term career and academic goals and develops strategies to achieve them. Explores diverse avenues to enter the film industry.

TFDP 152 Advanced Public Speaking 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): TFDP 050 or TFDP 050S; or consent of instructor. An intense practice-based laboratory in communication, rhetoric, and delivery. Designed to strengthen practical and professional skills in conducting research, crafting presentations for diverse interdisciplinary audiences, and dynamic delivery. Includes visual rhetoric, online presentations, argument, debate, and preparation for the written materials and impromptu speech necessary to thrive in job interviews.

TFDP 153A Introduction to Cinematography 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): TFDP 024; restricted to class level standing of junior, or senior; or consent of instructor. Introduces basic operations and skills of cameras, lighting, and lenses. Emphasizes aesthetics of cinematography including image control through lighting, exposure, and film equipment.

TFDP 153B Advanced Cinematography 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): TFDP 153A; or consent of instructor. Addresses visual perception through practice with a variety of lenses, light fixtures, cameras, and formats. Focuses on cinematic thought in both documentary and dramatic work. Includes practical film exercises designed to develop more creative and personal expression.

TFDP 154 Introduction to Filmmaking 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): TFDP 024; restricted to class level standing of junior, or senior; or consent of instructor. Introduces filmmaking including the basic elements of film sets, functions and terminology of various roles on a film set, and mechanics of the film industry.

TFDP 155 Introduction to Digital Film Production 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CRWT 066 or MCS 066 or TFDP 066: TFDP 024; restricted to class level standing of junior, or senior; or consent of instructor. Introduces the skills needed for making a narrative film. Includes examining and utilizing scripts, cameras, lighting, sound, and editing. Also includes filmmaking projects.

TFDP 156A Digital Film Production 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): TFDP 153A with a grade of C- or better or TFDP 155; or consent of instructor. Examines the techniques of narrative filmmaking and directing for the camera. Emphasizes the working relationship with actors.

TFDP 156B Digital Film Production 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): TFDP 155 or TFDP 156A. Examines the techniques of production and postproduction for narrative filmmaking. Emphasizes sound and editing processes.

TFDP 157 Introduction to Film Editing 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): TFDP 153A or TFDP 154 or TFDP 155; restricted to class level standing of junior, or senior; or consent of instructor. Examines the art and craft of editing the narrative film. Includes hands-on work in editing a montage, a short documentary, and a narrative fiction scene.

TFDP 158 Storytelling of Witness: Introduction to Documentary Theatre and Film 4 Lecture, 3 hours; screening, 2 hours; research, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Introduces vocabulary, themes, genres, and methods of documentary storytelling in theater and film. Explores the evolution of documentary storytelling focusing on signature works by noted playwrights and filmmakers. Addresses craft, voice, and legacy of documentary storytelling from strictly recorded (verite, interview) to creatively devised narratives (post-event recreation, hybrid forms).

TFDP 159 Documentary Production 4 Workshop, 3 hours; laboratory, 3 hours. Prerequisite(s): TFDP 153A or TFDP 154 or TFDP 155; or consent of instructor. Creation of independent, low-budget documentaries through hands-on experience in pre-production, production, and post-production. Presents works in progress and finished pieces throughout the quarter. Considers peer feedback.

TFDP 160 The Filmmaker's Life 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An overview of the various jobs (and their requirements) connected to the process of creating products for film and television entities.

TFDP 161 African American Drama 4 Lecture, 4 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the major African American plays and playwrights from the 1800s to the present.

TFDP 162 Writing the Half-Hour Television Comedy 4 Workshop, 3 hours; written work, 3 hours. Prerequisite(s): TFDP 166A or consent of instructor. Introduction to the style, form, content, and creation of a half-hour television comedy series.

TFDP 163 Writing the Short Film 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): TFDP 066 or CRWT 066 or MCS 066, TFDP 153A or TFDP 154; or consent of instructor. Addresses the mechanical and creative components of crafting a screenplay for a short film.

TFDP 164A Beginning Playwriting 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): CRWT 056 or TFDP 100 or consent of instructor. Seminar in the practice of playwriting centering on the construction of a plot. Cross-listed with CRWT 164A.

TFDP 164B Intermediate Playwriting 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): CRWT 164A/TFDP 164A. Seminar in the practice of playwriting. Revisions of works in progress emphasizing character development and techniques for writing dialogue. Cross-listed with CRWT 164B.

TFDP 164C Advanced Playwriting 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): CRWT 164B/TFDP 164B. Seminar in the practice of playwriting. Includes playwrights' participation in staged readings of their work. With consent of instructor, course is repeatable to a maximum of 8 units. Cross-listed with CRWT 164C.

TFDP 165 Creating the Webseries 4 Workshop, 3 hours; written work, 3 hours. Prerequisite(s): TFDP 166B; or consent of instructor. An introduction to the demands and processes of creating and writing a web series. Designed to produce a full season of fifteen to twenty five-minute episodes. Course is repeatable to a maximum of 8 units.

TFDP 166A Screenwriting: Introduction 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): CRWT 066 or MCS 066 or TFDP 066, TFDP 020; or consent of instructor. An introduction to the process and craft of screenwriting. Includes developing and

presenting an idea for a screenplay created over the breadth of this three-part series TFDP 166A, TFDP 166B, TFDP 166C. TFDP 166A includes creation of an outline for the entire screenplay and the writing of the first act.

TFDP 166B Screenwriting: Outline to First Draft 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): TFDP 166A; or consent of instructor. An introduction to the process and craft of screenwriting. Continues to develop the idea of the screenplay began in TFDP 166A. Utilizes the previously created outline and first act to write Act 2 and Act 3 and produce a complete rough draft.

TFDP 166C Screenwriting: Rewrites and Writing For Television 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): TFDP 166B; or consent of instructor. An introduction to the process and craft of screenwriting. Includes a page one rewrite of the screenplay developed in TFDP 166A and TFDP 166B. Teaches the rewriting process utilizing notes provided in TFDP 166A and TFDP 166B and instructor input to further develop the original screenplay. Course is repeatable to a maximum of 8 units.

TFDP 167 Writing For Television: Creating the One-Hour Series Drama 4 Seminar, 3 hours; written work, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduces the craft of writing for television focusing on production of original work. Includes writing a one-hour pilot, creating series guidelines, and formulating work leading to a 13-episode series. Course is repeatable to a maximum of 12 units.

TFDP 169 Rewriting the Script 4 Workshop, 4 hours. Prerequisite(s): CRWT 164C/TFDP 164C or TFDP 166C; consent of instructor is required for students repeating the course. Covers rewriting a full-length script (screenplay or play). Course is repeatable to a maximum of 8 units. Credit is awarded for only one of CWPA 269 or TFDP 169.

TFDP 170 Performance in Production 1 to 4 Studio, 5 to 20 hours. Prerequisite(s): permission by department. Students act in full productions. Students are cast in roles and throughout the rehearsal period are taught by the director how to perform their assigned roles in a professional manner. Course is repeatable to a maximum of 32 units.

TFDP 171 Technical Production 1 to 4 Studio, 5 to 20 hours. Prerequisite(s): permission by department. Provides training to serve in various capacities on theatre or film production crews. Includes work in assigned crew positions on departmental productions during pre-production, rehearsals, performances, and post-production. Course is repeatable to a maximum of 32 units.

TFDP 172 Design in Production 1 to 4 Studio, 5 to 20 hours. Prerequisite(s): permission by department. Provides training to be a designer on theatre or film productions. Includes work with a mentor designer on departmental productions throughout pre-production, production, and post-production. Course is repeatable to a maximum of 32 units.

TFDP 173 Management and Directing in Production 1 to 5 Studio, 5 to 25 hours. Prerequisite(s): permission by department. Provides training to become stage managers, production managers, and directors on theatre and film productions. Includes attending production meetings, rehearsals, and performances of departmental productions. Course is repeatable to a maximum of 32 units.

TFDP 174 Writing and Dramaturgy in Production 1 to 4 Studio, 5 to 20 hours. Prerequisite(s): permission by department. Provides training to write scripts or serve as a dramaturge on theatre and film productions. Includes working with a mentor on departmental productions during the pre-production process and attending some rehearsals and performances. Course is repeatable as content or topic changes to a maximum of 32 units.

TFDP 175 Fabrication in Production 1 to 4 Studio, 5 to 20 hours. Prerequisite(s): permission by department. Teaches fabrication while working in the scene shop, costume shop, or the lighting/sound shop during the build process of theatre or film productions. Course is repeatable to a maximum of 32 units.

TFDP 176 Performing Arts of Asia 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of music, dance, theatre, and ritual in four major geocultural regions of Asia: Central, East, South and Southeast. No Western music training is required. Course is repeatable to a maximum of 8 units. Cross-listed with ANTH 128, AST 128, and DNCE 128.

TFDP 177 Staging the Middle East 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s):upper-division standing or consent of instructor. Examines the ways in which theatre, performance, and film engage with and critique the representations of peoples and cultures of the Middle East. Includes films and plays from the region as well as the work of Americans representing the Middle East. Credit is awarded for only one of TFDP 177 or TFDP 177S.

TFDP 177S Staging the Middle East 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s):upper-division standing or consent of instructor. Examines the ways in which theatre, performance, and film engage with and critique the representations of peoples and cultures of the Middle East. Includes films and plays from the region as well as the work of Americans representing the Middle East. Credit is awarded for only one of TFDP 177 or TFDP 177S.

TFDP 180 (E-Z) Theatre Practicum 4 Discussion, 4 hours. Prerequisite(s): restricted to class level standing of junior, or senior. An investigation of theatrical production theories and practices. E. Contemporary Mexican Theatre; F. Musical Comedy; M. Arts Management; Q. Plays In Progress; R. New Plays; S. Improvisation.

TFDP 185 Arts, Management, and Community 4 Lecture, 4 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to business and arts management including the study of film and television production, stage management, and music production. Offers hands-on experience for practicing management skills working in partnership with local organizations and artists of Riverside and the Inland Empire. Cross-listed with MUS 185. Credit is awarded for only one of MUS 185/TFDP 185 or MUS 185S/TFDP 185S.

TFDP 185S Arts, Management, and Community 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An introduction to business and arts management including the study of film and television production, stage management, and music production. Offers hands-on experience for practicing management skills working in partnership with local organizations and artists of Riverside and the Inland Empire. Cross-listed with MUS 185S. Credit is awarded for only one of MUS 185/TFDP 185 or MUS 185S/TFDP 185S.

TFDP 186 Virtual Reality, Augmented Reality, and Mixed Reality Design and Production 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): TFDP 020, TFDP 066; restricted to class level standing of junior, or senior; or consent of instructor. Topics include historical examples of immersive technologies, VR/AR/MR projects, the social impact of VR/AR/MR concepts and projects, and the broader impact on society.

TFDP 190 Special Studies 1 to 5 Research, 3 to 15 hours. Prerequisite(s): consent of the chair of the department. Independent study and research by qualified undergraduate students under supervision of a faculty member. Course is repeatable to a maximum of 20 units.

TFDP 191 (E-Z) Seminar in Theatre 4 Seminar, 3 hours; extra reading, 3 hours. Covers various topics on a rotating basis. Includes playwriting, acting, directing, scenic design, theatre history, and dramatic literature. E. Hamlet: Who Is Hamlet And Why Should You Care?; M. American Frontier In American Drama; N. Theatre Of Eugene O' S. Script To Production; T. Women In Theatre: Theory And Performance.

TFDP 195 Senior Thesis 1 to 4 Thesis, 3 to 12 hours. Prerequisite(s): senior standing; consent of Department Chair. Open by invitation only Presentation of a significant piece of creative work with faculty supervision. Course is repeatable to a maximum of 8 units.

TFDP 198I Individual Internship in Theatre 1 to 12 Internship, 3 to 36 hours, reading and written work, 1-12 hours, Prerequisite(s): upper-division standing; consent of instructor. An internship in a theatre, television, or film production company. Includes work with directors or designers in one or more areas of professional production such as acting, design, costumes, lighting, and sound. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 16 units.

TFDP 199 Senior Research 1 to 4 Research, 3 to 12 hours. Prerequisite(s): consent of chair of the department. Research in the practice and/or theory of the theatre. Open to seniors by invitation only.

University Honors

Subject abbreviation: HNPG
Division of Undergraduate Education

Begoña Echeverria, Ph.D.,
Howard H Hays, Jr. Endowed Chair and Associate Dean and Faculty Director of University Honors
381 Skye Hall
(951) 827-5323; honors@ucr.edu
honors.ucr.edu

Outstanding students from all majors can participate in University Honors. University Honors challenges students to take an active role in shaping their education through a variety of curricular, co-curricular, extra-curricular, and service-learning opportunities. Students benefit from University Honors staff support, in the areas of academic counseling, professional development, and guidance on applying for internships, fellowships, awards, and graduate or professional school. A study room and student lounge are available to University Honors students.

First-Year Experience

Admission to the first-year cohort in University Honors is based on high school grade point average and the successful completion of a University Honors admission application. During the first-year, students take required University Honors courses, participate in University Honors programs and events, and receive guidance from University Honors Ambassadors. First-year courses expose students to innovative teaching methods, interdisciplinary thinking, and increased depth of course content. One goal of University Honors courses is to expose students to methods of conceptualizing issues and framing questions that promote scholarship, engagement, and student success.

Second-Year Experience

The second-year cohort in University Honors is designed to expose students to the concept of civic engagement and to introduce them to the abundance of opportunities available to undergraduate students at UC Riverside. During the second-year, students engage in scholarly experiences that will allow them to interact with faculty members and begin considering topics for their eventual capstone projects. The second-year cohort consists of continuing first-year University Honors students, as well as high-achieving UCR students who did not have the opportunity to participate in the first-year cohort. Admission to the second-year cohort is based on a specified UCR cumulative grade point average and the successful completion of a University Honors admission application.

Upper-Division Experience

The upper-division curriculum provides students with the framework to produce a capstone project, resulting from faculty-mentored, undergraduate research, creative activity, or experiential learning. This structure is adaptable to almost any major and allows each student the flexibility to work with a faculty-mentor to shape a research, creative activity, or experiential learning program to meet the ambitions of the project. University Honors provides resources to assist students with finding a faculty-mentor and guidance throughout the process of completing the capstone project. Continuing UCR students with an excellent academic record may apply to participate in University Honors. Students who transfer to UCR as juniors with excellent academic records may also apply to University Honors. During the junior year, students narrow their research, creative activity, or experiential learning focus, select a faculty-mentor, and prepare to undertake the capstone project. The program provides support in all phases of this planning. The capstone project is usually undertaken by the spring quarter of the junior year and is completed well before graduation. The completed capstone project is submitted to the student's faculty-mentor for approval. Completion of an approved capstone project, and satisfaction of all other University Honors requirements, will qualify a student for graduation with University Honors distinction, which is noted on the official transcript.

Lower-Division Courses

HNPG 002W Principles of Civic Engagement 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): concurrent enrollment in WRIT 040X; WRIT 020 with a grade of C or better or WRIT 020S with a grade of C or better; admission to University Honors. Aims to cultivate, enhance, and facilitate interest in social change. Bridges the academic and personal life by providing knowledge and tools for civic engagement. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits, as alternatives to WRIT 030. Satisfactory(S) or No Credit(N/C) is not available.

HNPG 003 Implementing Civic Engagement 1 1 Workshop, 1 hour. Prerequisite(s): HNPG 002W with a grade of B or better; admission to University Honors. Guides through the initiation, planning, research, and implementation of a civic engagement plan. Applies the principles of civic engagement towards creating social change on campus and in the community. Satisfactory(S) or No Credit(N/C) is not available.

HNPG 004 Implementing Civic Engagement 2 1 Workshop, 1 hour. Prerequisite(s): HNPG 003 with a grade of B or better; admission to University Honors. Continues the process of working on the research, implementation, assessment, and presentation of a selected civic engagement project initiated in HNPG 003.

HNPG 010 First-Year Colloquium 1 Colloquium, 1 hour. Prerequisite(s): open only to students in the University Honors Program who are freshmen or first-year transfer students. Introduces students to academic research conducted by UCR faculty. Presentations are multidisciplinary and cover the sciences, humanities, and social sciences. Graded Satisfactory (S) or No Credit (NC).

HNPG 016 Ignition Seminar in Humanities 4 Seminar, 3 hours; activity, 3 hours. Prerequisite(s): admission to University Honors. Addresses interdisciplinary topics drawn from the humanities. Topics vary from quarter to quarter. Satisfactory(S) or No Credit(N/C) is not available.

HNPG 017 Ignition Seminar in Social Sciences 4 Seminar, 3 hours; activity, 3 hours. Prerequisite(s): admission to University Honors. Addresses interdisciplinary topics drawn from the Social Sciences. Topics vary from quarter to quarter. Satisfactory(S) or No Credit(N/C) is not available.

HNPG 018 Ignition Seminar in Interdisciplinary Studies 4 Seminar, 3 hours; activity, 3 hours. Prerequisite(s): admission to University Honors. Addresses interdisciplinary topics drawn from the humanities and social sciences. Topics vary from quarter to quarter. Satisfactory(S) or No Credit(N/C) is not available.

HNPG 090 Special Studies 2 to 4 Consultation, 1 hour; research, 6 to 12 hours. Prerequisite(s): admission to University Honors or consent of instructor; a written proposal approved by the program chair. Structured to meet specific educational needs. Addresses course content, style, and requirements determined in collaboration with the instructor. Satisfactory (S) or No Credit (NC) grading is not available. Course is repeatable to a maximum of 4 units.

HNPG 098I Honors Individual Internship 2 to 4 Consultation, 1 to 2 hours; internship, 4 to 8 hours; written work, 1 to 2 hours. Prerequisite(s): admission to University Honors or consent of instructor. Internship placement on or off campus that provides opportunities to acquire skills and experience for future endeavors. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 4 units.

Upper-Division Courses

HNPG 110 Preparing For An Advanced Degree & Career Readiness 2 Lecture, 2 hours. Prerequisite(s): admission to University Honors; permission by department. Addresses components of pursuing an advanced degree (masters, doctorate, or professional degree) or direct-to-career readiness by reviewing preparation materials to encourage long-term planning and reflection for UCR Honors students. Topics include drafting CVs, resumes, personal statements, networking, cultural capital, impostor syndrome, research, and creative activities. Offered online only. Graded Satisfactory (S) or No Credit (NC). Credit is awarded for one of the following HNPG 110 or ANTH 141W.

HNPG 149 Introduction to the Honors Capstone 1 Lecture, 1 hour. Prerequisite(s): restricted to class level standing of sophomore, junior, or senior; admission to University Honors. An introduction to the capstone experience as directed by the Honors Faculty Director. Covers effective networking, identifying and contacting a faculty-mentor, capstone planning, proposal writing, human subjects requirements, and successful completion of University Honors. Includes identifying a faculty-mentor and providing a brief description of the project. Graded Satisfactory (S) or No Credit (NC).

HNPG 150 Research and Creative Activity Across the Disciplines 3 Lecture, 1 hour; discussion, 1 hour; workshop, 1 hour. Prerequisite(s): HNPG 149 with a grade of S or better; restricted to class level standing of sophomore, junior, or senior; admission to University Honors. Addresses the following questions: "What is knowledge?" and "What is research?" Illustrates how researchers select a significant issue, review what is known, and pose a research question whose answer promises to advance knowledge across the humanities, social sciences, and natural sciences. Focuses on development of the capstone proposal and prospectus. Satisfactory(S) or No Credit(N/C) is not available.

HNPG 190 Special Studies 1 to 4 Consultation, 1 hour; research, 3 to 12, Prerequisite(s): good standing; admission to upper-division University Honors or consent of instructor; a written proposal approved by the program chair. Structured to meet specific educational needs. Addresses course content, style, and requirements determined in collaboration with the instructor. Satisfactory (S) or No Credit (NC) grading is not available. Course is repeatable to a maximum of 12 units.

HNPG 197H Honors Research For Undergraduates 1 to 4 Research, 3 to 6 hours; individual study, 3 to 6 hours. Prerequisite(s): admission to University Honors or consent of instructor; upper-division standing. An introduction to research under the supervision of University Honors Program faculty. Requires a research project. Satisfactory (S) or No Credit (NC) grading is not available. Course is repeatable to a maximum of 12 units.

HNPG 198H Junior Honors Research 1 Research, 3 hours. Prerequisite(s): HNPG 150 with a grade of D - or better; restricted to class level standing of sophomore, junior, or senior; admission to University Honors. Research in support of the University Honors capstone project under supervision of a faculty-mentor. Letter grade only. Satisfactory (S) or No Credit is not available.

HNPG 198I Honors Individual Internship 1 to 4 Consultation, 1 hour; internship, 3 to 12 hours; written work, 1 to 4 hours. Prerequisite(s): admission to University Honors or consent of instructor; upper-division standing. Internship placement on or off campus that provides opportunities to acquire skills and experience for future endeavors. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 12 units.

HNPG 199H Senior Honors Research 1 to 5 Research, 2 to 10 hours; term paper, 1 to 5 hours. Prerequisite(s): HNPG 198H with a grade of B or better; restricted to class level standing of sophomore, junior, or senior; admission to University Honors. Research in support of the University Honors capstone project under supervision of a faculty mentor. Graded In Progress (IP) until the final quarter is completed, at which time a final grade is awarded. Course is repeatable to a maximum of 12 units.

Urban Studies Minor

Subject abbreviation: URST
College of Humanities, Arts, and Social Sciences

Patricia Morton, Ph.D., Chair
Office, INTS 3110
(951) 827-2698;
chassstudentaffairs.ucr.edu

Committee in Charge

Pat Morton (Media and Cultural Studies)
Daryle Williams, Dean, *ex officio*

The Urban Studies minor is an adaptation of a well-developed interdisciplinary focus on urban concepts, issues, and problems in order to offer the chance for increased understanding of urban processes. The minor also provides preparation leading to increased employment opportunities at the municipal, state, or federal level, or to graduate work in one of several areas related to urban studies.

Requirements for the minor (24 units)

1. SOC 002F
2. URST 143/SOC 143
3. URST 146/ECON 146
4. URST 172/POSC 172
5. URST 182/SOC 182
6. URST 184/AHS 184

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Lower-Division Courses

URST 014 Popular Musics of the World 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduction to issues surrounding popular and urban musics of the world focusing on three major geocultural areas: Africa, Asia, and the Americas. Emphasizes the relationship between mass-mediated music and issues of cultural hegemony, resistance, and subversion. Analyzes the cultural impact of media technology on music performance and reception. Cross-listed with ETST 014, and MUS 014.

URST 025 Introduction to the Built Environment: Suburbia 4 Lecture, 3 hours; discussion, 1 hour; individual study, 3 hours. Introduces the history of suburbia from the Industrial Revolution to the present. Includes the rise of suburbs in England; classic suburbs in the United States; the spread of suburbs and mass transportation; the role of race and gender in suburbia; suburban sprawl in Southern California; and sustainability and suburban development. Cross-listed with MCS 025.

URST 069 The Politics of Public Space 4 Lecture, 3 hours; discussion, 1 hour; individual study, 3 hours. Prerequisite(s): none. Introduces theories and history of public space in modern cities. Topics include public space during the Industrial Revolution; modern planning and urban renewal; political uses of public space including demonstrations and occupations; privatization and policing of public spaces; and changing concepts of public and private space in contemporary society. Cross-listed with MCS 069.

Upper-Division Courses

URST 143 Urban Sociology 5 Lecture, 3 hours; extra reading, 3 hours; field, 3 hours. Prerequisite(s): SOC 001 or SOC 001H; or consent of instructor. A comparative examination of metropolitan and other urban communities with emphasis on processes of urbanization. Cross-listed with SOC 143.

URST 146 Urban Economics 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 102 or ECON 104A. Applies basic microeconomic principles to the spatial concentration of economic activity, the operation of the urban land, housing, transportation, and labor markets, the role of government in the urban economy, and urban economic problems, including pollution, crime, and homelessness. Cross-listed with ECON 146.

URST 159 Race, Space, and Identity 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. Examines the intersection of race, space, and identity in modern and contemporary culture. Explores the critical and constitutive importance of race in the built environment. Topics include the racialization of space; colonialism and colonial cities; expositions and world's fairs; segregation; race and the canon; decolonization; and urban renewal. Cross-listed with MCS 159.

URST 178 The Modern City 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): Restricted to class level standing of sophomore, junior, or senior; or consent of instructor. Examines the modern metropolis from the Industrial Revolution to the present. Explores the history and theory of modern urbanism through case studies of metropolitan areas with a rich urban culture, architecture, and morphologic features. Investigates approaches to the problems of the large urban agglomeration in the context of social Cross-listed with AHS 178.

URST 182 Urban Problems 4 Lecture, 3 hours; discussion, 1 hour; term paper, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior. An interdisciplinary examination of selected urban problems such as civil disorders, transportation, housing, welfare, and planning. Cross-listed with PBPL 182, and SOC 182. Credit is awarded for one of the following PBPL 182, SOC 182, URST 182, or PBPL 178.

URST 184 Modern Architecture 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Explores modern architecture and its sources from 1800 to the present. Cross-listed with AHS 184.

Western American Studies Minor

College of Humanities, Arts, and Social Sciences

Jason Weems, Ph.D., Chair
226 Arts Building
(951) 827-5922
jweems@ucr.edu
westernamericanstudies.ucr.edu

Committee in Charge

Jason Weems (History of Art)
Rebecca Kugel (History)
Michelle Raheja (English)

The Western American Studies minor is intended to provide the student with a basic understanding of the history and institutional development of the Western United States — the Great Plains, the Southwest, and California — including the geographical and cultural factors that have shaped their history.

Requirements for the Western American Studies minor are 20 units distributed as follows:

1. **HISA 137, HISA 138**
2. **One course from each of the following groups:**
   a) ETST 004/HIST 004, ETST 180/HISA 140, ETST 181/HISA 141, ETST 182/HISA 142, ETST 183/HISA 143
   b) ANTH 115E, ANTH 140F, ETST 110M
   c) ETST 108-I, ETST 108L, ETST 110K

History majors are not allowed to count HISA 137 or HISA 138 toward both their major and a minor in Western American Studies. If HISA 137 or HISA 138 is counted toward the major, then for the minor an additional course from (a) and an additional course from (b) are required.

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Division of Undergraduate Education

Subject abbreviation: UGRD
Division of Undergraduate Education

Dr. Louie F. Rodriguez, Ed.D., Faculty Advisor
(951) 827-7942;

The Division of Undergraduate Education cultivates innovative opportunities for transformative student success. Through collaboration with our students, campus, and community, we remain at the forefront of innovation and creativity to enable students to reach their highest potential.

We aim to advance student success in alignmnet with our strategic goals including:

1) stregnthen student belonging

2) improve student satisfaction

3) boost involvement in high impact practices

4) increase graduation rates

5) reduce equity gaps

Lower-Division Courses

UGRC 001A R'Course Proposal Development 1 Seminar, 1 hour. Prerequisite(s): excludes graduate students; permission by department. Focuses on the development of R'Course proposals with pedagogical strategy and quality course design. Topics include the principles of democratic pedagogy and active learning. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 2 units.

UGRC 001B Democratic Pedagogy 1 Seminar, 1 hour. Prerequisite(s): UGRC 001A with a grade of S or better; excludes graduate students; requires an approved R'Course proposal. Focuses on the development and practice of teaching skills in preparation for R'Course facilitation. Topics include course delivery, assessment, and lesson design with attention to the principles of democratic pedagogy and active learning. Graded Satisfactory (S) or No Credit (NC).

UGRC 001C Teaching Rcourses 1 Individual study, 3 hours. Prerequisite(s): UGRC 001B with a grade of S or better; excludes graduate students; must be teaching an approved R'Course; and consent of instructor. Provides strategic support for R'Course facilitators with a focus on incorporating effective teaching strategies in course deployment. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 6 units.

UGRC 198 R'courses : Variable Topics 1 Activity, 3 hours. Prerequisite(s): excludes graduate students. Student-initiated courses designed by undergraduates and taken by other UCR undergraduates. Covers original course topics that are unique from other departmental course offerings. Topics vary each quarter. Includes working closely with a faculty mentor and R'Course staff to develop and refine course offerings. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as content or topic changes to a maximum of 8 units.

UGRD 001 Foundations For Academic Advancement and Career Preparedness 2 Lecture, 2 hours. Prerequisite(s): none. Introduces career preparedness and provides practical strategies for career exploration and principles for networking-workforce success. Explores effective forms of written and professional communication.

UGRD 002 Foundations For Effective Oral Communication 2 Lecture, 2 hours. Introduces practical oral communication and public speaking skills that are necessary for networking, workforce success, and creating a professional profile.

UGRD 010 R Excellence: How Bold Hearts and Brilliant Minds Are Made 1 Lecture, 1 hour. Prerequisite(s): none. Offers an opportunity to appreciate the range of academic experiences provided at UCR. Includes presentations from faculty to provide opportunity to reflect on lessons learned.

UGRD 040 Contemporary Topics in Information and Society 2 Seminar, 2 hours. Prerequisite(s): none. Explores the impacts of information systems and legal and ethical issues surrounding information within a disciplinary or professional context. Introduces the principles of information literacy and provides preparation to find, evaluate, and integrate information in coursework, professional settings, and their lives. Course is repeatable as content or topic changes to a maximum of 4 units.

UGRD 080 Military Science: Introduction to the Army 4 Lecture, 2 hours; laboratory, 3 hours; activity, 3 hours. Prerequisite(s): restricted to class level standing of freshman; and consent of instructor. Introduces the Army Leadership Requirements Model and the Reserve Officers' Training Corps (ROTC) program. Teaches basic soldier skills to survive in a field environment. Promotes development as Army leaders.

UGRD 105 Exploring Pathways to Graduate and Professional School 2 Lecture, 2 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Focuses on long-term strategies and skills required to be successful in academic and professional pathways. Topics include writing application materials, a plan of action for applying for graduate and professional schools, and opportunities for collaboration to create sustainable career goals.

UGRD 106 Advanced Communication Skills For Academic and Personal Success 2 Lecture, 2 hours. Prerequisite(s): none; restricted to class level standing of junior, or senior. Focuses on advanced oral communication skills, specifically the ability to craft and present compelling and competitive personal oral narratives for graduate school, research opportunities, or industry positions.

UGRD 120 Transfer Success Program Transfer Transition & Succes 1 Seminar, 1.5 hours. Prerequisite(s): restricted to class level standing of sophomore, or junior. Offers incoming transfer students an opportunity to gain the necessary skills for a seamless transition into the campus community. Presentations by guest speakers and hands-on experience with campus resources aid students in becoming familiar with campus resources and achieving academic and personal success. Offered in Summer only.

UGRD 198G Group Internship 1 to 12 Seminar, 1 hour; individual study, 1 to 3 hours; internship, 2 to 36 hours. Prerequisite(s): restricted to class level standing of sophomore, junior, or senior. On- or off-campus internship work in an industry, community organization, school district, or non-profit. Conducted under the joint direction of an on- or off-campus supervisor and a Division of Undergraduate Education faculty member. Course is repeatable to a maximum of 16 units.

University Writing Program

Subject abbreviation: WRIT
Division of Undergraduate Education

Dr. Wallace Cleaves, Ph.D., Associate Dean and Director
951-827-7750

The University Writing Program offers courses that fulfill the UC Entry-Level Writing and UCR English Composition writing requirements. These courses are designed to help students write effectively in other University courses and later in their professional lives. University writing demands the ability to read carefully, to analyze what is read, and to draw conclusions about those data for both general and expert audiences. These courses help students learn to write well, read closely, and speak formally in public.

Lower-Division Courses

WRIT 001 Foundations of Academic Discourse 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): concurrent enrollment in WRIT 001L; placement determined by the UCR Writing Placement Process (WPP). Introductory course designed for multilingual, first-generation, or other students needing intensive, multi-quarter support in academic discourse foundations in writing, reading, listening, and speaking. Focuses on reading comprehension; oral communication; sentence clarity; and academic composition, editing, and revising skills. Graded Satisfactory (S) or No Credit (NC).

WRIT 001L Foundations of Academic Discourse Laboratory 1 Laboratory, 3 hours. Prerequisite(s): concurrent enrollment in WRIT 001; placement into WRIT 001 by the University Writing Program's Writing Placement Process (WPP). Reinforces foundational understanding and applications of English grammar and idiomatic expression, critical reading, and listening practice. Sets a foundation of improvement in reading

comprehension, oral communication, and sentence clarity. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 2 units.

WRIT 003 Fundamentals of Academic Discourse 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): concurrent enrollment in WRIT 003L; WRIT 001 with a grade of S or better; special permission required to take WRIT 003 if students don't receive an S in WRIT 001 after two attempts; or placement determined by the UCR Writing Placement Process (WPP). Course designed for multilingual, first-generation, or other students needing support in academic discourse fundamentals. Focuses on increasing communicative competence in composing a variety of texts with special attention to the writing process, academic grammar, critical reading, and verbal skills. Graded Satisfactory (S) or No Credit (NC).

WRIT 003L Fundamentals of Academic Discourse Laboratory 1 Laboratory, 3 hours. Prerequisite(s): concurrent enrollment in WRIT 003; WRIT 001 with a grade of S or better; or placement into WRIT 003 by the University Writing Program's Writing Placement Process (WPP). Reinforces fundamental understanding and applications of English grammar and idiomatic expression, critical reading, and listening practice. Sets a foundation of improvement in reading comprehension, oral communication, and sentence clarity. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 2 units.

WRIT 005 Frameworks of Academic Discourse 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): concurrent enrollment in WRIT 005L; WRIT 003 with a grade of S or better; special permission required to take WRIT 005 if students don't receive an S in WRIT 003 after two attempts; OR Placement determined by the UCR Writing Placement Process (WPP) OR UWP Director approval. Designed for multilingual, first-generation, or other students needing focused additional support honing academic communication skills. Advances student academic discourse skills through the combined frameworks of aural, oral, and written communications; process-based composition strategies; advanced reading comprehension strategies for a variety of subjects; and rhetorical grammar. Graded Satisfactory (S) or No Credit (NC).

WRIT 005L Frameworks of Academic Discourse Laboratory 1 Laboratory, 3 hours. Prerequisite(s): concurrent enrollment in WRIT 005; WRIT 003 with a grade of S or better; or placement into WRIT 005 by the University Writing Program's Writing Placement Process (WPP). Reinforces principles and applications of English grammar and idiomatic expression, critical reading, and rhetorical practice. Advances student academic discourse skills through process-based composition strategies, reading comprehension strategies for a variety of subjects, and rhetorical grammar. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 3 units.

WRIT 007 English Writing For Academic Inquiry and Exchange of Ideas 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): concurrent enrollment in WRIT 007L; WRIT 005 with a grade of S or better; special permission required to take WRIT 007 if students don't receive an S in WRIT 005 before the final academic quarter in the UC Entry-Level Writing Requirement time limit or UWP Director approval; placement determined by the UCR Writing Placement Process (WPP). Helps develop reading and writing proficiency in a rigorous, process-oriented approach. Introduces writing conventions of academic communities. Provides the opportunity to write response-oriented essays and refine the mechanics of their writing. Grade of 'C' or better satisfies the UC ELWR.

WRIT 007L English Writing For Academic Inquiry and Exchange of Ideas Laboratory 1 Laboratory, 3 hours. Prerequisite(s): concurrent enrollment in WRIT 007; WRIT 005 with a grade of S or better; or placement into WRIT 007 by the University Writing Program's Writing Placement Process (WPP). Focuses on mastery of principles and applications of academic language and idiomatic expression as well as critical reading. For students who do not need, or have advanced beyond, second-language instruction. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 3 units.

WRIT 008 English Writing For Ideas in Conflict 4 Lecture, 3 hours; written work, 3 hours; tutorial, 0.5 hour. Prerequisite(s): concurrent enrollment in WRIT 008L; must be invited by the Director of the UWP based on the UCR Writing Placement Process (WPP). Examines academic argument in significant written texts with a consideration of spoken texts. Includes reading with attention to tone, rhetoric, and evidence; writing effective and persuasive essays; writing and delivering speeches; and delivering multimodal presentations. Passing students satisfy UC ELWR and are eligible for WRIT 010 or WRIT 010S.

WRIT 008L English Writing For Ideas in Conflict Laboratory 1 Laboratory, 3 hours. Prerequisite(s): concurrent enrollment in WRIT 008; placement into WRIT 008 by the University Writing Program's Writing Placement Process (WPP). Focuses on mastery of principles and applications of academic language, rhetoric, and intensive critical reading with attention to tone, rhetoric, and evidence. Includes writing effective and persuasive essays, writing and delivering speeches, and delivering multimodal presentations. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 3 units.

WRIT 009 Academic Writing: Intensive 4 Lecture, 3 hours; tutorial, 0.5 hour; written work, 3 hours. Prerequisite(s): concurrent enrollment in WRIT 009L; must be invited by the Director of the UWP based on the UCR Writing Placement Process (WPP). Introduces strategies of personal writing by fostering awareness of writing and reading, encouraging the consideration of audience and conventions of genre in smaller class environments with an embedded tutor. Considers responses to different rhetorical situations. Passing students satisfy UC ELWR and are eligible for WRIT 020 or WRIT 020S. Credit is awarded for one of the following WRIT 009, WRIT 010, or WRIT 010S.

WRIT 009L Academic Writing: Intensive Laboratory 1 Laboratory, 3 hours. Prerequisite(s): concurrent enrollment in WRIT 009; must be invited by the Director of the UWP to WRIT 009 based on the UCR Writing Placement Process (WPP). Focuses on mastery of principles and applications of academic language and idiomatic expression, as well as critical reading, narrative structures, and initial argumentation fundamentals, for students who do not need, or have advanced beyond, second-language instruction. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 3 units.

WRIT 010 Academic Writing 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): WRIT 007 with a grade of C or better or WRIT 008 with a grade of C or better; fulfillment of the University of California Entry-Level Writing Requirement. Introduces strategies of personal writing to foster awareness as a writer and reader. Encourages consideration of audience and genre conventions, responses to different rhetorical situations, and incorporation of various forms of research when engaging with academic writing that employs individual voice and style. Credit is awarded for one of the following WRIT 010, WRIT 009, or WRIT 010S.

WRIT 010S Academic Writing 5 Lecture, 3 hours; discussion, 1 hour; written work, 3 hours. Prerequisite(s): WRIT 007 with a grade of C or better or WRIT 008 with a grade of C or better; fulfillment of the University of California Entry-Level Writing Requirement. Introduces strategies of personal writing to foster awareness as a writer and reader. Encourages consideration of audience and genre conventions, responses to different rhetorical situations, and incorporation of various forms of research when engaging with academic writing that employs individual voice and style. Credit is awarded for one of the following WRIT 010S, WRIT 009, or WRIT 010.

WRIT 020 Persuasive Writing 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): WRIT 010 with a grade of C or better or WRIT 010S with a grade of C or better or WRIT 009 with a grade of C or better. Emphasizes the transition from personal to public writing as students learn to apply the essential tenets of the rhetorical tradition of persuasion to various genres and develop arguments by identifying an issue, articulating a stance in relation to that issue, and defending that stance with appropriate evidence. Credit is awarded for one of the following WRIT 020 or WRIT 020S.

WRIT 020S Persuasive Writing 5 Lecture, 3 hours; discussion, 1 hour; written work, 3 hours. Prerequisite(s): WRIT 010 with a grade of C or better or WRIT 010S with a grade of C or better or WRIT 009 with a grade of C or better. Emphasizes the transition from

personal to public writing as students learn to apply the essential tenets of the rhetorical tradition of persuasion to various genres and develop arguments by identifying an issue, articulating a stance in relation to that issue, and defending that stance with appropriate evidence. Lecture with sections. Credit is awarded for one of the following WRIT 020S or WRIT 020.

WRIT 030 Analytical Writing 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): WRIT 020 with a grade of C or better or WRIT 020S with a grade of C or better. Addresses the function of writing in a range of contemporary situations from a critical and theoretical perspective. Includes analyzing and responding to a wide variety of texts to understand theoretical and critical models and to apply those models to texts to articulate an interpretative understanding. Credit is awarded for one of the following WRIT 030 or WRIT 030S.

WRIT 030S Analytical Writing 5 Lecture, 3 hours; discussion, 1 hour; written work, 3 hours. Prerequisite(s): WRIT 020 with a grade of C or better or WRIT 020S with a grade of C or better. Addresses the function of writing in a range of contemporary situations from a critical and theoretical perspective. Includes analyzing and responding to a wide variety of texts to understand theoretical and critical models and applying those models to texts to articulate an interpretative understanding. Credit is awarded for one of the following WRIT 030S or WRIT 030.

WRIT 040 (E-Z) Writing Across the Curriculum Workshops 0.5 Workshop, 0.5 hour. Focuses on exploring and practicing strategies for writing assignments in Writing Across the Curriculum courses. Includes a close reading of prompts, forming relevant theses, finding and organizing evidence, and demonstrating analytical and critical thinking. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as content or topic changes to a maximum of 2 units.

WRIT 040E Writing Workshop in Bus 100W 0.5 Workshop, 0.5 hour. Prerequisite(s): concurrent enrollment in BUS 100W; WRIT 020 with a grade of C or better or WRIT 020S with a grade of C or better. Focuses on exploring and practicing strategies for writing assignments in BUS 100W. Includes a close reading of prompts, forming relevant theses, finding and organizing evidence, and demonstrating analytical and critical thinking. Graded Satisfactory (S) or No Credit (NC).

WRIT 040F Writing Workshop in PHIL 003W 0.5 Workshop, 0.5 hour. Prerequisite(s): concurrent enrollment in PHIL 003W; WRIT 020 with a grade of C or better or WRIT 020S with a grade of C or better. Focuses on exploring and practicing strategies for writing assignments in PHIL 003W. Includes a close reading of prompts, forming relevant theses, finding and organizing evidence, and demonstrating analytical and critical thinking. Graded Satisfactory (S) or No Credit (NC).

WRIT 040G Writing Workshop in POSC 005W 0.5 Workshop, 0.5 hour. Prerequisite(s): concurrent enrollment in POSC 005W; WRIT 020 with a grade of C or better or WRIT 020S with a grade of C or better. Focuses on exploring and practicing strategies for writing assignments in POSC 005W. Includes a close reading of prompts, forming relevant theses, finding and organizing evidence, and demonstrating analytical and critical thinking. Graded Satisfactory (S) or No Credit (NC).

WRIT 040I Writing Workshop in POS C007W 0.5 Workshop, 0.5 hour. Prerequisite(s): concurrent enrollment in POSC 007W; WRIT 020 with a grade of C or better or WRIT 020S with a grade of C or better. Focuses on exploring and practicing strategies for writing assignments in POSC 007W. Includes a close reading of prompts, forming relevant theses, finding and organizing evidence, and demonstrating analytical and critical thinking. Graded Satisfactory (S) or No Credit (NC).

WRIT 040J Writing Workshop in POSC 010W 0.5 Workshop, 0.5 hour. Prerequisite(s): concurrent enrollment in POSC 010W; WRIT 020 with a grade of C or better or WRIT 020S with a grade of C or better. Focuses on exploring and practicing strategies for writing assignments in POSC 010W. Includes a close reading of prompts, forming relevant theses, finding and organizing evidence, and demonstrating analytical and critical thinking. Graded Satisfactory (S) or No Credit (NC).

WRIT 040K Writing Workshop in DNCE 007W 0.5 Workshop, 0.5 hour. Prerequisite(s): concurrent enrollment in DNCE 007W; WRIT 020 with a grade of C or better or WRIT 020S with a grade of C or better. Focuses on exploring and practicing strategies for writing assignments in DNCE 007W. Includes a close reading of prompts, forming relevant theses, finding and organizing evidence, and demonstrating analytical and critical thinking. Graded Satisfactory (S) or No Credit (NC).

WRIT 040L Writing Workshop in ANTH 100W 0.5 Workshop, 0.5 hour. Prerequisite(s): concurrent enrollment in ANTH 100W; WRIT 020 with a grade of C or better or WRIT 020S with a grade of C or better. Focuses on exploring and practicing strategies for writing assignments in ANTH 100W. Includes a close reading of prompts, forming relevant theses, finding and organizing evidence, and demonstrating analytical and critical thinking. Graded Satisfactory (S) or No Credit (NC).

WRIT 040M Writing Workshop in EDUC 103W 0.5 Workshop, 0.5 hour. Prerequisite(s): concurrent enrollment in EDUC 103W; WRIT 020 with a grade of C or better or WRIT 020S. Focuses on exploring and practicing strategies for writing assignments in EDUC 103W. Includes a close reading of prompts, forming relevant theses, finding and organizing evidence, and demonstrating analytical and critical thinking. Graded Satisfactory (S) or No Credit (NC).

WRIT 040N Writing Workshop in HIST 020W 0.5 Workshop, 0.5 hour. Prerequisite(s): concurrent enrollment in HIST 020W; WRIT 020 with a grade of C or better or WRIT 020S with a grade of C or better. Focuses on exploring and practicing strategies for writing assignments in HIST 020W. Includes a close reading of prompts, forming relevant theses, finding and organizing evidence, and demonstrating analytical and critical thinking. Graded Satisfactory (S) or No Credit (NC).

WRIT 040O Writing Workshop in HIST 099W 0.5 Workshop, 0.5 hour. Prerequisite(s): concurrent enrollment in HIST 099W; WRIT 020 with a grade of C or better or WRIT 020S with a grade of C or better. Focuses on exploring and practicing strategies for writing assignments in HIST 099W. Includes a close reading of prompts, forming relevant theses, finding and organizing evidence, and demonstrating analytical and critical thinking. Graded Satisfactory (S) or No Credit (NC).

WRIT 040P Writing Workshop in ENTM 060W and BPSC 060W 0.5 Workshop, 0.5 hour. Prerequisite(s): ENTM 060W, may be taken concurrently or BPSC 060W, may be taken concurrently; WRIT 020 with a grade of C or better or WRIT 020S with a grade of C or better. Focuses on exploring and practicing strategies for writing assignments in cross-listed course ENTM 060W and BPSC 060W. Includes a close reading of prompts, forming relevant theses, finding and organizing evidence, and demonstrating analytical and critical thinking. Graded Satisfactory (S) or No Credit (NC).

WRIT 040Q Writing Workshop in ENGR 180W 0.5 Workshop, 0.5 hour. Prerequisite(s): concurrent enrollment in ENGR 180W; WRIT 020 with a grade of C or better or WRIT 020S with a grade of C or better. Focuses on exploring and practicing strategies for writing assignments in ENGR 180W. Includes a close reading of prompts, forming relevant theses, finding and organizing evidence, and demonstrating analytical and critical thinking. Graded Satisfactory (S) or No Credit (NC).

WRIT 040R Writing Workshop in ENGR 181W 0.5 Workshop, 0.5 hour. Prerequisite(s): concurrent enrollment in ENGR 181W; WRIT 020 with a grade of C or better or WRIT 020S with a grade of C or better. Focuses on exploring and practicing strategies for writing assignments in ENGR 181W. Includes a close reading of prompts, forming relevant theses, finding and organizing evidence, and demonstrating analytical and critical thinking. Graded Satisfactory (S) or No Credit (NC).

WRIT 040S Writing Workshop in PHYS 142W 0.5 Workshop, 0.5 hour. Prerequisite(s): concurrent enrollment in PHYS 142W; WRIT 020 with a grade of C or better. Focuses on exploring and practicing strategies for writing assignments in PHYS 142W. Includes a close reading of prompts, forming relevant theses, finding and organizing evidence, and demonstrating analytical and critical thinking. Graded Satisfactory (S) or No Credit (NC).

WRIT 040T Writing Workshop in ANTH 001W 0.5 Workshop, 0.5 hour. Prerequisite(s): concurrent enrollment in ANTH 001W; WRIT 020 with a grade of C or better or WRIT 020S with a grade of C or better. Focuses on exploring and practicing strategies for writing assignments in ANTH 001W. Includes a close reading of prompts, forming relevant theses, finding and organizing evidence, and

demonstrating analytical and critical thinking. Graded Satisfactory (S) or No Credit (NC).

WRIT 040U Writing Workshop in CPLT 001W 0.5 Workshop, 0.5 hour. Prerequisite(s): concurrent enrollment in CPLT 001W; WRIT 020 with a grade of C or better or WRIT 020S with a grade of C or better. Focuses on exploring and practicing strategies for writing assignments in CPLT 001W. Includes a close reading of prompts, forming relevant theses, finding and organizing evidence, and demonstrating analytical and critical thinking. Graded Satisfactory (S) or No Credit (NC).

WRIT 040V Writing Workshop in LBST 020W 0.5 Workshop, 0.5 hour. Prerequisite(s): concurrent enrollment in LBST 020W; WRIT 020 with a grade of C or better or WRIT 020S with a grade of C or better. Focuses on exploring and practicing strategies for writing assignments in LBST 020W. Includes a close reading of prompts, forming relevant theses, finding and organizing evidence, and demonstrating analytical and critical thinking. Graded Satisfactory (S) or No Credit (NC).

WRIT 040X Writing Workshop in HNPG 002W 0.5 Workshop, 0.5 hour. Prerequisite(s): concurrent enrollment in HNPG 002W; WRIT 020 with a grade of C or better or WRIT 020S with a grade of C or better. Focuses on exploring and practicing strategies for writing assignments in HNPG 002W. Includes a close reading of prompts, forming relevant theses, finding and organizing evidence, and demonstrating analytical and critical thinking. Graded Satisfactory (S) or No Credit (NC).

WRIT 040Y Writing Workshop in ANTH 141W 0.5 Workshop, 0.5 hour. Prerequisite(s): concurrent enrollment in ANTH 141W; WRIT 020 with a grade of C or better or WRIT 020S with a grade of C or better. Focuses on exploring and practicing strategies for writing assignments in ANTH 141W. Includes a close reading of prompts, forming relevant theses, finding and organizing evidence, and demonstrating analytical and critical thinking. Graded Satisfactory (S) or No Credit (NC).

WRIT 055 Oral Communication 4 Discussion, 3 hours; activity, 3 hours. Prerequisite(s): none. An introduction to public speaking in genres and for occasions appropriate in the academy and in public forums. Covers classroom and seminar presentations, conference presentations including poster talks and speeches appropriate for public assemblies, debate, and special occasions. Offered in Summer only.

WRIT 301 Introduction to the Teaching of Writing 1 Lecture, 1 hour. Prerequisite(s): limited to University Writing Program Teaching Assistants; graduate standing. A flexible program of meetings and workshops specifically devoted to orienting Teaching Assistants to the Writing Program at UC Riverside. Concentrates on organizing and teaching WRIT 010, WRIT 020, WRIT 030, or its equivalent. Graded Satisfactory (S) or No Credit (NC).

REGENTS AND OFFICERS

The Board of Regents

Ex Officio Regents

Governor of California and President of the Regents ..... **Gavin Newsom**
Lieutenant Governor of California ..... **Eleni Kounalakis**
Speaker of the Assembly ..... **Robert Rivas**
State Superintendent of Public Instruction ..... **Tony Thurmond**
President of the University ..... **James B. Milliken**
Alumni Regent ..... **Charles Melton**
Alumni Regent ..... **Karl Tokita**

Appointed Regents

Maria Anguiano (2028)
Rusty Areias (2037)
Elaine E. Batchlor (2033)
Carmen Chu (2030)
Michael Cohen (2030)
Miguel Craven (2027)
Scott Galloway (2038)
Jose M. Hernandez (2033)
Mabelle Hueston (2028)
Nancy Lee (2036)
Hadi Makarechian (2032)
Ana Matosantos (2034)
Robert Myers (2036)
Lark Park (2029)
Janet Reilly (2038)
Chip Robertson (2029)
Mark Robinson (2034)
Gregory Sarris (2038)
Jonathan "Jay" Sures (2032)

Regents Designate

Paco Retana
Jessica Lum
Jordan Roiland (Student Regent-designate)

Faculty Representative to the Regents

Susannah Scott
Amani Nuru-Jeter

Staff Advisors to the Regents

Matthew Hanson
Wendy Hunter Barker

Principal Officers of the Regents
